

*Equity is an ardent journey toward well-being as defined by the affected. Equity demands sacrifice and redistribution of power and resources in order to break systems of oppression, heal continuing wounds, and realize justice. To achieve equity and social justice, we must first root out deeply entrenched systems of racism. Equity proactively builds strong foundations of agency, is vigilant for unintended consequences, and boldly aspires to be restorative. Equity is disruptive and uncomfortable and not voluntary. Equity is fundamental to the community we want to build.*
