What we're doing

- Producing videos in Marshallese
- In-Person events (Small number of events are inside, however majority are outside. All outside events in tents with heating)
- Pacific Islander Health Board is doing work specific to 98023 (Federal Way)
- Some areas don't have a natural place for outreach or they lack any places for outgoing outreach. This includes Burien, Redmond, SeaTac and Kent. We're working with the small community newspaper.
- Piloting an event in Des Moines at the North Hill Espresso. This includes providing "cup sleeves" for the stand to give-up. Stand is providing sack lunches to children & we're covering the cost of drinks for customers from 11:00-3:00. The team will be outside and we have one health plan attending. If successful we'll expand in January.

Better than ever: Don't miss Open Enrollment to find your best options for health insurance

Health insurance is more affordable and offers more security than ever in Washington, thanks to two changes from previous years.

Expanded tax credits mean more people can qualify for a subsidy to reduce the cost of your insurance!!!

Washington Cascade Care is a new category of plans that make it easier to compare plans & avoid hidden costs.

It's the newest option in health insurance for Washington. Cascade care plans are a great option for anyone who worries about deductibles and co-copays for office visits.
