Home Accessibility Modification Program

PROGRAM DESCRIPTION

The King County Home Accessibility Modification Program (HAM) provides free financial assistance for eligible tenants to make necessary modifications to their rental units.

The Fair Housing Act requires that a property owner / agent must *“permit at the expense of the special needs person, reasonable modification of existing premises occupied or to be occupied by such person if such modifications may be necessary to afford such person full enjoyment of the premises”*.

The property owner benefits by having the property outfitted with access modifications that will benefit the special needs population. This offers a competitive advantage in marketing to a diverse population of renters.
