## Executive Summary Report

Appraisal Date 1/1/2008 - 2008 Assessment Roll

**Area Name / Number:** Kent Meridian / 61

**Previous Physical Inspection:** 2003

### Sales - Improved Summary:

Number of Sales: 1306

Range of Sale Dates: 1/2005 - 12/2007

#### Sales – Improved Valuation Change Summary

	Land	Imps	Total	Sale Price	Ratio	COV
<b>2007 Value</b>	\$92,800	\$211,400	\$304,200	\$346,500	87.8%	13.72%
<b>2008 Value</b>	\$149,000	\$192,100	\$341,100	\$346,500	98.4%	11.69%
<b>Change</b>	+\$56,200	+\$19,300	+\$36,900		+10.6%	-2.03%
<b>% Change</b>	+60.6%	-+9.1%	+12.1%		+12.1%	-14.80%

\*COV is a measure of uniformity, the lower the number the better the uniformity. The negative figures of -2.03% and -14.8% actually represent an improvement.

Sales used in this analysis: All sales of one to three unit residences on residential lots which were verified as, or appeared to be market sales were considered for the analysis. Individual sales that were excluded are listed later in this report. Multi-parcel sales, multi-building sales, mobile home sales, and sales of new construction where less than a 100% complete house was assessed for 2007 or any existing residence where the data for 2007 is significantly different from the data for 2008 due to remodeling were also excluded. In addition, the summary above excludes sales of parcels that had improvement value of \$25,000 or less posted for the 2007 Assessment Roll. This also excludes previously vacant and destroyed property partial value accounts.

#### Population - Improved Parcel Summary Data:

	Land	Imps	Total
<b>2007 Value</b>	\$101,200	\$211,900	\$313,100
<b>2008 Value</b>	\$159,000	\$189,100	\$348,100
<b>Percent Change</b>	+57.1%	-10.8%	+11.2%

Number of improved Parcels in the Population: 6508

The population summary above excludes multi-building, and mobile home parcels. In addition parcels with 2007 or 2008 Assessment Roll improvement values of \$25,000 or less were excluded to eliminate previously vacant or destroyed property value accounts. These parcels do not reflect accurate percent change results for the overall population.

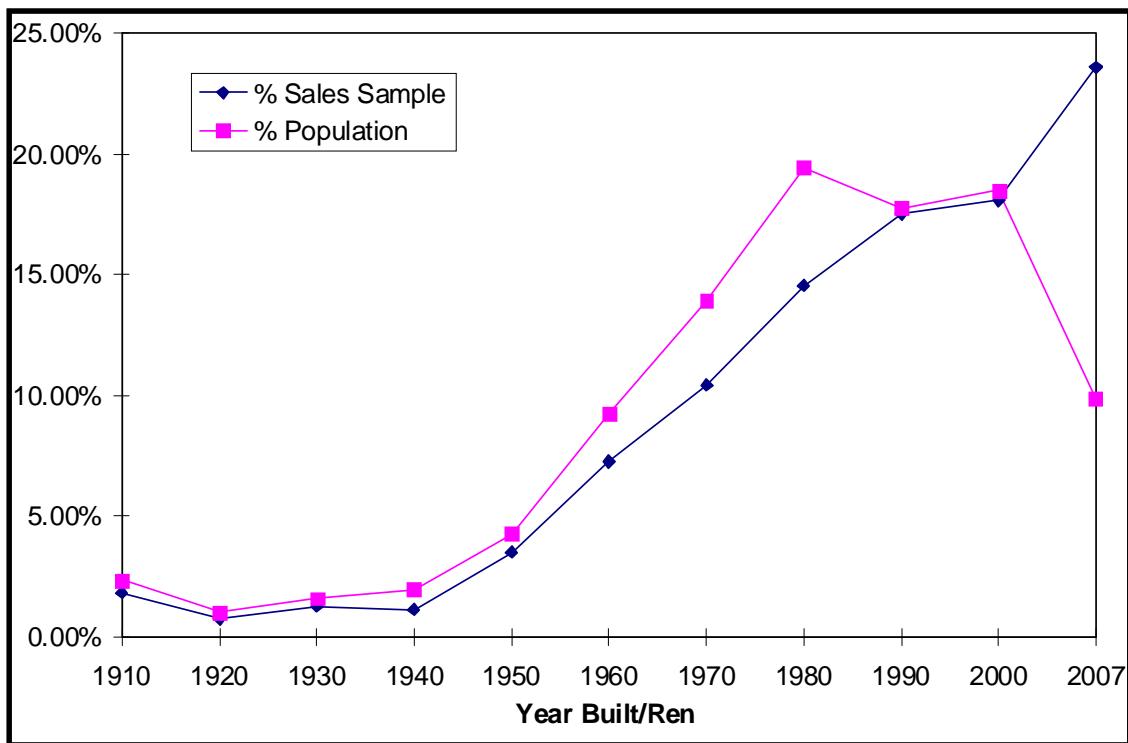

#### Conclusion and Recommendation:

Since the values recommended in this report improve uniformity, assessment level and equity, we recommend posting them for the 2008 Assessment Roll.

### **Sales Sample Representation of Population - Year Built or Year Renovated**

<b>Sales Sample</b>		
Year Built/Ren	Frequency	% Sales Sample
1910	24	1.84%
1920	10	0.77%
1930	17	1.30%
1940	15	1.15%
1950	46	3.52%
1960	95	7.27%
1970	136	10.41%
1980	190	14.55%
1990	229	17.53%
2000	236	18.07%
2007	308	23.58%
	1306	

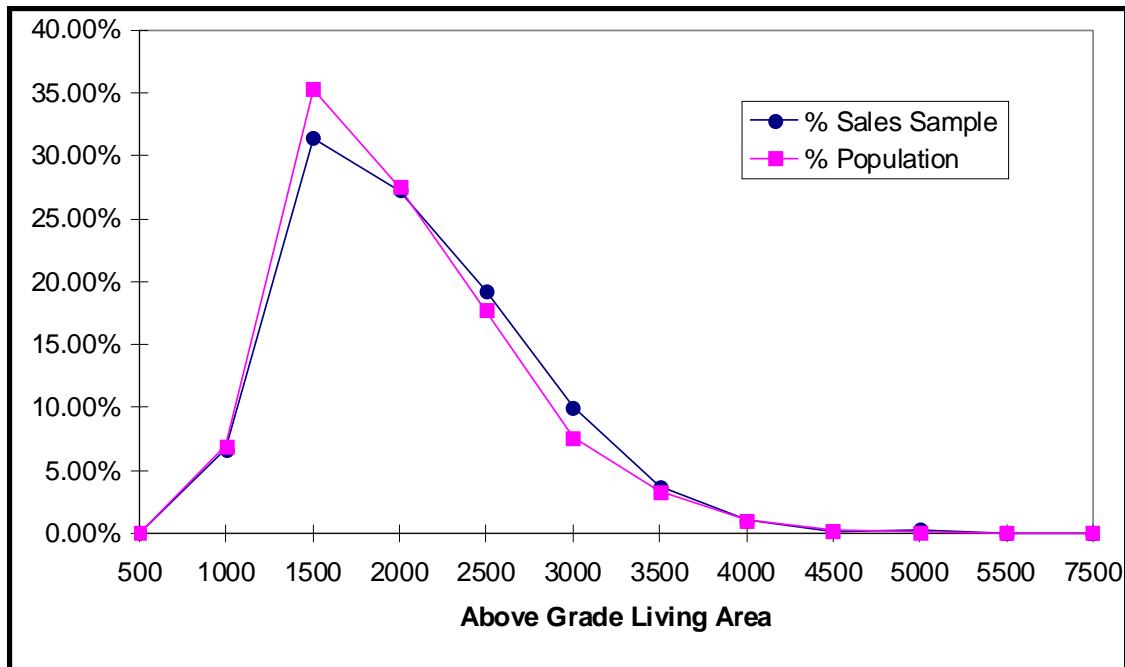

<b>Population</b>		
Year Built/Ren	Frequency	% Population
1910	154	2.37%
1920	68	1.04%
1930	105	1.61%
1940	129	1.98%
1950	278	4.27%
1960	601	9.23%
1970	907	13.94%
1980	1266	19.45%
1990	1156	17.76%
2000	1203	18.48%
2007	641	9.85%
	6508	

The sales sample is fairly representative of the population. Sales of new homes built in the last seven years are over-represented in this sample. This is a common occurrence due to the fact that most new homes will sell shortly after completion.

### **Sales Sample Representation of Population - Above Grade Living Area**

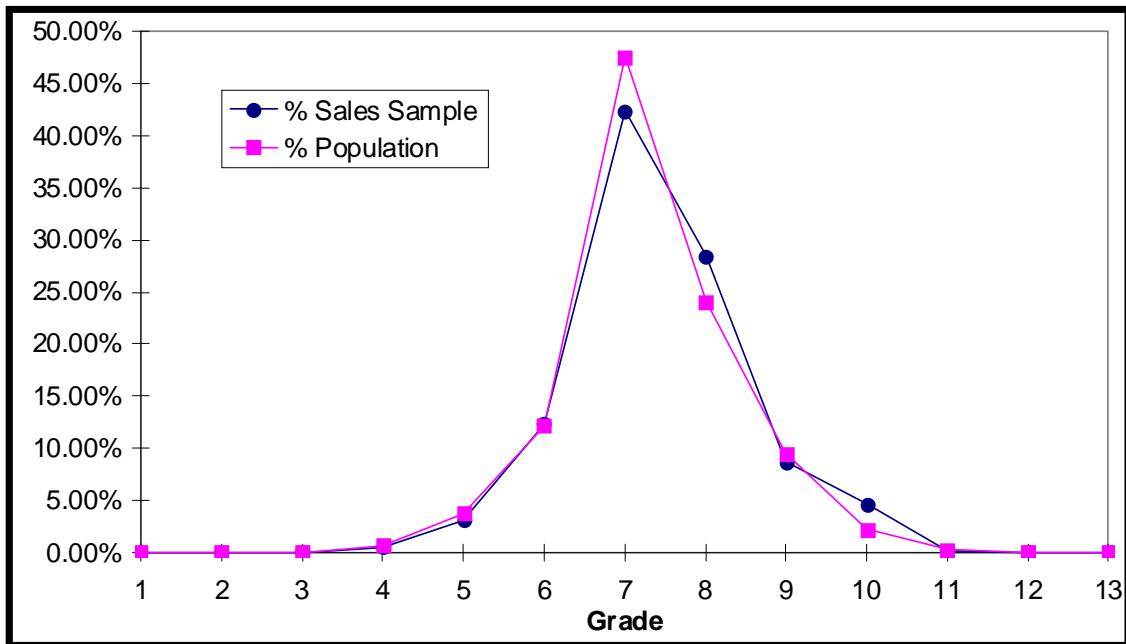

<b>Sales Sample</b>			<b>Population</b>		
AGLA	Frequency	% Sales Sample	AGLA	Frequency	% Population
500	1	0.08%	500	3	0.05%
1000	87	6.66%	1000	454	6.98%
1500	410	31.39%	1500	2298	35.31%
2000	356	27.26%	2000	1789	27.49%
2500	252	19.30%	2500	1154	17.73%
3000	131	10.03%	3000	496	7.62%
3500	49	3.75%	3500	216	3.32%
4000	14	1.07%	4000	68	1.04%
4500	2	0.15%	4500	18	0.28%
5000	4	0.31%	5000	7	0.11%
5500	0	0.00%	5500	2	0.03%
7500	0	0.00%	7500	3	0.05%
	1306			6508	

The sales sample frequency distribution follows the population distribution closely with regard to Above Grade Living Area. This distribution is ideal for both accurate analysis and appraisals.

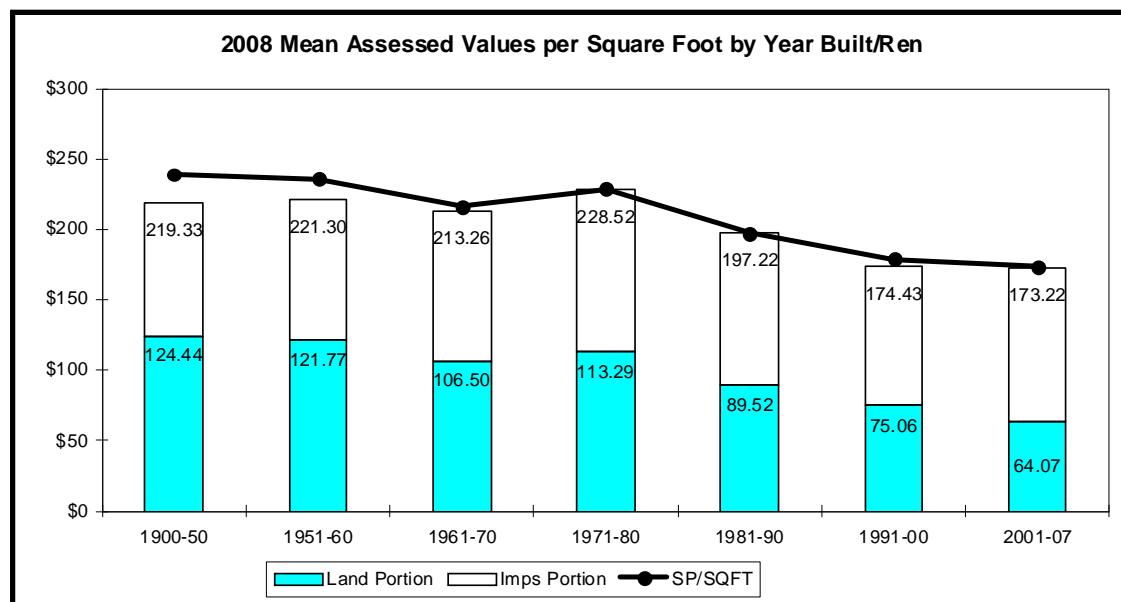

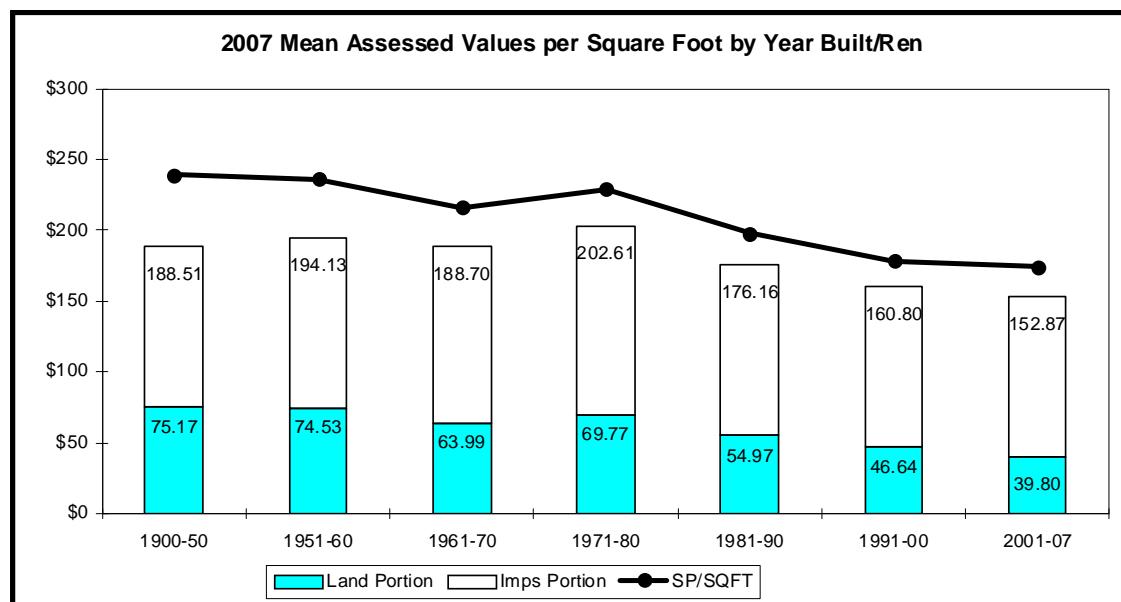

### **Sales Sample Representation of Population - Grade**

<b>Sales Sample</b>			<b>Population</b>		
Grade	Frequency	% Sales Sample	Grade	Frequency	% Population
1	0	0.00%	1	0	0.00%
2	0	0.00%	2	0	0.00%
3	0	0.00%	3	0	0.00%
4	6	0.46%	4	42	0.65%
5	41	3.14%	5	241	3.70%
6	161	12.33%	6	790	12.14%
7	553	42.34%	7	3091	47.50%
8	371	28.41%	8	1565	24.05%
9	113	8.65%	9	617	9.48%
10	60	4.59%	10	145	2.23%
11	1	0.08%	11	14	0.22%
12	0	0.00%	12	2	0.03%
13	0	0.00%	13	1	0.02%
	1306			6508	

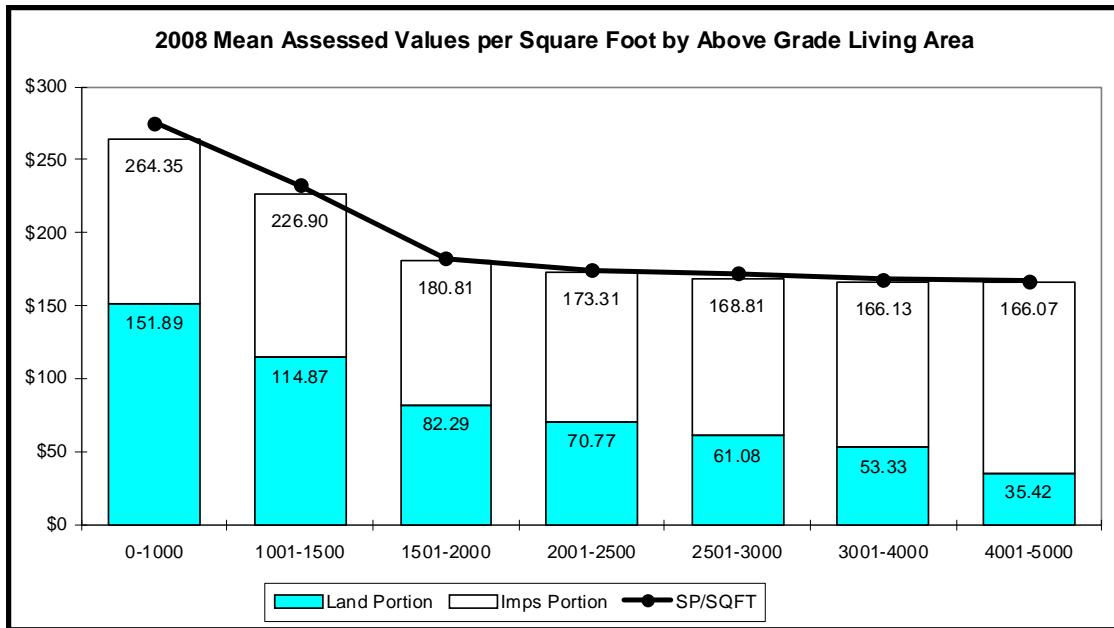

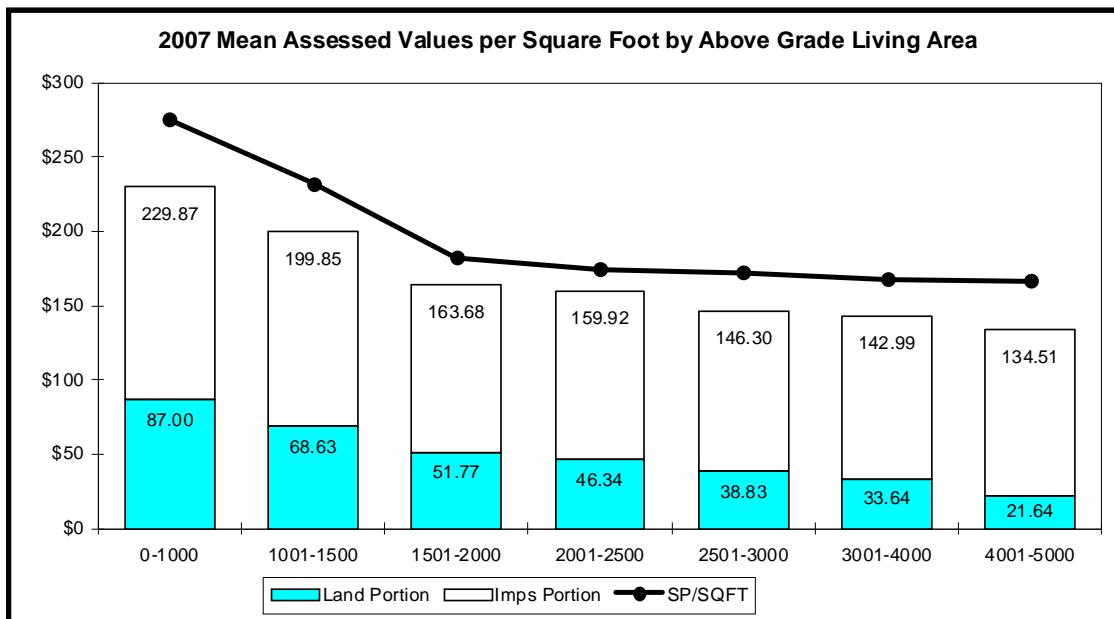

The sales sample frequency distribution follows the population distribution closely with regard to Building Grade. This distribution is ideal for both accurate analysis and appraisals.

**Comparison of 2007 and 2008 Per Square Foot Values by Year Built or Year Renovated**

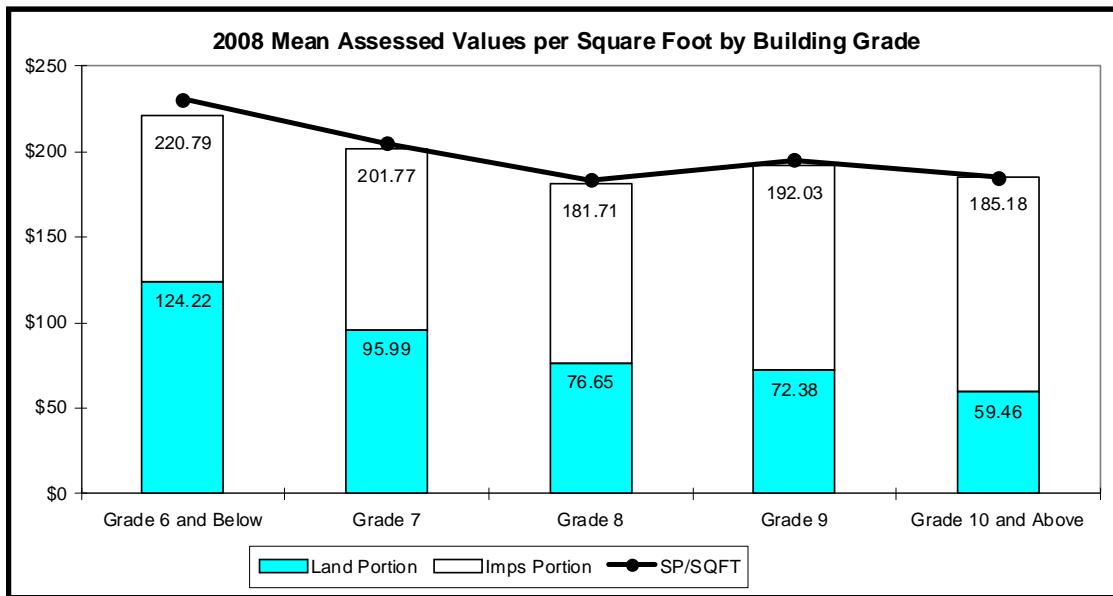

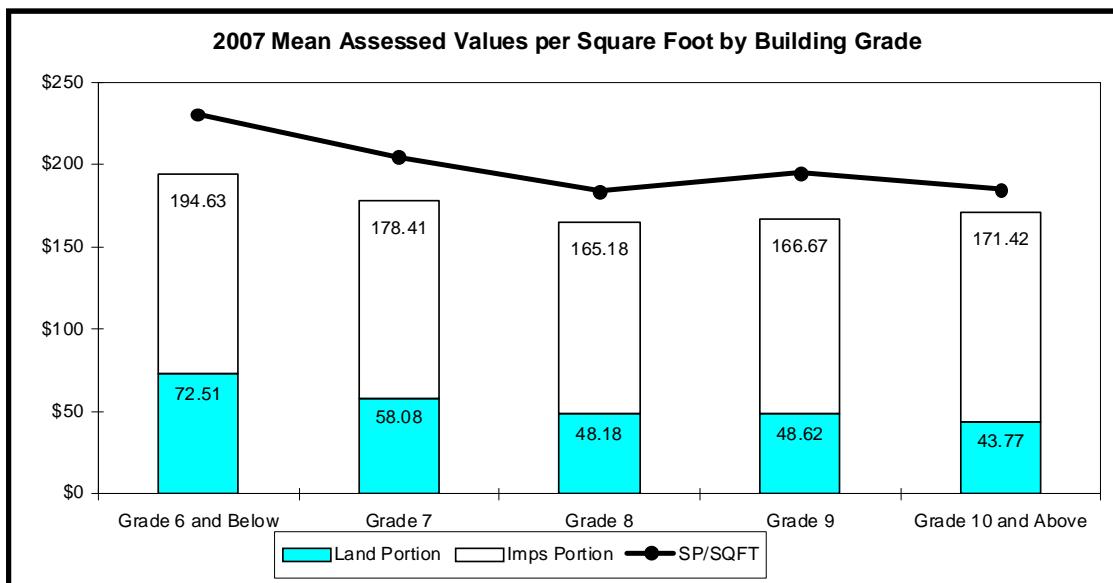

These charts clearly show an improvement in assessment level and uniformity by Year Built/Renovated as a result of applying the 2008 recommended values. The values shown in the improvements portion of the chart represent the value for land and improvements.

**Comparison of 2007 and 2008 Per Square Foot Values by Above Grade Living Area**

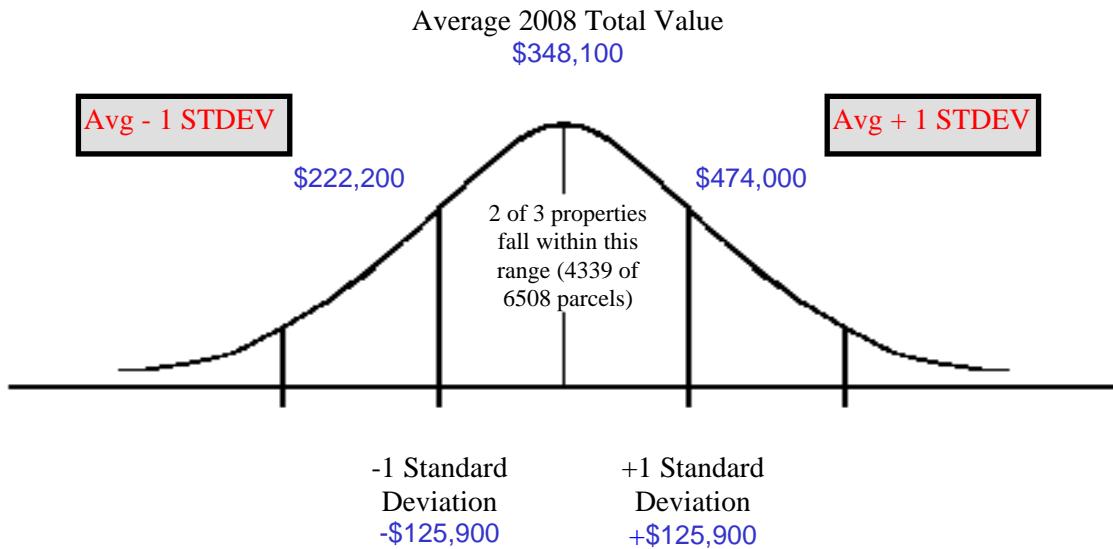

These charts clearly show an improvement in assessment level and uniformity by Above Grade Living Area as a result of applying the 2008 recommended values. The values shown in the improvements portion of the chart represent the value for land and improvements.

### **Comparison of 2007 and 2008 Per Square Foot Values by Grade**

These charts clearly show an improvement in assessment level and uniformity by Building Grade as a result of applying the 2007 recommended values. The values shown in the improvements portion of the chart represent the value for land and improvements.

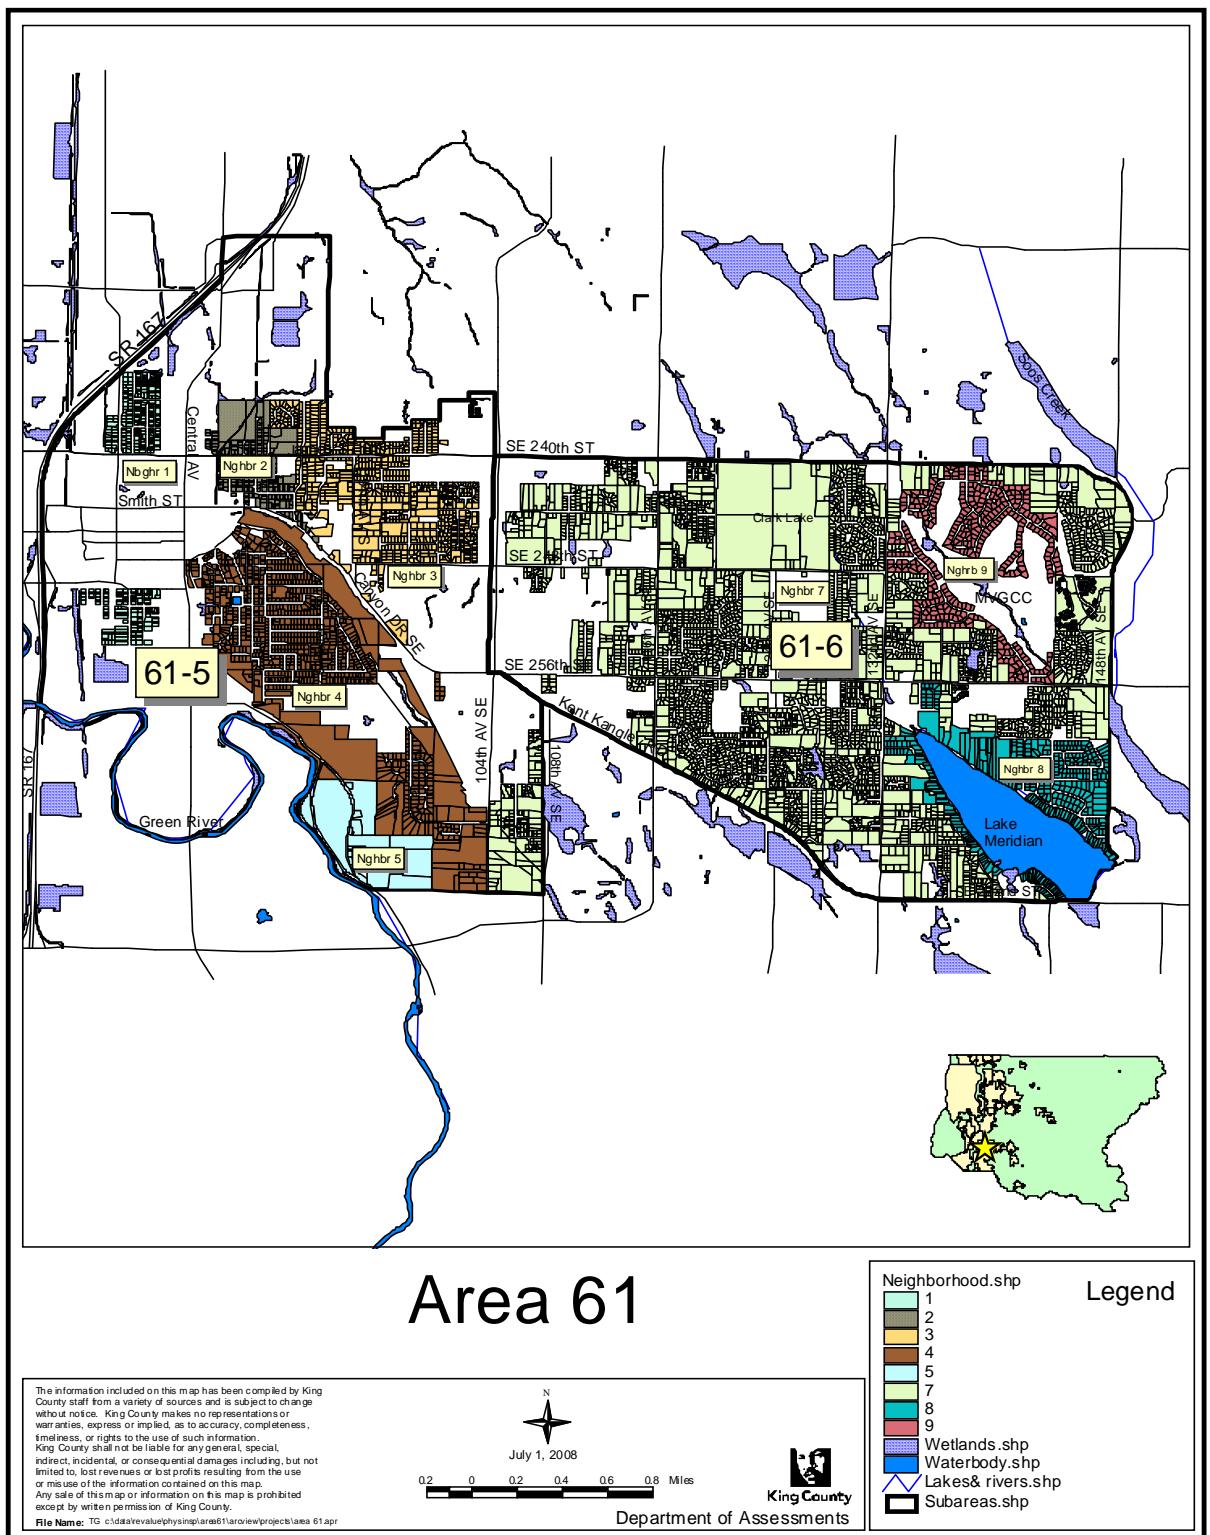

## ***Population Summary***

The chart above shows the average value for the population. Two of three parcels fall within the upper and lower value limits indicated.

The population summary above does not include sites with multiple buildings or mobile homes that were not included in the sales sample used to develop the valuation model. Parcels with 2007 or 2008 improvement values of \$25,000 or less were also excluded. These were not utilized because of the inaccurate ratios presented by them, since they are largely composed of previously vacant sites, or parcels with improvements which make relatively little contribution to total value.

## Area Map

## **Analysis Process**

***Effective Date of Appraisal: January 1, 2008***

***Date of Appraisal Report: July 1, 2008***

### ***Highest and Best Use Analysis***

**As If Vacant:** Market analysis of the area, together with current zoning and current and anticipated use patterns, indicate the highest and best use of the overwhelming majority of the appraised parcels is single family residential. Any other opinion of highest and best use is specifically noted in our records, and would form the basis for the valuation of that specific parcel.

**As If Improved:** Where any value for improvements is part of the total valuation, we are of the opinion that the present improvements produce a higher value for the property than if the site was vacant. In appraisal theory, the present use is therefore the highest and best (as improved) of the subject property, though it could be an interim use.

**Standards and Measurement of Data Accuracy:** Sales were verified with the purchaser, seller or real estate agent where possible. Current data was verified via field inspection and corrected. Data was collected and coded per the assessor's residential procedures manual.

### ***Special Assumptions and Limiting Conditions***

The sales comparison and cost approaches to value were considered for this mass appraisal valuation. After the sales verification process, the appraiser concluded that the market participants typically do not consider an income approach to value. Therefore the income approach is not applicable in this appraisal as these properties are not typically leased, but rather owner occupied. The income approach to value was not considered in the valuation of this area.

The following Departmental guidelines were considered and adhered to:

- Sales from 1/2005 to 1/2008 (at minimum) were considered in all analyses.
- No market trends (market condition adjustments, time adjustments) were applied to sales prices. Models were developed without market trends. The utilization of three years of market information without time adjustments averaged any net changes over that time period.
- This report is intended to meet the requirements of the Uniform Standards of Professional Appraisal Practice Standard 6.

## ***Identification of the Area***

### **Name or Designation:**

Area Name: Kent Meridian

### **Boundaries:**

This area is bounded on the north by SE 224<sup>th</sup> ST and SE 240<sup>th</sup> ST, on the south by the Green River and Kent-Kangley Rd, on the east by SE 148<sup>th</sup> Ave, and on the west by SR 167.

### **Maps:**

A general map of the area is included in this report. More detailed Assessor's maps are located on the 7th floor of the King County Administration Building.

### **Area Description:**

Area 61 is located halfway between Seattle and Tacoma within the City of Kent. This area consists of 2 sub areas, sub 5 which includes downtown Kent, and sub 6 which includes the south part of Kent's East Hill, Lake Meridian, and Meridian Valley Country Club. The typical quality of homes, as illustrated by the Frequency Tables is grade 7. These homes are approximately 1500 square feet in size, and were built between 1980 and 2000. Parts of this area have seen significant new plat activity and new construction. Waterfront properties consist of Lake Meridian properties and a few properties along the Green River.

## ***Preliminary Ratio Analysis***

A Ratio Study was completed just prior to the application of the 2008 recommended values. This study benchmarks the current assessment level using 2007 posted values. The study was also repeated after application of the 2008 recommended values. The results are included in the validation section of this report, showing an improvement in the COV from 13.72% to 11.69%.

## ***Scope of Data***

### **Land Value Data:**

Vacant sales from 1/2005 to 1/2008 were given primary consideration for valuing land. The allocation approach was also used and gave results that validated land values indicated by the vacant sales.

### **Improved Parcel Total Value Data:**

Sales information is obtained from excise tax affidavits and reviewed initially by the Accounting Division, Sales Identification Section. Information is analyzed and investigated by the appraiser in the process of revaluation. All sales were verified if possible by calling either the purchaser or seller, inquiring in the field or calling the real estate agent. Characteristic data is verified for all sales if possible. Due to time constraints, interior inspections were limited. Sales are listed in the "Sales Used" and "Sales Removed" sections of this report. Additional information resides in the Assessor's procedure manual located in the Public Information area of the King County Administration Building.

The Assessor maintains a cost model, which is specified by the physical characteristics of the improvement, such as first floor area, second floor area, total basement area, and number of bathrooms. The cost for each component is further calibrated to the 13 grades to account for quality of construction. Reconstruction Cost New (RCN) is calculated from adding up the cost of each component. Depreciation is then applied by means of a percent good table which is based on year built, grade, and condition, resulting in Reconstruction Cost New less Depreciation (RCNLD). The appraiser can make further adjustments for obsolescence (poor floor plan, design deficiencies, external nuisances etc.) if needed. The Assessor's cost model generates RCN and RCNLD for principal improvements and accessories such as detached garages and pools.

The Assessor's cost model was developed by the King County Department of Assessments in the early 1970's. It was recalibrated in 1990 to roughly approximate Marshall & Swift's square foot cost tables, and is indexed annually to keep up with current costs.

## **Land Model**

### ***Model Development, Description and Conclusions***

There are 7468 parcels in the 2 sub areas of 61. Within the 2 sub areas, 8 neighborhoods were identified.

#### **Neighborhood 1 – Downtown**

This neighborhood has 537 parcels and lies mostly west of Central Avenue and is divided by the city center into northern and southern sections. The northern section is zoned single-family residential. The southern section is zoned low and medium density multifamily. The homes are typically older, built mostly before 1960. The area is impacted by traffic and railroad noise.

#### **Neighborhood 2 - Off James**

This neighborhood has 258 parcels and is bounded by Central Avenue on the west, Smith Street on the south, and Alvord Avenue on the east. This neighborhood is zoned single family and was built predominately before 1970. Many homes are negatively impacted by traffic noise. Other impacts include topography and wetlands. Some properties have territory views, as one goes up the James Street hill to the east; these were considered to have a minimal impact on value

#### **Neighborhood 3 – East Hill A**

This neighborhood has 832 parcels and is east of Alvord Avenue, north of Canyon Drive SE, east of 100<sup>th</sup> Avenue SE and west of 104<sup>th</sup> Avenue SE and 108<sup>th</sup> Avenue SE. There is a mixture of house styles and ages, but most were built after 1950. Some parcels in this neighborhood have good territorial views and/or fair Olympic Mountain views. Negative impacts include traffic, streams and wetlands. There has been some new plat and new construction activity.

#### **Neighborhood 4 – Scenic Hill**

This neighborhood has 492 parcels and lies east of Central Avenue and south of Smith Street and Canyon Drive SE. While there is a mixture of house ages and styles, houses built in the 1950's and 1960's predominate in the northern portion, while houses built in the 1970's and 1980's are more common further south. Some parcels have good territorial and minor Olympic Mountain and Seattle skyline views. Traffic and topography are issues in this neighborhood.

### **Neighborhood 5 – South Kent**

This neighborhood consists of 21 parcels and lies south of 259<sup>th</sup> Avenue SE and the steep hillside acreage and valley floor parcels between the Green River and Scenic Hill.

### **Neighborhood 7 – East Hill B**

This neighborhood has 4078 parcels and comprises most of the parcels from 104<sup>th</sup> Avenue SE, on the west, to 148<sup>th</sup> Avenue SE, to the east, between SE 240<sup>th</sup> Street and Kent-Kingly Road. There is a mixture of acreage and non-acreage parcels, along with plats from the 1960's to present. Some parcels have views of Lake Meridian, and Mount Rainier, while some homes have cascade and territorial views. This area continues to see new plat activity.

### **Neighborhood 8 – Lake Meridian**

This neighborhood has 395 parcels and consists of Lake Meridian waterfront, properties with close proximity to the waterfront, and properties easterly of the lake to 148<sup>th</sup> Avenue SE.

### **Neighborhood 9 – Meridian Valley Golf and Country Club**

This neighborhood has 385 parcels and consists of properties in the Meridian Valley Golf and Country Club. This gated community features houses that were built predominantly between the mid 1970's and the mid 1980's. Meridian Valley Country Club officially opened in 1967 with 9 holes. The second 9 was opened the following year. Houses range from average/good quality, grade 8 and 9, to excellent quality grade 11 and 13.

There were few arms-length sales of vacant parcels through out the area. As such, the sales comparison approach had to be supplemented with land allocation. For land allocation we estimated the starting land-to-total value allocation of 30%. We used the starting allocation percentage in conjunction with the Assessor's depreciation table to calculate indicated land values for improved sold properties. The allocation approach gave results that were consistent with the limited number of vacant sales. Valuation was according to lot size for most parcels except for plats where a site value basis was more appropriate.

A list of vacant sales used and those considered not reflective of market are included in the following sections.

A list of vacant sales used and those considered not reflective of market are included in the following sections.

## **Land Value Model Calibration**

The Following Plats were valued on a site basis.

<b>Plat Name</b>	<b>Major</b>	<b>Site Value</b>	<b>** Wft Access Includes \$10,000 Adj</b>

## **Improved Parcel Total Value Model:**

### ***Model Development, Description and Conclusions***

Most sales were field verified and characteristics updated prior to model development. Additionally, all sales from 1/2005 to 1/2008 were given equal consideration and weight in the model. The assessment level sought in this valuation is 100% of market as mandated by the State of Washington.

The population was generally well represented by the sales sample. The exceptions were of homes on acreage, building grades below grade 5 and above grade 10, poor condition, multiple improvements, and large homes over 4000 square feet. Charts, which illustrate sample representation, are included in the Executive Summary.

Various possible variable combinations and valuation alternatives including a cost model (RCNLD) were considered in the development of the final model. Ultimately, one characteristic based multiplicative model was used for all neighborhoods. The final model, in addition to the typical variable units of building age, grade, condition, and square feet, includes several plat variables, covered parking, Lake Meridian waterfront, high grade (greater than grade 9) and neighborhood 2.

This model predicted value well for most properties. For properties that were under represented in the sales sample, the appraiser could consider using the cost approach or make market based adjustments to EMV.

The improved parcel Total Value Models are included later in this report.

EMV values were not generated for:

- Buildings with grade less than 3
- Building two or greater. (EMV is generated for building one only.)
- If total EMV is less than base land value
- Lot size less than 100 square feet

### **Improved Parcel Total Value Model Calibration (cont.)**

<b>Model Adjustments</b>	
Condition	Adjustment
Major 288797	Improvement EMV x 1.4 + New Land
Major 317190	Improvement EMV x 1.15 + New Land
Major 439703	Improvement EMV x 1.15 + New Land
AGLA>3999 (nonwft)	Improvement EMV x 1.15 + New Land
Grade 11 and above	RCNLD
Lk Meridian Waterfront	Improvement EMV x .95 + New Land
Multiple Buildings	EMV for the primary improvement + cost (RCNLD) for the secondary improvement
Grade 3 or Less	RCNLD
Poor Condition	RCNLD
Fair Condition	Imp EMV x .95 + NewLand
Unfinished Area	Cost Adjustment to EMV based on RCNLD
Percent Complete	Improvement EMV x Percent Complete + New Land
Obsolescence	Improvement EMV adjusted by percent Obsolescence
Net Condition	Improvement RCNLD + New Land
Carports	\$2000 per stall
Accessories	Total EMV + Accessory RCNLD
Accessory Only	Accessory RCNLD + New Land
Pools	EMV + Pool RCNLD x .25

## ***Glossary for Improved Sales***

### **Condition: Relative to Age and Grade**

1= Poor	Many repairs needed. Showing serious deterioration
2= Fair	Some repairs needed immediately. Much deferred maintenance.
3= Average	Depending upon age of improvement; normal amount of upkeep for the age of the home.
4= Good	Condition above the norm for the age of the home. Indicates extra attention and care has been taken to maintain
5= Very Good	Excellent maintenance and updating on home. Not a total renovation.

### **Residential Building Grades**

Grades 1 - 3	Falls short of minimum building standards. Normally cabin or inferior structure.
Grade 4	Generally older low quality construction. Does not meet code.
Grade 5	Lower construction costs and workmanship. Small, simple design.
Grade 6	Lowest grade currently meeting building codes. Low quality materials, simple designs.
Grade 7	Average grade of construction and design. Commonly seen in plats and older subdivisions.
Grade 8	Just above average in construction and design. Usually better materials in both the exterior and interior finishes.
Grade 9	Better architectural design, with extra exterior and interior design and quality.
Grade 10	Homes of this quality generally have high quality features. Finish work is better, and more design quality is seen in the floor plans and larger square footage.
Grade 11	Custom design and higher quality finish work, with added amenities of solid woods, bathroom fixtures and more luxurious options.
Grade 12	Custom design and excellent builders. All materials are of the highest quality and all conveniences are present
Grade 13	Generally custom designed and built. Approaching the Mansion level. Large amount of highest quality cabinet work, wood trim and marble; large entries.

## **Model Validation**

### ***Total Value Model Conclusions, Recommendations and Validation:***

Appraiser judgment prevails in all decisions regarding individual parcel valuation. Each parcel is field reviewed and a value selected based on general and specific data pertaining to the parcel, the neighborhood, and the market. The Appraiser determines which available value estimate may be appropriate and may adjust particular characteristics and conditions as they occur in the valuation area.

Application of the Total Value Model described above results in improved equity between sub areas, grades, living area, and age of homes. In addition the resulting assessment level is 98.4%. The standard statistical measures of valuation performance are all within IAAO guidelines and are presented both in the Executive Summary and in the Physical Inspection Ratio Study Report (Before) and (After) included in this report.

*The Appraisal Team recommends application of the Appraiser selected values, as indicated by the appropriate model or method.*

Application of these recommended values for the 2008 assessment year (taxes payable in 2009) results in an average total change from the 2007 assessments of +11.2%. This increase is due partly to upward market changes over time and the previous assessment levels.

**Note:** More details and information regarding aspects of the valuations and the report are retained in the working files and folios kept in the appropriate district office.

## ***Area 61 Physical Inspection Ratio Confidence Intervals***

These tables represent the percentage changes for specific characteristics.

A 2008 LOWER 95% C.L. greater than the overall weighted mean indicates that assessment levels may be relatively high. A 2007 UPPER 95% C.L. less than the overall weighted mean indicates that levels may be relatively low. The overall 2008 weighted mean is 0.984

The confidence interval for the arithmetic mean is used as an estimate for the weighted mean.

It is difficult to draw valid conclusions when the sales count is low.

Bldg Grade	Count	2007 Weighted Mean	2008 Weighted Mean	Percent Change	2008 Lower 95% C.L.	2008 Upper 95% C.L.

#### COMMENTS:

1 to 3 Unit Residences throughout area 61

Both assessment level and uniformity have been improved by application of the recommended values.

## **Mobile Home Analysis**

### **Scope of Mobile Home Data**

There are 24 parcels in Area 61 that are improved with a mobile home including 7 sales used in the valuation. Sales used were from 1/1/2005 through 12/31/2007. A list of sales used is included in this report. However, there were not enough sales for a separate mobile home analysis.

### **Model Development, Description and Conclusions**

Boeckh's Manufactured Housing Cost Guide was used for the valuation of all mobile homes.

Appraiser judgment prevails in all decisions regarding individual parcel valuation. Each parcel is field-reviewed and a value is selected based on general and specific data pertaining to the parcel, the neighborhood, and the market. The appraiser determines which available value estimate may be appropriate and may adjust particular characteristics and conditions as they occur in the valuation area.

*The Appraisal Team recommends application of the Appraiser selected values for mobile homes, as indicated by the appropriate model or method.*

Application of these recommended values for the 2008 assessment year (taxes payable in 2009) results in an average total change from the 2007 assessments of 21.9%. This increase is due to upward market changes to land and the previous assessment level.

**Note:** More details and information regarding aspects of the valuations and the report are retained in the working files kept in the appropriate district office.

### **Mobile Home Model**

Boeckh's Manufacturing Housing Cost + New land = Total Value

## **Client and Intended Use of the Appraisal:**

This mass appraisal report is intended for use only by the King County Assessor and other agencies or departments administering or confirming ad valorem property taxes. Use of this report by others is not intended by the appraiser. The use of this appraisal, analyses and conclusions is limited to the administration of ad valorem property taxes in accordance with Washington State law. As such it is written in concise form to minimize paperwork. The assessor intends that this report conform to the Uniform Standards of Professional Appraisal Practice (USPAP) requirements for a **mass appraisal report** as stated in USPAP SR 6-8. To fully understand this report the reader may need to refer to the Assessor's Property Record Files, Assessors Real Property Data Base, separate studies, Assessor's Procedures, Assessor's field maps, Revalue Plan and the statutes.

The purpose of this report is to explain and document the methods, data and analysis used in the revaluation of King County. King County is on a six year physical inspection cycle with annual statistical updates. The revaluation plan is approved by Washington State Department of Revenue. The Revaluation Plan is subject to their periodic review.

## **Definition and Date of Value Estimate:**

### **Market Value**

*The basis of all assessments is the true and fair value of property. True and fair value means market value (Spokane etc. R. Company v. Spokane County, 75 Wash. 72 (1913); Mason County Overtaxed, Inc. v. Mason County, 62 Wn. 2d (1963); AGO 57-58, No. 2, 1/8/57; AGO 65-66, No. 65, 12/31/65). The true and fair value of a property in money for property tax valuation purposes is its "market value" or amount of money a buyer willing but not obligated to buy would pay for it to a seller willing but not obligated to sell. In arriving at a determination of such value, the assessing officer can consider only those factors which can within reason be said to affect the price in negotiations between a willing purchaser and a willing seller, and he must consider all of such factors. (AGO 65,66, No. 65, 12/31/65)*

### **Highest and Best Use**

**RCW 84.40.030** All property shall be valued at one hundred percent of its true and fair value in money and assessed on the same basis unless specifically provided otherwise by law.

An assessment may not be determined by a method that assumes a land usage or highest and best use not permitted, for that property being appraised, under existing zoning or land use planning ordinances or statutes or other government restrictions.

**WAC 458-07-030 (3) True and fair value -- Highest and best use.** Unless specifically provided otherwise by statute, all property shall be valued on the basis of its highest and best use for assessment purposes. Highest and best use is the most profitable, likely use to which a property can be put. It is the use which will yield the highest return on the owner's investment. Any reasonable use to which the property may be put may be taken into consideration and if it is peculiarly adapted to some particular use, that fact may be taken into consideration. Uses that are within the realm of possibility, but not reasonably probable of occurrence, shall not be considered in valuing property at its highest and best use.

*If a property is particularly adapted to some particular use this fact may be taken into consideration in estimating the highest and best use. (Sammish Gun Club v. Skagit County, 118 Wash. 578 (1922)) The present use of the property may constitute its highest and best use. The appraiser shall, however, consider the uses to which similar property similarly located is being*

*put. (Finch v. Grays Harbor County, 121 Wash. 486 (1922)) The fact that the owner of the property chooses to use it for less productive purposes than similar land is being used shall be ignored in the highest and best use estimate. (Sammish Gun Club v. Skagit County, 118 Wash. 578 (1922))*

*Where land has been classified or zoned as to its use, the county assessor may consider this fact, but he shall not be bound to such zoning in exercising his judgment as to the highest and best use of the property. (AGO 63-64, No. 107, 6/6/64)*

### **Date of Value Estimate**

*All property now existing, or that is hereafter created or brought into this state, shall be subject to assessment and taxation for state, county, and other taxing district purposes, upon equalized valuations thereof, fixed with reference thereto on the first day of January at twelve o'clock meridian in each year, excepting such as is exempted from taxation by law. [1961 c 15 §84.36.005]*

*The county assessor is authorized to place any property that is increased in value due to construction or alteration for which a building permit was issued, or should have been issued, under chapter 19.27, 19.27A, or 19.28 RCW or other laws providing for building permits on the assessment rolls for the purposes of tax levy up to August 31st of each year. The assessed valuation of the property shall be considered as of July 31st of that year. [1989 c 246 § 4]*

*Reference should be made to the property card or computer file as to when each property was valued. Sales consummating before and after the appraisal date may be used and are analyzed as to their indication of value at the date a valuation. If market conditions have changed then the appraisal will state a logical cutoff date after which no market date is used as an indicator of value.*

### **Property Rights Appraised:**

#### **Fee Simple**

**Wash Constitution Article 7 § 1 Taxation:** *All taxes shall be uniform upon the same class of property within the territorial limits of the authority levying the tax and shall be levied and collected for public purposes only. The word "property" as used herein shall mean and include everything, whether tangible or intangible, subject to ownership. All real estate shall constitute one class.*

**Trimble v. Seattle, 231 U.S. 683, 689, 58 L. Ed. 435, 34 S. Ct. 218 (1914)** "the entire [fee] estate is to be assessed and taxed as a unit"

**Folsom v. Spokane County, 111 Wn. 2d 256 (1988)** "the ultimate appraisal should endeavor to arrive at the fair market value of the property as if it were an unencumbered fee"

*The definition of fee simple estate as taken from The Third Edition of The Dictionary of Real Estate Appraisal, published by the Appraisal Institute. "Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat."*

## **Assumptions and Limiting Conditions:**

1. No opinion as to title is rendered. Data on ownership and legal description were obtained from public records. Title is assumed to be marketable and free and clear of all liens and encumbrances, easements and restrictions unless shown on maps or property record files. The property is appraised assuming it to be under responsible ownership and competent management and available for its highest and best use.
2. No engineering survey has been made by the appraiser. Except as specifically stated, data relative to size and area were taken from sources considered reliable, and no encroachment of real property improvements is assumed to exist.
3. No responsibility for hidden defects or conformity to specific governmental requirements, such as fire, building and safety, earthquake, or occupancy codes, can be assumed without provision of specific professional or governmental inspections.
4. Rental areas herein discussed have been calculated in accord with generally accepted industry standards.
5. The projections included in this report are utilized to assist in the valuation process and are based on current market conditions and anticipated short term supply demand factors. Therefore, the projections are subject to changes in future conditions that cannot be accurately predicted by the appraiser and could affect the future income or value projections.
6. The property is assumed uncontaminated unless the owner comes forward to the Assessor and provides other information.
7. The appraiser is not qualified to detect the existence of potentially hazardous material which may or may not be present on or near the property. The existence of such substances may have an effect on the value of the property. No consideration has been given in this analysis to any potential diminution in value should such hazardous materials be found (unless specifically noted). We urge the taxpayer to retain an expert in the field and submit data affecting value to the assessor.
8. No opinion is intended to be expressed for legal matters or that would require specialized investigation or knowledge beyond that ordinarily employed by real estate appraisers, although such matters may be discussed in the report.
9. Maps, plats and exhibits included herein are for illustration only, as an aid in visualizing matters discussed within the report. They should not be considered as surveys or relied upon for any other purpose.
10. The appraisal is the valuation of the fee simple interest. Unless shown on the Assessor's parcel maps, easements adversely affecting property value were not considered.
11. An attempt to segregate personal property from the real estate in this appraisal has been made.
12. Items which are considered to be "typical finish" and generally included in a real property transfer, but are legally considered leasehold improvements are included in the valuation unless otherwise noted.
13. The movable equipment and/or fixtures have not been appraised as part of the real estate. The identifiable permanently fixed equipment has been appraised in accordance with RCW 84.04.090 and WAC 458-12-010.
14. I have considered the effect of value of those anticipated public and private improvements of which I have common knowledge. I can make no special effort to contact the various jurisdictions to determine the extent of their public improvements.
15. Exterior inspections were made of all properties in the physical inspection areas (outlined in the body of the report) however; due to lack of access and time few received interior inspections.

### **Scope of Work Performed:**

*Research and analyses performed are identified in the body of the revaluation report. The assessor has no access to title reports and other documents. Because of legal limitations we did not research such items as easements, restrictions, encumbrances, leases, reservations, covenants, contracts, declarations and special assessments. Disclosure of interior home features and, actual income and expenses by property owners is not a requirement by law therefore attempts to obtain and analyze this information are not always successful. The mass appraisal performed must be completed in the time limits indicated in the Revaluation Plan and as budgeted. The scope of work performed and disclosure of research and analyses not performed are identified throughout the body of the report.*

## **CERTIFICATION:**

*I certify that, to the best of my knowledge and belief:*

- *The statements of fact contained in this report are true and correct*
- *The report analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.*
- *I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.*
- *I have no bias with respect to the property that is the subject of this report or to the parties involved.*
- *My engagement in this assignment was not contingent upon developing or reporting predetermined results.*
- *My compensation for completing this assignment is not contingent upon the development or reporting of predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.*
- *My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.*
- *The area(s) physically inspected for purposes of this revaluation are outlined in the body of this report.*

## MEMORANDUM

DATE: January 7, 2008

TO: Residential Appraisers

FROM: Scott Noble, Assessor

SUBJECT: 2008 Revaluation for 2009 Tax Roll

---

The King County Assessor, as elected representative of the people of King County, is your client for the mass appraisal and report. The King County Department of Assessments subscribes to the Uniform Standards of Professional Appraisal Practice 2008. You will perform your appraisals and complete your mass appraisal reports in compliance with Standard 6 of USPAP 2008. The following are your appraisal instructions and conditions:

1. You are to timely appraise the area or properties assigned to you by the revalue plan. The Scope of Work may be modified as necessary including special limiting conditions to complete the Revalue Plan.
2. You are to use all appropriate mass appraisal techniques as stated in USPAP, Washington State Law; Washington State Administrative Code, IAAO texts or classes.
3. The standard for validation models is the standard as delineated by IAAO in their Standard on Ratio Studies (approved July 2007); and
4. Any and all other standards as published by the IAAO.
5. Appraise land as if vacant and available for development to its highest and best use. The improvements are to be valued at their contribution to the total.
6. You must complete the revalue in compliance with all Washington and King County laws, codes and with due consideration of Department of Revenue guidelines. The Jurisdictional Exception is to be invoked in case USPAP does not agree with these public policies.

7. Physical inspections should be completed per the revaluation plan and statistical updates completed on the remainder of the properties as appropriate.
8. You must complete a written mass appraisal report for each area and a statistical update report in compliance with USPAP Standard 6.
9. All sales of land and improved properties should be validated as correct and verified with participants as necessary.
10. You must use at least three years of sales. No adjustments to sales prices shall be made to avoid any possibility of speculative market conditions skewing the basis for taxation.
11. Continue to review dollar per square foot as a check and balance to assessment value.
12. The intended use of the appraisal and report is the administration of ad valorem property taxation.
13. The intended users include the Assessor, Board of Equalization, Board of Tax Appeals, King County Prosecutor and Department of Revenue.
