09:58:49 From CeCe Heine(she/her) : If client reached DSHS and needed an interpreter, but DSHS can't seem to get one for their language, what is the next steps for client if DSHS can't find interpreter? Can client can be given the exception to get their own interpreter?

10:00:21 From Anh Phi : Can you please explain to me how the Spenddown system works? It is my understanding that a patient covered under Medicaid with a spenddown will not have any health coverage until they have paid off their spenddown amount out-of-pocket?

10:01:30 From Anh Phi : The way to track the amount the patient has paid towards their spenddown is for the health care organization to still bill to Medicaid even though patient has no coverage?

10:01:34 From Anh Phi : Ok, thank you.

10:02:21 From Anh Phi : Much appreciated thank you

10:02:28 From Samantha Del Vecchio : CeCe: this doesn't happen very often as we have 4 different vendors we call. However, if we can't find the right language, we either schedule an interpreter for a future interview or we use the client's AREP or someone they choose to help with their interview and we document that the language is not available through any vendor

10:02:33 From Andy - DSHS : Also, on the letter it will give you an update on the remaining spenddown

10:02:43 From Anh Phi : Thank you so much for all the helpful info

10:04:07 From CeCe Heine(she/her) : Thank you Samantha - Marshallese applicant has yet to hear back from DSHS as they needed an interpreter to complete their initial interview. The applicant was assisted thru KCPH in Federal Way to complete the basic food app. How can we escalate this concern?

10:06:24 From Samantha Del Vecchio : CeCe, you can email me directly at samantha.del-vecchio@dshs.wa.gov with the case information and I can take a look. Marshallese should be available through one of our 4 vendors. When the client calls us for an interview, we should call all vendors until we find a Marshallese interpreter.
