

VOTERS' PAMPHLET

August 19, 2008 Primary

I Vote, I Count

Washington's New Top 2 Primary

Washington has a new primary. You do not have to pick a party. In each race, you may vote for any one of the candidates listed. The two candidates who receive the most votes in the August Primary will advance to the November General Election.

Each candidate for partisan office may state a political party that he or she prefers. A candidate's preference does not imply that the candidate is nominated or endorsed by the party, or that the party approves of or associates with that candidate. Look inside for more about the Top 2 Primary.

Introduction to the 2008 Primary Voters' Pamphlet

It's your choice ... it's your voice.

Congratulations on exercising your privilege and responsibility to take part in Washington's elections – never more important than in this watershed 2008 election year. Our new Top 2 Primary on August 19 will give you maximum choice, allowing you the independence and freedom to “vote for the person, not the party.”

When the courts threw out our cherished “blanket primary,” we immediately proposed a Top 2 system as a way to protect the freedom of citizens to vote for their favorite in each office. This new system was backed by the Legislature and strongly approved by the state voters in 2004 as the People's Choice Initiative, and we are pleased that the U.S. Supreme Court has upheld your rights.

We think you will like this easy, clear way of voting for your favorite candidate. It's as simple as this: You get to choose your favorite candidate for each office on the ballot, without regard to political preference. You are no longer restricted by the old “pick-a-party” system.

The Top 2 vote-getters for each office will advance to the November general election.

One new twist: Our new voter-approved primary no longer nominates a finalist from each major party, but rather sends the two most popular candidates forward for each office. It's a winnowing election to narrow the field. Your candidates have listed the party they prefer, but that doesn't mean the party endorses or affiliates with them. Some candidates prefer major parties, some prefer minor parties and some express no party preference. All have a chance to advance to the November ballot.

We believe you will enjoy this new way of voting. It's simple, easy and follows the longtime Washington tradition of wide-open voting. We invite you to visit www.vote.wa.gov for more information on your Top 2 Primary.

Sincerely,

A handwritten signature in cursive that reads "Sam Reed".

SAM REED
Secretary of State

Dear King County voter:

A lot has changed since the last presidential election in 2004. Since then, King County Elections has worked tirelessly to implement more than 300 reforms and recommendations resulting from outside audits, election experts, and the innovative work of elections staff. With these changes and 19 successful elections behind us, King County is ready and energized for the August 19 primary. Whether you are a voter, candidate running for office or an elected official, everyone with a stake in our system of democracy is well served by the safeguards in place to protect every vote.

If you have not voted since 2004, I encourage you to read the information in this Voters' Pamphlet to make sure you are prepared to vote your ballot. If you are a poll voter, be sure to verify the location of your polling place before you vote on August 19, as many polling places have changed. You can do this on our Web site at www.kingcounty.gov/elections or by calling (206) 296-VOTE.

If you are a voter with a disability or need assistance, you now have the choice to cast your vote on a standard paper ballot or on an accessible voting unit. Federal law requires this new technology at every polling place across America to help people with disabilities vote a truly secret ballot. Accessible voting is available in person at King County Elections Renton office starting July 30.

Voters will have another secure option to return their absentee ballot in the primary. If you vote by mail, you will have the option of returning your ballot packet by mail, at a secured ballot drop box, or at your neighborhood polling place on Election Day. You can find a list of the seven ballot drop box locations inside this pamphlet.

Remember, every vote does make a difference, be sure to vote Tuesday, August 19.

Sincerely,

A handwritten signature in cursive that reads "Sherril Huff".

SHERRIL HUFF
Director
King County Elections

Address Confidentiality Program

If you are a victim of domestic violence, sexual assault, trafficking, or stalking who has chosen not to register to vote because you are afraid your perpetrator will track you down through voter registration records, the Office of the Secretary of State has a program that might be able to help you. The Address Confidentiality Program (ACP) works together with community domestic violence and sexual assault programs in an effort to keep crime victims safer. The ACP provides participants with a substitute mailing address that can be used when the victim conducts business with state or local government agencies. The ACP also provides participants with the option of confidential voter registration. All ACP participants must be referred to the program by a local domestic violence or sexual assault advocate who can help develop a comprehensive safety plan.

For more information about the ACP and the phone number of victim resources in your community, call the ACP toll-free at (800) 822-1065, TDD/TTY at (800) 664-9677 or visit www.secstate.wa.gov/acp.

Announcing Washington State's NEW

Top 2 Primary

Washington State has a new Top 2 Primary!

The Primary on August 19, 2008, will be the first time Washington State voters use the Top 2 Primary.

What is "party preference?"

Each candidate for partisan office may state a political party that he or she prefers.

A candidate's preference does not imply that the candidate is nominated or endorsed by the party, or that the party approves of or associates with that candidate.

Candidates may choose not to state a political party preference.

Sample ballot:

State of Washington Partisan Office
Legislative Position
Juanita Fernandez (Prefers Democratic Party)
Jamal Carver (Prefers Republican Party)
Joe Smith (States No Party Preference)

No more Pick-a-Party

You do not have to pick a party. You may vote for **any** one of the candidates listed, regardless of the candidate's stated party preference.

How the Top 2 Primary works

In each race, the two candidates who receive the most votes in the August Primary will advance to the November General Election.

NOTE: It is possible that the two candidates advancing to the General Election in a race will prefer the same party.

Why Washington has a Top 2 Primary

In 2004, Initiative 872 proposed a Top 2 Primary system. Washington voters overwhelmingly approved the Top 2 Primary, but in 2005, the United States District Court ruled that it was unconstitutional. The United States Supreme Court overturned the lower court's ruling on March 18, 2008.

Need more information?

For more information on Washington State's Top 2 Primary, call the Office of the Secretary of State Voter Information Hotline at (800) 448-4881, TDD/TTY at (800) 422-8683, or visit www.vote.wa.gov.

Primary

A process by which a pool of candidates for public office is reduced to the top contenders. In Washington State, the statewide Primary occurs on the third Tuesday of August.

Top 2 Primary

A type of Primary in which the two candidates who receive the most votes in a race advance to the General Election, regardless of the candidates' stated party preferences. This primary system is used in nonpartisan races by local governments in Washington State, but August 19, 2008 will be the state's first time using the Top 2 Primary in partisan races.

Candidate

Any voter registered in Washington State may run as a candidate for public office. Each candidate for partisan office may state a political party that he or she prefers.

Party preference

A candidate's stated preference does not imply that the candidate is nominated or endorsed by the party, or that the party approves of or associates with that candidate.

Nominee

A candidate who has been chosen to represent a party. Nominees will not be differentiated from other candidates on the ballot.

Endorsement

A public declaration of support for a candidate.

Partisan office

A public office for which a candidate may state a preference for a political party and have that preference listed on the ballot.

General Election

The General Election determines which remaining candidates will be voted into office. In the United States, Election Day is the first Tuesday after the first Monday of November. The next General Election will be **November 4, 2008.**

Public Access to Campaign Spending Reports

Contributions to Candidates and Political Committees

No person may make contributions to a state legislative candidate that exceed \$800 per election in which the candidate's name is on the ballot. Contributions to state executive candidates may not exceed \$1,600 in the primary and \$1,600 in the general election. A person may give unlimited funds to the exempt activities account of a political party, to ballot issue committees, or to other political committees. During the 21 days before the general election, however, a person may contribute no more than \$5,000 to a local or judicial office candidate, political party, or other political committee. Contributions from corporations, unions, businesses, associations, and similar organizations are permitted, subject to limits and other restrictions.

Registration and Reporting by Candidates and Political Committees

No later than two weeks after an individual becomes a candidate or a political committee is organized, a campaign finance registration statement must be filed with the Public Disclosure Commission (PDC) and the county elections department. (Committees that form within three weeks of the election must register within three business days.) The candidate or committee treasurer is also required to report periodically the source and amount of campaign contributions over \$25 and to list campaign expenditures. The occupation and employer of individuals giving more than \$100 to a campaign must also be identified.

These reports may be inspected and copied at the PDC's Olympia office, the county elections department in the county where the candidate lives, and on the Internet (www.pdc.wa.gov). Every candidate and political committee participating in the election must make their campaign books and records available for public inspection, by

appointment, during the eight days before the election except Saturdays, Sundays, and legal holidays. Use the contact information provided on the campaign registration to make an appointment.

Independent Campaign Expenditures

Anyone making expenditures totaling \$100 or more in support of or in opposition to a state or local candidate or ballot measure (not including contributions made to a candidate or political committee) must file a report with the PDC and their county elections department within five days. Forms are available from the PDC and the county elections department, or can be downloaded from the PDC website. Finally, all political advertising must identify the person paying for the ad and may be required to include other information. Expenditures for independently sponsored political advertisements that cost \$1,000 or more and appear during the last three weeks before an election must be reported to the PDC within 24 hours of when the ad is first presented to the public. Sponsors of electioneering communications must electronically report expenditures within 24 hours of the communication being presented to the public. More information about independent ads and electioneering communications is available from the PDC.

Federal Campaigns

Contributions to U.S. Senate and House of Representatives candidates are regulated by federal law. An individual may contribute a maximum of \$2,300 in the primary and \$2,300 in the general election to each candidate for U.S. Senator and U.S. Representative. Corporations and unions are prohibited from contributing from their general treasury funds to federal campaigns. Contributions may be made from separate segregated funds (also called political action committees or PACs). Copies of the federal campaign finance reports are available from the Federal Election Commission (FEC).

Need More Information?

Contact the Public Disclosure Commission at 711 Capitol Way, Room 206, PO Box 40908, Olympia, WA 98504-0908, or by phone (360) 753-1111, email pdc@pdc.wa.gov, or www.pdc.wa.gov. For federal campaigns, contact the Federal Election Commission by phone at (202) 694-1100, toll-free (800) 424-9530, TDD/TTY (202) 219-3336, or visit www.fec.gov.

Family: The life of Spaceship Earth is his family.

Significant Career Experience: Trying to understand the universe, Goodspaceguy became an amateur jack-of-all-trades and astronomer and economist and wants to advance rejuvenation and medical technology and wants tall buildings and more movies to be made in Washington State.

Candidate Statement

Goodspaceguy believes that the number one problem on Spaceship Earth is the tripling of people during the last hundred years. We numerous, brainy humans are exterminating wilderness and wildlife. Instead of starvation, genocide, and war, we should use nicer methods (such as the head tax and birth fees and study and work and social security) to decrease the number of people boarding Spaceship Earth. Goodspaceguy is pro choice on almost everything.

Goodspaceguy wants Orbital Space Colonization to be one of the great tasks for our new 21st Century. Through NASA, we have already paid the necessary money for the start of an Earth orbiting space colony, but our leaders have not been educated in orbital space colonization, and, therefore, they have wasted and are wasting much money. After profitable success in Earth orbit, we should then build additional profitable colonies in orbit around the Moon and Mars, where solar power is also plentiful.

Long ago, life from the seas of Earth colonized the land of Earth. The colonization of space by life from Earth is of similar significance.

Meanwhile on computerized Spaceship Earth, Goodspaceguy wants us to raise the quality-of-life by longevity research and by getting more people working, producing the goods and services that will make up our improving living standard and health. Let's improve the incentive system. Let's coax more people into productivity. Goodspaceguy wants safety-net employment of helpers. Goodspaceguy wants more people studying at our colleges during the underutilized evenings and weekends.

Please help raise the living standard by voting for the small spending candidates and by limiting your campaign contributions to less than \$25.

Candidate Statement

I rise to defend the moon and stars, the air we breathe, the oceans and the rivers, the plants, and all living things upon this our Mother Earth... and you... and your children... and your sacred poem... before the salmon die, before the birds stop singing; before the bees forget how to fly.

The attacks upon the Earth, the betrayal of our fellow human beings and the assault upon decency itself must not be tolerated any longer. Justice is dying, honor is wounded, and now in the turmoil of everyday life many of us have become blind and deaf to the weeping and the pain. We cannot allow this to continue. Listen to your own heart.

You must come awake, regain your composure, admit the failure of our institutions, which is to say, our own failure to stay alert and exercise our responsibilities even as we are challenged by the turmoil of our daily lives. We have been betrayed. True enough. But we are the only ones who can fix this.

I offer you a strategy based on truth, honor, dignity, compassion, courage, and love. Stand with me that I might stand with you. Go to my web site and read: www.gpln.com .

Spend an hour, a day, a month there... until you understand. Then vote with honor. Be guided by your own intelligence and your own heart... not by someone else's tired opinions or prejudice. Alone in the voting booth, remember your pledge of allegiance; defend your honor, our Constitution... and the children.

Help me restore justice and the rule of law. A little thought, honesty, and courage is all it takes. Political parties have become a problem, not the answer. You are the answer. Vote for someone who will truly represent you. Take a chance. Vote your conscience.

Candidate Statement

IT IS TIME FOR CHANGE. It is time for us to vote for a person that will take care of our great State of Washington. For the last decade we have allowed our communities to go without, because we’ve continued to re-elect a representative who has been distracted by personal issues. It is time to vote for a Congressperson who will get the job done for the voters of the 7th Congressional District.

My opponent has lost touch with the people he is paid to represent. His priorities are outside the State of Washington. He’s been absent as we deal with a failing economy, soaring fuel costs, while leaving our children to bear the burden of a growing federal deficit.

My opponent has earmarked \$30 million for the Mariners while missing-in-action as the Sonics leave Seattle. He totally pays no attention to 60% of the people that impact our communities. We need more job development programs and youth intervention programs.

For three decades I have worked in our communities, across cultural lines as an Advisor to law enforcement and elected officials at all levels of government. I will use my consensus building skills to work to restore America’s reputation and prominence internationally.

My focus will be on the 7th District. My priorities will be: tax relief for small businesses; our environment and sustainability; criminal justice reform; immigrant policy reform; public safety and border protection; and making sure we provide needed support services to the military who have served our Country. I will work to ensure you have affordable food, healthcare, transportation and home ownership. *I will also work with elected officials.* I will work tirelessly for you and your best interests.

Candidate Statement

As a Representative, I am devoted to the ideals expressed in the Preamble, Bill of Rights, and the DECLARATION. The Preamble outlines my devotion to “a more perfect Union.” Central to my effort is to “establish justice” and thus “insure domestic Tranquility.”

With your help I seek to correct injustice.

When judges infringe upon our individual sovereign Rights we are obliged to correct the violation. Specifically, Jury Nullification has been nullified by judges. Rarely do judges fully inform jurors of their power to judge the law and vote on the verdict according to their conscience. Knowing this, each of us can correct un-accommodating judges. Please support me in a law which explicitly requires judges to inform jurors of their right and power to judge the law and inform attorneys they may include an appeal to conscience in their arguments. Thus, as sovereigns, we can repeal an unjust law as applied to a specific case. (*Give me Liberty* by Gerry Spence.)

Coercive Income tax on wage is a blatant injustice. The IRS has no code to require a wage-earner pay tax on his wages. Income tax is voluntary and stated so in its manuals. There is no IRS law saying wages are income. Please help me legislate a requirement of the IRS to deduct wages from the total ‘income’ reported and inform wage earners that all their wages, including tips, are deductible. Furthermore, all IRS Tax disputes must be tried by a fully informed jury of twelve. Thus, another aggravation is removed, and tranquility enhanced. (*See America: From Freedom to Fascism* by Russo.)

Ask your Senator to introduce a Bill to review *9/11 Press for Truth* documentary. I propose these actions to correct injustices. With your help our proposals flower. Combined, with God’s help, our union can become tranquil again.

Candidate Statement

I challenge Congressman McDermott to a series of broadcast debates. It’s time to change Seattle’s one-sided political monopoly and restore healthy political diversity.

I’m endorsed by Dino Rossi, Rob McKenna, Slade Gorton, John Carlson, Kirby Wilbur, Human Life PAC, King County GOP, Washington State Republican Party, and many others.

I’m your voice for limited government, free market solutions, individual liberty, strong national defense, and constitutional principles.

As your Congressman, I’ll be working for you - rather than cozying up to dictators like Saddam Hussein and Fidel Castro!

We must sharply reduce government spending and cut taxes. With lower taxes, families have more money for their needs: mortgage, college education, and health insurance. With lower taxes, businesses have more money to invest, hire, and provide services. Less government bureaucracy improves the business climate and promotes job growth.

Illegal immigration hurts the economy, depresses wages of American workers, cheats legal immigrants, and burdens taxpayers. *I’m for secure borders and against amnesty for illegal immigrants.*

I’m committed to the protection of innocent, unborn human life. We have many rights, but it’s no accident that the Declaration of Independence recognizes the “right to life” first of all.

We derive our natural rights from our Creator – free speech, the right to bear arms, and the freedom to worship. *Reliance on constitutional principles – not more government bureaucracy – is best for our nation’s future.*

I’m the only candidate in the race who supports a victory strategy in the war against terrorism. I’m sick and tired of those (like the current congressman) who call our troops in Afghanistan and Iraq “mercenaries” in a “war on civilians.” I support our troops and I support their mission.

Candidate Statement

We have tremendous opportunities ahead of us. Working together, we can move toward a bright, rewarding future. It has been a privilege to serve you these past two decades, and I ask for your support as I seek re-election to Washington's 7th Congressional District in the United States House of Representatives.

This historic election will choose a Congress eager to reassert our core American values, and to address forcefully the pressing needs of our country. Let us begin with an end to the war in Iraq, orderly withdrawal of our troops, and ongoing care for our soldiers and veterans. These last difficult years leave a sad legacy of needless war, staggering debt, and urgent domestic problems. First among them is a collapsing health care system that forsakes people daily with little or no access to medical coverage. We must develop a universal system of health care coverage that is fair, affordable, simple, and efficient.

I also am fully committed to affordable housing and education; fair and progressive wages and taxation; environmental protections

that meaningfully address the crisis of global warming and clean energy policies that embrace the promise of renewable resources; reproductive choice; uncompromised civil rights and civil liberties; and trade policies that respect worker's rights and protect the environment.

I look forward, too, to continuing as Chair of the House Ways and Means' Subcommittee on Income Security and Family Support. In addition to family services oversight and unemployment compensation, the Subcommittee is proposing significant, long overdue reforms to our foster care system. I am eager to continue this crucial work.

We have much to do in restoring to our country the esteem of the international community and the confidence of its citizens. I hope you will allow me again to represent you in the United States House of Representatives.

Current Occupation/Employer: Commercial Real Estate

Education: B.A., Business Management, Seattle University

Elected Experience: Washington State Senate, 1996-2003

Family: Dino Rossi, the youngest of seven children raised by a Seattle public schoolteacher and a beautician with Italian, Irish and Tlingit Alaskan Native heritage, grew up in Mountlake Terrace.

Dino and his wife Terry now live in Sammamish with their four children.

Significant Career Experience: In 2003, as Chair of the Senate Ways & Means Committee, he built a bipartisan coalition to balance the largest budget deficit in state history without raising taxes while still protecting the poor and vulnerable. He was the GOP nominee for Governor in 2004.

Candidate Statement

Dino Rossi – A governor who will get things done...for a change.

Governors in other states are controlling spending - but not here. While we tighten our belts, state government spends more money and faces a growing \$2.5 billion deficit. The incumbent's only answer: more tax increases.

Dino Rossi is a businessman. He'll watch our tax dollars like a hawk and cut waste, because the answer to Washington's challenges is not always to spend more tax money, but to spend our money wisely.

Washingtonians must be safe. The state government does not know the location of over 1300 convicted sex offenders who are loose in our cities and neighborhoods. Dino will end early release for violent offenders from prison. Dino will require the close and constant monitoring of sex offenders who have served their sentence.

Other Governors are reforming education and helping prepare students for global competition. More money is spent in education each year here, but is it spent effectively to give our children what

they need to be competitive in life? Dino Rossi will replace the WASL with America's best standardized test and require students to pass a fair and rigorous test. The incumbent still supports the failed WASL test with no math and science requirement.

Other states are making progress fixing traffic congestion. Dino Rossi has a specific plan to fix nine major traffic chokepoints without new taxes and complete transportation projects on time. Here, the incumbent raised gas taxes to the nation's highest but commute times just get longer, and many critical transportation projects are still being studied by "blue ribbon" committees on a drawing board.

Spending more yet getting less is no way to run a family budget, a business or a state government.

Let's fix some problems...elect Dino Rossi.

Candidate Statement

I believe the number one issue in the 2008 Governor election should be the illegal and unethical election practices used by former Washington State Attorney General/current Washington State Governor Christine "The Cover-Up Queen" Gregoire.

Fact: Former Washington State Attorney General/current Washington State Governor Christine "The Cover-Up Queen" Gregoire manipulates/rigs elections.

How?

Fact: One way is to illegally and/or unethically manipulate/rig the information that is supposed to be made available to the voters.

How?

Fact: One way is to spend public dollars to pay state employees to keep quiet about scandals that could damage Christine "The Cover-Up Queen" Gregoire's political machine. (Basically, brokering "whistle-blower silence for taxpayer cash" deals.)

The Brian Ebersole Story

Fact: Brian Ebersole lived in Tacoma.

Fact: On November 2, 1982, Ebersole (Democrat) was elected to the Washington State legislature.

Fact: When Ebersole was in the legislature in the early 90's, he was sued by state employees who stated Ebersole had coerced them into illegally campaigning for him on taxpayer time.

Fact: (Then) Washington State Attorney General Christine "The Cover-Up Queen" Gregoire (Democrat) "investigated" that scandal by paying the employees almost \$1 million in taxpayer money to settle the cases and then Gregoire tried to keep the court records sealed from the public.

Current Occupation/Employer: Governor, Washington State

Education: J.D., Gonzaga University, 1977; B.A., University of Washington, 1969

Elected Experience: Attorney General, 1992-2004

Family: My husband Mike is my biggest supporter and a great father to our daughters, Courtney and Michelle.

Significant Career Experience: I'm proud to serve as your Governor. Together, we've gotten results for Washingtonians by protecting our communities, providing health care for adults and children, investing in education, creating jobs and improving our environment and quality of life. As Attorney General, I successfully fought to clean up Hanford, stop identity thieves, and hold tobacco companies accountable.

Candidate Statement

In my four years as your Governor, we've tackled tough challenges head-on and produced results for people in every corner of our state.

Strengthening Our Economy

When I took office we had a 2.2 billion dollar deficit and one of the highest unemployment rates in the country. Since then we have balanced the budget, cut red tape for small businesses, created over 200,000 new jobs, and now have the third fastest growing economy in the nation.

Protecting Our Children

Faced with overcrowded prisons, we charted a new direction to protect our families. We built 4,000 new prison beds, required electronic ankle bracelets and increased jail sentences for sex offenders, and started a DNA registry for sex crimes.

When I took office the state was threatening to slash healthcare from 46,000 low-income children. Cutting kids off healthcare is morally wrong. We stopped those cuts and instead, expanded healthcare coverage to 84,000 additional children.

We also restored funding for teachers' salaries and to lower class size, and passed the strictest toy safety standards in the country to protect our kids against dangerous chemicals.

Creating a Cleaner Future

Washington is leading the country in efforts to fight global warming. We're one of the largest producers of renewable energy in a growing "green" economy, and we created the Puget Sound Partnership to clean up the Sound for future generations.

As we look to the future, challenges lie ahead, including those posed by failed national economic policies. But these past four years have proven we're not afraid of tough challenges.

I ask for your support this primary election so we can continue to set the bar high for the quality of life in our state, meet these challenges head-on, and produce real results that improve the lives of every community and every family in Washington.

Candidate Statement

Our Climate Crisis demands profound cultural change *now*. As in childbirth, pain will attend this change. We are birthing ourselves into a world radically different from what middle-class Industrial World citizens have known for a century.

We have badly abused our Earth. Now, the Earth is changing in non-linear ways. We cannot avoid this change. Our choice is to change voluntarily, or be compelled by our Earth to change.

Those leaders who sell the lethal notion that we can 'prosper' and avoid painful Climate Crisis change are false leaders. Reject them.

Our governor must convene a Climate Emergency session of the legislature *now* to enact emergency World War II-type laws:

- Divert Boeing to manufacture of solar and wind power equipment.
- Vastly increase public transport. Poor ride free.
- Outlaw Single Occupancy Vehicles, except where no public transport exists.

- Impose aggressive, corporate carbon taxes.
- Assess steep, progressive individual carbon taxes. Poor exempted.
- Establish industry, regional and governmental carbon caps.
- Outlaw carbon trading.
- Begin personal carbon rationing.
- Channel carbon tax funds to poor, offsetting high food, housing and transportation costs.
- Carbon taxes fund global Rainforest Protection.
- Demand full withdrawal from Iraq. Divert funds to climate programs.
- Outlaw coal fired power plants.
- Outlaw crop based biofuels production and use.
- Provide energy retro-fit for all buildings.
- Adopt new Land Use Law. Require density. Stop sprawl.
- Protect Washington trees as 'common good,' critically aiding our climate.

I have been a small business owner and corporate officer.

Candidate Statement

My goal is to empower the people to dictate to our government their needs and how those needs are to be addressed. That is what a democracy is about. Instead, I see the will of the people being neglected and government dictating to them. I believe in a less intrusive and smaller government.

I have seen abuses of property, parental, and personal rights by our government. There is a lack of financial accountability and mismanagement of government programs without any consequences for failures. Special interest groups own our government and it is time for the people to take back their rights to govern themselves.

We need to rid ourselves of unfair and regressive taxes that only affect a segment of our society. I want to reform public and higher education and make it available to everyone at any time or place without cost. We need to combat pollution and clean up our

environment. I want to stimulate our economy and be pro-business. We need to insure that all our citizens have affordable housing, food, power, and health care. We need to develop an emergency plan for major disasters that could be used in the event that a large number of our population is affected.

There is not room to address every issue here but, I hope you will go to my campaign website for more information and clarification before you vote. Please become an informed voter and do not be swayed by high dollar promotional schemes that are full of empty rhetoric and half-truths. You are the employer and we candidates need to work for you. Candidate Statement

Because I feel Washington State should be leading the Nation in promoting a Spiritual Civilization based on holistic medicine, alternative energy, affordable housing, relevant education, a dynamic economy, bio-diversity, world development and meaningful access to justice, I respectfully propose my "FUNDAMENTAL FREEDOMS" PLAN OF ACTION.

FREEDOM FROM DISEASES: Thanks to *public health (including comprehensive universal pro-active health care) and therapeutic freedoms legislation*, billions of dollars could be saved while all would have meaningful access to physical, mental and spiritual wellbeing.

FREEDOM FROM POLLUTION, WASTE AND WARS: With a firm commitment to develop *clean, renewable energies (solar, wind, hydrogen, tidal, geothermal)*, painful oil wars would be less justifiable. With the resources saved, peace and prosperity would be better constructed.

FREEDOM FROM EXCESSIVE MORTGAGES, DEBTS AND HOMELESSNESS: Thanks to *compassionate solidarity and eco-construction technology (strawbale, wood, clay)*, a sound family house can be built for under 45,000 dollars.

FREEDOM FROM IGNORANCE, ALIENATION AND RECESSION: With *stronger schools and universities, a dynamic modern economy based on the internet revolution, science, business, corporate intelligence, tax reform, coupled with sustainable communities*, the elderly, youth and working force would better fulfill their dreams and basic needs.

FREEDOM FROM HUNGER, DESERTS AND WORLD MISERY: Thanks to *ethical trade, the doubling of exports, tree planting, vineyards, organic agriculture, health restaurants and the distribution of "superfoods"* (including but not limited to amazing dopamine-producing raw vegan chocolate mousses), we would find solutions to world hunger and deserts would flower.

FREEDOM FROM INJUSTICE AND TYRANNY. With *massive restructuring and financing of our legal system; the building of human rights and duties "enlightenment" centers in each town; the enactment of public expense for modest-income parties who have non-frivolous civil and administrative cases*, including for *electoral candidates*, Washingtonians would be empowered and this State would become a lighthouse for the International Community.

Candidate Statement

I am running for public office because I believe in a better Washington. For too many years the two party system in this state has corrupted the ideals of our democracy with conflicted party and special interest loyalties. The candidates have lost sight of the voters that elect them and empower them to lead on behalf of the people.

Classic party politics have stalled any movement on issues that matter to the average Washingtonian. Transportation, Education, and the Environment have suffered over the past four years. Both parties have proposed plans which do not solve problems but stall resolutions. It is time for government to become innovative. Together, we must solve the problems that exist today so we, as a community and state, can move forward. The talent and resources in this state position us well to become a global leader in the three above-mentioned areas. We need a leader who will leverage our current strengths and efficiencies to address our issues without creating more bureaucracy through the party system.

Fair taxes are one key to making the system work.

Our roads and mass transit have not kept pace with the growth of the state. Our education system has failed to meet the expectations of parents and our community. Our environment is steadily declining with the strain of increasing population. The state is losing its soul.

We must unite, innovate, and become who we all know we can be. We can be a world-class leader in the issues that we as Washingtonians care about.

It is time to move the bar to par excellence. We collectively have the knowledge and capital to accomplish great things. We just need leadership that will take us there without the influences of special interest money or party platforms.

Candidate Statement

Honesty, Ethics and integrity, these values have been missing in government far too long and it's time to make a change!

There are many issues that our state government must address during the governor's next term. Washington voters must decide whether they should bring back to Olympia those candidates and incumbents who claim their solutions to these issues will fix the problems. The sad truth is that they have spent their careers in government and are an integral part of the problem themselves.

The people of Washington are my number one priority and I pledge that your voice will be heard and acted upon while I am your Governor. I will be the Governor for all Washingtonians. The time for you to have a real voice in Olympia is *now*.

I am an outspoken critic of waste and fraud in government and work tirelessly to remind our state government that they work for the people of Washington. For too long our government in Olympia has felt they do not have to listen to the people. How

many times did we vote for \$30.00 license tabs before we were finally heard? Do we remember that we voted to limit spending in our government? Yet the legislature, with the blessing of the governor, has continually found ways to circumvent that law.

I am also passionate about the children of our state. I am appalled by the growing trend of acceptance from the media regarding sexual abuse of our school children by members of the educational profession. *The children of Washington are the lifeblood of the future*. They are the Governors, Legislators, Judges and Presidents of tomorrow and we must do everything in our power to protect our children.

I am on a mission to assert Washington State leadership for other States joining for positive changes.

If elected Governor I will do or promote the following with help from legal experts.

1. WITHDRAW WASHINGTON NATIONAL GUARD FROM IRAQ IMMEDIATELY. The unfair Iraqi occupation was engineered by New Conservative for Israel. Request for Freedom Of Information Act November 14, 2005 with their answer November 21, 2005 control number COPS2006004 is still pending to prove evidence.

2. AMEND CONSTITUTION, article 1, section 8, paragraph 11, so War Power Act be delegated to States Legislators not Congress.

3. AMEND CONSTITUTION, article 1, section 8, paragraph 3, so individual States can compete for overseas businesses without interference from Federal Government. I will lead trade mission to Cuba, Venezuela, Iran, Syria etc.

4. PROMOTE ONE STATE SOLUTION FOR PALESTINIAN-ARAB ISRAELI CONFLICT, so Jews, Christians and Muslims can live in Secular State like ours.

Other issues are in my platform.

Finally I would like to sound the alarm, that AIPAC and other Jewish Zionist Lobbies who represent less than 2% of American People are using the United States through their mighty power in the News Media, Financial Institutions, Hollywood and Entertainment Industry, Both Political Parties, Congress and the White House as Proxy to wage war against any country perceived to be threat to Israel, like in Iraq. This will lead us into conflicts for generations with Arab and Muslim World. This has got to stop!

Today is a start in an effort to take back our government and return it to the people. A time to put a stop to the government's waste of *THE PEOPLES* tax dollars and put our focus back on education, health care, alternative energy and the environment. A time to put a stop to the injustice to families in this state by holding public officials accountable for the job the people pay them to do.

TIME FOR TALK IS OVER; IT IS TIME TO TAKE ACTION.

What about constitutional issues? We need to protect those rights or your elected official will continue to take them away. It is time to put into office a leader that is not afraid to take the necessary action to do what is right for the people.

A leader that is a true patriot that stands by the *UNITED STATES CONSTITUTION* and the men and women who fight and die defending it.

Have we forgotten our *Pledge of Allegiance*? "*Indivisible, with Liberty and Justice for all.*" Have we forgotten "*by the people for the people?*"

Have we forgotten the importance of the *CONSTITUTION, THE BILL OF RIGHTS* and what they stand for? *Families are the cornerstone of the strength of this country.*

Candidate Statement

If you elect me Lt. Governor of Washington, I will support open and transparent government conducting the official duties fairly and honestly.

I will use public service to promote what is best in Washington.

I have lived in Asia and worked in international trade. Trade and tourism offer great benefits to the people of Washington. Whether they grow apples or wheat, bottle wine, build airplanes or write code, people in these businesses are the backbone of Washington. I will work to keep them strong.

You may have noticed that when any problem surfaces, Olympia mandates expensive programs.

My community experience has shown me that we have the opportunity to incorporate the power of volunteerism into our state. Using technology and thousands of willing volunteer organizations, we can create a statewide database that matches willing volunteers and those who need our help – the aged, the homeless, at-risk youth, every good cause.

Let's put the energy of Washingtonians to work now.

I'm running for Lieutenant Governor to work with you to renew Washington. It is time to change one party rule in Olympia and embrace diversity and balanced opinion.

I ask for your support and vote.

Candidate Statement

As a member of the Constitution Party, I believe in placing sound governing principles ahead of politics, pragmatism, and the popularity contest that electioneering has devolved into.

Contrary to what some would have us believe, government is not an amoral entity. Every person elected to office will govern according to the influence of their personal moral values and spiritual beliefs, therefore, it is merely a question of whose values will be imposed.

I acknowledge that our rights come from God and are not dispensed by government. The proper function of government is to safeguard those rights, not regulate them.

I support small, unintrusive government, strictly limited to the role delegated to it by the Washington State and US Constitutions. All decisions made while in office will be based on these documents and Biblically prescribed moral values designed to protect the fabric of our society.

Though some may bristle at the thought of bringing together Christian belief and affairs of civil government, I firmly believe, as did the Rev. Charles G. Finney, that “God will bless or curse this nation (and our state) according to the course Christians take in politics.”

It is time to take a stand.

Candidate Statement

I would like to thank the 1,193,000 Washingtonians who voted for me in the 2004 General Election. Your support for the Republican ideals I stand for won us the Primary nomination against two other fine opponents. Last time you voted for me, I was campaigning on a “real world” jobs creation platform; and in our State, jobs were created. But in your case, did you personally find a job, or better job, than the one you hopefully had 4 years ago?

With Dino Rossi and myself back on the ballot again, we have a chance to correct the mistakes made since that November Election day, four years ago.

Having served in the United States Navy from 1968 to 1972, I have resided in Grays Harbor and Thurston counties during the past 36 years, since my honorable discharge.

I was with the Department of Social and Health Services for 23 years.

Since my DSHS departure 6½ years ago, I have been a Small Business owner, Entrepreneur and private investor.

This election, I am the *only* candidate with a plan to “End Homelessness (in Washington State) NOW!”

Military and Overseas Voters

Election officials in Washington State work hard to ensure that all military and overseas voters receive their ballots in time to be returned and counted.

In order to accomplish this, county elections departments have added services such as:

- Faxed ballots;
- Emailed ballots;
- Ballots by mail; and
- Priority mail or other delivery services.

Military and other Washington State voters living overseas may request a ballot by contacting their county elections department, listed in the back of this pamphlet, or by completing the Federal Post Card Application at www.fvap.gov.

Education: Attended Washington State University and earned a Bachelor's Degree in Social Studies and Master's Degree in Political Science.

Elected Experience: Two terms as Secretary of State, and five terms as Thurston County Auditor.

Family: Sam and Margie have been married for more than 40 years and have two children and two grandchildren. Secretary Reed, whose family lived in Washington in territorial days, grew up in Wenatchee. His family moved to Spokane where he graduated from Lewis and Clark High School.

Significant Career Experience: Served as Assistant Secretary of State. Served as Director of the Governor's Urban Affairs and Constitutional Reform Commissions.

Candidate Statement

Since becoming Secretary of State, Sam Reed has worked diligently to strengthen electoral integrity, make government more accessible, and preserve our heritage.

Throughout his eight years in office, Sam led major election reforms: Consolidating 39 separate county registration systems into one statewide database to remove duplicate voters, felons, and deceased voters; moving the primary to August so those overseas can receive their ballots in a timely manner; ending ballot enhancements; and auditing county election departments.

Sam kept fighting for your right to vote without being restricted to a party, and was ultimately supported by the U.S. Supreme Court.

Thanks to Sam, you can now go online to register to vote, start a business, or research your family genealogy. He saved and enhanced Washington's oldest institution, the State Library, and he started the nation's first state digital archive.

"We have more work to do to restore trust and confidence in the elections process and preserve our history. In the next four years I pledge to bring a new level of transparency and access to state government, and I will continue to lead the fight for fair and accurate elections while protecting voter rights and privacy."

Candidate Statement

Top 2

The recently reinstated Top 2 Primary, now, ensures our right to vote for ANY candidate in primaries. Speaking as chairman of a minor party, this is, basically, an egalitarian system, although, the election system, generally, needs reforming.

Initiatives

Powerful forces in the state are doing everything they can to overturn "Top 2" and to make the Initiative system a toothless tiger. They have been thwarted, thus far, thankfully. I will continue to defend "Top 2" and will fight against any attempt to make initiatives harder to get on the ballot or to collect signatures.

The Ballot

Surely, the same powerful forces will use this election to bring about their goals. I am confident, however, that voters will be able to tell which candidates support "Top 2" and Initiatives and which do not.

Democracy

There's no democracy if the vote is not counted correctly. I would not endorse machines from controversial manufacturers, nor machines that cannot be audited through a paper trail. Random, professional checks and whistleblowers are essential, as well as a moratorium on the complete control of elections by major parties.

Family: I have one son, a junior in high school, who is an Eagle Scout.

Candidate Statement

New technologies continue to make administering elections and public records more complex. It is time for a technology expert, not a lifelong bureaucrat, to lead this office at this time.

My name is Jason Osgood. I am the right person for this job.

Few citizens realize the integrity of our elections, our very democracy, is under siege.

Sloppy counting, and the certification of voting machines that cannot be relied upon for accuracy, affects all candidates and undermines voter confidence.

Voters in Ohio and Florida have seen outrageous violations of voting rights, and the incumbent has allowed the same disgraced machines and procedures to be used here in Washington.

He has allowed cronies to sell software to counties that identifies each voter's ballot with unique barcodes.

Recurring election problems have eroded voter confidence in the system.

As your Secretary of State, I will stop the damage, and restore confidence in our voting systems.

My platform is simple and clear: 1. Ensure the accurate public vote count; 2. Protect voter access and privacy; 3. Actively promote open government.

This year, voting for me presents a credible alternative to the status quo, a choice of a public servant who will protect our democracy.

Candidate Statement

All Washingtonians may not be aware that the 2004 General Election had numerous serious, illegal election-related violations. This is egregious. You may read these enumerated online in the February 2005 Evergreen Freedom Foundation Report. Virtually *no* procedures were in place to verify whether persons who voted were actually eligible to vote, *impacting all candidates and parties*.

As a Washington citizen, I am extremely concerned that ballots across the state be handled *uniformly*; that *procedures are in place* to protect our election system from possible fraud; that we *ensure that all votes are tallied*. I propose we institute Indiana's very successful Photo ID law immediately.

It is incumbent on any and all citizens willingly to step up to offer their services where they feel they can work for the benefit of their fellow citizens, whatever their party affiliation. As a member of the Constitution Party—the party of our founding fathers and the third largest party in the nation—I offer my many years' experience to serve as your Secretary of State. I promise to follow all basic election laws in a fair and full vote tally of lawfully cast ballots, *ending election fiasco!*

I will greatly appreciate your vote.

Significant Career Experience: Allan Martin served as Chelan County Treasurer 1993 – 1998. As Deputy State Treasurer for Debt Management, 1999 to 2007, he implemented two successful programs that lower borrowing costs for Washington communities, oversaw the issuance of \$13 billion in bonds and served as Secretary to the State Finance Committee. Since 1999 he has served on the Washington State Housing Finance Commission. His finance career began as a community banker working with first-time homebuyer programs and builder loans.

Candidate Statement

As your current Assistant State Treasurer – the Treasurer’s top deputy – I’m honored to receive bipartisan support for State Treasurer. Retiring State Treasurer Mike Murphy, a Democrat, says *“I enthusiastically endorse Allan Martin.”* Other bipartisan endorsements include 40 current and former County Treasurers – Republicans and Democrats – from across the state. These treasurers know that this office – one of the largest banking operations in our state – is too important to sacrifice professional management for partisan politics or on-the-job training.

My experience running the daily operation of the office demonstrates my proven ability to manage and invest your tax dollars prudently and wisely. My professional experience is well balanced – in public office and private industry, and with experience both in Olympia and the local level. I worked in community banking prior to being elected Chelan County Treasurer in 1993. Since joining the State Treasurer in 1998, I implemented innovative and successful programs to provide low-cost borrowing for school districts and local governments. Being State Treasurer is about integrity, expecting excellence, and delivering it.

My wife Sue and I, both lifelong Washingtonians, are now asking for the best endorsement of all: your vote for Allan Martin for State Treasurer. Thank you.

Significant Career Experience: Internal Audit experience and previous manager of Boeing Commercial Airplanes Internal Audit Organization (16 auditors). I recently stepped aside as Chairman of the Constitution Party of Washington for campaign run.

Candidate Statement

With the incumbent in office since 1993, it’s time for a fresh set of eyes to examine how government fulfills its duties to serve the public. The office of Auditor especially is one where there should be no risk of long incumbency leading to “comfort zones” in the office itself or agencies examined. This is especially the case in partisan elections.

As your Auditor, I will work to make the office non-partisan. As it stands, there is always the potential for doubt or suspicion when the very government agencies or programs the Auditor is examining were put in place by the Auditor’s own party. Until that change can come about, I will bring no bias, politics, or special interests to the position, just an ability to be a truly independent Auditor.

Performance audits are very effective if they are searching and thorough. I would put failure markers in place. If an audit showed that a failure marker had been reached, then a recommendation of abolishment of an entire program would not be out of the question. I believe taxpayers deserve nothing less.

It’s time for new ideas and fresh eyes on government.

Candidate Statement

Sixteen years of the State Auditor's partisan inaction and four years of failure by the Governor are enough. Seek leadership. Find the truly trustworthy Professional to fulfill your hope for a better Washington—Elect Dick McEntee.

Two issues require urgent attention—Dick pled for these in the 2000 race. Then, the Auditor avoided, or was unable to persuade legislators to fund Performance Audits. We passed Initiative 900 in 2005. Since then, the Auditor has amassed over \$30 million of tax dollars—some has been spent conducting meager Performance Audits but, *with the Governor's lack of leadership and the partisan legislature and Auditor's stalling, millions in promised savings languish*. It's sad. Will we ever see over \$1 billion in savings that should be returned to us?

Second, budgets of schools, cities, and others audited by the State are strained; yet, Auditor fees spiral ever higher. This isn't fair!

Dick is exceptionally well qualified to serve his State as Auditor. He is a proven leader in business and government affairs. His untiring, loyal government, public and community service is remarkable. He can persuade the legislature to implement Performance Audit recommendations. Dick will work only for the interests of our State's citizens.

Candidate Statement

Attorney General Rob McKenna has proven he's a skilled, capable leader who protects Washington's families, children and consumers from 21st Century crime.

As Washington's top cop, McKenna increased state protection of children from sex predators. He clamped down on identity thieves and successfully fought the methamphetamine epidemic.

McKenna wrote the nation's first law allowing facilities where children congregate to ban convicted sex offenders. He successfully fought for: • more mandatory prison time for sex predators • stricter registration and • making child pornography possession a ranked felony.

Thanks in large measure to McKenna's Meth Task Force: • methamphetamine labs are down 90% vs. 2001 and • meth's street price has doubled. His efforts produced new narcotics task forces and more drug treatment. McKenna also focuses on prevention and has personally spoken to 30,000 students about this extremely dangerous drug.

Since McKenna took office, Washington has dropped six spots in ID theft rankings. Thanks to his legislation, consumers can now freeze their credit before they become victims of identity theft.

Rob McKenna personally argued and won two U.S. Supreme Court victories for Washington voters. Winning the Top Two primary case means the people – not political parties – choose our election system.

Elected Experience: Tacoma Mayor, 1982-1990; Pierce County Executive, 1993-2000

Family: Doug and Grace have six grown children and seven grandchildren

Significant Career Experience: Owner, Tacoma Tent and Awning, 1971-92; Chair, Puget Sound Air Quality Authority, 1982-89; Board member, Tacoma Urban League, 1992-2000; Co-Chair, Commencement Bay Cleanup Action Committee, 1994-95; Co-Chair, Salmon Task Force, 1995-2000; James Ellis Regional Leadership Award, 1999; US County Executive of the Year, 2000;

Candidate Statement

A lifelong Okanogan Rancher, former WSU Regent, volunteer firefighter and rural school board director, Peter Goldmark will restore balance and trust to the management of our public lands.

Sustainable Forest Management

Every year we lose valuable forest— along with jobs and public access—to sprawl development and unsustainable logging practices. Peter will protect forests and jobs by enforcing rules that protect neighbors from steep-slope logging and reforming policies that sell public forest to developers for one-time gain.

Clean Rivers and Puget Sound

Lack of leadership undermines the Puget Sound cleanup efforts. Peter will provide needed leadership to protect farms and fish and help restore the Puget Sound.

Healthy Schools and Communities

Proceeds from timber sales benefit rural school construction and communities depend on public land for jobs and recreation. A rancher and outdoorsman whose five kids attended rural schools, Peter Goldmark will defend our rural way of life.

Addressing Climate Change

Peter will manage forests and water to address climate change. This is an opportunity to create green jobs, improve state revenue, and protect our children's future.

ENDORSED: Washington Education Association, Washington State Labor Council, Washington Conservation Voters, farmers and ranchers, Senators Cantwell and Murray, and community leaders statewide.

President, Western States Lands Commissioner Association, 2004-05; Current board member, Mountains to Sound Greenway

Candidate Statement

Doug Sutherland grew up in Eastern Washington working on farms and fighting forest fires as a smokejumper, so taking care of the land comes naturally.

Doug knows how important forest jobs are to rural communities. He replaced outdated forest policies that had previously led to massive fires and habitat destruction. Coming from a union household, he stands beside workers, instituting new fitness rules for firefighter safety – and meeting them himself.

A former small business owner, Doug runs government like a business because good business and environmentally responsible stewardship go hand in hand. He created projects offering wind power to thousands of Washington homes, removing contaminants from Puget Sound and encouraging responsible forestry so family forest landowners can leave a legacy for their children. His sustainable forestry plan is the first to protect old growth, dramatically improve forest health and open thousands of miles of salmon habitat in forest streams.

A collaborative approach and diverse background earned Doug support from leaders of both parties like Governor Dan Evans and Democratic House Speaker Brian Ebersole.

Doug is proud of Washington's success, protecting forests and creating jobs. They are the priorities he learned growing up and are his priorities as Lands Commissioner.

for Superintendent of Public Instruction 2004, finished 3rd of 6 candidates, 92,000 votes, 9% of the vote statewide.

Candidate Statement

Every family should have the right, the opportunity and funds to *individualize the public education* for each of their own children. Therefore, I propose a Public *Education* System, parallel to the existing Public *School* System, consisting of:

Voluntary *Individual Student Trust Accounts*, created and funded annually using each student's existing \$9000 state education voucher. With approval, each student's parents may spend these accumulating funds at the registered *Public Education Program(s)* of their choice. A registered *Public Education Program* would be any educational program, regardless of ownership, which: accepts only trust funds as tuition, i.e. "free"; fills at least 80% of its openings without admission qualification, i.e. "open enrollment"; permits no organized devotional instruction or activities; and publishes measurable educational and behavioral goals for its students, students not achieving these goals may be dismissed by the program.

Neighborhood Education Districts, staffed by three locally elected trustees, who oversee the public educational progress of 50 to 200 participating students. The trustees must approve parental Education Program choices for students passing applicable WASL tests.

Community Facility Districts which own, operate and maintain public buildings. Life cycle maintenance funds will be included in the original bond funding.

If you agree, vote for John Blair.

Candidate Statement

I have the characteristics that are essential for a Superintendent of Public Instruction who can lead this state into becoming a place where everyone has the opportunity for a good education. I recognize the need for significant changes in our state educational system in order to make it more "user-friendly" – for students, teachers, and parents. Some of the major changes that I will advocate during my term in office are the following: 1. Bonuses for teachers who are rated to be outstanding by parents of students. 2. Full state funding of K-12 education, accompanied by a ban on special levies for operations. 3. Establishment of a two-level high school diploma system: basic and advanced. 4. Revision of the WASL program, in order to eliminate some important flaws that it has. 5. Promotion of the methods of teaching that will improve students' thinking skills. Details of these changes and others that I will pursue are presented in my 3-page official campaign statement, which can be obtained by e-mailing me your US mail address at: donhansler1@aol.com .

Candidate Statement

Terry Bergeson has had 12 years to bring reform and change to our schools. Where are we after 12 years? Still studying how to fund basic education. Still arguing about how to implement education reform. *It’s time for a change!*

The Superintendent of Public Instruction needs to be an experienced educator *and* a political leader. Randy Dorn is both.

Randy was an elementary and middle school teacher and, for 10 years, an elementary and high school principal. *Randy Dorn knows the classroom.*

But *Randy Dorn also knows how to get things done in Olympia.* Randy served seven years in the House of Representatives and was Chairman of the Education Committee. Today, he is the Executive Director of Public School Employees of Washington, the state’s second largest educational employee organization.

Randy Dorn will be a forceful advocate for school funding, reminding the legislature it is their paramount duty to fully fund a basic education rather than relying on local levies.

And Randy Dorn will replace the WASL with a testing system that is more fair, more understandable, and takes less time, so testing doesn’t dominate curriculum and the school calendar.

It’s time for Randy Dorn. Leadership...for a change.

Viva Chavez! No, I haven’t lost my mind - just my profession (teaching) and students.* Disgusted by voter apathy, I’m trying to tap into the energy generated by Venezuela’s president. Hugo Chavez has some good ideas, too - like holding corrupt corporations accountable and nationalizing strategic industries. In fact, public education’s biggest problem is *corporate corruption*, the de facto *privatization* of our schools. Yet the media have once again turned this race into a forum on the WASL - which I’ve fought for over a decade. So why do the media ignore and even lie about me? This race has also been dominated by corrupt teachers unions, another scourge I’ve been attacking for over a decade. This isn’t a tea party, folks. We’re at war with our own government, with Corporate America, and we’re getting our butts kicked, liberals, conservatives and independents alike. Well, I’m not afraid to fight. I’m even attacking Bill Gates, right in his home town. I don’t respect software terrorists who exploit children. I am running because I believe the original goals of education reform have been abandoned by the current superintendent. I am committed to restoring the original goals of improving student performance and supporting quality instruction for all students. Each student is unique. I will uphold the standards and demand accountability for teaching and learning but will also work to include a variety of appropriate tools and opportunities for graduating students to demonstrate their abilities to pursue their life goals. I will go to Olympia to free us from the WASL obsession of the incumbent. I will work hard for all students in our state to insure every learning opportunity is afforded to them. Addressing learning differences (learning disabilities) are a priority for me. I will always be a champion for the rights of parents to be involved in every aspect of their child's education. I believe very strongly in fiscal responsibility and have a reputation for maximizing taxpayer's value. I want teachers to get the training and tools to provide the best education possible for all students. If you feel we can do better than we are in providing education to the children of Washington, please support me.

Candidate Statement

Dr. Teresa "Terry" Bergeson is a lifelong educator who has devoted her career to helping students achieve academic excellence. She cares deeply about our children and has worked tirelessly to ensure our public schools work for our students.

Today Washington leads the nation in accountability with some of the most rigorous academic standards in the U.S. Terry Bergeson led the effort to adopt these standards, and continues to strongly support them.

We know that high standards are working. In June, more than 91% of the Class of 2008 met new graduation requirements in reading and writing. Washington leads the nation in SAT scores. Academic achievement for students in all ethnic groups has improved significantly. More career and technical opportunities are available.

Just as important, Terry's courageous leadership has helped create schools that pay more personal attention to every single student. She believes every child can meet high expectations with the right amount of support, and she's a partner with our schools to make that happen.

Vote for Terry Bergeson to protect Washington's high standards, and help all of our children build strong foundations for their future.

Your Insurance Commissioner must be more than an administrator.

The Commissioner should be both an advocate for consumers and a regulator/protector of the insurance industry and possess a good working knowledge of the applicable laws.

Let's face it; one of the reasons for higher insurance costs and fewer options is a lack of consumer choice and resistance to change when change is needed.

Extreme judgments contribute to the rising insurance costs that have driven insurance companies from our state and doctors from their practices. Average families and many businesses cannot afford medical coverage/benefits.

We have all heard "If it isn't broke – don't fix it." It's time to wake up! *The system is broke – it does need fixing – we need a level playing field.*

Let's work for common sense and creative solutions. John is a Viet Nam veteran with very broad life experience and sense of fairness.

Help John Adams bring 38 years of professional experience in the insurance business to the Commissioner's office. Give him a chance to begin to fix a broken system.

I spent eight years as a navigator in the Air Force.

Candidate Statement

The people of Washington deserve better than we've gotten from the incumbent Insurance Commissioner. We need a regulator who will hold the insurance industry accountable, without party politics and elites of Olympia calling the shots.

That's why I am running as a non-partisan for the office that oversees an industry that takes more money out of your pocket than any other. When you add it all up, insurance premiums amount to over \$15,000 for every Washingtonian.

Unlike my opponent, I have professional credentials (MBA in Finance and past insurance and securities licenses) plus the occupational experience (ran a payroll and employee benefits business) to do the job. My record on the issues of health insurer surpluses and rates, credit scoring in underwriting, and unreasonable fees to consultants is clear.

Re-elect my opponent and you will continue to be ripped-off.

Elect me and \$1.4 billion in excess premiums will be refunded to health insurance customers. Credit scoring will be stopped. Fackler believes if you are overcharged by your health insurer you should get the money back not the state, as a new law now requires.

With gas prices above \$4 a gallon and foreclosures skyrocketing, families are suffering. We need a Washington State Senator that will be the voice of us, the people of the 11th District.

I am ready to be that voice.

We need a state senator who will be an advocate for our working families, focusing on quality schools, reducing the high cost of living, providing accessible health care for all, and getting us out of our transportation mess.

I will be an advocate for working families.

The current Senator supports using hundreds of millions of public tax dollars to build two new stadiums. The Sonics stadium alone would cost the taxpayers \$300 million. And, she opposes caps on predatory payday lenders who can currently charge 391% interest.

Why is our state senator trying to spend our tax dollars on professional sports stadiums and doing nothing to help increase our access to fair credit?

I will bring a fresh voice to the legislature. I will be different. Working families in the 11th District will be my priority.

Please vote for me, Juan Martinez, and bring a change to Olympia that represents you and your values.

His significant cases include the landmark Washington Supreme Court case of *Drinkwitz v. Alliant Techsystems*, which established fundamental principles concerning the right to overtime pay.

Candidate Statement

Scott McKay is different from the other candidates.

Smart, innovative and a survivor of kidney cancer, he is willing to stand up and challenge conventional political thinking.

Scott McKay is a fighter who will bring fresh and revitalized leadership to the 11th District. With independence and a "can do" attitude, he will breathe new life into the struggle for things we care about: affordable health care, quality schools, and renewed prosperity for working people.

Unlike the other candidates, Scott McKay has a certified record of success in fighting for the legal rights of families.

And unlike the other candidates, Scott McKay will not give in to partisan political pressures or special interests.

With his characteristic strength and determination, Scott McKay will tackle issues that the incumbent, Margarita Prentice, will not.

He will push to repeal the *Internet Poker Ban*, a law that unfairly criminalizes the recreational hobby of tens of thousands of law-abiding citizens. And he will take on the special interests by moving to cap the outrageous fees that are charged by payday lenders (365% APR!).

Candidate Statement

I never forgot why I was first elected to the state legislature, to help create and protect jobs in our district and Washington State. While in Olympia, I remember the people I talked to in our neighborhoods and businesses who are worried about the economy. That's why I fought to keep Boeing here, and led a state task force focused on outsourcing. I voted to put people to work building more schools and more roads. I would like your support so that I can go back to Olympia and keep focusing on creating and protecting our jobs.

- Unethical hiring of illegal aliens is driving down your wages and dumping costs of crime and welfare upon the honest taxpayer.
- In 2004 taxpayer-funded medical care for illegal aliens in Washington exceeded \$100,000,000. How many of your dollars is Gregoire's DSHS now handing over to what Democrats and some Republicans see as their new base of voters? We are being sold out! Read <http://www.sao.wa.gov/reports/findings/6534.pdf>

Candidate Statement

Why hire me? I'll take private sector ingenuity and common sense to Olympia. Comparatively speaking, Washington is doing an outstanding job at weathering the economic storm that is pounding the rest of the nation. But our state can struggle just like everywhere else...if we let it happen. I know firsthand how quickly reckless government spending can cripple an economy, I moved here from Michigan. I plan to preserve Washington by getting back to basics with lower taxes, sound transportation policy, strong education, meaningful environmental protection, and a healthy business climate by being a careful steward of your money.

Candidate Statement

Public education has gone downhill over the last 30 years while the costs per student have climbed. Students have protest marched for textbooks! The Democrats have demanded more money, and an income tax, before they will allow change. If the legislature just released the teachers locked in the admin buildings costs and average class size would drop! Rising healthcare costs and citizen's initiatives to fix traffic congestion are also signs of leadership failure in Olympia. Electing the same people beholden to special interests will not make the changes we need. I'm independent, experienced, and I care about this state.

What was your share of the \$2,100,000,000 increase in annual spending handed out by the legislature last year? That additional, annual spending could have gone toward transportation, health care and housing for the poor, or even \$2,400 to your family, instead of patronage. Properly allocated, it would have prevented 2009's \$2,400,000,000 deficit and the tax increase you'll get after the November election. "Tax and spend" must be paid for every year – by you. What judicial candidates can say

Two types of information are shown for each judicial candidate listed in this pamphlet:

1. A brief biography, supplied by the candidate, which includes the candidate's background and professional experience.
2. A brief, unedited statement, written by the candidate, about why you should vote for that individual.

Candidates' statements are governed by Canon 7 of Washington's Code of Judicial Conduct. The Code bars judicial candidates from making statements that appear to commit them on legal issues likely to come before them in court. The Canon also specifies that a candidate may not make misleading or untruthful statements.

How we select judges in Washington State

Nonpartisan Election: Originally, judges in Washington State were elected in partisan elections. This was changed in 1912 and since that time judges have been selected by nonpartisan election.

Appointment: When a justice of the Washington State Supreme Court or a judge of the state Court of Appeals or a superior court resigns or dies during a term of office, the Governor appoints a new judge to fill that position. The appointed judge must run in the next election.

All judges who complete their terms and wish to serve another must stand for a nonpartisan election.

The importance of primary elections

Candidates for the Supreme Court, Court of Appeals, and Superior Courts who are unopposed or who receive more than half of the votes in a primary election are thereby elected to the position. But if there are three or more candidates, and no one wins more than half the votes cast, the two with the most votes must face each other in the November general election.

Supreme Court (The successful candidate may be determined in the primary): The state's "court of last resort," the Supreme Court hears appeals from the Court of Appeals and other lower courts. Through its rule-making authority, it also administers the state court system.

Three of the court's nine justices come up for election every two years. Justices serve six-year staggered terms.

Court of Appeals (The successful candidate may be determined in the primary): The Court of Appeals hears most of the appeals that come up from the county-level superior courts. A total of 22 judges serve the court in three, multi-county divisions headquartered in Seattle, Tacoma and Spokane. Candidates run in one of three county groupings, or districts, within each division. Only voters registered within their districts can vote for them. Judges serve staggered, six-year terms.

Superior Court (The successful candidate may be determined in the primary): Superior courts are the state's courts of general jurisdiction. They hear felony criminal cases, civil matters, dissolutions (divorces), juvenile cases, and appeals from courts of limited jurisdiction. They are organized by county into 32 judicial districts. Candidates run in the county or counties within their district, and only voters within that district can cast ballots for them. Judges serve four-year terms.

Candidate Statement

The courts are where our citizens go to seek justice. I have spent over 28 years in court helping people with real problems from all walks of life who seek justice. Since 1997 I've helped run my own small business, and we provide our employees a good place to work with excellent benefits.

Over the years, I've learned that the most important role of the courts is to protect the people from the power of government and the vested interests. To fulfill that responsibility, a judge should have a broad range of experience in and outside the law, clearly understand the difference between serving as judge and serving as legislator, and possess the courage to speak truth to power.

Our State Constitution established a government of limited power, but in too many opinions the incumbent voted to increase government power by approving government secrecy over public records; and she voted in ways that trample on our constitutional rights, overruling property rights, reducing privacy rights, and censoring free speech. Learn more about my views at www.bondforjustice.com .

We elect our judges and they remain accountable to the people. Preserve our liberty, vote Michael J. Bond for Justice.

Legal/Judicial Experience: Over 30 years of varied, diverse trial and appellate experience in federal and state courts representing clients from individuals to Fortune 500 companies. Frequent arbitration and mediation service. Served as a Military Magistrate in the 13th Naval District.

Candidate Statement

I want to improve the quality and output of decisions coming from the Supreme Court and increase efficiency in our judicial system. The first goal can be accomplished through intellectual honesty ensuring all decisions accurately describe the facts of the case and the issues of the parties present. A decision that does not meet these standards is not the case the parties brought, but one of the Court’s creation. When this occurs (and it has) justice is not been done. Unfortunately, only the parties and their lawyers usually realize this. I will work to implement a meaningful evaluation system of appellate judges so citizens can cast their votes intelligently and with understanding.

I will urge the Court to take up and decide more cases, particularly involving differences between Court of Appeals divisions. Leaving such issues undecided leaves uncertainty as to the law and creates unnecessary and/or more costly litigation. The number of cases decided by the Supreme Court today is far lower than in the past when there were only seven Justices with less staff and without the advantages of computer research and word processing.

Candidate Statement

From isolated chambers in Olympia, Supreme Court Justices affirm or reverse decisions of other judges and dictate the operating rules for Washington's Courts.

Our court rules need to be modernized. Many pretrial procedures are shamefully expensive and should be limited. Washington is a world leader in electronic technology but current rules do not allow the full benefit of that technology. After 18 years it is time to replace the incumbent with an attorney who has a broader and more current knowledge of actual litigation practices.

My experience has uniquely prepared me to understand the needs and concerns of litigants throughout Washington. I have handled many hundreds of cases across our state representing governments, businesses and individuals in cases as diverse as consumer protection, construction, civil rights, insurance and the environment.

I have set verdict records in several counties and have consistently received *Martindale's* highest rating for legal ability and integrity. The *American Board of Trial Advocates* elected me to membership. I am included in the publication, *The Best Lawyers In America*, and *Washington Law and Politics* lists me as a *Super Lawyer*. *Metropolitan Seattle Magazine* identifies me as one of the *Best Lawyers in Seattle*.

Family: Jean and Rick Bouffard have a son, 18, and a daughter, 14.

Candidate Statement

In recent years there has been an onslaught of county prosecutors and downtown Seattle lawyers joining the King County Superior Court. Nearly 75% of all the cases are civil, not criminal. Yet many of the newest judges come from the prosecutor's office. And, in every open Superior Court race, the prosecutor's office has a candidate.

What the Court needs is a judge who understands everyday legal problems, with experience helping individuals and small businesses with contract, employment, construction, business and real estate issues -- an attorney who practices common sense and gets the job done without a government agency or large law firm staff behind her.

I have spent over 20 years working on civil cases and for people without a voice: • For individuals and small businesses • For good land use policies • For members of our communities who cannot afford legal counsel.

Regularly appearing in the Superior Court has taught me that I have the work ethic, the legal reasoning skills and the dedication to fairness needed to perform the duties of judge. With your vote, I will combine my commitment to community service with my professional skills to serve you honorably and diligently as Judge.

King County Initiative 26 and Council-Proposed Alternative

Official Ballot Title

INITIATIVE 26 AND COUNCIL-PROPOSED ALTERNATIVE

The following initiative proposed ordinance (Initiative 26) and council proposed alternative ordinance (Council-Proposed Alternative) concern the election of nonpartisan county officials and the nonpartisan selection of districting committee members.

Initiative 26: If this initiative is approved by voters, it would place a charter amendment on the November 2008 general election ballot that would ask, "Shall the King County Charter be amended to make the offices of King county executive, King county assessor and King county council nonpartisan, and to establish the nonpartisan selection of districting committee members?"

Council-Proposed Alternative: If this council-proposed alternative ordinance is approved by voters, it would place a charter amendment on the November 2008 general election ballot that would ask, "Shall the King County Charter be amended to make the offices of King county executive, King county assessor and King county council nonpartisan, to allow candidates for these county offices the option of having their political party preference appear on the ballot, and to establish the nonpartisan selection of districting committee members?"

1. Should either of these proposed ordinances to place a charter amendment before the voters in November 2008 be adopted?
 YES NO
2. Regardless of whether you voted yes or no above, if one of the proposed ordinances is adopted, which one should it be?
 INITIATIVE 26 COUNCIL-PROPOSED ALTERNATIVE

Explanatory Statement

This measure presents voters with two questions. The first question is whether either of two proposed charter amendments, both of which propose to make the elected offices of county executive, assessor, and councilmember nonpartisan and to establish the nonpartisan selection of district committee members, should be presented to the voters for adoption or rejection at the November 2008 General Election. The second question is which of the two proposed charter amendments should be presented to the voters at the November 2008 General Election. If a majority of voters voting on the first question vote "No", then neither proposed charter amendment will appear on the ballot at the November 2008 General Election. If a majority of voters voting on the first question vote "Yes", then the proposal receiving the greatest number of votes will appear on the ballot at the November 2008 General Election. Voters may vote on the second question regardless of how they voted on the first question.

Statement for amending charter

What has united former **Democratic Governor Booth Gardner** and former **Republican Governor Dan Evans**? They agree that local government should **deliver basic services** to all citizens *regardless of party preference*.

Local elections are about making **independent choices** based on what a candidate has to offer, *not party labels*.

Infighting and partisan bickering are a diversion from addressing the public's real needs. **There are no Republican roads or Democratic stop lights.**

Unfortunately, the partisan King County Council has refused to allow a public vote on nonpartisan reform despite recommendations from its own **Charter Review Commission** in 1997, and previous calls from citizens groups like the **Municipal League** and the **League of Women Voters**.

Nonpartisan county elections are endorsed by **over 25 nonpartisan Mayors and City Councilmembers** across King County, as well as the **Suburban Cities Association**.

Nonpartisan elections **improve voter choice** by attracting more candidates.

In 2005, when all nine partisan county council seats were up for election, **only five new candidates emerged**. Each new challenger was defeated by over 24%. In that same year, **nonpartisan** elections in some King County cities attracted more than **five new candidates in one race!**

Voting Yes = more competitive elections = more voter choice!

Rebuttal of statement against

I-26 preserves voter's "right to know." • Candidates would still be free to list endorsements and organizational support on campaign literature and in the **voters' guide**.

Partisanship hinders decision making! • Partisan pressures often **prevent compromise**. Nonpartisanship frees local officials to **work together** without the division of party labels.

I-26 gives voters a "right to choose." • Nonpartisanship will **end party control in uncompetitive districts** while attracting more qualified candidates to local office.

STATEMENT PREPARED BY: Booth Gardner, Dan Evans, Sue Singer

Statement against amending charter

As former Governor of the State of Washington and as long-serving State Representative, we have found a key principle reaffirmed time and time again: transparency in government is critical to our democracy.

To this end, we do not support Initiative 26, which will eliminate a key decision-making tool for voters.

I-26 Diminishes Transparency. Citizens have a right to know the party affiliation of candidates for county office in order to determine their basic political philosophy. A non-partisan county government does not remove political philosophy or political differences; it only makes it more difficult for the average voter to determine beliefs a candidate will use to make decisions.

I-26 Hinders Decision-Making. When party affiliation is openly and publicly acknowledged, elected officials of diverse political philosophy must work to build bridges and forge compromise—the very essence of the democratic process. In a well-functioning legislative body, this diversity helps inform debate, and is transparent to the public.

We have a deep respect and appreciation for the open forum of diverse political philosophies and feel that clear, open party declaration encourages effective decision-making, a diversity of thought, and transparency in government.

Rebuttal of statement for

Voters know candidates' beliefs and ideas when candidates reveal their party preference. That information shouldn't be hidden.

Knowing where people stand leads to honest conversation, collaboration and compromise. Almost all votes taken by the County Council are unanimous or bi-partisan. When councilmembers disagree, it's usually because of clear philosophical differences - differences voters have a right to know before they choose their representatives. **Keep candidates honestly revealing party preference; keep informed.**

STATEMENT PREPARED BY: Mike Lowry, Sharon Tomiko Santos

King County Initiative 26 and Council-Proposed Alternative

Regardless of whether you voted yes or no on amending the Charter, if one of these proposed ordinances is adopted, which one should it be?

Initiative 26

(The complete text begins on page 76.)

Explanatory Statement

Initiative 26 is a proposed ordinance. If approved by voters at the August 19 election, it would place a charter amendment on the November 2008 General Election ballot. The proposed charter amendment would ask voters whether they want to amend the charter to make the elected offices of county executive, assessor, and councilmember nonpartisan and whether they want to establish the nonpartisan selection of districting committee members. If the charter amendment was approved at the November 2008 General Election, the offices of county executive, assessor, and councilmember would be elected according to general law governing nonpartisan elections. The first nonpartisan elections would occur at the next regularly scheduled election for each office. For the county executive and councilmembers for odd-numbered council districts, that would be November 2009 and for the assessor and councilmembers for even-numbered council districts, it would be November 2011. Nonpartisan elections would be held every four years thereafter and any vacancies would be filled pursuant to general law governing vacancies for nonpartisan county elective office. Approval of the charter amendment would also result in districting committee members, who are appointed by the council every ten years for the purpose of drawing a countywide districting plan, no longer being appointed based on political party.

Statement for Initiative 26

Accept no imitations! Reject the King County Council-Proposed Alternative by **Voting Yes on Initiative 26!**

The political parties' and council's "alternative" *claims* to be nonpartisan but actually creates a **partisan election process**.

The parties' and council's "alternative" *maintains* partisanship by making **no change** to the way we elect county leaders.

The partisan King County Council has never allowed a public vote on nonpartisan reform. Despite several attempts by community groups, elected officials and one of the County's own Charter Review Commissions, **the parties and the council have blocked** every attempt to put nonpartisanship on the ballot.

Since the parties and council cannot prevent a qualified initiative from appearing on the ballot, they are trying to preserve partisanship by confusing the voters.

The alternative is partisan business as usual.

Only **Initiative 26** can end partisan bickering by bringing about **true** nonpartisan reform.

Only **Initiative 26** is supported by dozens of nonpartisan mayors and city councilmembers across King County.

Only **Initiative 26** was signed by over 80,000 King County voters.

Only **Initiative 26** will create **genuine** nonpartisan elections for county offices.

Local Government needs **professionalism, not partisanship**.

Please **Vote YES**, and then **vote for Initiative 26**

Rebuttal of statement for Alternative

The "alternative" is intended to fool voters. • The political parties will stop at nothing to preserve partisanship in local elections. The "alternative" *says* nonpartisan but in reality **changes nothing**.

Nonpartisan government works! • Of the 12 **most populous** counties in the United States, **half are nonpartisan**. All local governments in King County are nonpartisan.

The "alternative" creates partisan elections for nonpartisan offices! • We need **real change** that rejects partisanship in local government.

STATEMENT PREPARED BY: Susan Hutchison, Sue Singer, Linda Kochmar

Council-Proposed Alternative

King County Ordinance No. 16128

(The complete text begins on page 77.)

Explanatory Statement

The Council-Proposed Alternative is a proposed ordinance. If approved by voters at the August 19 election, it would place a charter amendment on the November 2008 General Election ballot asking voters whether they want to amend the charter to make the elected offices of county executive, assessor, and councilmember nonpartisan and whether they want to establish the nonpartisan selection of districting committee members. The difference between this proposed charter amendment and that proposed in Initiative 26 is that this proposed charter amendment would allow candidates for the offices of executive, assessor and councilmember to state their preference for a political party and have that preference appear on the ballot. If the charter amendment were approved at the November 2008 General Election, the offices of county executive, assessor, and councilmember would be elected according to general law governing nonpartisan elections except that candidates would be permitted to state a political party preference as indicated above. The timing for nonpartisan elections and the filling of vacancies would be the same as under Initiative 26 and approval of this charter amendment would also result in districting committee members no longer being appointed based on political party.

Statement for Council-Proposed Alternative

The alternative makes county government nonpartisan while protecting the voter's "right to know."

This alternative makes county offices nonpartisan but lets voters know the candidates' partisan affiliations and preferences. While Initiative 26 would hide this important information from us, the alternative lets voters know whether or not a candidate has a party preference by allowing candidates to list their party preferences—or "no preference"—right on the ballot. The alternative still makes county government nonpartisan.

King County is a complex regional government and county officials must make difficult and sometimes controversial decisions that directly affect us, such as:

- Should the county focus more resources on punishing offenders or on rehabilitating them?
- How can the government manage growth while protecting our property rights?
- What priorities should inform the county's \$5 billion budget?

Difficult questions like these confront county officeholders each and every day. Don't we deserve as much information as possible about the people we elect to decide these important questions? Party preference isn't the only information voters need to make informed decisions, but it helps orient us to the priorities of our candidates. We need nonpartisan government that protects our right to know.

Rebuttal of statement for Initiative 26

If it's time for nonpartisan government, why take away information voters currently have? Why try and hide a candidate's true leanings? Don't the voters have a right to know whether or not elected officials have a party preference? What are the Initiative 26 backers afraid of? Why should insiders be the only ones who know?

The alternative protects a candidate's right to free association while protecting the voter's right to know.

STATEMENT PREPARED BY: Mike Lowry, Sally Clark, Larry Gossett

The county executive, assessor and sheriff may, at any time, amend such designation by complying with the same procedure established for making the designation.

The designated county officer or employee shall immediately upon the occurrence of a vacancy serve as the interim official and shall exercise all the powers and duties of the office granted by this charter and general law until an acting official is appointed as provided in this section.

The metropolitan county council shall, after being appraised of a vacancy in the elective office of county executive, assessor or sheriff, fill the vacancy by the appointment of an employee who served as a deputy or assistant in such office at the time vacancy occurred as an acting official to perform all necessary duties to continue normal office operations. The acting official shall serve until the vacancy is filled by appointment ~~((pursuant to Article II, section 15, of the Washington State Constitution for partisan county elective offices or))~~ pursuant to general law for nonpartisan county elective offices ~~((, as applicable)).~~

A vacancy in an elective county office shall be filled at the next primary and general elections which occur in the county; provided that an election to fill the vacancy shall not be held if the successor to the vacated office will be elected at the next general election as provided in Sections 640 and 645 of this charter. The term of office of an officer who has been elected to fill a vacancy shall only be for the unexpired portion of the term of the officer whose office has become vacant and shall commence as soon as he or she is elected and qualified.

A majority of the county council may temporarily fill a vacancy by appointment until the vacancy has been filled by election or the successor to the office has been elected and qualified.

Should this initiative be adopted?

SECTION 3. A. If this ordinance is approved by a majority of the voters voting on the issue, it shall become enacted when the results of the election are certified.

B. If this ordinance is enacted, the question of amendment of the King County Charter shall be submitted to the qualified voters of King County for their approval and ratification or rejection at the next general election forty-five days after enactment of this ordinance.

Gossett, Patterson and Constantine

AN ORDINANCE related to elections; rejecting Initiative 26 and adopting an alternative ordinance to amend the King County Charter to make the offices of King County executive, King County assessor and King County council nonpartisan, to establish the nonpartisan selection of districting committee members, and to allow candidates for the office of King County executive, King County assessor and King County council to state his or her preference for a political party, or not state a preference, to be submitted to the voters at the August 19, 2008, special election; calling a special election for Initiative 26 and this alternative ordinance; amending Section 610 of the King County Charter, Section 640 of the King County Charter, Section 650.20 of the King County Charter, Section 650.30.20 of the King County Charter and Section 680.10 of the King County Charter, repealing Section 620 of the King County Charter; and calling a special election for this ordinance.

STATEMENT OF FACTS:

1. Section 230.50 of the King County Charter specifies a county initiative process whereby the public may propose a county ordinance by filing with the council the required number of signed petitions from registered county voters.
2. A county initiative proposing an amendment to the King County Charter to make the offices of King County executive, King County assessor, King County assessor and King County council nonpartisan and to establish the nonpartisan selection of districting committee members has been proposed ("Initiative 26").
3. On December 20, 2007, in accordance with K.C.C. 1.16.050, the King County prosecutor's office prepared a ballot title for the proposed Initiative 26 measure, which is, "This initiative would place the following proposed charter amendment on the November 2008 general election ballot: Shall the King County Charter be amended to make the offices of King County executive, King County assessor and King County council nonpartisan, and to establish the nonpartisan selection of districting committee members? Should this initiative be adopted?"
4. On January 2, 2008, in accordance with Section 230.50 of the King County Charter, the clerk of the council approved as to the form the proposed petitions for Initiative 26.
5. On April 1, 2008, there were four thousand six hundred petitions filed for Initiative 26 by the initiative's sponsor with the clerk of the council.
6. On May 14, 2008, the King County elections division director certified that the number of valid signatures is sufficient for the initiative to be deemed proposed.
7. Section 230.50 of the King County Charter authorizes the county council to adopt an alternative ordinance to an initiative proposed ordinance and submit the alternative ordinance for voter approval or rejection on the same ballot as the initiative proposed ordinance.
8. On the August 19, 2008 ballot, voters would first be given the choice of either rejecting both Initiative 26 and this alternative proposed ordinance; or accepting either Initiative 26 or this alternative proposed ordinance.
9. If a majority votes to accept either Initiative 26 or this alternative proposed ordinance, the underlying charter amendment from the proposed ordinance receiving the most votes would be placed on the November 4, 2008 ballot.

10. On May 2, 2008, the state of Washington secretary of state issued a rule-making order, WAC 434-215-120, for immediate adoption for the purpose of implementing state Initiative 872 for the 2008 primary and general elections. Under this rule, candidates for partisan office may state their preferred party identification on the declaration of candidacy and if a preferred party identification is stated, it will appear on the ballot. A candidate may also choose to not state a preference for a political party. A candidate's preference may not imply that the candidate is nominated or endorsed by the party, or that the party approves of or associates with that candidate.

11. The King County council finds that for elections to the offices of King County executive, King County assessor and King County council, the citizens of King County are better served by having information provided to them on the ballot on a candidate's preferred political party preference so long as the candidate's preference, if any, does not imply that the candidate is nominated or endorsed by the party, or that the party approves of or associates with that candidate.

BE IT ORDAINED BY THE COUNCIL OF KING COUNTY:

SECTION 1. Initiative 26 is hereby rejected.

SECTION 2. This alternative ordinance to make the offices of King County executive, King County assessor and King County council nonpartisan, to establish the nonpartisan selection of districting committee members, and to allow candidates for the offices of King County executive, King County assessor and King County council to state their preference for a political party, or not state a preference is hereby adopted.

SECTION 3. This alternative ordinance shall be submitted along with Initiative 26 to the qualified voters of King County for their approval and ratification or rejection, at a special election held on August 19, 2008. If this alternative ordinance is approved, there shall be submitted to the qualified voters of King County for their approval and ratification or rejection, at the November 2008 general election, an amendment to the King County Charter by amending Section 610, Section 640, Section 650.20, Section 650.30.20 and Section 680.10 and repealing Section 620, to read as follows:

The designated county officer or employee shall immediately upon the occurrence of a vacancy serve as the interim official and shall exercise all the powers and duties of the office granted by this charter and general law until an acting official is appointed as provided in this section.

The metropolitan county council shall, after being appraised of a vacancy in the elective office of county executive, assessor or sheriff, fill the vacancy by the appointment of an employee who served as a deputy or assistant in such office at the time vacancy occurred as an acting official to perform all necessary duties to continue normal office operations. The acting official shall serve until the vacancy is filled by appointment ((pursuant to Article II, section 15, of the Washington State Constitution for partisan county elective offices or)) pursuant to general law for nonpartisan county elective offices((, as applicable)).

A vacancy in an elective county office shall be filled at the next primary and general elections which occur in the county; provided that an election to fill the vacancy shall not be held if the successor to the vacated office will be elected at the next general election as provided in Sections 640 and 645 of this charter. Vote by mail

Starting in 2009, King County will conduct all elections by mail, which means that all registered King County voters will receive and cast their ballots by mail. Voting by mail is already the preferred method of voting for most people, with about 70 percent of ballots cast through the mail in every election. Voting by mail will streamline resources and support a single system for voting, training, processing, and counting. It is easy, accurate, and accessible to everyone.

Never miss an election.

For the majority of voters who already vote by mail via absentee ballot, nothing will change. About three weeks prior to each election all registered voters will be mailed a ballot, which they must return, postmarked by Election Day.

With a ballot sent 20 days in advance, voters will have plenty of time to become informed about the issues and candidates, consider each vote in the relaxed comfort of their home, and securely return their ballot.

No longer will voters miss out on voting because of traffic jams, working late, or simply forgetting to visit their neighborhood polling place.

Once King County transitions entirely to vote by mail—planned for February 2009—voters with disabilities will still have the option of casting an independent and private ballot using an

accessible voting unit at a regional voting center, located throughout the county.

These centers will also serve as ballot drop-off locations for anyone who wishes to securely submit their voted ballot directly to King County, without the cost of postage.

Until then, accessible voting units can be found at each of King County's polling places on Election Day.

One system for all, beginning February 2009

Simple. Secure. Proven successful.

King County is committed to making this new system work for all voters, so that everyone can participate in one of the greatest rights of democracy—the right to vote.

Voting by mail is secure. Washington has stringent laws that require the signature on every ballot envelope to be checked and confirmed before it is counted.

Voters will be able to verify that their ballot was received by King County Elections, and then be able to track its progress online as it is processed.

Ballots are stored in locked, electronically controlled cages that are guarded by sheriff's deputies and multiple security cameras until the election is certified.

Get ready today.

To prepare for the transition to vote by mail, all residents of King County should make sure that their home and mailing addresses are current to ensure their ballot reaches them. If you've moved, call us.

Poll voters can make sure that their signatures are up to date by filling out a voter registration form, available at www.kingcounty.gov/elections and at every polling place on August 19.

To receive your ballot by mail or learn more, please visit our Web site at www.kingcounty.gov/elections, or give us a call at 206-296-VOTE (8683).

King County Elections moved to Renton

In December 2007, King County Elections moved to a new, specially designed building at 919 SW Grady Way in Renton. Ballot security and vote counting improved when King County Elections closed its offices in Seattle and moved to this larger facility. The new election headquarters is centrally located in the middle of the county and is located on Metro bus route 140.

To increase security of ballots, the facility was designed to give the public full opportunity and ability to observe vote counting and processing from an observation loop located on the second floor. Voters can pick up a ballot in-person or vote on an accessible voting unit beginning July 30, 2008.

King County Elections is open Monday through Friday, from 8:30 a.m. to 4:30 p.m.

Special voter registration hours will be held on Saturday, August 2, from 9 a.m. to 3 p.m.

Accessible voting for everyone

Each of King County's 396 polling places offers an accessible voting unit, with an audio and touch-screen ballot in both English and Chinese. With large-font and high-contrast options as well as tactile devices, voting is made easy for people with partial or no vision and voters with a wide range of disabilities. All voters are welcome to vote using an accessible voting unit.

Early, in-person voting on an accessible voting unit is available weekdays, 8:30 a.m. to 4:30 p.m. starting July 30 through August 18. Accessible voting is available on Election Day, August 19, from 7 a.m. to 8 p.m. at the King County Elections office in Renton and at all polling places.

How to vote an accessible ballot:

1. Check in with your poll worker and ask to vote using the accessible voting unit.
2. Choose the type of ballot you prefer: touch-screen ballot or audio ballot
3. The poll worker will issue you an encoded card with the correct ballot style for your precinct. The card does not store personal information and is cleared after each use.
4. To begin voting, insert your card into the card reader at the top right of the machine. Choose your language and follow the instructions to proceed.
5. To mark your ballot selections, touch the box next to your ballot choice on the screen. Simply touch the box again to de-select your choice.
6. After you've finished marking your selections, review the ballot summary screen and verify the paper copy of your ballot printout. To make changes, simply touch "reject ballot" and change your ballot selection. To submit your completed ballot, touch "cast ballot."
7. To cast an audio ballot, use the numeric keypad to vote. An audio summary will verify your choices and allow you to make changes.

Political Party Precinct Committee Officers

► You may be eligible to vote for a political party Precinct Committee Officer.

What is a Precinct Committee Officer?

Precinct Committee Officer is a position within each major political party. Washington State has two major political parties: the Democratic Party and the Republican Party. One Democratic Precinct Committee Officer and one Republican Precinct Committee Officer are elected from each precinct.

The role of the Precinct Committee Officer is to represent the precinct in political party activities, and to represent the political party in the precinct.

[Know your election terms.]

“Precinct” means a geographical subdivision for voting purposes that is established by a county legislative authority. (RCW 29A.04.121)

Is each candidate a member of a political party?

Unlike a candidate for public office, a candidate for Precinct Committee Officer must be a member of a political party. Precinct Committee Officers participate in party activities and represent the party.

Who is eligible to vote for Precinct Committee Officers?

Because Precinct Committee Officer is a party position, not a public office, you must consider yourself a Democrat or Republican in order to vote for a Democratic or Republican candidate for Precinct Committee Officer. You may only vote for one candidate.

You do not have to formally join the Democratic or Republican Party, you do not have to sign a party oath, and voting in this election will not put your name on any party lists. If you consider yourself a Democrat or Republican, you can vote for a Precinct Committee Officer candidate of that party.

How does a candidate for Precinct Committee Officer win?

The election for Precinct Committee Officer occurs during the August Primary. The position does not appear on the ballot for the November General Election.

Democratic candidates run against Democratic candidates, and Republican candidates run against Republican candidates. The candidate who receives the most votes wins. If there is no Democratic or Republican candidate on your ballot, then no candidate filed.

VOTERS' PAMPHLET

August 19, 2008 Primary

Washington's New Top 2 Primary

Washington has a new primary. You do not have to pick a party. In each race, you may vote for any one of the candidates listed. The two candidates who receive the most votes in the August Primary will advance to the November General Election.

Each candidate for partisan office may state a political party that he or she prefers. A candidate's preference does not imply that the candidate is nominated or endorsed by the party, or that the party approves of or associates with that candidate. Look inside for more about the Top 2 Primary.
