

Linelist of 164 total long-term care facilities being monitored for COVID-19 as of 12/05/2021

1

This only includes cases with confirmed classifications. A closed case indicates the facility has had no cases in the last 28 days, as verified by Public Health. On 12/15/2020, the outbreak definition for long-term care facilities changed to 2 or more confirmed cases of COVID-19 infection in staff who were onsite at any time during their exposure or infectious period OR 1 or more facility-acquired case(s) of COVID-19 infection in a resident. The prior outbreak definition was 1 or more cases with confirmed COVID-19. Any facilities that have been reported since 12/15/2020 will follow this new outbreak definition. Any facilities that have been reported prior to 12/15/2020 will now also follow the new definition retroactively.

Facilities with multiple level of care are classified under 'Facility Type' by their highest level of care, regardless of where in the facility the positive cases reside.
