(Accessed September 2025)

For interactive views of VSHSL ZIP Code data on people served and expenditures, please visit the “Mapping Our Reach” tab of the [VSHSL Data Dashboard](#).

ZIP Code Data Table Notes:

- Strategies that do not enroll individual participants do not collect data on participants’ ZIP Code of residence (e.g. Countywide Nonprofit Workforce Surveys).
- Participant data is expressed as “Fewer than 5” when there are fewer than 5 participants in a ZIP Code to protect privacy. In ZIP Codes where this suppression applies for one result area, total numbers of participants across all result areas are expressed as a narrow range so that the suppressed number cannot be recalculated from the other available data, also to protect privacy.
- Participant counts will not sum to the overall number of people reached by the VSHSL because of missing and unknown data. Not all participants choose to provide their ZIP Codes.
- Rounding of expenditures data to the nearest \$1,000 accounts for variations in program models, locations, and services provided over time within each strategy.
- Expenditures by where service participants live will not sum to the overall VSHSL expenditures because not all strategies enroll individual participants and not all expenditures are on services (such as Evaluation, Capital Projects, and Technical Assistance and Capacity Building), and because County costs to manage and administer programs are not readily attributable or divisible among individual participants or ZIP Codes.
- Expenditures by where office-based services are located will not sum to the overall VSHSL expenditures because not all strategies provide office-based services and not all expenditures are on services (such as Evaluation, Capital Projects, and Technical Assistance and Capacity Building), and because County costs to manage and administer programs are not readily attributable or divisible among office-based services or ZIP Codes.
- Expenditures by result area may not add to total expenditures in the ZIP Code due to rounding.
