King County (King County) has initiated two major investment committees for the City of Seattle (King County) to receive and handle investments...
King County

1. **Citywide**:
   - Social equity and life outcomes are central to the community’s approach to urban development and management. The County’s commitment to social equity is evident in its allocation of resources and investments in various projects and initiatives. (Note: The context is a broad overview of King County’s approach to urban development and management.)

2. **Transportation**:
   - The County has prioritized investments in transportation infrastructure that support social equity.

3. **Community Engagement**:
   - Community engagement is a key aspect of the County’s approach to urban development and management.

4. **Partnerships**:
   - The County has formed partnerships with various stakeholders to support urban development and management.
