

STEP UP AGAINST FENTANYL

HERE ARE 3 LIFE-SAVING STEPS **EVERYONE** CAN TAKE:

1 **ALWAYS, ALWAYS, ALWAYS CARRY NALOXONE**

Fentanyl is a very strong opioid. A small amount (just the size of 2 grains of salt) can cause a deadly overdose within seconds of hitting your system. Naloxone is a legal and widely available medication that can reverse opioid overdoses.

2 **LEARN HOW TO USE IT RIGHT NOW**

SCAN WITH

LEARN HOW
TO USE IT.

Overdoses can happen fast. **Learn how to administer naloxone ahead of time: you could save your friend's life.**

3 **YOU COULD SAVE YOUR FRIEND'S LIFE**

When someone overdoses, they're not able to administer naloxone to themselves. Just like designated drivers save people from getting in car accidents, **YOU** might save people from overdosing accidents. Let friends know that you carry naloxone, because friends don't let friends use alone.

HOW DO I FIND NALOXONE?

**LOCAL SITES PROVIDE FREE, CONFIDENTIAL,
ALL-AGE ACCESS TO NALOXONE**

In just two years (2018-2020), King County saw a 164% increase in the number of fentanyl overdose deaths. The time to act is now. Carrying naloxone could save a friend's life.

LOCAL NALOXONE DISTRIBUTION SITES

Scan the QR code for a list of places you can go to get naloxone. Naloxone is a legal and widely available medication. No ID is required.
