| ▪ Meeting Close & Next Steps | |

Public Health Updates

- ❖ Dr. Jeff Duchin
Public Health Officer, Public Health Seattle & King County

Where do we stand today in King County?

- Cases are at an all time high and is growing. Hospitalizations have increased by 70% over the past week.
- The safest option is to avoid gathering with people you don't live with this holiday season, unless you have quarantined for at least 14 days or quarantined for 7 days and had a negative COVID-19 test.
- Indoor environments can be riskier than outdoors. Increase ventilation indoors. Wear masks and limit gatherings. Stay at least six feet apart. Stay away from others at the first sign of illness or close contact of a known case
- King County sites last over the last 14 days have performed more than 28,000 tests, of which 3,341 were positives (11.8%).
- We are adding capacity at existing testing sites and new Highline site on 11/20.
- BIPOC communities continue to experience disproportionate impacts of COVID-19.
- The most common presumed exposures include household transmission, essential workers & community transmission.

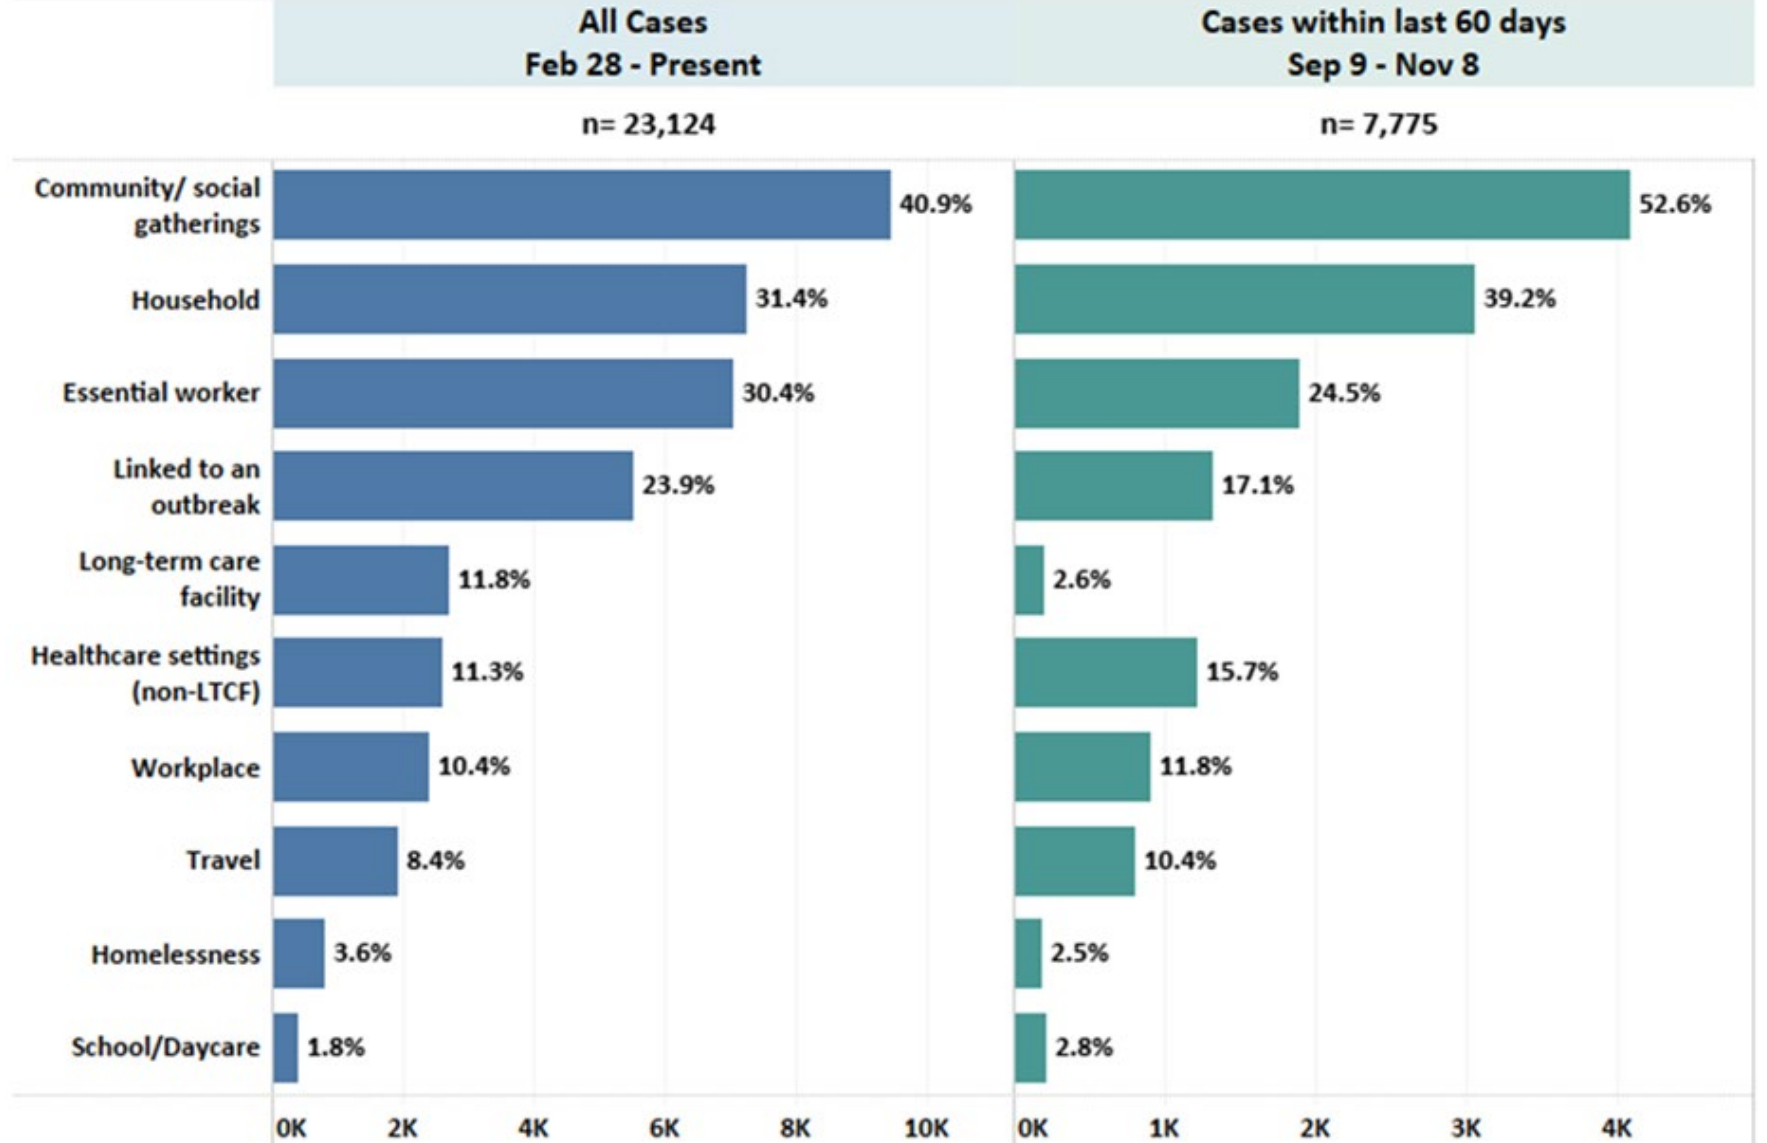

See all COVID-19 data dashboards at www.kingcounty.gov/covid/data

Public Health Updates

- ❖ Matias Valenzuela
Equity Director, Public Health Seattle & King County

Draft report on exposure settings

Figure 5: All potential exposure settings identified among COVID-19 cases in King County, WA

Categories are not mutually exclusive. An individual may appear in multiple categories if during their interview or investigation the setting was identified.

Draft report on exposure settings

Exposure setting among cases with a known or likely source of exposure was identified by race/ethnicity, within the last 60 days (Sep 5 - Nov 4)

	AI / AN	Asian	Black	Hispanic / Latinx	NHPI	Other	White
Healthcare settings	14.8%	17.0%	20.3%	9.9%	12.6%	15.9%	15.5%
Non-healthcare workplace	7.4%	21.3%	15.9%	27.5%	18.4%	15.9%	13.9%
Living homeless or homelessness service sites	7.4%	0.5%	5.3%	1.2%	5.8%	4.1%	1.3%
Other congregate settings	11.1%	0.2%	0.5%	0.4%		1.0%	0.7%
Community/Social Gatherings	22.2%	17.9%	19.5%	19.1%	27.2%	26.2%	30.6%
Household	14.8%	29.1%	27.1%	31.0%	28.2%	23.1%	21.4%
Travel	22.2%	8.8%	6.5%	5.8%	4.9%	6.7%	12.4%
Reported other close contact		5.2%	5.0%	5.0%	2.9%	7.2%	4.2%

Percentage excludes cases where a source of exposure was not identified or the case was lost to follow-up. Percentages are for all cases among the specified race/ethnicity, not across different groups. Categories are mutually exclusive and shown in the order of the hierarchy. For more complete definitions of the categories, see data dictionary below.

AI/AN = American Indian / Alaska Native
 NHPI = Native Hawaiian or Pacific Islander
 Other = Other or multi-racial

Draft report on exposure settings

	How common are exposure settings in three geographic areas?		
	North Seattle and Shoreline	Auburn, Federal Way and Kent	Burien, Tukwila, SeaTac and Renton
Community and social gatherings	46%	17.7%	17.1%
Non-healthcare workplaces	9.3%	19.9%	22.5%

(a table showing all King County regions and settings is included in the full report)

Communications

- ❖ Public Health Seattle & King County Communications Team
 - Hana Tadesse
 - Karla Jimenez-Magdaleno
 - Hilary Karasz.
- 1. Update on the upcoming Public Education Campaign
- 2. How to participate in the Ambassador emails
- 3. How to amplify our Public Health Messages on Social media.
- 4. What can PARCAG members do to disseminate translated materials

Proposed Future PARCAG Agenda Items

❖ PARCAG Steering Committee

Potential future agenda topics for PARCAG

TOPIC

- Data-related advocacy, notifiable conditions, race/ethnicity reporting, by disability status
- Vaccine planning
- Contact tracing
- Epidemiology, aerosol, COVID disease
- Antibody testing
- Schools/child care
- Disability access issues
- Work sessions to capture & document lessons learned from early phases of pandemic in order to improve/not repeat going forward
- Advocacy re: addressing racism in health care system
- Seroprevalence study design--lengthy survey, text heavy, lack of language access
- APDE request from Amy Laurent and Marguerite Ro

Participation guidelines – creating inclusive conversations

- **Be present** – bring your full attention to the process and listen deeply.
- **Try on new ideas and perspectives** – remember, “try on” is not the same as “take on.”
- **It’s OK to disagree** – avoid discounting or judging the beliefs and views of others.
- **Check out assumptions** – do not assume you know what is meant by a particular communication, especially when it triggers you
- **Step up, step back** - if you are a person who shares easily, leave space for others to step into. If you are a person who doesn’t speak often, consider stepping forward and sharing your wisdom.
- **Practice both/and thinking** - making room for more than one idea at a time means appreciating and valuing multiple realities.
- **Intent is different than impact** – both are important. It is also important to own our ability to have a negative impact in another person’s life despite our best intention.

Based on guidelines by Laurin Mayeno and Elena Featherston, 2006, adapted from VISIONS, Inc

Ways to stay connected

Weekly Covid-19 webinar for Spanish-speaking community

- A conversation between community members and Public Health-Seattle & King County. Facilitated by Giselle Zapata-Garcia and Penny Lara.
