

North Highline Subarea Plan Public Review Draft **Accepting public comments Sept. 30 – Dec. 19***

*Extended from Nov. 28

The North Highline Subarea Plan is...

A 20-year plan that expresses the community's vision for the future and establishes policies to help achieve that vision.

What's included...

- The community's Vision and Guiding Principles
- A community description
- Land use
- Housing and human services
- Parks, open space, and cultural resources
- Transportation
- Services and utilities
- Economic development

Also: Land use and zoning map amendments and development conditions

Draft community Vision Statement

Residing on the traditional land of the Duwamish people, North Highline celebrates its ethnic diversity and intergenerational roots and our ongoing inclusivity of diverse families and individuals, especially those most isolated and vulnerable. We call out race and place-based inequities and are committed to dismantling systems of power, privilege, and racial injustice. With mutual support and respect, we value and live out our brilliance and power through community-led initiatives, creating thoughtful development without displacing longtime residents and small business owners, forming and owning the policies that impact us and building our individual and collective wealth, health, and well-being.

What happens next? Your voice will be heard...and used!

King County will review all comments received and revise the plan based on those comments. The Executive's Recommended Subarea Plan will be sent to the King County Council in early 2022. The council will review the plan, take more community input, and refine the plan. The council is expected to adopt the plan later in 2022.
