South Magnolia CSO Control Project

February 15, 2012, 6:30–8 p.m.

Magnolia Community Center
2550 34th Avenue West
Seattle, WA 98199

King County's project team invites you to a community meeting to provide an update and answer your questions about a new underground storage tank in the Port of Seattle's Terminal 91 West Yard. The tank will store combined sewer flows conveyed from the new gravity sewer pipeline from 32nd Avenue West. The team will address:

- Location and configuration of the storage tank and odor control/electrical facilities
- How the tank will be constructed
- How community input informed current design
- Next steps and opportunities to participate

For more information, visit
