# Alguna, Washington

From Wikipedia, the free encyclopedia

**Alguna** is a city in King County, Washington, United States, and the Seattle metropolitan area, surrounded by the suburbs of Auburn to the north and east, Pacific to the south, and unincorporated King County to the west. The population is 3,014 as of the 2010 census.<sup>[6]</sup> The population was 3,075 at 2013 Estimate from Office of Financial Management.

Due to Alguna's close adjacency to the city of Pacific, the two communities are sometimes referred to collectively as Alguna-Pacific or Alguna/Pacific.

## History

The community was originally called Algoma (a recording error by postal officials accounts for the error in spelling, which was never corrected).<sup>[7][8]</sup>

Alguna was officially incorporated on August 22, 1955.

## Events

Every year Alguna has a city-run festival called "Alguna Days". The event includes an assortment of food vendors, small rides, live music and other events.

## Geography

According to the United States Census Bureau, the city has a total area of 1.29 square miles (3.34 km²), all of it land.<sup>[2]</sup>

## Demographics

The typical home for sale in Alguna was built in 1981, which is about the same age as the typical home for sale in Washington.<sup>[11]</sup>

### 2010 census

## Politics

As of the 2004 Presidential election, Algona consists of three voting precincts. All three gave pluralities to Democrat John Kerry, although only one (which consists the southern half of the city) gave him a majority. However, the remaining precinct was sufficiently Democratic to give Kerry a moderate majority overall. The 2004 Presidential results were as follows.

- John F. Kerry (Democrat) – 509 (51.41%)
- George W. Bush (Republican) – 458 (46.26%)
- Ralph Nader (Independent) – 15 (1.52%)
- Other candidates and write-ins – 8 (0.81%)

## History

Auburn was originally incorporated as Slaughter, Washington after Lt. William Slaughter, who died in a skirmish fighting Native Americans which are now a part of the modern day Muckleshoot tribe in 1855.<sup>[9]</sup> At the time, the main hotel in town was called the "Slaughter House." In 1893, a large group of settlers from Auburn, New York, moved to Slaughter, and renamed the town to "Auburn."<sup>[10]</sup> Due to this history, when Auburn was building its second high school in the mid-1990s, there was a grass-roots effort to name the high school "Slaughter High School," but it was eventually decided that the name would be "Auburn Riverside High School," whose mascots are the Ravens.

There are several locations in and around Auburn on the National and State Registers of Historic Places including the Neely Mansion.

The city of Auburn, located 28 miles (45 km)<sup>[11]</sup> south of Seattle, Washington, was home to some of the earliest settlers in King County. Nestled in a fertile river valley, Auburn has been both a farm community and a center of business and industry for more than 150 years. Auburn is located near the original confluence of the Green and White rivers, both of which contain runoff water from the Cascade Mountain range. The valley was originally the home of the Skopamish, Smalhkamish, and Stkamish Indian tribes. The first white men in the region were explorers and traders who arrived in the 1830s.

Settlers first came to the valley in the 1850s. In November, a military unit led by Lieutenant William Slaughter camped near what is now Auburn.

A new treaty was written which provided the establishment of the Muckleshoot reservation, one of only two Indian reservations now within the boundaries of King County (the Snoqualmie Tribe being the other). The White River tribes collectively became known as the Muckleshoot tribe.

White settlers, the Neely and Ballard families began returning to the area. In 1891, the town of Slaughter incorporated. Although many older citizens considered the town's name as a memorial, many newer residents understandably felt uncomfortable with it. Within two years, the town was renamed Auburn, taken from the first line of Oliver Goldsmith's poem, *The Deserted Village*: "Sweet Auburn! Loveliest village of the plain."

Auburn had been a bustling center for hop farming until 1890 when the crops were destroyed by aphids. After that, the farms were mostly dairy farms and berry farms. Nevertheless, flooding was still a problem for Auburn farmers up until the Howard A. Hanson Dam was opened in 1962. This dam on the Green River, along with the Mud Mountain Dam on the White River, provided controlled river management, which left the valley nearly flood-free and opened up the rich bottom lands for industrial development.

Another impetus to Auburn's growth was the railroad. The Northern Pacific Railway's subsidiary the Northern Pacific and Puget Sound Shore Railroad opened a line from approximately Puyallup, Washington, through to Seattle, Washington, in 1882. The Seattle-Tacoma Interurban line that allowed easy access to both cities

starting in 1902. The railroad, along with better roads, caused many new companies to set up business in Auburn, among them the Borden Condensery (which made Borden's Condensed Milk) and the Northern Clay Company.

Through the twentieth century Auburn grew like many American towns. Many young men went off to fight in the First World War, which was followed by the great influenza epidemic. The 1920s were prosperous for citizens, but the Great Depression of the 1930s left many in need. World War II brought great hardship to many local Japanese-American farmers when they were moved to internment camps and their land taken from them. At the same time, local boys were sent to fight in the Pacific, North Africa, and Europe. Many were wounded and some died in battle.

The post-war era was prosperous to Auburn, bringing more businesses and a community college to the city. In 1963, the Boeing Company built a large facility to mill sheet metal skin for jet airliners. As time went on, many farms disappeared as the land was converted to industrial use. In 1995, The SuperMall of the Great Northwest was built in the valley, bringing in consumers from all over the Puget Sound region.

Much of the city's transition from agricultural small town to industrial and suburban development remains. A monument in the memory of Lieutenant Slaughter, erected in 1918, still stands in a local park. The Neely Mansion, built by the son of a pioneer in 1891, has been refurbished and is listed on the National Register of Historic Places. Auburn's downtown still maintains a "Main Street U.S.A." appearance.

In 2008, Auburn nearly doubled its population by annexing the West Hill and Lea Hill neighborhoods of unincorporated King County.

## Geography

Auburn is located at 47°18′8″N 122°12′53″W﻿ / ﻿47.302322, -122.214779﻿ ()<sup>[12]</sup>

According to the United States Census Bureau, the city has a total area of 29.89 square miles (77.41 km<sup>2</sup>), of which, 29.62 square miles (76.72 km<sup>2</sup>) is land and 0.27 square miles (0.70 km<sup>2</sup>) is water.<sup>[1]</sup>

Two rivers, the White River and, to a greater extent, the Green River flow through Auburn.

Historically, the Stuck River ran through the settlement of Stuck, which is now a small pocket of unincorporated King County within southern Auburn. In 1906, the flow of the White River was diverted into the Stuck's channel near today's Game Farm Park.<sup>[13]</sup> References to the Stuck River still appear in some property legal descriptions and place names, e.g. Stuck River Drive, within Auburn, but today it is essentially indistinguishable from the southern White River.<sup>[14]</sup>

## Geographic location of Auburn

## Parks

Auburn has an extensive system of parks, open space and urban trails consisting of 28 developed parks, over 23 miles (37 km) of trails (including Auburn's 4.5 mile (7 km) portion of the Interurban Trail for bikers, walkers, runners and skaters), and almost 247 acres (100 ha) of open space for passive and active recreation.

## Environmental Park

The Auburn Environmental Park (AEP) is an innovative project that seeks to create a regionally significant open space in an urbanized area that offers opportunities for wetland ecosystem restoration, fish and wildlife enhancement, water quality improvement, economic development, stormwater detention and flood control,

public education, and recreation. The AEP is an approximately 120-acre (50 ha) area that is bounded by 15th Street NW to the north, the Interurban Trail to the east, West Main Street to the south and State Route 167 to the west.

Transportation

Auburn (Sounder station) located downtown is a major hub for the Green River Valley, also home to the Auburn International Farmers Market which is held on Sundays.

Auburn has many large roads nearby and within city limits, including Washington State Route 167 commonly referred as the "Valley Freeway," and Washington State Route 18. Auburn also has its own Transit Center, Auburn (Sounder station) in downtown, making it a central gateway key to access with Sound Transit to the entire Puget Sound area. Sound Transit buses connect the Auburn Transit Center directly to the Federal Way, Sumner, & Kent Transit Centers, while King County Metro buses connect the Transit Center to Green River Community College, the Super Mall, and Auburn Way.

Sounder commuter rail allows the commuter to get to Downtown Seattle in roughly 30 minutes, and to Hwy 512 S. of Tacoma in less than 35 minutes, bypassing the rush-hour gridlock of the area's streets and highways.

Sister cities

Auburn has five sister cities -- Kent, Washington, neighboring them to the north, and Tamba, a city in the Hyōgo prefecture of Japan. The three cities participate in an annual student exchange program, as well as a summer Youth Ambassador program, and "official governmental, people-to-people, recreational, cultural, and

business exchanges." The Other cities are Pyeongchang, Korea, which Auburn has a friendship exchange agreement with, and Guanghan, China, Sichuan Province in which Auburn also has a friendship exchange. In 2012 the city of Auburn established a formal sister cities agreement with Mola di Bari, Italy<sup>[33]</sup>

# Beaux Arts Village, Washington

From Wikipedia, the free encyclopedia

**Beaux Arts Village** is a town located in the Eastside portion of the Seattle Metropolitan Area, an affluent region of King County, Washington, United States. It is the smallest municipal jurisdiction in the county, with a population of 299 as of the 2010 census and a land area of 0.1 sq mi. It has no town hall, so meetings of the Town Council and other such bodies take place in members' homes.

Based on per capita income, Beaux Arts Village ranks 7th of 522 areas in the state of Washington to be ranked.

In the 2004 US presidential election, Beaux Arts Village cast 63.08% of its vote for Democrat John Kerry[1] (<http://www.uselectionatlas.org/>).

Beaux Arts Village currently contracts with the King County Sheriff's Office for law enforcement services. For fire services, Beaux Arts Village contracts out to the Bellevue Fire Department. Deaths are handled through the King County Medical Examiner's Office.

# Bellevue, Washington

From Wikipedia, the free encyclopedia

**Bellevue** (/ˈbɛlvjuː/ ***BEL**-vew*) is a city in the Eastside region of King County, Washington, United States, across Lake Washington from Seattle. As the third-largest city in the Seattle metropolitan area, Bellevue has variously been characterized as an edge city, a boomburb, or satellite city.<sup>[4][5]</sup> The population was 141,400 in a 2016 census estimate.

Prior to 2008, downtown Bellevue underwent rapid change, with many high rise projects under construction, and was relatively unaffected by the economic downturn. The downtown area is currently the second largest city center in Washington state with 1,300 businesses, 45,000 employees and 10,200 residents.<sup>[6]</sup> Based on per capita income, Bellevue is the 6th wealthiest of 522 communities in the state of Washington.<sup>[7]</sup> In 2008, Bellevue was named number 1 in CNNMoney's list of the best places to live and launch a business,<sup>[8]</sup> and in 2010 was again ranked as the 4th best place to live in America.<sup>[9]</sup> In 2014, Bellevue was ranked as the 2nd best place to live by USA Today.<sup>[10]</sup> More than 145 companies have been located in Bellevue. Current companies with headquarters in Bellevue include Expedia and T-Mobile.

The name "Bellevue" is derived from the French words for "beautiful view".<sup>[11]</sup>

## History and growth

Bellevue was settled in 1869 by William Meydenbauer and Aaron Mercer, who claimed homestead tracts several miles apart. Prior to the opening of the Lake Washington Floating Bridge in 1940, Bellevue was

a rural area with little development. Although it was small, developers were pushing to change that; in the 1920s, James S. Ditty predicted that it would become a city with a population of 200,000.<sup>[12]</sup> He envisioned plans that included the bridging of Lake Washington and an area filled with golf courses and airports.<sup>[13]</sup> His map with these visions was published in 1928.<sup>[13]</sup>

Once the Murrow Memorial Bridge opened, access from Seattle improved, and the area gradually grew into a bedroom community.<sup>[11]</sup> After the Japanese Internment began in 1942 a large quantity of farm land was available for development.<sup>[14]</sup> This made way for the initial development of the Bellevue downtown area.

Bellevue seen from Meydenbauer Bay in 1902

Bellevue incorporated as a third class city on March 21, 1953. Following the 1963 opening of a second bridge across the lake, the Evergreen Point Floating Bridge, the city began to grow more rapidly. It has since become one of the largest cities in the state, with several high-rise structures in its core and a burgeoning business community. The city experienced a building

boom during the mid 2000s, with the building of developments such as Lincoln Square and the Bravern.<sup>[11]</sup>

Reflective of Bellevue's growth over the years is Bellevue Square, now one of the largest shopping centers in the region. Opened in 1946,<sup>[11]</sup> the mall underwent a significant expansion in the 1980s. More recently, an expansion along Bellevue Way called "The Lodge" and the new One Lincoln Tower promise to strengthen downtown Bellevue's role as the largest Seattle Eastside shopping and dining destination.

The city's long-term plans include the Bel-Red Corridor Project, a large-scale planning effort to encourage the redevelopment of a large northern section of the city bordering the adjacent town of Redmond which is a major employment area in the city.<sup>[15]</sup> Patterned after what many civic leaders consider the successful redevelopment of the downtown core, early plans include "superblock" mixed use projects similar to Lincoln Square. Premised on the 2008 approval of the extension of Link Light Rail to the Eastside, the city hopes to mitigate transportation problems impeding earlier efforts in redeveloping the downtown core; viewed as an economic development opportunity by many in the business and building development community, the process has focused on infrastructure and the encouragement of private construction in a large-scale urban renewal effort.

## Geography

Bellevue is located at 47°36′N 122°12′W﻿ / ﻿47.5976, -122.1592﻿ / -47.5976; -122.1592.<sup>[16]</sup>

According to the United States Census Bureau, the city has a total area of 36.47 square miles (94.46 km<sup>2</sup>), of which, 31.97 square miles (82.80 km<sup>2</sup>) is land and 4.50 square miles (11.65 km<sup>2</sup>) is water.<sup>[1]</sup>

The city's name is derived from a French term for "beautiful view". Under favorable weather conditions, scenic vistas of the Olympic Mountains and Cascade Mountains can be viewed from hilltops (and strategically positioned high-rise buildings) within the incorporated city.

The city lies between Lake Washington to the west and the smaller Lake Sammamish to the east. Much of Bellevue is drained by the Kelsey Creek watershed, whose source is located in the Larsen and Phantom Lake green belt and whose outlet is near where Interstate 90 meets Lake Washington's eastern shore. The city is bisected by Interstate 405 running north-south, and the southern portion is crossed from west to east by Interstate 90. The State Route 520 freeway roughly delineates the upper reaches of Bellevue.

South of I-90, the city continues up Cougar Mountain, at the top of which lies is an unincorporated King County location called Hilltop. To the west of Cougar Mountain, Bellevue includes the Coal Creek, Somerset, and Factoria neighborhoods.

Bellevue is bordered by the cities of Kirkland to the north and Redmond to the northeast along the Overlake and Crossroads neighborhoods. Across the short East Channel Bridge, I-90 connects Bellevue to Mercer Island to the southwest. Issaquah is to the east, down I-90 at the south end of Lake Sammamish. The city is also bordered to the west by many affluent suburbs such as Medina, Clyde Hill, Hunts Point and Yarrow Point. The south end of Bellevue is bordered by the city of Renton, and to the southeast, the relatively recently incorporated city of Newcastle.

Transportation

Bellevue is the main Eastside hub for both the local transit authority, King County Metro, and Sound Transit, the regional transit system. The Bellevue Transit Center, which serves both Metro and Sound buses, is located in the heart of the downtown business district and is connected to Interstate 405 by NE 6th St. and a direct-access Texas T HOV ramp. Local buses run into Kirkland, Redmond, Issaquah, Renton, and the University District;<sup>[21]</sup> regional buses go to Bothell, Lynnwood, Everett, Seattle, Renton, Kent and Auburn, among other cities.<sup>[22]</sup>

The East Link light rail line is planned to run from Seattle through Mercer Island and Bellevue before ending in Redmond. A measure including this and other regional road and transit projects went before voters on November 4, 2008 and was approved.<sup>[23]</sup>

The Bellevue City Council lobbied hard for Sound Transit—a regional transit authority—to construct its light-rail line underground through Bellevue's rapidly growing downtown.<sup>[24]</sup> Bellevue promised to devote between \$104 million to \$150 million toward a potential tunnel in the form of cash, services, free access to rights-of-way and one-time tax revenues that result from the East Link project. In November 2011, the council signed an agreement with Sound Transit.<sup>[25]</sup> Tunnel construction started in early 2016 while the remainder of downtown Bellevue construction began in mid-2017.<sup>[26]</sup> Former Bellevue City Council member Claudia Balducci is a member of the Sound Transit board of directors.

The City of Bellevue has undertaken an extensive "Bel-Red Area Transformation" process which seeks to plan some 900 acres (3.6 km<sup>2</sup>) in the northern portion of the city,<sup>[27]</sup> all of which is premised on the extension of light rail to the Eastside under Sound Transit 2.<sup>[28]</sup> The top-down and highly integrated land use and transportation planning is similar to earlier planning for the Downtown.

Bellevue was also served by a railroad, a Burlington Northern branch line known as the Woodinville Subdivision, which included the historic Wilburton Trestle. This local freight line was the subject of debate over whether to railbank the line and construct a multi-purpose trail. As of March 2009, the Port of Seattle had to postpone its acquisition of the corridor because of instability in the bond market. As of 2016 the line is disused however part of the track bed at Wilburton Station will be reused by Sound Transit's light-rail construction.<sup>[29]</sup>

The city once had an operating air-field named Bellevue Airfield.

## Government and politics

Bellevue has a council-manager form of government with seven, non-partisan council members elected at large for staggered four-year terms.<sup>[31]</sup> The City Council selects a Mayor from among its members (and not by popular vote), who serves as council chair but has no veto power. As of 2016, the Mayor is John Stokes <sup>[32]</sup> and the Deputy Mayor is John Chelminiak.<sup>[33]</sup>

Presidential Elections Results <sup>[30]</sup>				
Year	Republican	Democratic	Third Parties	
2016	24.58% 15,175	66.11% 40,820	9.31% 5,747	
2012	35.76% 22,083	61.59% 38,036	2.65% 1,634	
2008	34.41% 19,531	63.82% 36,224	1.77% 1,004	
2004	41.68% 24,089	57.01% 32,952	1.31% 756	

The mayor administrates council meetings, helps set the issues on the council's meeting agendas, and serves as the city's most visible spokesperson, while operational authority is held by the city manager, who operates the city's day-to-day activities. The city manager is also elected by the seven members of the council and not by popular vote.

Bellevue is a left-leaning city. In the 2016 election, of the 61,742 who cast ballots for President, 66.11% voted for Hillary Clinton compare to 24.58% for Donald Trump.<sup>[34]</sup>

## Education

Bellevue is home to Bellevue College (BC) and City University of Seattle.

The city hosts the Bellevue School District. There are four main public high schools – Bellevue High School, Interlake High School, Newport High School, and Sammamish High School – as well as two alternative high schools, International School and Big Picture School (formerly known as Robinswood Alternative High School), which reopened in 2011. Newsweek's 2015 ranking of U.S. public high schools placed Interlake at #359 and Newport at #391, with both schools noted for equitably helping low-income students meet average scores on standardized tests.<sup>[35]</sup> Portions of Bellevue also lie within the boundaries of Lake Washington School District, Renton School District and Issaquah School District.

The Jewish Day School of Metropolitan Seattle is located in Bellevue, serving students from Pre-Kindergarten to Grade 8.

At the elementary level, Bellevue is home to several Montessori schools, the Eastside's only Waldorf education at Three Cedars School, as well as Bellevue Christian School.

The Seattle Japanese School, a Japanese weekend supplementary school, holds its classes in Bellevue.<sup>[36]</sup>

## Economy

With its immediate proximity to Redmond, home of Microsoft and Nintendo of America, and direct highway access to Seattle via Interstate 90 and State Route 520, Bellevue is now home to the headquarters of many small and large businesses, many of which are technology companies that started in the 1990s, including celebrated video game companies Valve and Bungie. The city has numerous thriving commercial districts, including three major shopping centers aside from Bellevue Square: Factoria Mall to the South, Crossroads Mall to the East, and the Overlake Shopping District in the North.

## Culture

### Recurring cultural events

Bellevue is the site of the popular annual Bellevue Arts and Crafts Fair (originally Pacific Northwest Arts and Crafts Fair), held since 1947 at the end of July. The biennial Bellevue Sculpture Exhibition draws thousands of visitors to the Downtown Park to view up to 46 three-dimensional artworks from artists around the country. The Bellevue 24-Hour Relay has also been hosted every July in Bellevue Downtown Park. In celebration of its strawberry farming history, Bellevue holds an annual Strawberry Festival on the fourth weekend in June.<sup>[42]</sup> The festival initially began in 1925, and continued to 1942 when many Bellevue's strawberry farmers were incarcerated as part of the Japanese Internment. In 1987 the festival was resumed as a one evening event, and in 2003 it was expanded back to a multi-day festival.<sup>[43]</sup>

### Places of interest

The Bellevue Arts Museum first opened in 1975, then moved to Bellevue Square in 1983. In 2001, the museum moved into its own building, designed by Steven Holl. The museum subsequently ran into financial difficulties and was forced to close to the public in 2003. After a lengthy fundraising campaign, a remodel, and a new mission to become a national center for the fine art of craft and design, the museum reopened on June 18, 2005 with an exhibition of teapots.<sup>[44]</sup> The Rosalie Whyel Museum of Doll Art - now closed - contained one of the largest doll collections in the world—more than a thousand dolls—displayed on two floors of a Victorian-style building.<sup>[45]</sup> The KidsQuest Children's Museum is located in Downtown Bellevue. The museum's primary visitors are mothers and care givers with children from pre-crawlers to 12 years of age. Its 10,000-square-foot (930 m<sup>2</sup>) space houses play and discovery areas, exhibits, offices, educational activities and classroom space. Near Interstate 405 is Meydenbauer Center, a convention center that brings corporate meetings and charity events to the downtown area. Meydenbauer also includes a 410-seat theater which attracts operas, ballets, and orchestral performances.<sup>[46]</sup>

Bellevue Arts Museum

### Sports and recreation

Since the 1970s, the city has taken an active role in ensuring that its commercial development does not overwhelm its natural land and water resources.<sup>[47]</sup> Today, the Bellevue Parks and Community Services Department manages more than 2,500 acres (10 km<sup>2</sup>) of parks and open spaces, including the Downtown Park and the Bellevue Botanical Garden, as well as several playgrounds, beach parks, and trails. More than 5,500 Bellevue residents participate in volunteer activities through this department annually.<sup>[48]</sup>

Bellevue was home to the American Basketball Association team, the Bellevue Blackhawks. The Blackhawks in 2005, despite being ranked 13th in the league, made it to the championship game in front of 15,000 fans in Little Rock, Arkansas.<sup>[49]</sup> The team has been inactive since 2006.<sup>[50]</sup>

## City Nicknames

Being a relatively young city, Bellevue has not had many nicknames. However, with recent construction and city development, a large number of modern, glass skyscrapers have cropped up in the city skyline, and many citizens now refer to Bellevue as "Glass City" or "The City of Glass".

## History

Black Diamond was officially incorporated on February 19, 1959.

Beginning in the 1880s Black Diamond was a rural coal mining area, developed by the Black Diamond Coal Mining Company of California, which owned and operated the mine.<sup>[6]</sup> The original residents were largely composed of former workers, from the company's previous coal mining operation in Nortonville, California, which primarily sold coal to the thriving new metropolis of San Francisco.<sup>[7]</sup> A combination of low quality coal from the Nortonville mines, water intrusion into the workings there, and the discovery and economical transport of higher-quality Washington coal to San Francisco spelled the demise of Nortonville in the early 1880s.<sup>[8]</sup> The town was home to around 3,500 people by the early 1900s, many of them European immigrants; most of the working men were involved in producing coal. This coal was transported to Seattle via the Pacific Coast Coal train. Before 1911, the miners were affiliated with the United Mine Workers of America (UMWA), but by March 1911 had left en masse to join the Industrial Workers of the World (IWW).<sup>[9][10]</sup>

After World War I, the town shut down the mine as it was no longer viable. However a second mining boom spurred growth in the town in the early 1930s on the strength of multiple mining operations promoted by the Morris brothers through the Palmer Coking Coal Company. Mining has continued until recently through the Pacific Coast Coal Company, formerly of San Francisco. The prospect of future mining operations remains strong.

The town has been home to many famous residents, including folk musician Brandi Carlile (who grew up a few miles east in Ravensdale). The minor-league baseball star Edo Vanni was born at Black Diamond in 1918. This city was put onto the official maps on February 9, 1954, which is considered its birthdate.

The main building of the Black Diamond Historical Museum is the former train station, which served the Columbia & Puget Sound Railway 1884–1916 and the Pacific Coast Railway 1916–1951. According to a sign at the museum, there were originally two trains a day to Seattle, later only one. Regular passenger service ended in 1925, but a train still brought men to the mine until 1931, and trains continued to haul coal and freight into the 1940s.

The Black Diamond Bakery achieved regional fame in the 1970s for the quality of its breads and other baked goods, and continues to attract destination shoppers. The town's late 20th century population growth has been mostly as a commuter community for people with jobs in Seattle, Bellevue, and other suburban centers.
