A small numbers, <10 in 2018, newly diagnosed Native Am./AK Natives, Pac Isl, U.S.-born heteros, & transgender persons based on 5 years diagnoses (2014 - 2018).

B "Linked" is based on percent of cases diagnosed in 2018 linking to care based on CD4 or viral load tests within 3 months of diagnosis.

C Transgender category, for prevalent cases, includes transgender women (90%) and transgender men (10%); for 5-year incident diagnoses, 9 were transgender women and 2 transgender men. D U.S.-born includes unknown country of birth. ** data added run on a newer data set with 7010 PLWH (other rows based on 6976)
