Executive Summary Report

Characteristics Based Market Adjustment for 2008 Assessment Roll

Appraisal Date: 1/1/2008- 2008 Assessment Roll

Area Name / Number: Northeast King County; Areas 370, 375, 380, 385, 390, 395, 400, 425, 430 and 460.

Previous Physical Inspection: 2002 to 2007

Sales - Improved Summary:

Number of Sales: 6,576

Range of Sale Dates: **1/1/2005 to 12/31/2007**

Sales – Improved Valuation Change Summary						
	Land	Imps	Total	Sale Price	Ratio	COV
2007 Value	\$46,800	\$212,500	\$259,300	\$290,800	89.2%	14.87%
2008 Value	\$59,500	\$228,500	\$288,000	\$290,800	99.0%	14.24%
Change	+\$12,700	+\$16,000	+\$28,700		+9.8%	-0.63%
%Change	+27.1%	+7.5%	+11.1%		+11.0%	-4.24%

*COV is a measure of uniformity, the lower the number the better the uniformity. The negative figures of -0.63% and -4.24% actually represent an improvement.

Sales used in Analysis: The sales sample includes all condominium residential living unit sales verified as good. The sample excludes commercial units, parking units, and condos in use as apartments. A listing of sales included and sales excluded from the analysis can be found in the Addenda of this report.

Population - Improved Parcel Summary Data:			
	Land	Imps	Total
2007 Value	\$54,900	\$211,300	\$266,200
2008 Value	\$67,900	\$233,900	\$301,800
Percent Change	+23.7%	+10.7%	+13.4%

Number of improved Parcels in the Population: **16,278**

The population summary above includes all residential condominium living units. It excludes parking storage and moorage units and condominiums with commercial responsibility such as apartments and office buildings. A list of all parcels in the population can be found in the Assessor's files located in the Commercial/Business Division.

Summary of Findings: The analysis for this area consisted of a general review of applicable characteristics such as neighborhoods, living area, floor location, number of bedrooms and fireplaces. The analysis results showed that several characteristic-based and neighborhood-based variables needed to be included in the update formula in order to improve the uniformity of assessments throughout the area.

The Annual Update Values described in this report improve assessment levels, uniformity and equity. The recommendation is to post those values for the 2008 assessment roll.

Part One – Premises of Mass Appraisal

Annual Update Process

Effective Date of Appraisal: January 1, 2008

Date of Appraisal Report: 8/14/2008

King County Revaluation Cycle

King County's revaluation plan as approved by the Washington State Department of Revenue is an annual revaluation cycle with physical inspection of all properties at least once every six years. Physical inspection of properties meets the requirements of RCW 84.41.041 and WAC 458-07-015. During the interval between each physical inspection, the annual revaluation cycle requires the valuation of property be adjusted to current true and fair value based on appropriate statistical data. Annually, approximately one-sixth of all residential properties are physically inspected and appraised with new land and total property valuation models calibrated and specified using multiple regression analysis. These appraised values are the basis for the annual updating of the remaining five-sixths.

Appraisal Team members and participation

Craig Johnson Commercial West District Appraiser II performed the analysis and produced the Annual Update report. Betty Johnson, Commercial West District Senior Appraiser, reviewed the process and results for quality control and administrative purposes.

Assumptions & Limiting Conditions

Sales data is derived from real estate excise tax affidavits and is initially reviewed by the Sales Identification Section of the Accounting Division. The analyst made further verification of sales in office. Time constraints prohibit further verification of sales information.

Data Utilized

Available sales that had closed from 1/1/2005 through 12/31/2007 were considered in this analysis. The sales and population data were extracted from the King County Assessor's Condominium database.

Sales Screening for Improved Parcel Analysis

Sales removal occurred for parcels meeting the following criteria:

- 1) Assigned or owned parking
- 2) Assigned or owned storage units
- 3) Assigned or owned moorage
- 4) Multi-parcel or multi-unit sales
- 5) Sales of commercial use or apartment use units
- 6) Others as identified as non-market sales

Scope of the Appraisal

The income and cost approaches are not applicable to residential condominium valuation. Most condominium units are owner-occupied and not income producing properties. Cost is not an accepted approach because there is no accurate way to allocate building costs among the individual units. Therefore, we rely solely upon the sales comparison approach to develop a valuation model. Our sales sample consists of 6,576 residential living units that sold during the 36-month period between January 1, 2005 and December 31, 2007. The model was applied to all units. Direct sales comparison was used to value exception parcels, which are typically parcels with characteristics that are not adequately represented in the sales sample on variables such as size, condition, view or quality. Those parcels were adjusted to the model based on observations and general appraisal techniques. Those exception parcels are listed in the addenda of this report.

The Condo Crew does not value condominium land or commercial condominiums, which are the responsibility of commercial geographic and specialty appraisers.

Part Two – Presentation of Data

Identification of the area

Name or Designation

Northeast King County

Boundaries

The Northeast King County area is an irregular shape roughly defined by the following.

North Boundary – The King-Snohomish County line.

East Boundary – The Snoqualmie National Forest

West Boundary – East Shoreline of Lake Washington

South Boundary – SR 520

Maps

Maps of the Specialty Neighborhoods included in the Northeast King County area are in the addenda of this report. More detailed Assessor's maps are located on the 7th floor of the King County Administration Building.

Area, city, neighborhood, and location data

The Northeast King County area includes specialty neighborhoods 370: Kirkland, 375: Overlake, 380: Juanita, 385: Bothell, 390: Inglewood, 395: Kingsgate, 400: Kenmore, 425: Woodinville, 430: Redmond and 460: Duvall.

Zoning and legal/political consideration

Zoning restrictions, whether county or local, are displayed on Assessor's maps and are shown as a land characteristic in the Assessor's property characteristic database. Local jurisdictions exercise authority over local land use and community planning. Regulations regarding zoning are found in their local ordinances.

Land use data

The Commercial Appraisal Section records Assessor's land use codes, which identify the present land use. This data resides in the Assessor's database and is available upon request.

Part Three – Analysis of Data and Conclusions

Highest and best use analysis and location of conclusions

Based on neighborhood trends, both demographic and current development patterns, the existing buildings represent the highest and best use of most sites. The existing use will continue until land value, in its highest and best use, exceeds the sum of value of the entire property in its existing use and the cost to remove the improvements. We find that the current improvements do add value to the property, in most cases, and are therefore the highest and best use of the property as improved.

Sales comparison approach model description

The chosen adjustment model was developed using multiple regression. The 2008 assessment ratio (Assessed Value divided by Sale Price) was the dependent variable.

Northeast King County area sales were analyzed and it was observed that properties were increasing at an average rate of approximately 11% per year. A Multiple regression equation was then formulated based on sales and property characteristic data found in the Assessor's records. Using regression analysis, we specify property characteristics, such as age, neighborhood, size, and number of bedrooms, and applied an adjustment value to those characteristics that were found to have a profound affect on market value. The regression model, when applied, supports the overall average market increase. Therefore, the model was used to value all condominium properties in this area. A list of all sales used in the analysis is included in the addendum of this report.

Model specification

The **regression model** for neighborhoods 370, 375, 380, 385, 390, 395, 400, 425, 430 and 460 includes the following data characteristics:

- 1) Waterfront
- 2) On-site Laundry
- 3) Project Location
- 4) Building Condition
- 5) Project Appeal
- 6) Unit Quality
- 7) Conversions
- 8) Elevator
- 9) Fireplace
- 10) Neighborhood
- 11) Affordable Housing
- 12) And Certain Projects identified by Major.

The definitions of data characteristics included in the model are in the Condominium Coding manual, which is available upon request.

Model calibration

The **regression model** for neighborhoods 370, 375, 380, 385, 390, 395, 400, 425, 430 and 460 was calibrated using selling prices and property characteristics as follows:

***EMV= 2007 total value/** .9015782-3.060937E-02*IsWtft-2.221022E-02*LNDRIY_N+ 8.590656E-03*PLOC4-2.529227E-02*BCOND3-.1159357*APPEAL2+ 5.131294E-02*UQUAL4+ 2.856299E-02*CONVERSION+ 2.526268E-02*ELEVATOR+ 3.010472E-02*FRPLC+ 8.048616E-02*AREA470+ 3.341765E-02*AREA385+ 8.656653E-02*AFFDHSNG-4.517078E-02*LOW1-.0749784*LOW2-6.778372E-02*LOW3-5.380628E-02*LOW4-7.921708E-02*LOW5-2.282445E-02*LOW6-4.564838E-02*LOW7+ 5.076836E-02*HIGH1+ 6.887266E-02*HIGH2+ 5.921895E-02*HIGH3+ 8.510823E-02*HIGH4+ .0553416*HIGH5+ 5.171276E-02*HIGH6+ 9.763832E-02*HIGH7+ 8.322351E-02*HIGH8

The resulting total value is rounded down to the next \$1,000.

*EMV stands for Estimated Market Value and represents the modeled value for the 2008 assessment year.

Exceptions:

The number of projects departing from the statistical model is approximately 26% of the total number of projects valued, which is expected due to the wide area and diversity in neighborhood amenities.

Model validation

Detailed regression statistics validating the model are shown in the ratio reports in the addendum of the Northeast King County area report.

Craig Johnson reviewed the projected values for accuracy and correctness.

Reconciliation and Conclusion:

Ratio study

A ratio study was completed to evaluate the results of our revalue efforts. This study shows the mean-weighted ratio of previous assessed value to selling price. Ratio reports are included in the addenda of this report.

Conclusions:

Review of the resulting values and ratios indicate that the statistical model improves assessment levels and equalization. It is the recommendation of this report that the values be posted for the 2008 Assessment year.

USPAP Compliance

Client and Intended Use of the Appraisal:

*This mass appraisal report is intended for use only by the King County Assessor and other agencies or departments administering or confirming ad valorem property taxes. Use of this report by others is not intended by the appraiser. The use of this appraisal, analyses and conclusions is limited to the administration of ad valorem property taxes in accordance with Washington State law. As such it is written in concise form to minimize paperwork. The assessor intends that this report conform to the Uniform Standards of Professional Appraisal Practice (USPAP) requirements for a **mass appraisal report** as stated in USPAP SR 6-8. To fully understand this report the reader may need to refer to the Assessor's Property Record Files, Assessors Real Property Data Base, separate studies, Assessor's Procedures, Assessor's field maps, Revalue Plan and the statutes.*

The purpose of this report is to explain and document the methods, data and analysis used in the revaluation of King County. King County is on a six year physical inspection cycle with annual statistical updates. The revaluation plan is approved by Washington State Department of Revenue. The Revaluation Plan is subject to their periodic review.

Definition and date of value estimate:

Market Value

The basis of all assessments is the true and fair value of property. True and fair value means market value (Spokane etc. R. Company v. Spokane County, 75 Wash. 72 (1913); Mason County Overtaxed, Inc. v. Mason County, 62 Wn. 2d (1963); AGO 57-58, No. 2, 1/8/57; AGO 65-66, No. 65, 12/31/65). The true and fair value of a property in money for property tax valuation purposes is its "market value" or amount of money a buyer willing but not obligated to buy would pay for it to a seller willing but not obligated to sell. In arriving at a determination of such value, the assessing officer can consider only those factors which can within reason be said to affect the price in negotiations between a willing purchaser and a willing seller, and he must consider all of such factors. (AGO 65,66, No. 65, 12/31/65)

Highest and Best Use

RCW 84.40.030 *All property shall be valued at one hundred percent of its true and fair value in money and assessed on the same basis unless specifically provided otherwise by law.*

An assessment may not be determined by a method that assumes a land usage or highest and best use not permitted, for that property being appraised, under existing zoning or land use planning ordinances or statutes or other government restrictions.

WAC 458-07-030 (3) True and fair value -- Highest and best use. *Unless specifically provided otherwise by statute, all property shall be valued on the basis of its highest and best use for assessment purposes. Highest and best use is the most profitable, likely use to which a property can be put. It is the use which will yield the highest return on the owner's investment. Any reasonable use to which the property may be put may be taken into consideration and if it is peculiarly adapted to some particular use, that fact may be taken into consideration. Uses that are within the realm of possibility, but not reasonably probable of occurrence, shall not be considered in valuing property at its highest and best use.*

If a property is particularly adapted to some particular use this fact may be taken into consideration in estimating the highest and best use. (Sammish Gun Club v. Skagit County, 118 Wash. 578 (1922)) The present use of the property may constitute its

highest and best use. The appraiser shall, however, consider the uses to which similar property similarly located is being put. (Finch v. Grays Harbor County, 121 Wash. 486 (1922)) The fact that the owner of the property chooses to use it for less productive purposes than similar land is being used shall be ignored in the highest and best use estimate. (Sammish Gun Club v. Skagit County, 118 Wash. 578 (1922))

Where land has been classified or zoned as to its use, the county assessor may consider this fact, but he shall not be bound to such zoning in exercising his judgment as to the highest and best use of the property. (AGO 63-64, No. 107, 6/6/64)

Date of Value Estimate

All property now existing, or that is hereafter created or brought into this state, shall be subject to assessment and taxation for state, county, and other taxing district purposes, upon equalized valuations thereof, fixed with reference thereto on the first day of January at twelve o'clock meridian in each year, excepting such as is exempted from taxation by law. [1961 c 15 §84.36.005]

The county assessor is authorized to place any property that is increased in value due to construction or alteration for which a building permit was issued, or should have been issued, under chapter 19.27, 19.27A, or 19.28 RCW or other laws providing for building permits on the assessment rolls for the purposes of tax levy up to August 31st of each year. The assessed valuation of the property shall be considered as of July 31st of that year. [1989 c 246 § 4]

Reference should be made to the property card or computer file as to when each property was valued. Sales consummating before and after the appraisal date may be used and are analyzed as to their indication of value at the date a valuation. If market conditions have changed then the appraisal will state a logical cutoff date after which no market date is used as an indicator of value.

Property rights appraised:

Fee Simple

Wash Constitution Article 7 § 1 Taxation: *All taxes shall be uniform upon the same class of property within the territorial limits of the authority levying the tax and shall be levied and collected for public purposes only. The word "property" as used herein shall mean and include everything, whether tangible or intangible, subject to ownership. All real estate shall constitute one class.*

Trimble v. Seattle, 231 U.S. 683, 689, 58 L. Ed. 435, 34 S. Ct. 218 (1914) *“the entire [fee] estate is to be assessed and taxed as a unit”*

Folsom v. Spokane County, 111 Wn. 2d 256 (1988) *“the ultimate appraisal should endeavor to arrive at the fair market value of the property as if it were an unencumbered fee”*

The definition of fee simple estate as taken from The Third Edition of The Dictionary of Real Estate Appraisal, published by the Appraisal Institute. “Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.”

Assumptions and Limiting Conditions:

1. *No opinion as to title is rendered. Data on ownership and legal description were obtained from public records. Title is assumed to be marketable and free and clear of all liens and encumbrances, easements and restrictions unless shown on maps or property record files. The property is appraised assuming it to be under responsible ownership and competent management and available for its highest and best use.*
2. *No engineering survey has been made by the appraiser. Except as specifically stated, data relative to size and area were taken from sources considered reliable, and no encroachment of real property improvements is assumed to exist.*
3. *No responsibility for hidden defects or conformity to specific governmental requirements, such as fire, building and safety, earthquake, or occupancy codes, can be assumed without provision of specific professional or governmental inspections.*
4. *Rental areas herein discussed have been calculated in accord with generally accepted industry standards.*
5. *The projections included in this report are utilized to assist in the valuation process and are based on current market conditions and anticipated short term supply demand factors. Therefore, the projections are subject to changes in future conditions that cannot be accurately predicted by the appraiser and could affect the future income or value projections.*
6. *The property is assumed uncontaminated unless the owner comes forward to the Assessor and provides other information.*
7. *The appraiser is not qualified to detect the existence of potentially hazardous material which may or may not be present on or near the property. The existence of such substances may have an effect on the value of the property. No consideration has been given in this analysis to any potential diminution in value should such hazardous materials be found (unless specifically noted). We urge the taxpayer to retain an expert in the field and submit data affecting value to the assessor.*
8. *No opinion is intended to be expressed for legal matters or that would require specialized investigation or knowledge beyond that ordinarily employed by real estate appraisers, although such matters may be discussed in the report.*
9. *Maps, plats and exhibits included herein are for illustration only, as an aid in visualizing matters discussed within the report. They should not be considered as surveys or relied upon for any other purpose.*
10. *The appraisal is the valuation of the fee simple interest. Unless shown on the Assessor's parcel maps, easements adversely affecting property value were not considered.*
11. *An attempt to segregate personal property from the real estate in this appraisal has been made.*
12. *Items which are considered to be "typical finish" and generally included in a real property transfer, but are legally considered leasehold improvements are included in the valuation unless otherwise noted.*
13. *The movable equipment and/or fixtures have not been appraised as part of the real estate. The identifiable permanently fixed equipment has been appraised in accordance with RCW 84.04.090 and WAC 458-12-010.*
14. *I have considered the effect of value of those anticipated public and private improvements of which I have common knowledge. I can make no special effort to contact the various jurisdictions to determine the extent of their public improvements.*
15. *Exterior inspections were made of all properties in the physical inspection areas (outlined in the body of the report) however; due to lack of access and time few received interior inspections.*

Scope of Work Performed:

Research and analyses performed are identified in the body of the revaluation report. The assessor has no access to title reports and other documents. Because of legal limitations we did not research such items as easements, restrictions, encumbrances, leases, reservations, covenants, contracts, declarations and special assessments. Disclosure of interior home features and, actual income and expenses by property owners is not a requirement by law therefore attempts to obtain and analyze this information are not always successful. The mass appraisal performed must be completed in the time limits indicated in the Revaluation Plan and as budgeted. The scope of work performed and disclosure of research and analyses not performed are identified throughout the body of the report.

CERTIFICATION:

I certify that, to the best of my knowledge and belief:

- *The statements of fact contained in this report are true and correct*
- *The report analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.*
- *I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.*
- *I have no bias with respect to the property that is the subject of this report or to the parties involved.*
- *My engagement in this assignment was not contingent upon developing or reporting predetermined results.*
- *My compensation for completing this assignment is not contingent upon the development or reporting of predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.*
- *My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.*
- *The area(s) physically inspected for purposes of this revaluation are outlined in the body of this report.*
- *The individuals listed below were part of the “appraisal team” and provided significant real property appraisal assistance to the person signing this certification.*

COMMENTS:

Residential Condominiums throughout areas 370, 375, 380, 385, 390, 395, 400, 425, 430, 460.

Although the normality test indicates that the sales ratios are not normally distributed, the small difference between the mean and median ratio suggests that the departure from normality is minimal, and that the statistics for the Arithmetic Mean Ratio, COV, Confidence Limits and Recommended Minimum Sample Size are still valid indicators of assessment performance.

COMMENTS:

Residential Condominiums throughout areas 370, 375, 380, 385, 390, 395, 400, 425, 430, 460.

Both assessment level and uniformity have been improved by application of the recommended values.

Although the normality test indicates that the sales ratios are not normally distributed, the small difference between the mean and median ratio suggests that the departure from normality is minimal, and that the statistics for the Arithmetic Mean Ratio, COV, Confidence Limits and Recommended Minimum Sample Size are still valid indicators of assessment performance.
