Where to find the information you need to complete the question “Does this person have an immigration document?”

Each document type requires different information and the following pictures show where to locate the information requested on each document.
Certificate of Eligibility for Non-immigrant Student

What is SEVIS?
SEVIS stands for Student and Exchange Visitor Information System. It is a nationwide, Internet-based system that the U.S. government uses to maintain accurate and current information on non-immigrant students (F and M visa), exchange visitors (J visa), and their dependents (F-2, M-2, and J-2).
Permit to Re-Enter / Form I-327 / Form I-571 (2010 Revision)

The **U.S. TRAVEL DOCUMENT** is a multi-purpose booklet. Notations above the bearer’s image identify the type of document. When issued as a Permit to Re-Enter (Form I-327), it allows the bearer, a permanent resident, to leave and re-enter during its two-year period of validity. It can also be issued as a Refugee Travel Document (Form I-571) to people who have been recognized as refugees or persons granted asylum. Both versions contain integrated images of the bearer and pages for visas and entry/exit stamps.

The Alien number appears on most other immigration documents. It may be listed as USCIS #. However, it is not used on all documentation. See the sample approved Asylee petition. While the A# does not appear on the form, the client can report it from other documents or you can put in all 0’s (9 total) and upload the documentation for review.

In this example the I-94 is part of the document which you can use instead of other.
