

Premiera-Lifewise

Updates

New Telehealth Benefits

- Through June 30, 2020, LifeWise Health Plan of Washington and Premera Blue Cross plans include two additional telehealth (virtual care) resources. We're also covering in-network telehealth services at no copay, deductible, or coinsurance.
- Subscribers and their covered dependents (ages 1 and older) now have access to 98point6 and Doctor On Demand. Plans also includes access to Teladoc, and other in-network providers who offer telehealth services.
- If an in-network telehealth provider charges a copay, deductible, or coinsurance upfront during this timeframe, LifeWise or Premera will reimburse our members when the claim is processed.
