EMS STAKEHOLDER PRINCIPLES

As regional EMS Stakeholders, we are committed to these fundamental principles:

1. **REGIONAL SYSTEM**
   The Medic One/EMS system is based on partnerships that are built on regional, collaborative, cross-jurisdictional coordination. This seamless cohesion allows the system to excel in pre-hospital emergency care.

2. **TIERED MEDICAL MODEL**
   The medical model, with its tiered system and intensive dispatch, EMT and paramedic training and protocols, has led to our success in providing high quality patient care throughout the region.

3. **PROGRAMS & INNOVATIVE STRATEGIES**
   State of the art science-based strategies and programmatic leadership have allowed us to meet the needs and expectations of our residents and our system.

4. **FOCUS ON COST EFFECTIVENESS AND EFFICIENCIES**
   The Medic One/EMS system has maintained financial viability and stability due to the region’s focus on operational and financial efficiencies, effectiveness and cost savings.

5. **MAINTAINING AN EMS LEVY AS FUNDING SOURCE**
   The EMS levy is a reliable and secure source of funding our world-renowned system.
As members of the Regional Services Subcommittee, we remain committed to this fundamental Regional Services principle:

**Decisions regarding programs and Initiatives will be viewed in respect to patient outcomes and high quality services.**

- Collaboratively develop programs with partners that meet the emergent community needs to ensure standards of patient care are maintained or improved.

- Use existing resources efficiently to improve operations of the system and to help contain costs, with no degradation of services or the system.

- Seek system effectiveness and efficiencies that focus on
  - improving the quality of EMS services
  - managing the rate of growth; and
  - containing costs

- Maintain Strategic Initiatives that meet the directives of system effectiveness and efficiencies, and create new Initiatives as appropriate.

## PROPOSED – Regional Services Subcommittee Work Plan

(For review at February 20, 2018 Regional Services Subcommittee Meeting)

### Tasks:

To develop programmatic recommendations outlining core Regional Services and Strategic Initiatives that “tie together” the medical model components, and support all aspects of the regional system.

Components and considerations include:

- Regional Services Programs Review
  - Current system needs
  - Future system and/or new system needs
  - Emergent needs

- Strategic Initiative Review
  - Strategic Directives
  - Current Initiatives
  - Future needs/ efficiencies

- Anticipation of new challenges
- Financial plan, reserves, contingencies; inflators
- Cost efficiencies, system effectiveness, and best practices
