

## Spenddown

(from the earlier exercise)

Jacob is 66 years old. He gets gross Social Security payments of \$820. He is on Medicare Parts A and B. He has countable resources of \$1500.

What is Jacob's spenddown liability?

(new scenarios)

Mary is 72 years old. She works and earns \$500/month as a checker at Albertsons. She also receives social security. Her social security payment is \$623/month.

What is Mary's spenddown liability?

Jodi is considered legally blind per social security administration rules. Because she has a work history, she receives \$1275/month from social security disability.

What is Jodi's spenddown liability?

---

(additional questions)

For a qualified alien to be eligible for Classic Medicaid or Spenddown, in general what stipulation must be met?

What is the amount of the standard unearned income deduction households receive prior to calculating their Spenddown liability? What is the earned income deduction?

Do applicants need to have paid a medical bill to apply it to their spenddown liability?
