**Lloyd Hara**  
*Assessor*

Dear Property Owners:

Property assessments for the 2011 assessment year are being completed by my staff throughout the year and change of value notices are being mailed as neighborhoods are completed.

We have worked hard to implement your suggestions to place more information in an e-Environment to meet your needs for timely and accurate information. The following report summarizes the results of the 2011 assessment for this area. (See map within report). It is meant to provide you with helpful background information about the process used and basis for property assessments in your area.

Fair and uniform assessments set the foundation for effective government and I am pleased that we are able to make continuous and ongoing improvements to serve you.

Please feel welcome to call my staff if you have questions about the property assessment process and how it relates to your property.

Sincerely,

Lloyd Hara  
Assessor

# Executive Summary Report

## Characteristics-Based Market Adjustment for 2011 Assessment Roll

**Area Name / Number:** Vashon Island / 100

**Previous Physical Inspection:** 2007

### Improved Sales:

Number of Sales: 160

Range of Sale Dates: 1/1/2008 - 1/1/2011

Sales – Average Improved Valuation Change Summary						
	Land	Imps	Total	Sale Price**	Ratio	COV*
<b>2010 Value</b>	\$163,200	\$238,600	\$401,800			
<b>2011 Value</b>	\$156,200	\$231,800	\$388,000	\$428,700	90.5%	16.90%
<b>Change</b>	-\$7,000	-\$6,800	-\$13,800			
<b>% Change</b>	-4.3%	-2.8%	-3.4%			

\*COV is a measure of uniformity; the lower the number the better the uniformity.

\*\* Sales time adjusted to 1/1/2011.

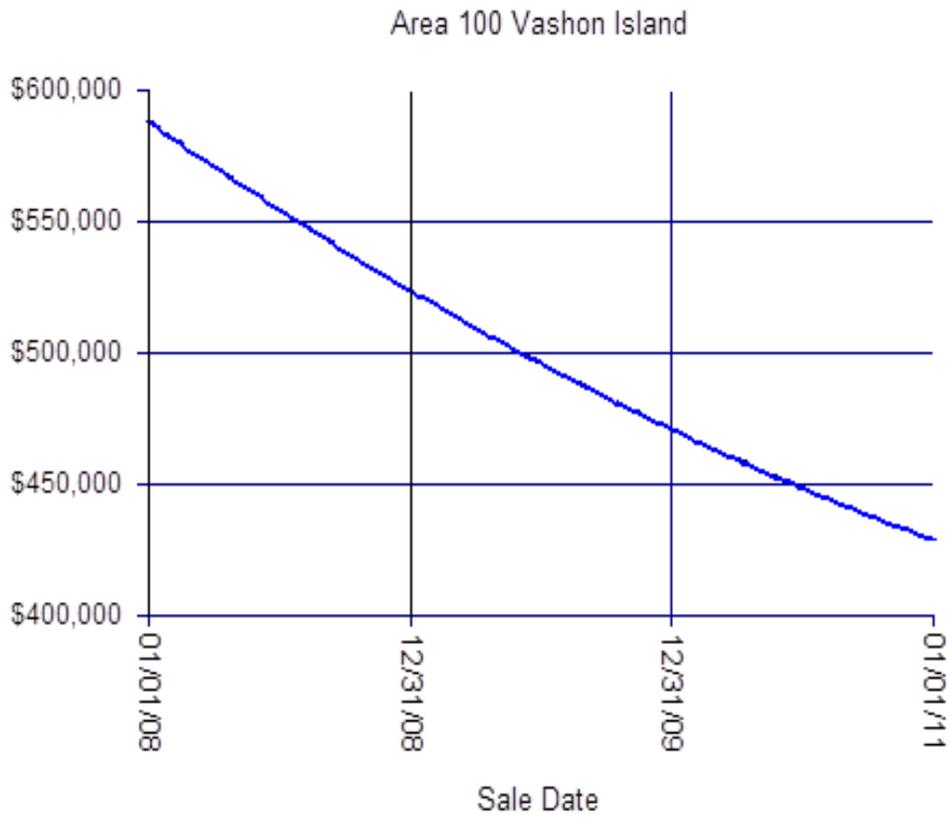

Sales used in this analysis: All sales of one to three unit residences on residential lots which were verified as, or appeared to be market sales were considered for the analysis. Sales were time adjusted to 1/1/2011. Individual sales that were excluded are listed later in this report. Multi-parcel sales, multi-building sales, mobile home sales, and sales of new construction where less than a 100% complete house was assessed for 2010 or any existing residence where the data for 2010 is significantly different from the data for 2011 due to remodeling were also excluded. In addition, the summary above excludes sales of parcels that had improvement value of \$25,000 or less posted for the 2010 Assessment Roll. This also excludes previously vacant and destroyed property partial value accounts.

Population - Improved Parcel Summary:			
	Land	Imps	Total
<b>2010 Value</b>	\$200,000	\$225,700	\$425,700
<b>2011 Value</b>	\$192,700	\$218,500	\$411,200
<b>Percent Change</b>	-3.7%	-3.2%	-3.4%

Number of one to three unit residences in the Population: 4193

**Summary of Findings:** The analysis for this area consisted of a general review of applicable characteristics such as grade, age, condition, stories, living area, views, waterfront, lot size, land problems and neighborhoods. The analysis results showed that the area required a single standard area adjustment.

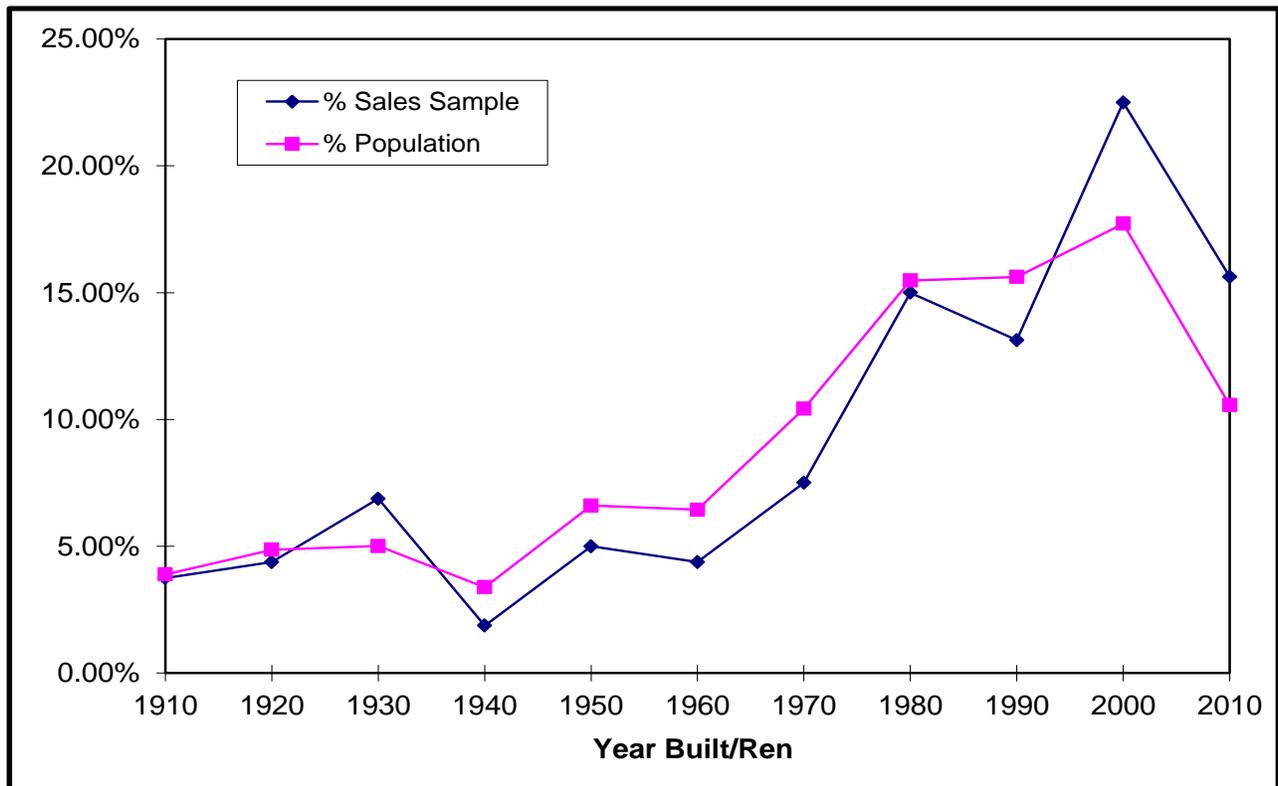

**Market Change of Average Sale Price in Area 100**  
**From 1/1/2008 to 1/1/2011**

### **Sales Sample Representation of Population - Year Built / Renovated**

<b>Sales Sample</b>		
Year Built/Ren	Frequency	% Sales Sample
1910	6	3.75%
1920	7	4.38%
1930	11	6.88%
1940	3	1.88%
1950	8	5.00%
1960	7	4.38%
1970	12	7.50%
1980	24	15.00%
1990	21	13.13%
2000	36	22.50%
2010	25	15.63%
	160	

<b>Population</b>		
Year Built/Ren	Frequency	% Population
1910	163	3.89%
1920	204	4.87%
1930	210	5.01%
1940	142	3.39%
1950	277	6.61%
1960	270	6.44%
1970	437	10.42%
1980	649	15.48%
1990	655	15.62%
2000	743	17.72%
2010	443	10.57%
	4193	

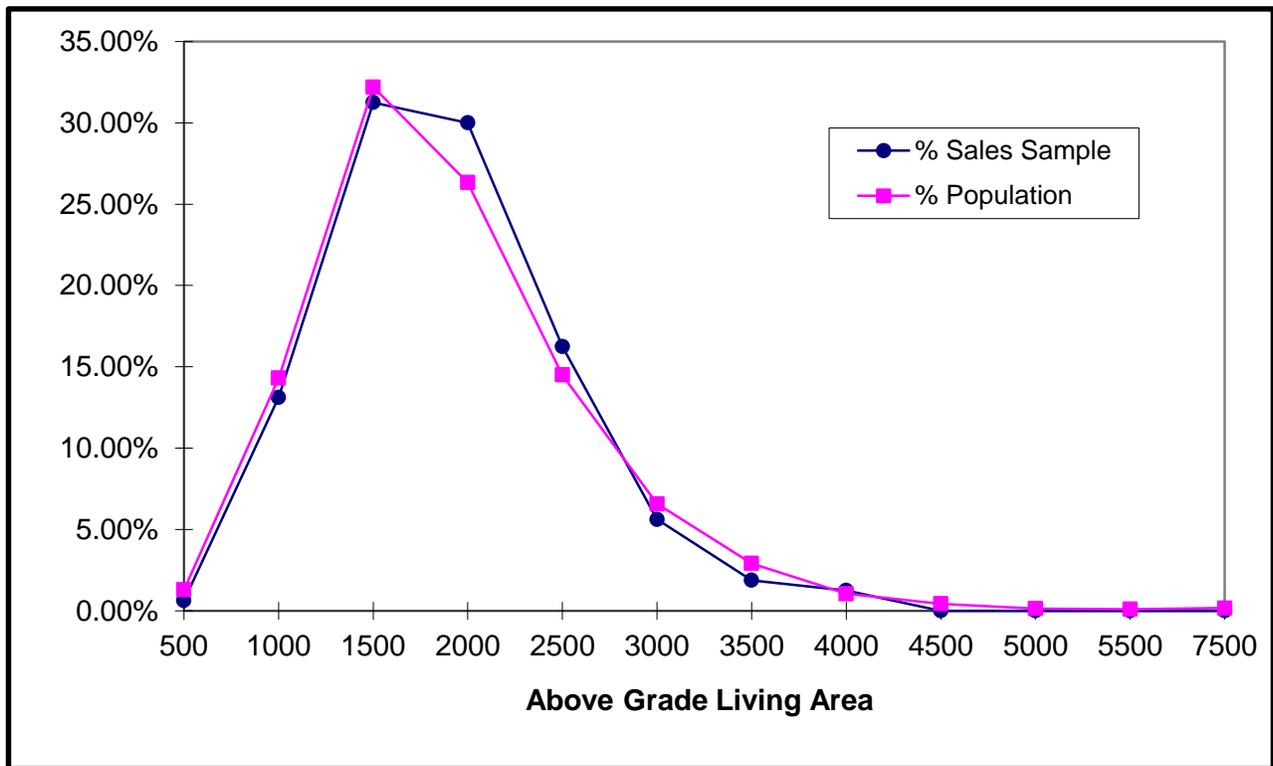

Sales of new homes built over the last few years are over represented in this sample. This is a common occurrence due to the fact that most new homes will sell shortly after completion. This over representation was found to lack statistical significance during the modeling process.

### **Sales Sample Representation of Population - Above Grade Living Area**

<b>Sales Sample</b>		
AGLA	Frequency	% Sales Sample
500	1	0.63%
1000	21	13.13%
1500	50	31.25%
2000	48	30.00%
2500	26	16.25%
3000	9	5.63%
3500	3	1.88%
4000	2	1.25%
4500	0	0.00%
5000	0	0.00%
5500	0	0.00%
7500	0	0.00%
	160	

<b>Population</b>		
AGLA	Frequency	% Population
500	54	1.29%
1000	600	14.31%
1500	1350	32.20%
2000	1104	26.33%
2500	608	14.50%
3000	276	6.58%
3500	122	2.91%
4000	44	1.05%
4500	18	0.43%
5000	6	0.14%
5500	4	0.10%
7500+	7	0.17%
	4193	

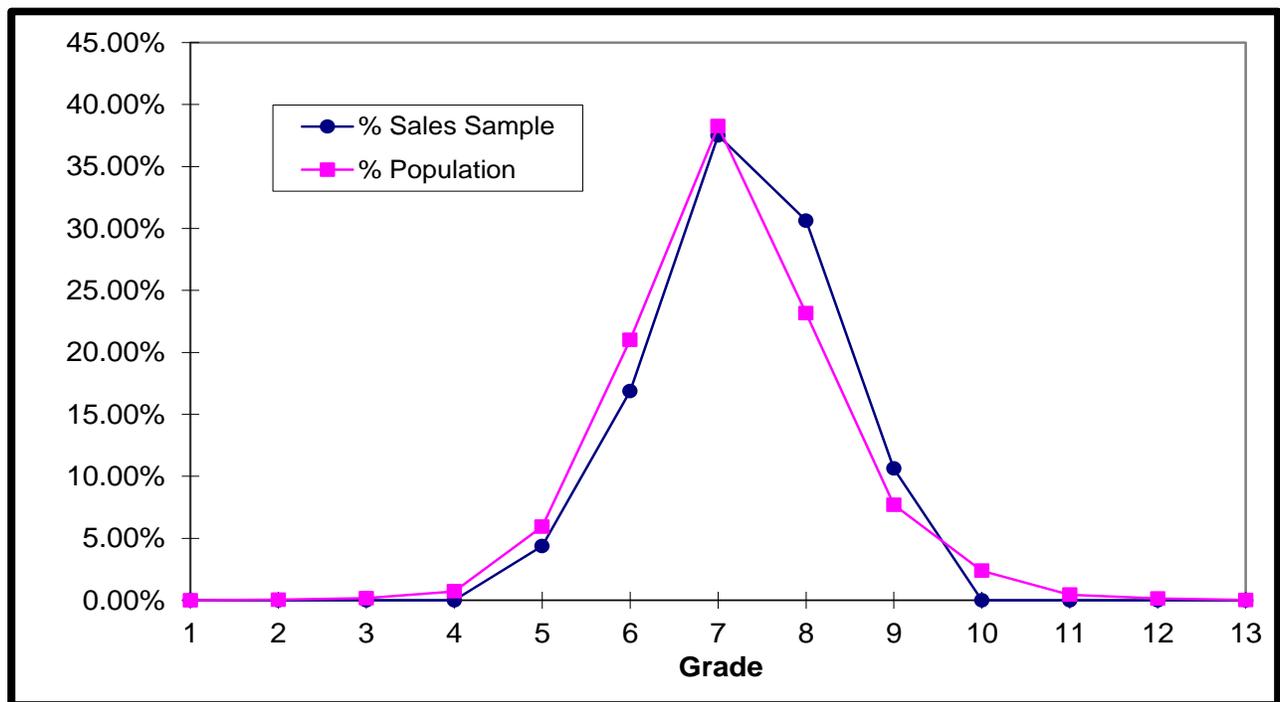

The sales sample frequency distribution follows the population distribution very closely with regard to Above Grade Living Area. This distribution is ideal for both accurate analysis and appraisals.

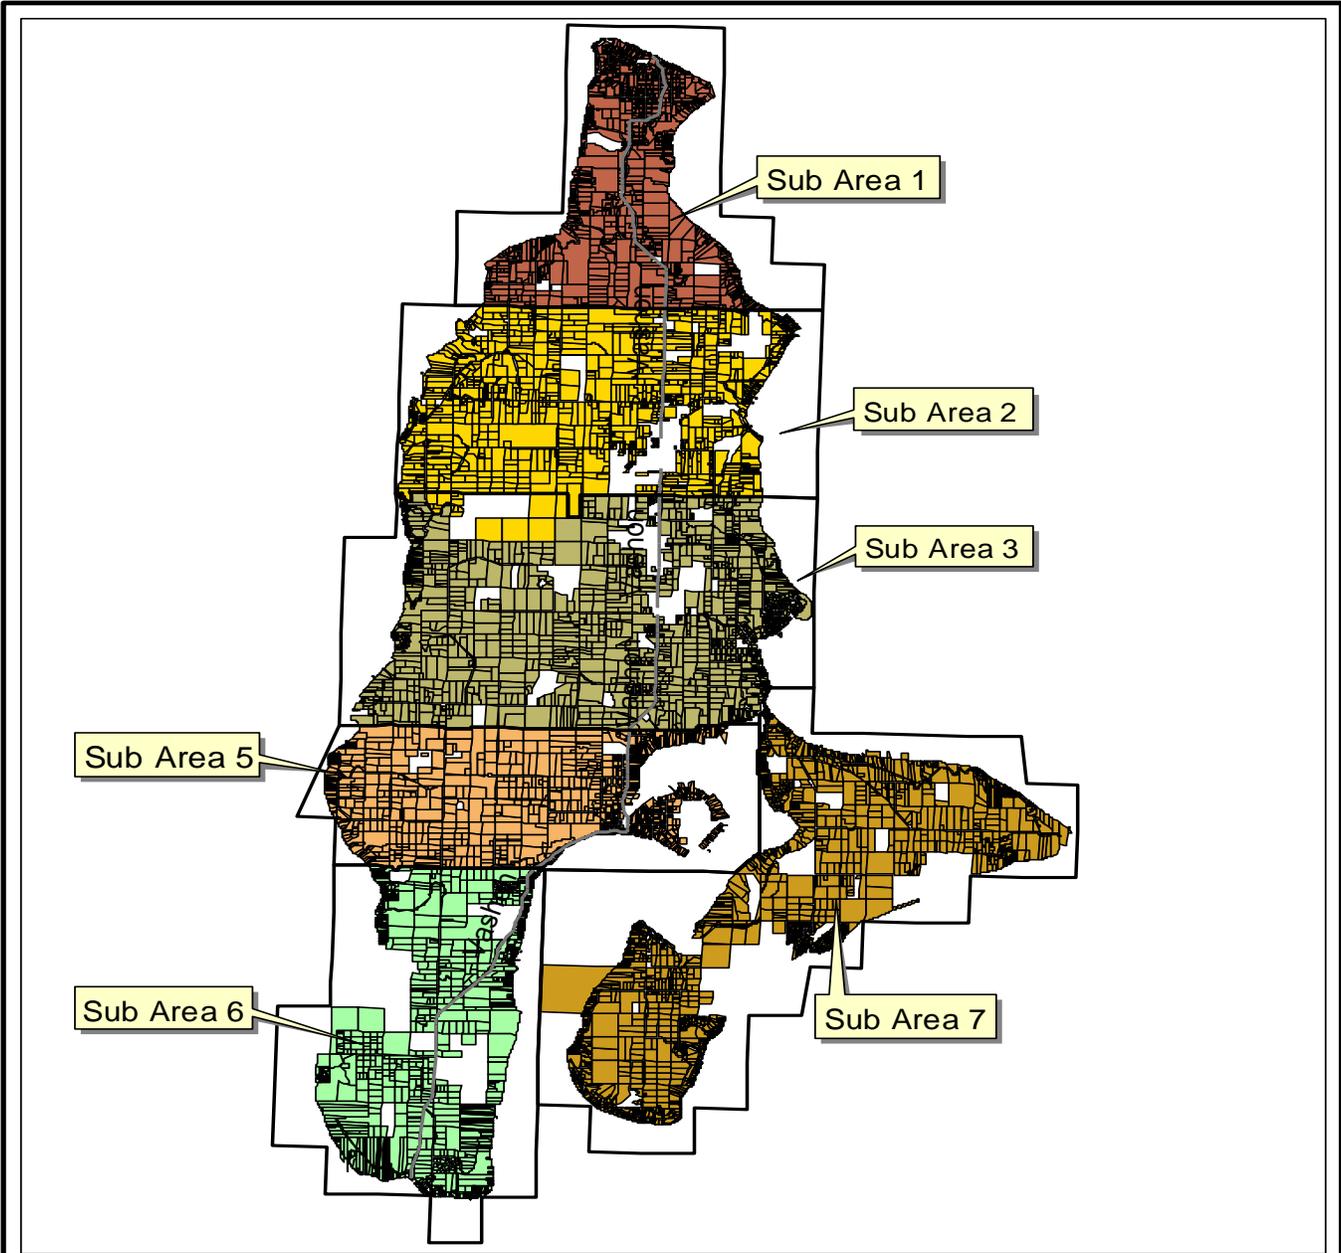

### Sales Sample Representation of Population - Grade

Sales Sample		
Grade	Frequency	% Sales Sample
1	0	0.00%
2	0	0.00%
3	0	0.00%
4	0	0.00%
5	7	4.38%
6	27	16.88%
7	60	37.50%
8	49	30.63%
9	17	10.63%
10	0	0.00%
11	0	0.00%
12	0	0.00%
13	0	0.00%
	160	

Population		
Grade	Frequency	% Population
1	0	0.00%
2	2	0.05%
3	7	0.17%
4	30	0.72%
5	249	5.94%
6	881	21.01%
7	1604	38.25%
8	971	23.16%
9	323	7.70%
10	100	2.38%
11	19	0.45%
12	6	0.14%
13	1	0.02%
	4193	

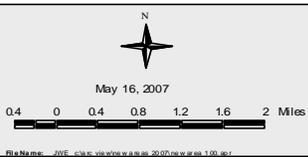

The sales sample frequency distribution follows the population distribution very closely with regard to Building Grade. This distribution is ideal for both accurate analysis and appraisals.

# Annual Update Process

***Effective Date of Appraisal: January 1, 2011***

***Date of Appraisal Report: July 25, 2011***

## ***King County Revaluation Cycle***

King County's revaluation plan as approved by the Washington State Department of Revenue is an annual revaluation cycle with physical inspection of all properties at least once every six years. Physical inspection of properties meets the requirements of RCW 84.41.041 and WAC 458-07-015. During the interval between each physical inspection, the annual revaluation cycle requires the valuation of property be adjusted to current true and fair value based on appropriate statistical data. Annually, approximately one-sixth of all residential properties are physically inspected and appraised with new land and total property valuation models calibrated and specified using multiple regression analysis.

## ***Data Utilized***

Available sales closed from 1/1/2008 through 1/1/2011 were considered in this analysis. The sales and population data were extracted from the King County Assessor's residential database.

## ***Sales Screening for Improved Parcel Analysis***

Improved residential sales removal occurred for parcels meeting the following criteria:

1. Vacant parcels
2. Mobile home parcels
3. Multi-parcel or multi-building sales
4. New construction where less than a 100% complete house was assessed for 2010
5. Existing residences where the data for 2010 is significantly different than the data for 2011 due to remodeling
6. Parcels with improvements value, but no building characteristics
7. Sales not at market.
8. Others as identified in the sales deleted list

See the attached *Improved Sales Used in this Annual Update Analysis* and *Improved Sales Removed from this Annual Update Analysis* at the end of this report for more detailed information.

### ***Land Update***

Vacant land in this area is in a holding pattern with a strong lack of development. This results in limited land segregation and permit activity. Based on the 18 usable land sales available in the area and supplemented by the value decrease in sales of improved parcels, a 3.4% overall decrease (based on truncation) was made in land assessment for the 2011 Assessment Year. The formula is:

2011 Land Value = 2010 Land Value x .966, with the result rounded down to the next \$1,000.

### ***Improved Parcel Update***

The analysis for this area consisted of a general review of applicable characteristics such as grade, age, condition, stories, living area, views, waterfront, lot size, land problems and neighborhoods. The analysis results showed that the area required a single standard area adjustment.

With the exception of real property mobile home parcels & parcels with “accessory only” improvements, the new recommended values on all improved parcels were based on the analysis of the 160 useable residential sales in the area.

Sales used in the valuation model were time adjusted to January 1, 2011. The chosen adjustment model was developed using multiple regression. The 2010 assessment ratio (Assessed Value divided by Sale Price) was the dependent variable.

An explanatory adjustment table is included in this report.

### ***Model Validation***

The resulting assessment level is 90.5%. The standard statistical measures of valuation performance are all within the IAAO recommended range of .90 to 1.10 and are presented both in the Executive Summary and in the Annual Update Ratio Study Report (Before) and (After) included in this report.

Application of these recommended values for the 2011 assessment year (taxes payable in 2012) results in an average total change from the 2010 assessments of -3.4%. This decrease is due partly to market changes over time and the previous assessment levels.

Note: Additional information may reside in the Assessor's Real Property Database, Assessor's procedures, Assessor's "field" maps, Revalue Plan, separate studies, and statutes.

## Area 100 Annual Update Model Adjustments

**2011 Total Value = 2010 Total Value + Overall +/- Characteristic Adjustments as Apply Below**

Due to rounding of the coefficient values used to develop the percentages and further rounding of the percentages in this table, the results you will obtain are an approximation of adjustment achieved in production.

### Standard Area Adjustment

-3.30%

#### Comments

The percentages listed are total adjustments not additive adjustments.

100% of the population of 1 to 3 Unit Residences in the area are adjusted by the Standard Area Adjustment alone.

**Area 100 Sale Price changes** (Relative to 1/1/2011 valuation date.)

In a changing market, recognition of a sales trend is required to accurately estimate value as of a certain date. Assessed values are determined as of January 1 of a given year.

<b>Market Adjustment to 1/1/2011</b>		
Sale Date	Downward Adjustment (Factor)	Equivalent Percent
1/1/2008	0.727	-27.3%
2/1/2008	0.735	-26.5%
3/1/2008	0.742	-25.8%
4/1/2008	0.750	-25.0%
5/1/2008	0.757	-24.3%
6/1/2008	0.765	-23.5%
7/1/2008	0.773	-22.7%

### COMMENTS:

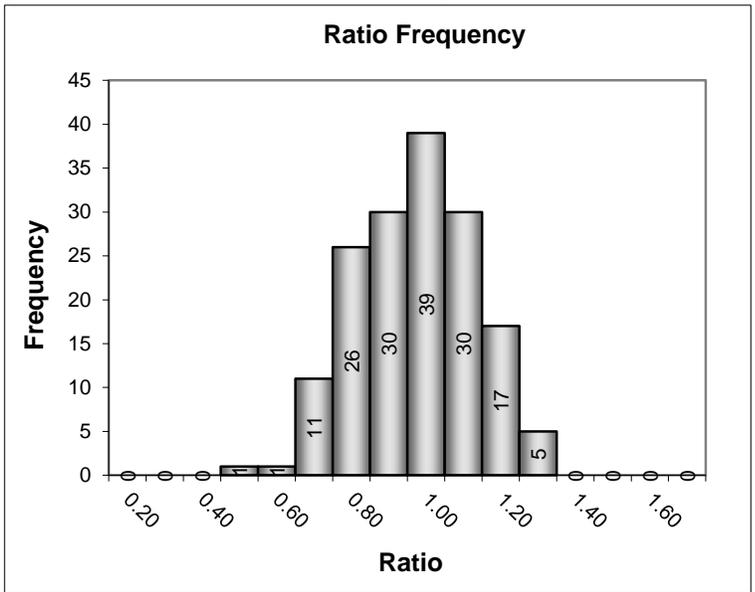

1 to 3 Unit Residences throughout area 100

Sales Prices are adjusted for time to the Assessment Date of 1/1/2011

**Glossary for Improved Sales**

**Condition: Relative to Age and Grade**

- 1= Poor            Many repairs needed. Showing serious deterioration
- 2= Fair            Some repairs needed immediately. Much deferred maintenance.
- 3= Average        Depending upon age of improvement; normal amount of upkeep for the age of the home.
- 4= Good            Condition above the norm for the age of the home. Indicates extra attention and care has been taken to maintain
- 5= Very Good     Excellent maintenance and updating on home. Not a total renovation.

**Residential Building Grades**

- Grades 1 - 3      Falls short of minimum building standards. Normally cabin or inferior structure.
- Grade 4            Generally older low quality construction. Does not meet code.
- Grade 5            Lower construction costs and workmanship. Small, simple design.
- Grade 6            Lowest grade currently meeting building codes. Low quality materials, simple designs.
- Grade 7            Average grade of construction and design. Commonly seen in plats and older subdivisions.
- Grade 8            Just above average in construction and design. Usually better materials in both the exterior and interior finishes.
- Grade 9            Better architectural design, with extra exterior and interior design and quality.
- Grade 10           Homes of this quality generally have high quality features. Finish work is better, and more design quality is seen in the floor plans and larger square footage.
- Grade 11           Custom design and higher quality finish work, with added amenities of solid woods, bathroom fixtures and more luxurious options.
- Grade 12           Custom design and excellent builders. All materials are of the highest quality and all conveniences are present.
- Grade 13           Generally custom designed and built. Approaching the Mansion level. Large amount of highest quality cabinet work, wood trim and marble; large entries.

**Client and Intended Use of the Appraisal:**

*This mass appraisal report is intended for use only by the King County Assessor and other agencies or departments administering or confirming ad valorem property taxes. Use of this report by others is not intended by the appraiser. The use of this appraisal, analyses and conclusions is limited to the administration of ad valorem property taxes in accordance with Washington State law. As such it is written in concise form to minimize paperwork. The assessor intends that this report conform to the Uniform Standards of Professional Appraisal Practice (USPAP) requirements for a **mass appraisal report** as stated in USPAP SR 6-8. To fully understand this report the reader may need to refer to the Assessor’s Property Record Files, Assessors Real Property Data Base, separate studies, Assessor’s Procedures, Assessor’s field maps, Revalue Plan and the statutes.*

*The purpose of this report is to explain and document the methods, data and analysis used in the revaluation of King County. King County is on a six year physical inspection cycle with annual statistical updates. The revaluation plan is approved by Washington State Department of Revenue. The Revaluation Plan is subject to their periodic review.*

**Definition and date of value estimate:**

**Market Value**

*The basis of all assessments is the true and fair value of property. True and fair value means market value (Spokane etc. R. Company v. Spokane County, 75 Wash. 72 (1913); Mason County Overtaxed, Inc. v. Mason County, 62 Wn. 2d (1963); AGO 57-58, No. 2, 1/8/57; AGO 65-66, No. 65, 12/31/65). The true and fair value of a property in money for property tax valuation purposes is its “market value” or amount of money a buyer willing but not obligated to buy would pay for it to a seller willing but not obligated to sell. In arriving at a determination of such value, the assessing officer can consider only those factors which can within reason be said to affect the price in negotiations between a willing purchaser and a willing seller, and he must consider all of such factors. (AGO 65,66, No. 65, 12/31/65)*

*Retrospective market values are reported herein because the date of the report is subsequent to the effective date of valuation. The analysis reflects market conditions that existed on the effective date of appraisal.*

**Highest and Best Use**

**RCW 84.40.030** *All property shall be valued at one hundred percent of its true and fair value in money and assessed on the same basis unless specifically provided otherwise by law.*

*An assessment may not be determined by a method that assumes a land usage or highest and best use not permitted, for that property being appraised, under existing zoning or land use planning ordinances or statutes or other government restrictions.*

**WAC 458-07-030 (3) True and fair value -- Highest and best use.** *Unless specifically provided otherwise by statute, all property shall be valued on the basis of its highest and best use for assessment purposes. Highest and best use is the most profitable, likely use to which a property can be put. It is the use which will yield the highest return on the owner's investment. Any reasonable use to which the property may be put may be taken into consideration and if it is peculiarly adapted to some particular use, that fact may be taken into consideration. Uses that are within the realm of possibility, but not reasonably probable of occurrence, shall not be considered in valuing property at its highest and best use.*

*If a property is particularly adapted to some particular use this fact may be taken into consideration in estimating the highest and best use. (Sammish Gun Club v. Skagit County, 118 Wash. 578 (1922)) The present use of the property may constitute its highest and best use. The appraiser shall, however, consider the uses to which similar property similarly located is being put. (Finch v. Grays Harbor County, 121 Wash. 486 (1922)) The fact that the owner of the property chooses to use it for less*

*productive purposes than similar land is being used shall be ignored in the highest and best use estimate. (Sammish Gun Club v. Skagit County, 118 Wash. 578 (1922))*

*Where land has been classified or zoned as to its use, the county assessor may consider this fact, but he shall not be bound to such zoning in exercising his judgment as to the highest and best use of the property. (AGO 63-64, No. 107, 6/6/64)*

### **Date of Value Estimate**

*All property now existing, or that is hereafter created or brought into this state, shall be subject to assessment and taxation for state, county, and other taxing district purposes, upon equalized valuations thereof, fixed with reference thereto on the first day of January at twelve o'clock meridian in each year, excepting such as is exempted from taxation by law. [1961 c 15 §84.36.005]*

*The county assessor is authorized to place any property that is increased in value due to construction or alteration for which a building permit was issued, or should have been issued, under chapter 19.27, 19.27A, or 19.28 RCW or other laws providing for building permits on the assessment rolls for the purposes of tax levy up to August 31st of each year. The assessed valuation of the property shall be considered as of July 31st of that year. [1989 c 246 § 4]*

*Reference should be made to the property card or computer file as to when each property was valued. Sales consummating before and after the appraisal date may be used and are analyzed as to their indication of value at the date of valuation. If market conditions have changed then the appraisal will state a logical cutoff date after which no market date is used as an indicator of value.*

### **Property rights appraised:**

#### **Fee Simple**

***Wash Constitution Article 7 § 1 Taxation:*** *All taxes shall be uniform upon the same class of property within the territorial limits of the authority levying the tax and shall be levied and collected for public purposes only. The word "property" as used herein shall mean and include everything, whether tangible or intangible, subject to ownership. All real estate shall constitute one class.*

***Trimble v. Seattle, 231 U.S. 683, 689, 58 L. Ed. 435, 34 S. Ct. 218 (1914)*** *“the entire [fee] estate is to be assessed and taxed as a unit”*

***Folsom v. Spokane County, 111 Wn. 2d 256 (1988)*** *“the ultimate appraisal should endeavor to arrive at the fair market value of the property as if it were an unencumbered fee”*

*The definition of fee simple estate as taken from The Third Edition of The Dictionary of Real Estate Appraisal, published by the Appraisal Institute. “Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.”*

### **Assumptions and Limiting Conditions:**

- 1. No opinion as to title is rendered. Data on ownership and legal description were obtained from public records. Title is assumed to be marketable and free and clear of all liens and encumbrances, easements and restrictions unless shown on maps or property record files. The property is appraised assuming it to be under responsible ownership and competent management and available for its highest and best use.*
- 2. No engineering survey has been made by the appraiser. Except as specifically stated, data relative to size and area were taken from sources considered reliable, and no encroachment of real property improvements is assumed to exist.*

3. *No responsibility for hidden defects or conformity to specific governmental requirements, such as fire, building and safety, earthquake, or occupancy codes, can be assumed without provision of specific professional or governmental inspections.*
4. *Rental areas herein discussed have been calculated in accord with generally accepted industry standards.*
5. *The projections included in this report are utilized to assist in the valuation process and are based on current market conditions and anticipated short term supply demand factors. Therefore, the projections are subject to changes in future conditions that cannot be accurately predicted by the appraiser and could affect the future income or value projections.*
6. *The property is assumed uncontaminated unless the owner comes forward to the Assessor and provides other information.*
7. *The appraiser is not qualified to detect the existence of potentially hazardous material which may or may not be present on or near the property. The existence of such substances may have an effect on the value of the property. No consideration has been given in this analysis to any potential diminution in value should such hazardous materials be found (unless specifically noted). We urge the taxpayer to retain an expert in the field and submit data affecting value to the assessor.*
8. *No opinion is intended to be expressed for legal matters or that would require specialized investigation or knowledge beyond that ordinarily employed by real estate appraisers, although such matters may be discussed in the report.*
9. *Maps, plats and exhibits included herein are for illustration only, as an aid in visualizing matters discussed within the report. They should not be considered as surveys or relied upon for any other purpose.*
10. *The appraisal is the valuation of the fee simple interest. Unless shown on the Assessor's parcel maps, easements adversely affecting property value were not considered.*
11. *An attempt to segregate personal property from the real estate in this appraisal has been made.*
12. *Items which are considered to be "typical finish" and generally included in a real property transfer, but are legally considered leasehold improvements are included in the valuation unless otherwise noted.*
13. *The movable equipment and/or fixtures have not been appraised as part of the real estate. The identifiable permanently fixed equipment has been appraised in accordance with RCW 84.04.090 and WAC 458-12-010.*
14. *I have considered the effect of value of those anticipated public and private improvements of which I have common knowledge. I can make no special effort to contact the various jurisdictions to determine the extent of their public improvements.*
15. *Exterior inspections were made of all properties in the physical inspection areas (outlined in the body of the report) however; due to lack of access and time few received interior inspections.*

### **Scope of Work Performed:**

*Research and analyses performed are identified in the body of the revaluation report. The assessor has no access to title reports and other documents. Because of legal limitations we did not research such items as easements, restrictions, encumbrances, leases, reservations, covenants, contracts, declarations and special assessments. Disclosure of interior home features and, actual income and expenses by property owners is not a requirement by law therefore attempts to obtain and analyze this information are not always successful. The mass appraisal performed must be completed in the time limits indicated in the Revaluation Plan and as budgeted. The scope of work performed and disclosure of research and analyses not performed are identified throughout the body of the report.*

**Lloyd Hara**  
*Assessor*

As we start preparations for the 2011 property assessments, it is helpful to remember that the mission and work of the Assessor's Office sets the foundation for efficient and effective government and is vital to ensure adequate funding for services in our communities. Maintaining the public's confidence in our property tax system requires that we build on a track record of fairness, equity, and uniformity in property assessments. Though we face ongoing economic challenges, I challenge each of us to seek out strategies for continuous improvement in our business processes.

Please follow these standards as you perform your tasks.

- Use all appropriate mass appraisal techniques as stated in Washington State Laws, Washington State Administrative Codes, Uniform Standards of Professional Appraisal Practice (USPAP), and accepted International Association of Assessing Officers (IAAO) standards and practices.
- Work with your supervisor on the development of the annual valuation plan and develop the scope of work for your portion of appraisal work assigned, including physical inspections and statistical updates of properties;
- Where applicable, validate correctness of physical characteristics and sales of all vacant and improved properties.
- Appraise land as if vacant and available for development to its highest and best use. The improvements are to be valued at their contribution to the total in compliance with applicable laws, codes and DOR guidelines. The Jurisdictional Exception is applied in cases where Federal, State or local laws or regulations preclude compliance with USPAP;
- Develop and validate valuation models as delineated by IAAO standards: Standard on Mass Appraisal of Real Property and Standard on Ratio Studies. Apply models uniformly to sold and unsold properties, so that ratio statistics can be accurately inferred to the entire population.
- Time adjust sales to January 1, 2011 in conformance with generally accepted appraisal practices.
- Prepare written reports in compliance with USPAP Standard 6 for Mass Appraisals. The intended users of your appraisals and the written reports include the public, Assessor, the Boards of Equalization and Tax Appeals, and potentially other governmental jurisdictions. The intended use of the appraisals and the written reports is the administration of ad valorem property taxation.
