A Year in the Life

- 
- Review guidance and policy documents
 - Review improvement plan
 - Collect best practices
 - Stakeholder outreach
 - Draft plan

PHSKC Planning Process

Organize

- Center for Domestic Preparedness, Mass Antibiotic Dispensing

July 2014

September 2014

- Responder plan training

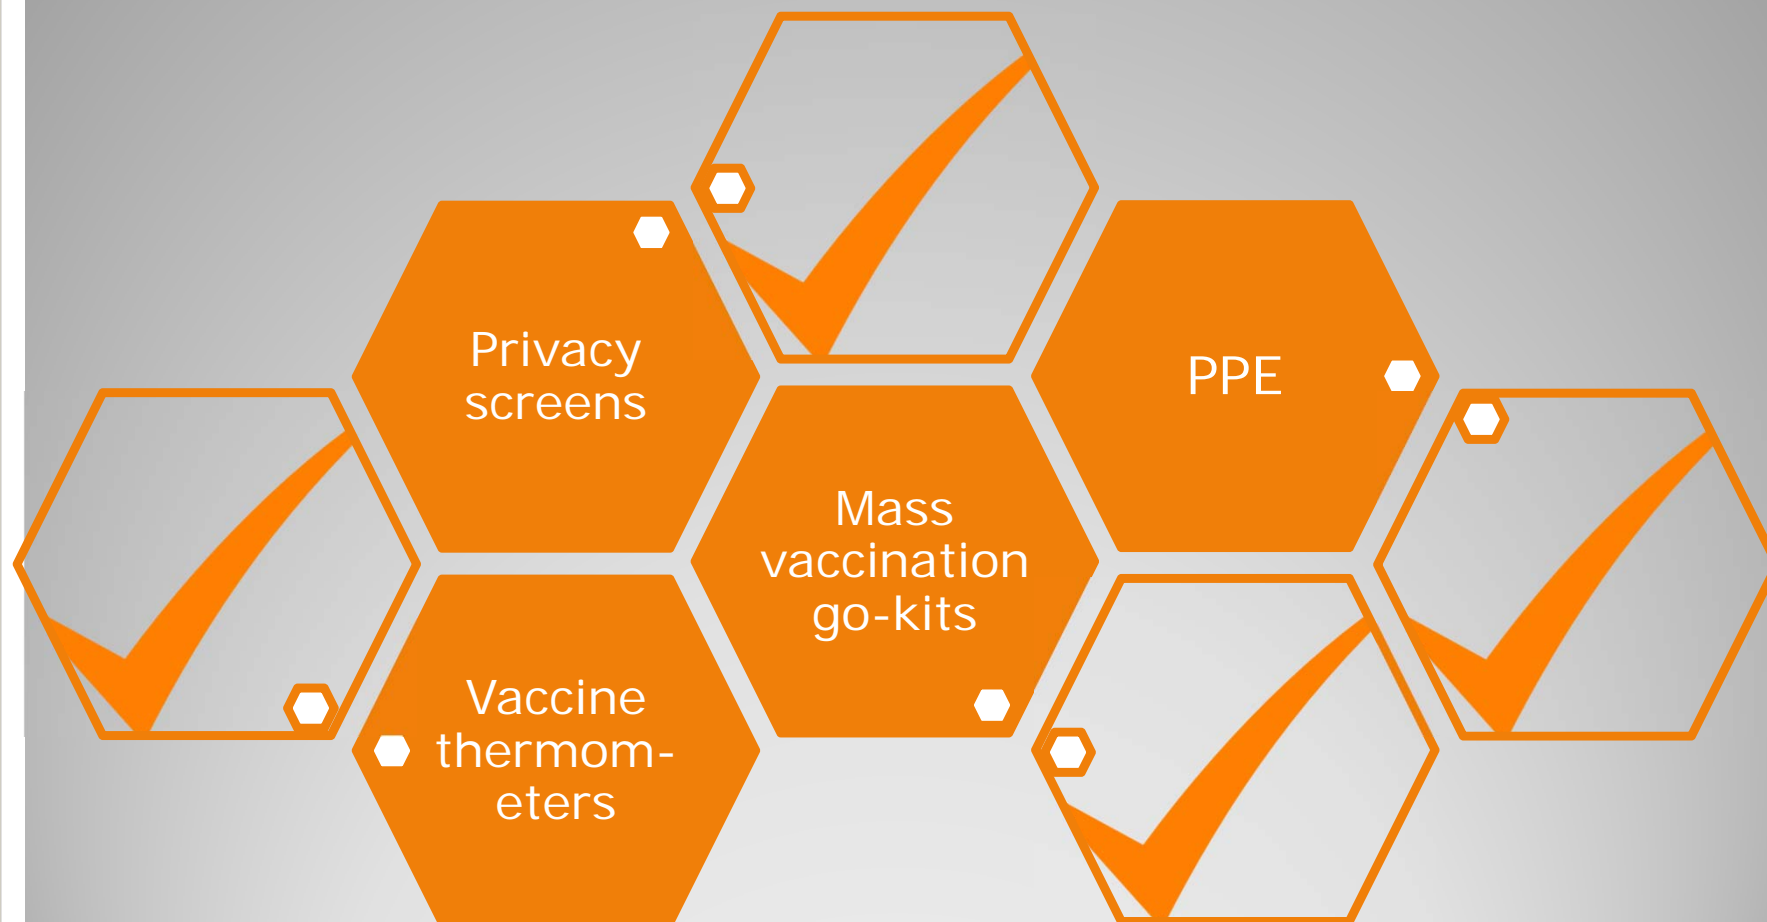

- Labor briefing

October 2014

March 2015

- Center for Domestic Preparedness Mass Prophylaxis Training

Train

Equip

- Measles mass vaccination clinics

May 2014

June 2014

- DOH Communicable disease tabletop

- APEX annual full scale exercise

October 2014

December 2014

- PHSKC Ebola first case tabletop

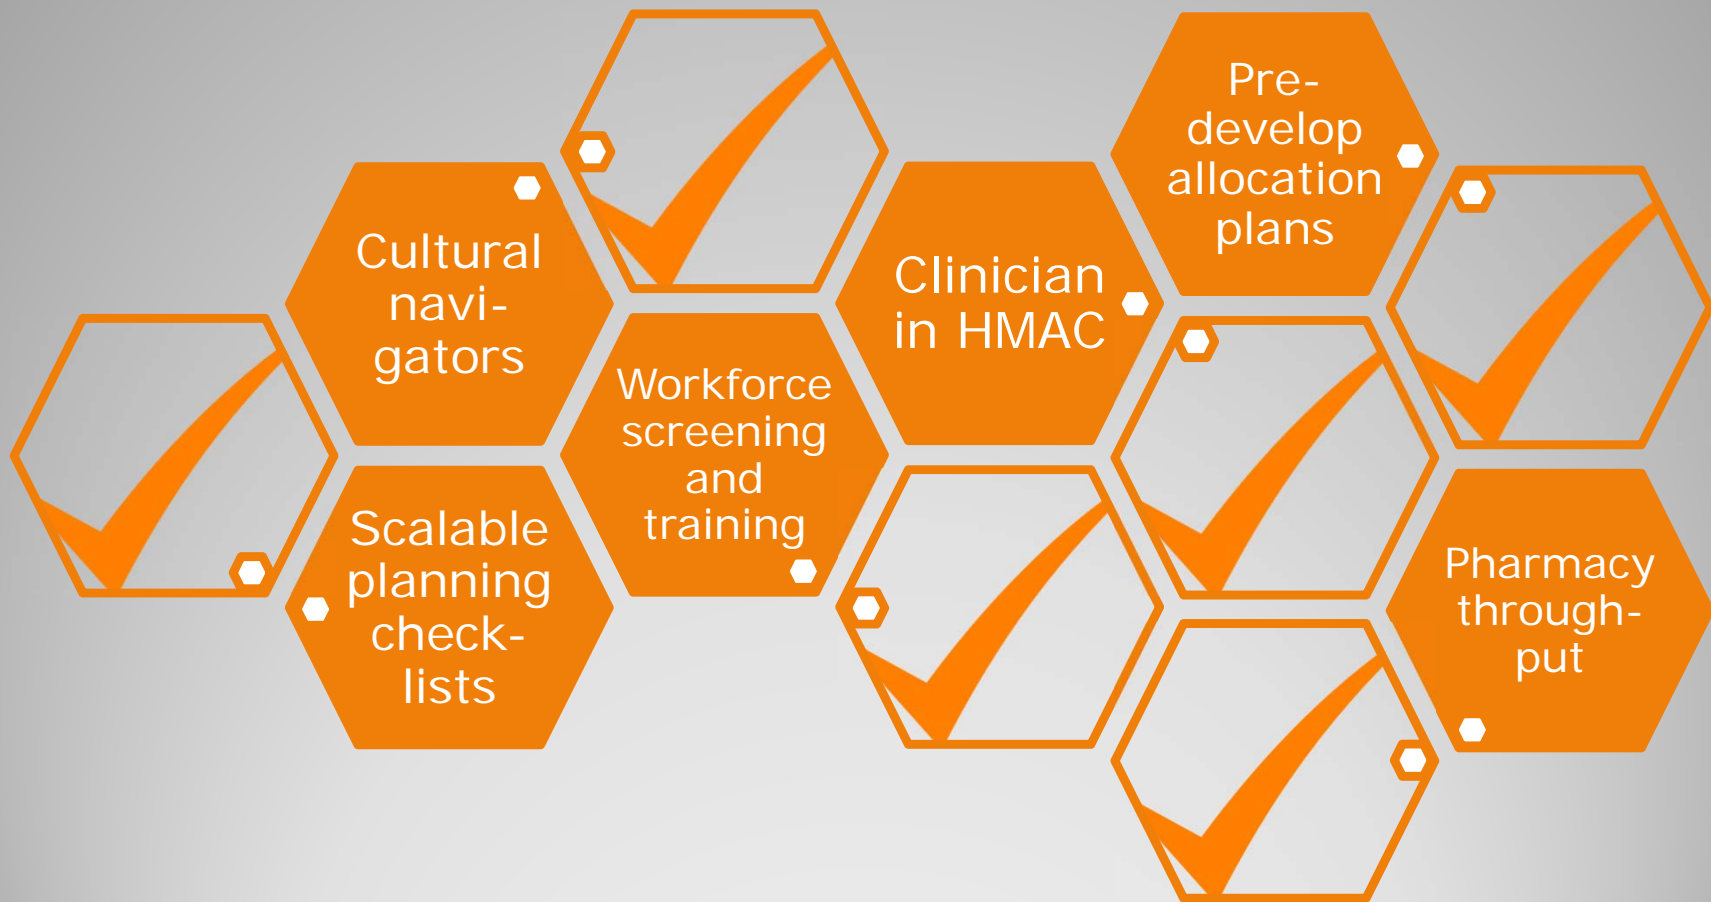

- TB response

April 2015

Exercise

- 
- Exercise evaluation guides
 - Hotwashes / debriefs
 - After action reports
 - Corrective action plans

Evaluate

Improve

When partnering with Public Health for mass dispensing, pharmacies will continue regular operations while also distributing emergency medications. Pharmacists can distribute emergency medications to around 25 patients per hour.

Pharmacy Agreements	Closed PODs	Training	Language access
More signatories needed	More dispensing partners needed	Better tools needed for pharmacists	More data needed on gap in language access at local pharmacies
Market agreement	Launch 2015 UASI private medication center recruitment project	Dispense Assist training video for healthcare providers	Pharmacy outreach and engagement project June 2015 pharmacy summit

One finding – where did it lead?

- Pharmacy summit: June 2015
- Private medication center recruitment and training: 2015
- Statewide medication distribution playbook: Spring 2015
- Medical materiel management planning: Summer 2015
- Federal program evaluation: Fall 2015
- Medical countermeasure distribution drill: February 2016
