## PREFACE

This supplement to the King County Board of Health Code provides codification of all rules and regulations adopted through R&R 11-04, adopted September 15, 2011, and effective October 15, 2011.

The Code of the King County Board of Health was originally published by Book Publishing Company in 1988, and was kept current by regular supplementation by ProCode beginning in 2000. In 2006, the King County Clerk of the Council became responsible for the codification of the Code.

The Code is organized by subject matter under an expandable three-factor decimal numbering system, which is designed to facilitate supplementation without disturbing the numbering of existing provisions. Each section number designates, in sequence, the numbers of the title, chapter and section. Some vacant numbers have not been used in order to accommodate later additions to the Code.

Each section of the Code is followed in parentheses by a legislative history identifying specific sources for the provisions of the section. In history notes, "R&R" denotes Board of Health rules and regulations and "HDR" denotes rules promulgated by the director. This legislative history is complemented by disposition tables, following the text of the Code, listing by number all codified provisions, their subjects, dates of passage and where they appear in the codification. Starting with the May 2000 supplement, all provisions are listed in the tables, along with the dates of passage and effective dates.

A subject-matter index, with complete cross-referencing, locates specific code provisions by individual section numbers.

This version of the King County Board of Health Code is certified to comply with the current requirements of the King County Board of Health.

Anne Noris  
Clerk of the Board of Health  
King County Courthouse  
516 3rd Avenue, Suite 1039
