

2018-2019 Skyway Field Office Days Public Comments

August 28, 2018

- Lowell Gentry
 - Tent City 3 on MLK Way & 129th – 2nd time in 15 months – concerned about it being an entryway into community, esp when combined with MJ shop and Mt. Anderson on same corridor
 - Mt. Anderson – he’s concerned about lack of action to clean-up site; asked what type of code enforcement action is being taken on junk equipment and vehicles along MLK; he mentioned Anderson family for years has dumped debris over the cliff, creating a potentially unsafe situation for any future buildings at bottom end of parcel
 - I committed to getting update on toxic clean up from Randy Sandin
 - Crime – concern re. concentration of MJ stores, tent cities, low-end retail, junk vehicle operations, etc.
