- 2015-2016 Actuals reflect year end information from EBS using report GL\_010.
- 2017-2018 Adopted Budget is based on Ordinance 18409.
- 2017-2018 Current Budget has been updated with the March OEFA revenue forecast. 3
- 2017-2018 Biennial-to-Date Actuals reflects actual revenues and expenditures as of 5/11/2018 for O1 2018, using EBS report GL\_010.
  2017-2018 Estimated reflects updated revenue estimates from the March OEFA forecast. Operating estimates have been reduced by \$4.2 million for revised forecasts of maintenance, Smart911, network, security and contingency costs. Capital costs have been reduced by \$2.7 million due to the cancellation of the security project and a change in cost estimates for other projects.
- Outyear ongoing expenditure projections are based on growth assumptions provided by PSB. One-time costs have been removed from outyear projections. Outyear capital costs include planning and implementation of the Platform
- Modernization, Mapping Modernization, additional PSAP refreshes and Power Metrics. Transfers to Capital are represented on a Pay as You Go basis. Outyear revenue assumptions are from the March 2018 OEFA forecast. The Next Generation 911 Reserve is removed in 2019-2020 with the estimated start of the Regional Platform project. The Rainy Day Reserve is calculated as 35 days of operating expenditures and excludes capital costs.
- This plan was updated by Kate Davis on 5/11/2018 for Q1 2018 Financial Monitoring.

- Document fee revenue shows actuals through 2018 Q1 plus OEFA forecasted revenue through 2018 Q2-Q4.
- Interest revenue is an average monthly estimate.
- Barn Grant proceeds include revenue to cover administrative costs associated with the Barn Grant.
- The Transfer to 4040 is based on average monthly expenditures in the HPP cost center, plus an additional month to capture known increases.
- Other expenditures are estimated to remain flat.

<sup>1 2015-2016</sup> Actuals reflect year end information from EBS; they are consistent with Budgetary Fund Balance figures published by FBOD.

<sup>&</sup>lt;sup>2</sup> 2017-2018 Adopted Budget is based on ordinance 18409 and reflects the adopted financial plan. The adopted fund balance does not match FBOD's Budgetary Fund Balance figures published in 2016. The adopted budget did not include the Barn Grant.

<sup>&</sup>lt;sup>3</sup> 2017-2018 Current Budget includes two supplemental appropriations of 28K and 395K in the 1st omnibus. 28K reflected a charge to FBOD for grant administration, 395K reflected remaining unspent Barn Grant proceeds. Barn Grant revenues were not adopted and are not currently reflected in our budget system, although they are shown here.

<sup>&</sup>lt;sup>4</sup> 2017-2018 Biennial-to-Date Actuals reflect actual revenues and expenditures as of 04/31/2018, using BI Insights. Recorded document fee revenue includes 57K of previously misallocated ree revenue that was returned to HPHP this biennium. Barn Grant revenue includes 18K in Barn Grant administrative costs that were incurred in 2015-2016, but were not reimbursed until this biennium.

 $<sup>^{\</sup>rm 5}$  2017-2018 Estimated reflects 2017-2018 actuals plus HPP's best estimates through the end of the year:

<sup>&</sup>lt;sup>6</sup> Outyear projections for document fee revenue are based on the OEFA forecast, other revenues are conservatively estimated to remain flat. Expenditures are based on a 3.3% increase, the 2020 GWI + merit figures.

<sup>&</sup>lt;sup>7</sup> This fund does not currently have a set reserve policy. This financial plan projects a 30 day rainy day reserve (4.16% of expenditures).

 $<sup>^{\</sup>rm 8}$  This plan was updated by Felix Amerasinghe on 04/31/2018 for Q1 2018 Finanical Monitoring.

<sup>&</sup>lt;sup>1</sup> 2015-2016 Carryover reflects estimates of year end inception to date appropriation balances or actual balance as reported by the PA\_103 report.

<sup>2 2017-2018</sup> Current Budget is aligned with 2017-2018 adopted and proposed supplementals.

 $<sup>^{\</sup>rm 3}$  Outyear budget estimates are consistent with Attachment A out years estimates with exceptions noted.

<sup>&</sup>lt;sup>4</sup> 2015-2016 Biennial-to-Date Actuals reflects actual revenues and expenditures as of 11/15/2017. The beginning and ending fund balance are consistent with the fund balance reported by FBOD.

 $<sup>^{5}</sup>$  2017-2018 Estimated at Budget Development reflects estimates reported in the 2017-2018 Adopted Financial Plan.

 $<sup>^62017\</sup>hbox{-}2018$  Biennial-to-Date Actuals reflects actual revenues and expenditures.

<sup>&</sup>lt;sup>7</sup>2017-2018 Estimated reflects updated revenue and expenditure estimates as of 5/15/2018. The scope of the security project has been assumed in other projects and the E-911 Program will request a disappropriation in the 2019-2020 budget.

<sup>&</sup>lt;sup>8</sup> Outyear revenue and spending estimates are based on current revenue estimates and project spending plans. The Security Project is on hold and expenditures are not projected.

 $<sup>^{\</sup>rm 9}$  Other fund transactions include accounting adjustments to balance to budgetary fund balance.

<sup>&</sup>lt;sup>10</sup> Fund balance designated to current projects is for projects that are already appropriated. This fund balance cannot be used for other projects without disappropriating projects or creating a shortfall in the fund.

<sup>&</sup>lt;sup>11</sup> Provide a footnote that describes each reserve.

 $<sup>^{12}</sup>$  This plan was update by Kate Davis on 5/15/2018.

<sup>&</sup>lt;sup>1</sup> 2015-2016 Carryover reflects estimates of year end inception to date appropriation balances or actual balance as reported by the PA\_103 report.

<sup>&</sup>lt;sup>2</sup> 2017-2018 Current Budget is aligned with 2017-2018 adopted and proposed supplementals.

<sup>&</sup>lt;sup>3</sup> Outyear budget estimates are consistent with Attachment A out years estimates with exceptions noted.

<sup>&</sup>lt;sup>4</sup> 2015-2016 Actuals reflects actual revenues and expenditures as of Q4 2016, using EBS report GL10. The beginning and ending fund balance are consistent with the fund balance reported by FBOD.

<sup>&</sup>lt;sup>5</sup> 2017-2018 Estimated at Budget Development reflects estimates reported in the 2017-2018 Adopted Financial Plan.

<sup>&</sup>lt;sup>6</sup>2017-2018 Biennial-to-Date Actuals reflects actual revenues and expenditures as of Q4 2017, using EBS report GL10.

<sup>&</sup>lt;sup>7</sup>2017-2018 Estimated reflects updated revenue and expenditure estimates as of Q3 2017.

 $<sup>^{8}</sup>$  Outyear revenue and spending estimates are based on current revenue estimates and project spending plans.

 $<sup>^{\</sup>rm 9}$  Other fund transactions include accounting adjustments to balance to budgetary fund balance.

 $<sup>^{\</sup>rm 10}$  Fund balance designated to current projects is for projects that are already appropriated. This fund balance

 $<sup>^{\</sup>rm 11}$  Provide a footnote that describes each reserve.

 $<sup>^{\</sup>rm 12}$  This plan was update by Junko Keesecker on 2/23/2018.

#### **Financial Plan Notes**

This plan was updated by Aaron Rubardt on 2/20/2017.

<sup>&</sup>lt;sup>1</sup> 2015-2016 Actuals reflects EBS data. Beginning and ending fund balance is consistent with the Budgetary Fund Balance figures published by FBOD.

<sup>&</sup>lt;sup>2</sup> 2017-2018 Adopted Budget is consistent with expenditure and revenue data from Hyperion and current debt schedules.

<sup>&</sup>lt;sup>3</sup> Outyear projections assume current debt schedules are maintained, and that new principal and interest payments begin in 2019 for debt issued in 2017 or 2018. All debt in the outyears is assumed to be backed by specific revenue sources and does not rely on fund balance.

<sup>&</sup>lt;sup>4</sup> 2017-2018 contingencies include potential debt service payments for the Courthouse electrical distribution system project, DPD space moves, new IT projects, youth sports facilities, Dolan interest payment, and the Solid Waste and Transit capital programs. 2017-2018 also includes a one-time transfer of auto rental car tax fund balance to DNRP.

<sup>&</sup>lt;sup>5</sup> General Fund Balance is used to offset higher rates or larger principal for new issuances and to offset higher variable rate debt service charges. This will be draw down in 2018 to offset higher than anticipated variable rate debt and to pay for higher than anticipated DOLAN debt.

<sup>&</sup>lt;sup>6</sup> \$1.6 million in fund balance attributable to auto rental sale tax was transferred to DNRP to support youth sports programming and capital projects.

<sup>&</sup>lt;sup>7</sup> The conservation futures debt service sub fund carries a cash flow reserve to pay debt service in January of each year.

<sup>&</sup>lt;sup>8</sup> The streamlined rate collects the same amount in each quarterly billing for the biennium. The fund balance built up in 2017 will be drawn down in 2018.

<sup>&</sup>lt;sup>9</sup> Parks elect to pay off their debt early for a FRED project. This will be drawn down or used as principal if another opportunity arises.

Ending Undesignated Fund Balance	1,821,202	2,077,458	2,163,302	1,820,201	1,818,276	1,328,398	993,748

<sup>&</sup>lt;sup>1</sup> 2015-2016 Actual reflects information from EBS and are consistent with the Budgetary Fund Balance figures published by FBOD.

 $<sup>^{\</sup>rm 2}$  2017-2018 Adopted Budget is consistent with expenditure and revenue data from Hyperion.

<sup>&</sup>lt;sup>3</sup> Outyear projections are based on the property tax assumptions generated by OEFA and current principal and interest schedules. Principal and interest on outstanding bonds will be paid off in 2023.

<sup>&</sup>lt;sup>4</sup> IRS regulations limit the balance in a debt service fund to 1/12th of the annual debt service amount, unless there are specific reasons to carry additional fund balance.

<sup>&</sup>lt;sup>5</sup> This fund holds no reserves. Property tax revenue is approved by voters, predictable, and has virtually no collection risk. This plan was updated by Aaron Rubardt on 2/16/2018.

#### **Scope Variance Comment**

#### **Current Scope**

The Puget Sound Emergency Radio Network (PSERN) project will replace the existing land mobile radio system by implementing a cost effective network using state of the art technology that meets the high standards and requirements of multi-jurisdictional critical life safety responders and general governmental users throughout King County.

Scope includes construction of radio sites, network design, implementation of electronic equipment, system testing, training for end users, removal of KCERCS equipment and deployment of end user devices.

### **MPA-2. Contract Change Explanation**

Agency: All, Fund: All, Year: 2018, Qtr: 1st Quarter, MPA Only: Yes, Project: All

# 1126875 PSERN Capital STANDALONE

Motorola Solutions - Change Order# 3 was fully executed on 1/18/2017 and added scope to several MSI sites as well as changed civil site development responsibility for several sites. Change Order #3 added \$1,823,081.35 to the contract due to changes in site development responsibilities for several sites in the original scope of work, addition of FM 200 fire suppression systems, tower extensions, addition of 60KW diesel generators and 1000 gallon diesel storage tanks.

Odelia Pacific - Change Order# 5 added \$2M due to unforeseen site design changes directed by PSERN as:

- o Sites shifting around a few times, DPER permitting process requiring 3rd party engineering
- o Major system improvements due to insufficient existing infrastructure for our design
- o Costs due to Conditional Use Permit (CUP) which requires incremental permitting work and 3rd party work photo simulations, SMEs on property valuation, RF exposure, landscaping, etc
- o HVAC design
- o Tower design and planning shifting many times due to leasing issues
- o Site design changes to meet Landlord requirements
- o Environmental Assessments for USFS sites

#### MPA-3. Current Quarter's Key Activities

#### Motorola:

Milestone 2C - Install and Test Microwave Equipment and Software

Milestone 2D - Install and Test Backhaul Central Control Equipment and Software

#### Odelia Pacific:

Work Order #1 Phase 1 Site Viability Verification

- 1 Structural Analysis
- 2 Title Reports
- 3 Viability Report
- 4 Lease Exhibits
- 5 Engage with landlord for lease

#### Odelia Pacific:

Work Order #2 Phase 2 & 3A Real Estate Assistance and Preliminary Design Services

- 1 Phase 1 environmental
- 2 Survey
- 3 Zoning drawings
- 4 Geotech survey
- 5 FAA filing

#### Odelia Pacific:

Work Order #3 Phase 3B Final Design Services

- 1 Construction drawings
- 2 Permitting
- 3 Site Specifications

#### Odelia Pacific:

Work Order #4 Phase 4 Services during Construction

RFI & As-built drawings

#### MPA-4. Next Quarter's Key Activities

Agency: All, Fund: All, Year: 2018, Qtr: 1st Quarter, MPA Only: Yes, Project: All

# 1126875 PSERN Capital STANDALONE

Motorola:

Milestone 2G - Factory Acceptance Testing (FAT) Land Mobile Radio System

Milestone 2K - Install and Test Land Mobile Radio (LMR) Central Control

Milestone 2L - Install and Test LMR Base Station

Milestone 2M - Install and Test Site Alarm & Video

Milestone 2N - Install and Test MPLS System

Milestone 2P - Install and Test Site Backhaul

#### MPA-5. Closely Monitored Issues & Risk Summary

In-building coverage impact to the project

Project will be working with MSI to determine the impacts of system design on in-building coverage. Additional maps with Delivered Audio Quality (DAQ) 3.4 have been requested from Motorola on 3/23/17. MSI provided the maps and these were given to the Technical committee for their review. The maps were also presented to the Joint Board on 4/27/17. 6/14/17 The project continues to work with the technical team and others to further research and come up with next steps. In building task force created to look into the issue. 12/11/17 - consultant hired to assist task force.

Site development delays

Several activities including development of an SLA and some construction must be complete by June 2018 in order to meet the deadline for MSI equipment to be installed and the transition to PSERN.

**Scope Variance Comment** 

#### **Current Scope**

Segment B will create a 1.45-mile-long separated multiuse path along Des Moines Memorial Drive from South 156th Way in SeaTac to South Normandy Road in Burien. This segment will be part of the ongoing Des Moines Memorial Drive restoration project which will restore Washington's Living Road of Remembrance. It will enhance safe linkages to the Burien Regional Growth Center, SeaTac Airport, Sound Transit LINK Light Rail, local and regional transit services and other regional trails. The Trail will include a 12-foot-wide paved cross-section with a 3-to-5-foot separation from the adjacent street and a 2-foot-wide gravel shoulder on the opposite side of the trail. The project will include necessary drainage, related road and driveway crossings and Manual of Uniform Traffic Control Devices (MUTCD) signage.

#### **Baseline Scope**

The project constructs a 1.45-mile paved multiuse path (regional trail) within the cities of SeaTac and Burien. The project creates a separated multiuse path along Des Moines Memorial Drive from S. 156th Way (SeaTac) to S. Normandy Road (Burien). This segment of the L2S Trail will be part of the ongoing Des Moines Memorial Drive restoration project and will also provide a much needed safe north-south link with existing non-motorized facilities

#### Schedule

Red

#### **Schedule Variance Comment**

The project is now substantially complete. Overall the schedule was impacted by numerous factors both before and during construction.

Factors that impacted the schedule include: additional time to negotiate interlocal agreements and easements with multiple jurisdictions, coordination with utility companies, delays due to inclement weather, coordination with other projects located within the project site and under performance by subcontractors on the project. The construction contract was awarded on July 9, 2015 and the official Notice to Proceed was given on August 3, 2015. The substantial completion date was Jan. 24, 2017.

#### **Cost Variance Comment**

The baseline budget was impacted by various external factors relating to utilities, right of way agreements, and a competitive bidding climate. The lowest construction bid received was \$401,010 (5%) over the engineer's estimate. In addition, due to the delays from utility relocation, the overall duration of the construction and design contracts were increased resulting in additional cost.

Cost Variance Analysis by Capital Phase

# 1116973 PKS S:ELST - NORTH SAMMAMISH PKS M:E Lake Samm Trail

**Scope Variance Comment** 

#### **Current Scope**

The East Lake Sammamish Master Plan Trail project includes design and construction of an alternative, non-motorized transportation corridor and a multi-use recreational trail along 11 miles of a former Burlington Northern Santa Fe (BNSF) railroad corridor on the east side of Lake Sammamish, from Redmond to Issaquah. King County purchased the corridor from BNSF in 1997, and in 2006 opened the existing interim use gravel trail to the public. The King County Parks and Recreation Division spent ten years on master planning, design work, environmental review and resolving legal issues related to this project, with ongoing involvement of a citizen's advisory group and in close coordination with the Cities of Redmond, Sammamish and Issaquah.

The East Lake Sammamish Master Plan Trail is being designed and constructed in phases, or segments, based on budget availability. The Redmond segment, NE 70th Street to 187th Avenue NE was completed and opened to the public in November 2011. The Issaquah segment, SE 43rd Way to Gilman Boulevard, was completed and opened to the public in June 2013. Construction of the North Sammamish Segment began in April 2014 and opened to the public in July 2015.

Safety and accessibility are the County's primary goals for this project. The project utilizes the most up-to-date greenway design and engineering. Environmental improvements include wetland enhancements and fencing, slope stabilization, native landscaping and tree replanting.

#### **Baseline Scope**

The North Sammish Trail scope of work includes: The removal of an existing gravel trail and construction of approximately 2.5 miles of 12-foot wide paved trail with gravel shoulders, concrete intersections, and wetland mitigation planting. Other items of work include erosion control, site preparation, grading, gravity block walls, structural earth walls, soldier pile wall, fencing, stormwater conveyance system, fish passable culverts, signage, traffic control, utility adjustments, trail amenity items, and landscaping. The project is located on former railroad ank from NE Inglewood Hill Road to 187th Ave NE corridor.

Schedule

Yellow

#### **Schedule Variance Comment**

The baselined final design date was scheduled for completion in September 2013. Due to a shoreline permit appeal, trail construction was delayed until April 2014. Substantial completion was impacted due to unforseen conditions such as permitting, three (3) cultural resource finds, reconstruction of a structural wall due to damage by adjacent property owners, design changes, and change in site conditions at stairs and driveways. The original baseline date for substantial completion was February 11, 2015. Substantial completion was issued to the contractor on July 3, 2015. The final change order is pending and the revised closeout date is 06/30/2018.

#### Cost

Yellow

#### **Cost Variance Comment**

EBS is not reflecting costs prior to 2014. Budgeting practices were different, and most charges for this project were charged to the master project (1044600). The difference is \$1.091 million. Actual costs should be:

Implementation and closeout: \$14,218,026

The construction of the East Lake Sammamish Trail, North Sammamish segment, has been awarded two grants: \$3.0 million by the Federal Highway Administration (FHWA) and a Recreation and Conservation Office state grant in the amount of \$500,000.

During the course of the project, various impacts have resulted in costly changes. These changes are a result of re-design and implementation issues based on extensive communication with the City of Sammamish and residents. Change order items include, but are not limited to: additional tree removal, improved safety measures and traffic control, three (3) cultural resource finds / sites on the project, reconstruction of a structural wall due to damage by adjacent property owners, removal of encroachments, differing site conditions at stairs and driveways, several retaining walls, differing site conditions related to underground utilities, miscellaneous overruns of existing items, erosion control work and pending claims.

Bid results were \$719,232 under the engineer's estimate. The bid savings has been applied to change orders valued at approximately \$3.1 million. The final change order is in process of negotiation with the contractor and is estimated to be approximately \$500K. Significant additional impacts to the overall cost of the project is expected. This is due to unanticipated legal efforts and drainage claims with the City of Sammamish that are currently underway.

#### MPA-2. Contract Change Explanation

Final Design changes included services to acquire, move and manage the construction field office along with minor design changes due to funding.

Original construction contract totaled \$6,156,994. Construction change orders to date have added \$3.10 million due to additional bid item quantities. The final change order is being executed and will include delay impact costs valued at approximately \$400K.

Consultant construction support costs have increased due to the length of delay in contractor final reconciliation and other legal support efforts. Added costs to extend office space rental have also been added.

#### **Cost Variance Comment**

Additional costs were incurred as a result of the extended permitting and appeal processes which included additional reports, documentation and investigations as required by the City of Sammamish. Additionally, there were two permit hearings, one with the City Hearing Examiner and one with the Shoreline Management Board. Due to the extended permitting process, the County missed the favorable bid climate and the Contractors cost proposal was \$775,635 over the Engineer's estimate.

#### **Current Scope**

Sunset/Heathfield Pump Station Replacement & Forcemain Upgrade - The Sunset/Heathfield Pump Stations and Forcemain Project as planned will increase the pumping capacity of the stations to 30 million gallons per day (mgd). The 2007 Conveyance System Improvements Program Update recommended replacing the current pump stations and either paralleling or replacing the existing force mains.

#### **Baseline Scope**

The Sunset/Heathfield Pump Stations and Forcemain Project as planned will increase the pumping capacity of the stations to as much as 30 million gallons per day (mgd). The 2007 Conveyance System Improvements Program Update recommended replacing the current pump stations and either paralleling or replacing the existing force mains.

### MPA-2. Contract Change Explanation

Engineering amendments to date are attributed to design complexity and refinements.

### MPA-3. Current Quarter's Key Activities

1st Quarter 2018 1. Completed horizontal directional drilling (HDD) and will began open-cut conveyance work. 2. Continue electrical and mechanical equipment replacement work at pump stations. 3. Provided regular electronic briefings and notices of work to interested community members.

#### MPA-4. Next Quarter's Key Activities

2nd Quarter 2018 (projected). 1. Continue conveyance work. 2. Continue electrical and mechanical replacements at pump stations. 3. Continue community relations notifications and briefings as needed.

### MPA-5. Closely Monitored Issues & Risk Summary

Agency: All, Fund: All, Year: 2018, Qtr: 1st Quarter, MPA Only: Yes, Project: All

# **1038122 WTC SUNSET HEATH PS FM UPGRADE STANDALONE**

Monitoring: 1. Impacts and delays associated with the slurry spill from the HDD on Vasa Park property. 2. Any delays with equipment procurement so schedule impacts can be minimized. 3. Risks associated with tunneling activities will be closely monitored by tunneling experts. 4. Community impacts, beyond those already planned for and shared with residents.

**Scope Variance Comment** 

#### **Current Scope**

North Creek Interceptor - This project increases the capacity of part of the North Creek Interceptor Sewer serving southwestern Snohomish County. The project involves replacement of 10,000 LF of existing gravity pipe with larger gravity pipes, 36 to 48 inches in diameter. Both trenchless (open face shield tunneling and pipe ramming) and open trench construction methods are being used.

#### **Baseline Scope**

Complete the design, obtain permits and easements, and construct the new NCI, including about 10,000 feet of new 36 to 48 inch diameter sewer and connection to the existing sewers. Both trenchless (open face shield tunneling and pipe ramming) and open cut construction methods of pipe installation will be considered.

### Schedule

Red

#### **Schedule Variance Comment**

The current schedule reflects the restart of the construction under a new contract in January 2017. Progress on the new contract has proceeded ahead of schedule.

#### **Cost Variance Comment**

The original construction contract was terminated with the initial contractor for inability to complete the work. A project-specific work order has been issued under the January 19, 2017 Executive determination of emergency to complete the project. The amount represents increases for construction, consultant, construction management, permitting/easement and staff costs needed to complete the project.

	Total	\$44,010,100			11	\$354,976

#### MPA-2. Contract Change Explanation

A contract modification was issued to J.W. Fowler on December 7, 2017, in the amount of \$6.509 million. A second and final contract modification is expected to be issued in Q1 2018.

#### MPA-3. Current Quarter's Key Activities

1st Quarter 2018: 1. Install carrier pipe between Manholes 23 & 25 and connect to previously installed North Creek Interceptor, thus completing the pipeline. 2. Activate northern portion of the new North Creek Interceptor. 3. Decommission/abandon the existing North Creek Interceptor. 4. Finish restoration in northern portion of the project. 5. Monitor schedule and expenditures. 6. Continue outreach to property owners, residents, and businesses. 7. Continue environmental compliance monitoring. 8. Achieve substantial completion of the project.

#### MPA-4. Next Quarter's Key Activities

Agency: All, Fund: All, Year: 2018, Qtr: 1st Quarter, MPA Only: Yes, Project: All

# 1114382 WTC NORTH CREEK INTERCEPTOR (WTC N CREEK INTERCEPTOR) STANDALONE

2nd Quarter 2018 Projected: 1. Finalize restoration of pavement and landscaping. 2. Take corrective action on the carrier pipe. 3. Evaluate and revise the Temporary Construction Easements (TCE) status 4. Work through the remainder of the punch list items to wrap up the project. 5. Monitor schedule and expenditures. 6. Continue outreach to property owners, residents, and businesses. 7. Continue environmental compliance monitoring.

### MPA-5. Closely Monitored Issues & Risk Summary

1. Safety: site access 2. Monitor construction progress/schedule/budget

**Scope Variance Comment** 

#### **Current Scope**

Georgetown Wet Weather Treatment Station - The project consists of building a Wet Weather Treatment Station (WWTS), conveyance pipelines, and outfall structure to treat Combined Sewer Overflows (CSO's) prior to discharge into the Lower Duwamish Waterway. The WWTS includes an influent pump station, equalization basin, screening facility, CSO treatment process, and disinfection. Modifications to both the S. Brandon St. and S. Michigan St. Regulator Stations will be required for diversion of flows to the WWTS. Ancillary facilities include an odor control facility, electrical/controls building, and emergency generator. CSO treatment will consist of high rate primary treatment followed by ultra violet disinfection prior to discharge.

# 1048385 SW FACTORIA RECYCLING and TS STANDALONE

#### **Scope Variance Comment**

Addition of a half bale compactor. The County is negotiating with the construction contractor to identify and mitigate potential impacts to the project completion date, which was documented in change order #9.

#### **Current Scope**

Project will permit, design, and construct a new transfer station and waste processing facility to replace the Factoria Transfer Station. This project has been designated as "high risk" and receives phased appropriation. Appropriations for subsequent phases are approved by the King County Council based upon completion of the current phase and acceptable project cost, schedule, and scope projections.

Additional scope includes the addition of a half bale compactor to meet future service demands. An analysis of program needs that resulted from the 2014 update of the Transfer and Waste Management Plan recommendations showed a benefit will be realized from installing an additional half-bale compactor with the current project.

#### **Baseline Scope**

Project will permit, design, and construct a new transfer station and waste processing facility to replace the Factoria Transfer Station. This project has been designated as "high risk" and receives phased appropriation. Appropriations for subsequent phases are approved by the King County Council based upon completion of the current phase and acceptable project cost, schedule, and scope projections.

#### Schedule

Green

#### **Schedule Variance Comment**

From January through March 2016, problems in securing the large (single-bale) compactor caused a 56 calendar day delay to Milestone 2 – "Official NTP2 Start."

Closeout completion extended to end of 2019 to correspond with key warranty items, such as the waste compactors & plant establishment.

Cost

Yellow

#### **Cost Variance Comment**

In 2012, the project was baseline at \$88,820,000. In 2014, a budget appropriation of \$4.8M was approved by an ordinance to authorize an additional half-bale compactor. The cost variance is due to the fact that the project has not been rebaselined.

Cost Variance Analysis by	Cost Variance Analysis by Capital Phase

Agency: All, Fund: All, Year: 2018, Qtr: 1st Quarter, MPA Only: Yes, Project: All

# 1048385 SW FACTORIA RECYCLING and TS STANDALONE

CO #1: \$50,620 - 13 field directives (FD); additional miscellaneous work issued not included in contract scope. \$1,856.60 of amount paid from Dangerous Waste and Hazardous Materials allowed.

CO #2: \$138,033 - 9 miscellaneous FDs; \$78,684.00 was paid from hazardous waste leaking from underground storage tank. \$11,562 for additional dewatering; \$7,978 for scope failure, which resulted in a credit of \$9,558.88 for a fuel allowance.

CO #3: \$123,416 - 13 FDs for work outside contract scope.

CO #4: \$50,380 - 9 miscellaneous FDs issued authorizing the performance of unidentified additional work not included in the contract scope.

CO #5: \$230,564 - Includes 14 FDs for additional work, outside the scope of the contract, to be performed by contractor.

CO #6: \$73,514 - 13 FDs issued for performance of work outside contract scope. \$207,986.09 was paid from additional dewatering allowance.

CO #7: \$235,819 - 5 FDs issued for work, outside of contract scope, performed.

CO #8: \$127,331 - Includes 20 miscellaneous FDs regarding the performance of additional work issued outside of contract scope.

CO #9: \$0 - Additional 56 day time-only CO.

CO #10: \$180,843 - Includes 9 FDs for work performed outside of contractor's scope.

CO #11: \$67,402.31 - 13 FDs issued for additional work to be performed outside contractor's scope. \$250,000 allowance was used up for dewatering effort associated (issued by FD) and an additional \$9,465.09 (included in CO #11).

CO #12: \$130,911.46 - Incorporated 10 FDs for work performed outside of contractor's scope; SE 30th Street sewer conflict resolution.

CO #13: \$706,940,48 - Incorporated 3 FDs for work performed outside of contractor's scope; imported fill material exceeds anticipated bid quantity.

CO #14: \$121,943.01 - Incorporated 15 FDs for work performed outside of contractor's scope; added aerator to improve performance for air entrainment to meet regulatory requirements. Added two electrical Vehicle Charging Stations to reduce the carbon footprint and support reaching sustainability goals.

CO #15: \$101,807.26 - Incorporated 11 FDs for work performed outside of the contractor's scope with the west water tie-in.

CO #16: \$299,635.80 - Incorporated 2 FDs for increase in dirt quantities. Also incorporated pay issues (PI) 293, 294, 295, and 284 for net additional cost.

CO #17: \$66,441.33 - Incoporated 13 FDs; time extension to 12/20/2017; net addition to contract amount.

CO #18: \$66,259.19 - Incorporated 13 FDs and added funds.

CO #19: \$119,425.69 - Incorporated 10 FDs and added funds.

CO #20: -\$436,796.97 - Deductive CO in amount of minus \$436,796.97. Brings contract total down to

\$51,875,469.72 w/o WSST. \$56,646,086.14 with tax. No time adjustment.

CO #21: \$23,883.33 - Add funds for misc punch list items being completed.

CO #22: \$194,130.20 - Incorporate 6 Field Directives, 3 credits, and add funds. No change in time.

CO #23: \$0.00 - Time extension of 180 days to 6/18/2018 to allow for closeout requirements. No funds added.

### MPA-3. Current Quarter's Key Activities

1. Continued Closeout Activities

#### MPA-4. Next Quarter's Key Activities

- 1. Obtain Certificate of Occupancy (Anticipated by 07/21/18)
- 2. Obtain Final Acceptance (Pending resolution of compactor issues. See closely monitored issues, below.

#### MPA-5. Closely Monitored Issues & Risk Summary

Agency: All, Fund: All, Year: 2018, Qtr: 1st Quarter, MPA Only: Yes, Project: All

# **1048385 SW FACTORIA RECYCLING and TS STANDALONE**

- 1. Overall project expense to complete the project are being closely monitored and compared with the remaining project budget.
- 2. The waste compactors have been experiencing performance problems with frequent interruptions while in operation. SWD is working with the contractor PCL to resolve compactor issues. King County has requested PCL replace the defective compactors.

**CIP Quarterly Reports** 

#### Column Descriptions

Grant Contingency Project Information

Beginning Quarter ITD Budget: Enter the ITD Budget at the beginning of the quarter for this project. This can be found using the PA 103 Report and selecting the first month of the quarter as the period (ie: Jan, Apr, Jul, Oct)

Undesignated Ending Quarter ITD Budget: This is your Beginning Quarter ITD Budget less the actual transfers to existing projects done in the quarter and the Proposed Contingency Transfers to new projects.

Because we only transfer budget to new projects as part of a supplemental, this number does not show up in EBS.

#### For Existing Projects

Adopted ITD Budget: This is the Inception to Date (ITD) Budget which is the sum of all adopted project appropriations. This can be pulled from the PA 103 report.

Current Grant Contingency Request: Input the current grant contingency request for this quarter's report.

Revised ITD Budget: This is a calculated field so copy the formula down if necessary. This is the sum of the previous plus current emergent need requests for the biennium.

Estimate at Completion: This Estimate at Completion should be the following in the below situations:

If this project is part of baseline or MPA reporting, the EAC should match the amount in these reports for this guarter. This is for consistency purposes.

If this project is not part of baseline or MPA reporting, the EAC should be your most current estimate.

Was this grant identified in your CAP? (Yes or No): In the CAP form for the Grant Contingency project, you were required to identify potential grants you could receive over the biennium in the "Budget Request Basis" question. This is asking if you listed this

KC Percentage Match: What is King County's match as part of this grant?

Reason for Transfer: Please provide a brief reason for why this transfer is necessary.

#### For New Projects

Current Grant Contingency Request: Input the current grant contingency request for this quarter's report.

Estimate at Completion: This Estimate at Completion should be the following in the below situations:

If this project is part of baseline or MPA reporting, the EAC should match the amount in these reports for this quarter. This is for consistency purposes.

If this project is not part of baseline or MPA reporting, the EAC should be your most current estimate.
