

### **Public comments (oral) from 8-19-17 Block Party event**

- Concern re. more apartments being added to MLK corridor; must deal w/existing congestion, esp. on 133rd
- Lack of social services being provided at Creston Point; residents have to travel quite a ways to receive employment assistance, youth services, etc.
- Block party is a good thing; the community needs more engagement opportunities like this one; need places to build social connections
- Concern w/too much commercial development along MLK corridor siphoning off commercial investment from Skyway Business District, which is where most people want investment
- Having some type of mandated mixed use in the future Mt. Anderson redevelopment (vs. leaving it up to developer)
