# Fact or Fiction?

**A letter from Director of Elections, Sherril Huff**

Dear King County Voter,

Like many people, I start my day with a steaming cup of coffee and a review of the morning news. I take my coffee black and a bit on the strong side, and I enjoy my news the old fashioned way—with a paper that's delivered right to my house. It's important to me to stay on top of the events of the day and I enjoy reading about what's going on in the world, but I also care about being informed as a resident of the broad community of King County. Having good information makes me better prepared to address the decisions that are mine to make. Good information also helps me feel more confident in forming opinions that allow me to weigh in on issues I believe are important to all of us as citizens and voters.

I am often asked, as Elections Director, to clarify a number of myths about voting and conducting elections. It's one of those areas where we all have a pretty good working knowledge, but still might be a little better informed. I encourage everyone who is eligible to vote to participate in our upcoming primary election, and read on to test your knowledge of Elections.

Sincerely,

Sherril Huff

After removal, you need to tear off and keep the stub that is attached at the top of your ballot.	<b>Fiction.</b> The stub that is attached to your ballot is only used for inventory purposes prior to sending your ballot. You may remove and recycle it!
Elections has to count and report the votes for any name, even a fictitious one, that appears on the "write-in" line of voted ballots.	<b>Fiction.</b> When you "write-in" a name on your ballot, per state law, that vote is recorded but not tallied as a vote for the person you named unless they declared themselves to be a write-in candidate and/or the total number of write-in votes makes a difference in the results of that race.
Every voter's signature is checked and verified for every ballot cast.	<b>Fact.</b> Per State law, Elections staff trained in signature verification by the fraud division of the Washington State Patrol check every single signature before a ballot is counted.
The first person to file for an office appears first on the ballot.	<b>Fiction.</b> Candidates appear in an order determined by a random selection process.
The voters' pamphlet provides information about candidates and issues that has been checked out by the Elections Department.	<b>Fiction.</b> Your voters' pamphlet provides accurate information about the voting process provided by King County Elections staff. The information about the candidates and measures are written by the candidate or a committee and we are not permitted to research or edit.
You can turn your ballot in before Election Day.	<b>Fact.</b> Voting begins the day ballots are mailed out to voters. Election Day is the final deadline for returning your ballot. The sooner you return it, the more time there is to resolve any signature problems that may occur.
You don't have to vote for everything on the ballot in order for your votes to count.	<b>Fact.</b> Your ballot is processed and votes are counted only for the races and measures you vote on.
If you get a call from the Elections office about your signature and don't respond by Election Day, it doesn't matter since it's too late for your vote to count.	<b>Fiction.</b> Elections has about two more weeks after Election Day to complete our work. During that time, voters can resolve certain signature problems and get your vote counted. The election is not over until certified.
It doesn't matter whether or not you vote since you are just one person.	<b>Fiction.</b> One vote may not only determine the outcome of an election, but whether or not a recount happens. There have been a number of races in our area's history where decisions were made on the basis of just a handful of votes.
When you move, your voter address automatically updates when you change your postal address.	<b>Fiction.</b> Voters must contact Elections to update their address via our website, by phone, or with the State Department of Licensing.
The reason voter information is also printed in Chinese is because Federal law requires it.	<b>Fact.</b> King County produces bilingual materials in compliance with Section 203 of the U.S. Voting Rights Act.

## Why are there measures and candidates in the voters' pamphlet that are not on my ballot?

Don't worry, your ballot is correct.

The measures and races on your ballot are the measures and races that you are eligible to vote and reflect the districts in which you are registered to vote.

## What is an explanatory statement?

An explanatory statement is prepared by each district's attorney stating the effect of the ballot measure if passed into law.

## How are committees in favor of or in opposition to a measure formed?

Districts choosing to participate in a voters' pamphlet are responsible for appointing committee members who agree to write statements.

The statements are a way to persuade voters to vote for or against the measure.

King County Elections is not responsible for the content of the statements.

As required by state law, King County Elections compares the signature on your returned ballot packet against your registered signatures on file. If you forgot to sign the voters' oath or the signatures don't match, Election officials will attempt to contact you both by mail and by phone, in time to count your ballot before the current election is certified.

To update your signature for future elections, you must return a new registration form complete with your updated signature.

## Your personal voter pamphlet

The image shows a screenshot of a web form titled "Your Voter Guide". The form has a dark header with the title in white. Below the header, the text reads "Find your registration status and view your sample ballot". There are two input fields for "First name" and "Last name". Below these is a "Date of birth (MM/DD/YYYY)" field. At the bottom, there is a "Submit" button and a link that says "Search by address".

# About the 2010 Washington Primary Election

Washington has a new primary. You do not have to pick a party.

In each race, you may vote for any candidate listed.

The two candidates who receive the most votes in the August primary will advance to the November general election.

Each candidate for partisan office may state a political party that he or she prefers.

A candidate's preference does not imply that the candidate is nominated or endorsed by the party, or that the party approves of or associates with the candidate.

**Elected Experience:** National Platform comity for Wa State in 1988. Present comity chair for many years in Grant County. Vice President of the Democratic party of Grant County 1990

**Other Professional Experience:** Physician for 28 yrs. Solo Practice in Ephrata WA.

Three board certifications (Internal Medicine, Family Medicine "pending 5<sup>th</sup> recertification exam", geriatrics medicine "pending 3<sup>rd</sup> recertification. Diploma in Public health "University of Toronto CA 1974

**Community Service:** Several among them, a Volunteer for over 6 yrs in Coyote Ridge Correction, In Connell WA Received award from Gov. Gregoire

**Statement:** Though long life democrat, I am running now on Centrist party losing my faith in both democratic and republican parties establishment as they are subservient to special interest groups particularly to AIPAC. As a physician with one of the highest medical degrees in the U.S.A. and after examining more than six thousand patients qualified for medical marijuana under State rules, it is important to make marijuana available and economical. It is helpful in conditions such as anxiety, depression, bipolar, PTSD, ADDH, etc. As Palestinian American, an expert in matters related to Muslim world, with eighty percent of President Obama's speech to Muslim world in Cairo and to Turkish Parliament came from my two letters to him. His involvement in Afghanistan ill advised contrary to my letter. I believe his advisors and chief of staff, the Neo-leftist?, are no different from Neo-conservative of President Bush who put America in harm's way. Both groups care more about Israel than U.S.A. Grant County Democratic Convention passed resolution twenty years ago and reaffirmed this year for secular state in Palestine where Jews, Muslims and Christians can live like us with equal rights that I introduced. This will end the conflict. In January 26<sup>th</sup> I was summoned to Washington DC in live debate to ninety million Arab audiences for 50 minutes through Al Jazeera that Obama was no different from Bush. My participation was tremendous. I educated Arab audience about our political system. I put my heart, soul, pocketbook as volunteer in his campaign so when he had a meeting with preachers in Brownsville, Texas on February 29, 2008, I was twenty miles away campaigning for him. I chose not to meet with him to protect his campaign. I could have been his Secretary of Health or special Envoy to Muslim world!

## Goodspaceguy

(Prefers Democratic Party)

**Elected Experience:** Ten times, voters rejected Goodspaceguy's economic program!

**Other Professional Experience:** Owner.

**Education:** Educated in America, Sweden, and Germany, Goodspaceguy experienced international living. Goodspaceguy earned two university degrees (bachelor followed

by master)with important minors in economics. Nonsmoking, nondrinking, prosperous, healthy Goodspaceguy (Minnesota born) is a life-long student of knowledge, such as economics, individual liberty, ownership, repairing, rejuvenation, space colonization.... As an amateur astronomer, Goodspaceguy sees the big picture. Goodspaceguy loves beautiful stars in the sky and in the movies. The people of Spaceship Earth are his family.

**Community Service:** Eleven times a candidate, promoting improvements, Goodspaceguy advocates upward movement in technology, rejuvenation, and worker wealth-building.

**Statement:** Dear fellow sheeple, you are the flim-flammed, manipulated power base. Please think of your Earth as a beautiful spaceship, traveling around your Sun in your solar system. Please think of yourselves as crewmembers, helping to operate and improve Spaceship Earth (for even the homeless.)

It is your destiny to start the orbital space colonization of your solar system. You have already spent the money! Consequently you should already have more than 200 habitats orbiting your Earth, Moon, Sun, and Mars. But you don't! Why? Because your wasteful leaders have not studied orbital space colonization. Instead, yearly, they routinely waste billions and billions of your dollars.

As a student of economics, I, Goodspaceguy, also want you to raise your wealth by increasing the profits and incentives that create jobs for everyone willing to work. The true unemployment rate reveals the degree of sabotage of your economy by your wasteful leaders. We are working way beneath our production-possibility curve! Let's unsabotage our economy and build a higher worker living standard. Vote for the small spenders. Defend the functioning of the competitive, free market. Please, defend the profits and other incentives that create our free market jobs.

To help unsabotage your economy and to increase employment for people with problems, please abolish your beloved, but evil minimum wage. Get both Washingtons out of their high-cost, low-profit, job-destroying straightjackets.

Also to unsabotage the economy, please increase the incentive for wealthy people to move to Washington State, bringing their headquarters here. Make it profitable to grow jobs in Washington State, a job-wealth-growing state of a job/wealth partnership.

If you google goodspaceguy, you'll find me and talented people who claim to be me: Goodspaceguy. Increase jobs by making employers profitable. Defend wealth building and the homeless.

## Mike The Mover

(Prefers Democratic Party)

**Elected Experience:** 1988-Present I have run for 17 Canidacies

**Other Professional Experience:**  
Household Mover for 31 years

**Education:** Shoreline CC, Morningside (Iowa) UW

**Community Service:** Ran the first tent city in Seattle

**Statement:** The last four years, 2006-2010, has been an economic roller-coaster disaster for many of us, here and elsewhere. During this time, business people submitted, or produced "fuzzy" mathematical numbers as 'bait' to the average consumer. For many of us, the lure seemed 'to good to be true'. Re-finance your house. Go on (many) vacations. Buy a new car. Get a hair transplant, or fake 'boobs'.

As the average property tax soared, so did the mortgage payments. Lots of people got in to deep. Then over their head. There was no lifeguard. You just couldn't dial 911. In fact, the government had to bail out the banks that had created the illusion of 'instant' prosperity to begin with. At first, it seemed everyone had a job. A couple 'blinks of the eye', and it all vanished for many people. Their jobs too!

Meanwhile, the government continued to bailout Wall Street, as the common person looked for employment. As foreclosure rates climbed, the houses sat empty. Some people went homeless, while millions more applied for food stamps, and government assistance. The national debt soared like a hot air balloon, drifting along on an 'unknown' course. And all along, no one considered 'stepping on the brakes'.

Today, we have been informed that financial cuts in primary education are looming. Yet, universities pay coaches in the millions of dollars per year, to fill stadium venues. They hand-out free scholarships to millions of student-athletes per year, while their main fans on Wall Street continue to vacation at Disney World & White Sulphur Springs (WV). Or, as a custom, they cordially offer their season ticket seats to their business partners, as if it was all by design.

**Elected Experience:** None.

**Other Professional Experience:**  
Founder/Owner FastCap; Industrial Arts Teacher - Mark Keppel High School, Alhambra, CA; Contractor License, Washington; Instruments-rated Private Pilot's License

**Education:** BIOLA - B.A. - Education

### Community Service:

Pastor - Glassel Park Baptist, Los Angeles, CA; YP Temple Baptist La Habra, CA; Major donor to many non-profit organizations

**Statement:** America is begging for authentic, proven leadership. I am unlike any other candidate because I create *manufacturing jobs* in the state of Washington. I am a proven leader with a firm belief that people can solve their own problems most effectively. I am a bold leader and will be relentless in my efforts to create jobs and make our country fiscally responsible. My economic recovery plan, *10-3-Lean*, will balance the federal budget in two and a half years.

10 - Cut income taxes and spending across the board by 10%. That will immediately put money in the hands of the American people, while simultaneously reducing the size of government across the board. If the American citizen has to live within their means, then so should our government.

3 - Make these cuts effective for 3 consecutive years, for a total reduction of approximately 27%. This will reinvigorate the private sector, empower the American people, and shrink the size of government. The result: a vibrant economy that will create jobs, balance the budget, and restore the confidence of the American people in our leadership.

Lean - Federal agencies will adopt a lean thinking strategy, making our government the model of efficiency and competence for the rest of the world. Lean is a world-class business practice focusing on eliminating waste and increasing efficiency. Lean empowers people to continuously improve everything, everyday.

I believe we must shift power from Washington, DC to the people at the local level. To achieve this, I will propose a balanced budget amendment and a two-term limit amendment for all federal elected positions.

I believe freedom is the reason why the American experience is sought by the entire world and I will do everything in my power to defend our liberties and the Constitution for generations to come.

**Statement:** My name is Mike Latimer, and I am running for US Senate. It's not an accident that our nation is having so many problems at this time. God is trying to get our attention and if He doesn't get it soon our nation's woes can get a lot worse. God has the answer for all our problems, but first He wants to correct our attitude as a nation. I believe the best way to do that is for us to understand His heart. His desire is to bless our nation to the point of making the rest of the world envious of the blessings He is bestowing on us. The catch is, we are tying his hands by our actions. We have kicked God out of our schools, out of our government and out of many of our churches along with His laws. So how do we fix it? Invite him back in to give Him the honor He is so richly due and set our laws to match His. *Stop the abortions, stop the homosexual agenda being pushed forward as an acceptable lifestyle, put restrictions on the pornography that is invading our lives, and give the Bible, prayer, and Jesus their rightful place in our schools. We need leaders that hear God's voice and will follow His direction to set our nation on His course and find His blessings for us.*

## James (Skip) Mercer

(States No Party Preference)

**Elected Experience:** No information submitted

**Other Professional Experience:** Dr. James (Skip) Mercer is a Professor at the University of Washington where he has worked for over 40 years. He holds positions in the Department of Earth and Space Sciences and the Applied Physics

Laboratory. He conducts applied research for the US Navy and basic research in underwater acoustics, climate trends, and ocean physics.

**Education:** B.S. Physics (1968) and Ph.D. Geophysics (1983), both from the University of Washington

**Community Service:** Dr. Mercer and his wife provide and prepare breakfast for "street kids" at the New Horizons facility in Seattle. They also raise support for orphans and slum children in Kenya.

**Statement:** I am not a politician or a lawyer. I am a Professor at the University of Washington in the Department of Earth and Space Sciences and a Principal Physicist at the Applied Physics Laboratory. For over 40 years I have conducted applied research for the US Navy, and basic research in underwater acoustics, climate trends, and ocean physics. This experience and my studies in history have prepared me for the challenges that face this nation, including energy independence, the truth about global warming, education, identifying key innovations, and national defense.

You don't have to be an economist to realize that the major problem facing this country is the economy. We must reduce the cost and reach of the Federal government. Our \$13 trillion debt weakens our position in the global market and if not corrected will seriously harm our children's future. The proven way to jump start the economy is to reduce taxes and allow the free market to operate without excessive government regulation. The government's artificial stimulus method has been a failure.

We must secure our borders. I support legal immigration for people who want to be Americans and contributors to our society, but the cost and risk of sustaining illegal immigration is insanity. In addition, we must face the reality that the war against terrorism will not be won in Afghanistan. Let us not allow this to become another Viet Nam.

I promise to not support any action or legislation which violates our Constitution. The Federal government has been overstepping its legal rights, infringing upon citizens' rights, and creating costly agencies that must be sized down or eliminated. Finally, I am not looking for a new career. I will not be answerable to any corporation, union, or political action committee; and I will only serve for six years.

## Clint Didier

(Prefers Republican Party)

**Elected Experience:** First time running for office.

**Other Professional Experience:** Farmer. Owner of an excavation company. Former professional football player with the Washington State Redskins and the Green Bay Packers. Played in

three Super Bowls and won two championships.

**Education:** A.A. Columbia Basin College, BA Portland State University with a major in Political Science

**Community Service:** Long-time member of the Washington State Farm Bureau. Active in the Fighting Children's Cancer Foundation. Football coach at Connell High School.

**Statement:** I've lived the American Dream. Where else can a son of a potato farmer rise to play in the stardom of three Super Bowls? I've been blessed and want to preserve that opportunity for future generations.

Following my NFL career, I returned home to farm, raise my own kids, and coach high school football. I want all kids to have a shot to become champions in their own ways as I've had. Let's restore America's highest ideal of individual liberty, which starts with personal responsibility.

I'm running because I'm tired of watching establishment party politicians sacrifice the ideals of the Constitution, violating the very laws we must live by. I'm tired of Washington DC power brokers dictating who we elect here in our state. And I'm tired of a government that has lost respect for the fruits of the people's labor and is now squandering our children's inheritance.

We need to follow our founders' "game plan" of limited government and fiscal restraint. Some promise to "balance the budget," yet vote for higher taxes to accomplish it. I've pledged in writing to never vote for new or increases in existing taxes, and to dramatically cut spending. For example, I'm a farmer who wants to abolish government farm subsidies.

Sarah Palin and many grassroots liberty groups endorse me because they know I will work shoulder-to-shoulder with "We the People" to get our country back on the right course.

Your choice is simple: you can vote for the establishment insider or you can choose a small town boy who means what he says and has the fire in the belly to fight for you. My pledge to you is that I will serve you honestly and honorably. My door will always be open to you! I would be humbled to have your vote.

## Schalk Leonard

(States No Party Preference)

**Elected Experience:** US law prohibits military officers from holding elected office. Having completed a career of service as a Navy JAG (Judge Advocate) officer, I now seek to serve as a US Senator.

**Other Professional Experience:** As a Navy JAG, I served with distinction, zealously defending our noble

Constitutional principles in dealings with foreign powers and in trials by jury.

**Education:** University of Washington Law School, 1990; University of Maryland University College, 1985 (BA/Chinese); Rogers High, Puyallup, 1978

**Community Service:** Supervisor and leader, at sea, ashore, and abroad, of young men and women of every race, background, and orientation in the greatest Navy in the world.

**Statement:** Citizens, Lovers of Liberty, Washingtonians:

America is in deep pain. "Help me. I am lost and confused. I fear for my children," she says. "The leaders failed me. The guides led me astray. The helpers? They only helped themselves." We can embrace America. We can wipe her tears. We can help her and we can help us. Citizens of Washington, we have a duty - to do one good thing! Today and again tomorrow. Lead America ahead on the proven ground, straight and steady.

This ground, this path is the one established by our forefathers and fiercely defended by our forefathers. It is always where we find freedom, courage, justice, dignified labor, honesty in our dealings, integrity in our pursuits. Let us honor the firm and steady hand of our Great Constitution. Let us pledge allegiance to American justice and fair play. Let us insist - if you walk with her, you walk with equality and opportunity for all of her children.

We will walk side by side with America. When we are weary, when we can walk no more, our children will continue our journey. It is the right journey and it will take us to a good place.

As for our neighbors of the wider world? The peoples of the old countries from whence our forefathers came? They know to find their way in their own time and own way. They always have and always will. And we honor them as our neighbors. We join them for mutual endeavors, when they stumble and fall we lend them a hand, and we respect the fences they have built. Good fences make good neighbors.

My name is Schalk. I am a citizen, a lover of liberty, a Washingtonian. Who are you? Will you help America?

## Patty Murray

(Prefers Democratic Party)

**Elected Experience:** Shoreline School Board, State Senator, United States Senator

**Other Professional Experience:** Shoreline Community College Cooperative Preschool Teacher

**Education:** Graduate, Washington State University

**Community Service:** No information submitted

**Statement:** As your U.S. Senator, I've always put Washington state's families first and fought for you.

*Fighting for you means saving and creating private sector jobs to get our economy moving.* I've supported critical transportation projects across our state and invested in private industry, our ports, military bases and Hanford cleanup to create thousands of jobs. I'm working to continue Washington's leadership in clean energy and create new jobs across our region. And I'm fighting to bring the military's next tanker contract home to Washington's aerospace workers.

*Fighting for you means helping veterans.* As the daughter of a WWII veteran and member of the Senate Veterans' Affairs Committee, I'm fighting to give veterans and their families the support and respect they deserve. That means mental health care, job opportunities, and ending homelessness.

*Fighting for you means putting families ahead of Wall Street and special interests.* I have a grandson and I'm worried about our debt. That's why I support wise investments to grow our economy and put small businesses ahead of wealthy Wall Street CEOs. I voted to end taxpayer bailouts and put money back in your pockets through middle class tax cuts. I'll continue to protect Medicare and Social Security for seniors. And I'll ensure BP - not taxpayers - pays for the tragedy in the Gulf.

*Fighting for you means investing in education.* As a former preschool teacher, I've always worked to make our schools the best they can be: by lowering class sizes, supporting early education, ending gang violence, helping families pay for college and giving our workers critical training services.

*I am honored to be your voice as Washington's U.S. Senator.* I'll never stop fighting against the powerful on behalf of you and your families. *I ask for your vote to continue to put Washington state first.*

## Bob Burr

(Prefers Democratic Party)

**Elected Experience:** Vice Chair, 40th LD Democrats; 2008 and 2010 State Democratic Platform Committees; President, CCSI. Many industry committee chairmanships.

**Other Professional Experience:** Vice President, Research and Development for major national corporation. Small business owner. Many leadership roles in professional organizations.

**Education:** Undergraduate, University of California; Graduate, Claremont Graduate School. Psychology emphasis. CLU. FLMI.

**Community Service:** Activist for many causes including renewable energy, Medicare For All, fiscal responsibility, adherence to the Constitution and Bill of Rights, an end to wars that create more terrorists than they kill, and election, campaign, political and government reform. I define an activist as a lobbyist for the people.

**Statement:** America's future depends on our ability to channel our frustration and anger at the ballot box. We must restore power to ourselves. We no longer live in a democracy. We live in a plutocracy. We are ruled by the very wealthy. Our government is not working. The political system is corrupt to its core. Corporations exert undue influence over elected officials, legislation and regulation. Politicians put special interests ahead of the public interest. It shows up in earmarks, tax breaks and legislative concessions. Approval ratings of the U.S. Senate are at an all-time low. We are tired of the charade of Senators who may spend their days criticizing the special interests, but take checks from the same industries at night.

The only way to change this is to get private money out of politics. I accept none. Polls show that people of all parties and backgrounds strongly want public financing of elections. The politicians don't. Incumbents like their built-in advantage. I will lead the charge for publicly financed elections.

The gap between the haves and the have-nots in America is widening. The top 1% of the population now has more wealth than the bottom 90%. Curbs on corporate power are essential to making true progress on the other, greater crises facing America. The near financial collapse, the bank bailouts, the destruction of the Gulf, and the massive exportation of jobs abroad are the natural consequences of Congress and corporations bedding down together.

The deficits are soaring, yet we are expanding our utterly unwinnable war in Afghanistan. Financial reform will be a pittance of what is needed. The energy bill will deal effectively with neither peak oil nor climate change.

Send a message now. Say no to the status quo. Vote for Bob Burr.

## Dino Rossi

(Prefers Republican Party)

**Elected Experience:** State Senator representing Washington's 5th district in East King County from 1996 to 2003.

**Other Professional Experience:** As Chair of the Senate Ways & Means Committee, Dino built a bipartisan coalition to balance the largest budget deficit in state history without raising taxes while still protecting

the disadvantaged. Rossi has a history of working across party lines to make a difference for Washington families. He was the Republican nominee for Governor in 2004 and 2008.

**Education:** B.A. in Business Management from Seattle University.

**Community Service:** Board for the Special Olympics for Washington. Deans Advisory Board for School of Business at Seattle University.

**Statement:** Our country is in trouble. Congress has mortgaged America's future by passing trillion dollar budget deficits, wasteful stimulus packages, and Wall Street bailouts.

Instead of acting to help our economy and create jobs, Congress has amassed massive debt our children and grandchildren will have to pay. Instead of encouraging job growth, the government has taken over everything from banks to car companies to the student loan program. Instead of helping families by making health care affordable, Congress' bill will increase premiums and taxes while slashing Medicare. Their approach has failed. Washington's unemployment rate is dangerously close to 10%, our national debt has soared past \$13 trillion, and taxes on working families keep rising. Our economy is headed for a breaking point, with no end in sight.

But we can't change direction until we change the political leadership that seems more interested in their political ambitions than in getting things done.

My plan is simple: Cut the massive growth in federal spending that has created these huge deficits and will double our national debt in five years. Pass a Balanced Budget Amendment, because neither Republicans nor Democrats in Washington, DC have any discipline when spending your money. Fix the tax code to reward work, saving, and the investments that create jobs while closing special interest loopholes that favor the politically connected.

Replace the health care bill and reform health care by taking power away from big government and insurance companies and giving it back to patients and their doctors.

Finally, I know America's best days are ahead of us, if only we unleash the energy and talent of the American people and get government back to its proper, more limited role. That will be my mission as your Senator. I ask for your vote on Election Day.

## Charles Allen

(Prefers Democratic Party)

**Elected Experience:** This is my first time running for office. Washingtonians deserve a Senator who is not a career politician, but rather, someone who understands the everyday struggles of life.

**Other Professional Experience:** 7 years experience in healthcare administration, logistics management, and sales, with

additional skills in LEAN Six Sigma and project management. I served for four years as an officer in the U.S. Air Force.

**Education:** B.S., Management, U.S. Air Force Academy M.A., Organizational Leadership, Gonzaga University

**Community Service:** I enjoy serving the community by volunteering for community events and through creating and donating care packages to Washington's homeless.

**Statement:** Fellow Washingtonians,

Never before have we faced the size and scope of the challenges before us. A job market more difficult than ever, an economy on the brink, an endless war with no sign of progress, healthcare still unaffordable and out of reach for millions, shrinking budgets for education, law enforcement, and communities, and one of the worst environmental disasters in our Nation's history-- these are but a few of the issues that affect us all.

I am running for US Senator because I want to lead our State and our Nation in a new direction. I will work to rebuild our manufacturing base, expand our aerospace, agriculture, and technology industries, and restore an inventive and entrepreneurial spirit to all businesses that call Washington home. I will immediately propose legislation to dramatically cut Federal spending and reduce our national debt. I'll fight to protect our environment, reform American energy policy, and lay the building blocks of a green economy. I commit to rapidly and responsibly ending a decade of war. I will work to improve the health of all Americans, ensuring that medical care is available and accessible to all. I pledge to pass legislation to make in-state college tuition free for all of our high school graduates. And I will work to ensure that Washington's teachers, police, and fire departments are fully funded, trained, and equipped to educate, protect, and build stronger communities.

I'll be fully transparent and accountable to the people of Washington, ushering in an era of openness in Congress that you've only dreamed of. You deserve-- and you'll receive-- full access to me, 24/7/365.

This year, you have a choice. Let's work together to build a better future for Washington, and for America.

## Matthew Burke

(Prefers Republican Party)

**Elected Experience:** No information submitted

**Other Professional Experience:** Financial advisor since 1987. Received financial planning certification in 1995.

**Education:** College for Financial Planning

**Community Service:** Volunteer youth basketball coach, Redmond Boys & Girls Club

**Statement:** As a career financial planning professional, I'm keenly aware that you can't solve an economic crisis caused by cheap money and easy credit, with more cheap money and easy credit. Nor can government print, borrow, and spend our way back to economic prosperity. History proves that these ill-conceived, risky schemes cause even more economic hardship. At a time when American families and American companies are forced to tighten their belts, our out of control career politicians are continuing to expand government and are recklessly spending trillions and trillions, pushing us towards an even greater financial disaster.

*Less government equals more freedom.* This self-evident, time-honored principle will be the foundation of every decision I make should I be elected to be your next congressman. We must restore the time-tested, constitutional principles of limited government, individual freedom and responsibility, and free markets for our country to return to prosperity and renew America's greatness. I want my children to have the same freedom and opportunity to succeed that I've enjoyed. However, this won't be possible under the current destructive path Washington, DC is taking us down.

We have a government that has gone from "by and for the people", to "by and for politicians and bureaucrats". This has resulted in an unrestrained, bloated government that is too large, intrusive, wasteful, and takes too much of our money. We can no longer sit idly by while career politicians, entrenched bureaucrats, and self-proclaimed *experts* destroy our great country. Those so-called *intellectuals* from Washington, D.C. who want to micromanage, control, and tax every area of our lives, at the cost of our personal liberties, must be driven from Washington, DC.

## James Watkins

(Prefers Republican Party)

**Elected Experience:** Not a professional politician. Four years federal experience cutting unneeded spending for the Chairman and Board of the FDIC. Elected to Vestry at Holy Cross Church, and Board of Redmond Lacrosse Club.

**Other Professional Experience:** Broad career ranging from mechanic to Microsoft

Director, have managed successful businesses in U.S. and internationally for 20+ years. As small business expert, worked with businesses in all 50 states and helped create thousands of jobs.

**Education:** BBA, MBA (International Business/Finance), George Washington University.

**Community Service:** Active in youth coaching, Boy Scouts, and charity work. Active cyclist and motorcyclist - STP, MS150, charity rides. Married for 25 years; two children.

**Statement:** Our nation is in the midst of an economic and fiscal crisis. Congressional leaders are on the wrong track--- and spending us into ruin. Jay Inslee has supported their ill-conceived measures 99% of the time. We need a fresh approach and independent leadership that doesn't always follow the party line.

Mr. Inslee voted for a trillion dollar stimulus that didn't work; a Cap and Trade scheme that will send more jobs overseas; government mandated healthcare that robs \$500 billion from Medicare, federal internet regulation, and a dramatic expansion of government with trillion dollar deficits for our kids.

This staggering debt hurts the value of the dollar in your pocket, and the ability of our nation to defend itself in a dangerous world. We need affordable, common-sense policies that encourage a sound economy with family jobs that protect our unique Northwest quality of life. That's why I'm running. I'm not a politician. I'm a father and small business expert - a practical problem solver with proven business and leadership experience. I want to make sure our kids inherit a better America.

I've cut federal spending at the agency level - and helped create thousands of jobs in the private sector. More jobs are the solution to our current economic mess. I'll bring common sense policies to Congress to boost job creation. And, I'll fight to stop spending money we don't have, streamline government, honor our veterans, and end the influence of special interests. I will work for you, not the lobbyists.

I have the support of Attorney General Rob McKenna and thousands of Republicans, Democrats, and independents who want to create real jobs, respect Constitutional freedoms, and restore fiscal responsibility in Washington DC. With your vote, we can restore the promise of the American dream for our children and grandchildren.

### David D. Schirle

(Prefers Independent Party)

**Elected Experience:** No information submitted

**Other Professional Experience:** Dr David Schirle, "Doc," was in private practice in downtown Seattle from 1988-2003. He was called to active duty from 2003-2005, served in Iraq as the Brigade Surgeon, and retired as an Army Major from the

Washington National Guard in 2005, after 35 years of service.

**Education:** Between 1983 and 1987, Dr Schirle attended medical school in California. He brings an understanding of business operations, government run health care, and years of military leadership.

**Community Service:** Married for 28 years, Doc has four children. He has served as a Scout Master, a 1<sup>st</sup> Lt. in a historical nonprofit, and a karate instructor.

**Statement:** We must vote independent!

Nothing will change as long as either party remains in power! They both have become part of the problem rather than the solution. Our Country is in trouble: the Nation's Credit Card is overdrawn, full, there is no more money; we are broke! We must face that fact, and we must make Washington face that fact too. This year, I realized I could remain frustrated or I could do something about it. So I have decided to run as an independent for the 1<sup>st</sup> Congressional seat in Washington State. My Platform is simple: Balance the budget and defend the constitution.

It is time to elect 435 people to Congress who are simply Americans and not professional politicians or some elite class of People who claim to have all the answers. Normal people like you and me who understand hard work, saving money, balancing their budget, responsibility, telling the truth, and common sense. I am rooted in those things because, like you, I have lived them, as a Father, Doctor, Businessman, and Retired Army Officer.

Our Elections must not be for sale! Our elected officials have acted disgracefully; they believe money can buy your *Vote!* We must stand up and tell them *No*, we are not for sale! Putting independents in office is the best way to send that message, so stand up with your vote and remind the people in Washington that we are their boss! Do not waste your vote *Use It!* It is time, well past time, Make a change in WA, make it loud and clear; vote independent and send career politicians home and send your *friends and neighbors* to WA.

It is time to send this Message loud and clear! Elect Dr. David Schirle to Congress.

### Jay Inslee

(Prefers Democratic Party)

**Elected Experience:** United States Representative 1999-present, Washington's 1st Congressional District; United States Representative 1993-1995, Washington's 4th Congressional District; Washington State Legislature 1989-1993, 14th Legislative District

**Other Professional Experience:** Former trial attorney and city prosecutor in Selah, WA from 1976 to 1992; 1996-1998 Regional Director of U.S. Department of Health and Human Services; Co-Author "Apollo's Fire: Igniting America's Clean Energy Economy"

**Education:** B.A. in Economics, University of Washington; J.D. Willamette University College of Law

**Community Service:** No information submitted

**Statement:** This has been a year of hard choices for many Americans. As we pick up the pieces of a shattered economy created by Wall Street greed, two wars, and ill advised economic policies, it is more important than ever to have people in Congress who will stand up for working families. As a husband of 38 years, a father of three boys and a new grandfather, I believe there are some very basic principles at stake in this year's election:

*Hard work should be rewarded, not irresponsible avarice.* That's why I voted against the Wall Street Bank Bailout bill last year and that's why I am fighting for financial reform based on the principle that if a bank is too big to fail, it is too big. I am also a strong supporter the deficit reduction commission.

*Working families come first.* That means creating decent jobs and defending the hard-fought protections for worker safety, health insurance, and pensions. It means helping families afford to send their kids to college and care for their aging parents. It means fixing Medicare, by eliminating the "donut hole," and continuing to fight any effort to privatize social security. And it means upholding the solemn commitment to our veterans and their families.

*We must generate a new economy based on rational policies.* I have been a leader in advancing sensible energy policies that can create millions of new clean energy jobs and protect the environment. Do we need any more proof that our continued addiction to oil is unsustainable after the Gulf oil spill disaster?

America is the greatest nation on earth because we are always willing to face our problems and move forward. I ask for your vote so that we can continue that grand tradition.

**Community Service:** Member of Citizens' Climate Lobby a grassroots organization urging congress to enact a carbon fee with revenue distributed equally to all; Serve as Court Appointed Special Advocate (CASA) for dependent children; Member of Sierra Club, Cascade Bicycle Club and ACLU; Support efforts of Sky1, Climate Solutions, and Fuse

**Statement:** I am running for office because Congress needs to act now to stop global warming. It is time for serious measures to reduce greenhouse gas emissions. If we wait too long our children and grandchildren may be unable to prevent runaway climate change.

Several bills are pending. The best, "fee and dividend", are being ignored. Under these bills producers of fossil fuels would pay a fee on carbon content. Revenue would be distributed equally to all citizens. The plan I favor would distribute about \$300 per person the first year, rising to \$1500 in the tenth year. Dividends from the "cap and dividend" bill proposed by Senators Cantwell and Collins would be similar. Dividends make these taxes progressive. Otherwise they would be regressive.

"Cap and trade" bills supported by party leaders in both houses initially provide free permits to greenhouse gas emitters. They contain loopholes to placate the pollution lobby. Profits benefit wealthy global investors. This is an extremely regressive tax.

It is time to inform voters about the options then ask which they prefer. Voters, not lobbyists, should be the ultimate source of political will. I am campaigning door-to-door encouraging voters to demand action to stop global warming. Having visited 60,000 homes talking to several thousand people I am confident that most people want action and recognize that an equally distributed dividend would benefit themselves and most others.

If elected officials would inform voters of the choices and ask their preference, "fee and dividend" would easily win over "cap and trade". We need to convince officials that constituents' votes are more important than lobbyists' dollars.

We can stop global warming. Vote for action.

**Other Professional Experience:** Writer (film/TV and technical)/producer (film) - self employed - International independent film production has given me extensive experience in negotiating and working with people who have different ethnic, cultural, religious and political backgrounds.

**Education:** Masters of Professional Writing - USC; B.A. in Sociology - UW (also extensively studied economics at the UW); West Seattle High School graduate

**Community Service:** Currently: Schmitz Park Elementary School PTA - Vice President

**Statement:** I don't answer to Washington DC, lobbyists or party insiders.

I'm a 5<sup>th</sup> generation Seattleite, motivated environmentalist and advocate for income tax reform (progressive, three tiered federal tax). I believe that we need to spur green and traditional job growth. I'm for legislation that will help businesses and am myself a small business owner, yet I'm pro-union and for worker's rights. I'm for *accountability*; strict regulatory control of big financial institutions; fixing our foreclosure mess; clearing our horrendous traffic; supporting the arts; eliminating earmarks for pet projects; reducing poverty. I have a long history of supporting equal rights (including reproductive freedom) and full, equal marriage rights for *all*. My support for civil rights is unwavering. I believe public education must be fully funded. I'm for campaign finance reform and term limits. I pledge to help local community groups.

Unlike Representative McDermott (22 years in Congress), I'm opposed to: reinstating the draft; supporting free trade (that hurts the poor overseas and destroys jobs in the US); earmarks for windowsills for a ritzy, private club; legalizing online gambling by taxing it; violating the law over a taped telephone conversation. Congressmen are not above the law. I'm also opposed to obstructionism: McDermott was *alone* in voting against a mine safety bill and *alone* in his delegation in opposing a bill that would have given the FDA new authority to protect the public. According to an article in Crosscut.com ("The Progressive Case Against Jim McDermott" - 7/8/2008), "Despite McDermott's seniority, his power within Congress is abysmal ... he has virtually no influence and little impact on legislation." Rep. McDermott has grown staid in over two decades in office.

I'm a new voice. I offer a fresh approach to "politics as usual." Please join with me in an effort to help our wonderful, but troubled nation.

**Statement:** All elections are important, but the choices we make in this year's contest are crucial for the future of our country. We face daunting challenges in so many areas – and how we respond to them will set our course for many years to come. The turmoil and uncertainty of the last few years has taken a difficult toll on too many Americans. Now we must take bold action to restore the vitality of our country and the promise of our future. Representing Washington's 7th District in the Congress is a great privilege and a grave responsibility. I ask for your support now to continue that work as a strong and thoughtful voice for progressive change.

I am eager to return to the Congress to tackle the momentous issues before us. The landmark health care reform legislation enacted earlier this year must be implemented carefully to fulfill its promise of more and better care for all Americans. We must, finally, end the war in Iraq and provide the ongoing care needed by our soldiers and veterans. Our economy is still stumbling, and millions of Americans remain unemployed. And the catastrophic oil spill in the Gulf of Mexico underscores our urgent need to recast our energy policies and practices to develop the sustainable energy resources that will allow us to prosper in a changing world.

We can solve these problems with determined effort and clear purpose. I am committed to this effort and to the goals of a strong and productive society: affordable housing; employment opportunity; fair and progressive wages and taxation; reproductive choice; uncompromised civil rights and liberties; and trade policies that respect workers' rights and protect the environment.

I invite you to review my record, and ask for your vote. Thank you for your support.

**Scott Sizemore**  
(Prefers Democratic Party)

**Elected Experience:** My representational experience has typically been non-governmental to this point. I am typically volunteered to be a spokesman for organizations, whether I like it or not.

**Other Professional Experience:** In a continually converging world, my skills are best put to use on a freelance basis.

I've worked in television, advertising, animation, and software development.

**Education:** I received my B.A. in three years by doubling course loads. My post collegiate studies have taken me throughout China and North America.

**Community Service:** I volunteer with the mayor's office whenever possible, lead the Seattle Youth and Beauty Brigade, and founded the Link Foundation.

**Statement:** There comes a point in every generation when we who have received the benefits of a modern society must set aside our own desires to serve the greater good of our community. Civil service is a tremendous sacrifice. The office of a Congressman comes with a price of two years and the scorn of an entire nation. It is a harsh and dirty job, filled with peril and devoid of grace. To accept this position is to give the constituency a piece of one's life.

Until now I have spent my life exploring the world and engrossing myself in academic research. This was only possible in a world that my predecessors have created. To call upon Aristotle and Cicero a tap of my finger is a marvelous achievement that cannot be overemphasized. I cannot, in good conscience, indulge in the fruits of society's labor without contributing something of my own. If all I have to offer my country is a love of research, a proclivity for debate, and an eternally candid demeanor, then so be it. In any normal job, these traits are a nuisance, but for a Congressman they are essential. Perhaps it is a mark of misfortune that my natural abilities have led me to congress, or perhaps it is a blessing.

We live in dark times. This is undeniable, though also impermanent. There is a great light that shines on the horizon. A light that will use the tragedies of today to stoke the fires of tomorrow. I believe that Seattle can be that light. We have everything it takes bring about the next great age if we are only willing to stand up and take responsibility. Let's not leave the world waiting.

**Statement:** Campaign Promise: Work to make America more energy independent. I will not run for re-election. I will take no campaign contributions. Lots of politicians go to Washington DC to write laws that you need a lawyer to tell you what they mean. I will not. Politicians spend money carelessly. I will not.

America has the ability to make almost all of it transportation fuel from 1.3 billion tons of biomass using wind energy, geothermal energy and hydropower. America can eliminate all need for foreign oil. Washington and Oregon are among the best states to start a biomass program. This is the green energy will provide millions of job in America. The funding will come from the private sector at over 1 trillion dollars. Run of the river hydropower can pull CO2 out of the atmosphere and turn it into methanol then to gasoline. The methanol can be used for general energy uses.

Wind power along the Missouri and Columbia River systems can also use wind power to make methanol which can be converted into gasoline. Directional drilling along with flame jet drilling and hydro-jet drilling can connect two geothermal wells and form a leak proof loop in Hot Dry Rocks to provide additional non-fossil fuel energy. The government has all of the information to create energy independence. They do not have the vision or will to do so. I do.

I support additional research into Aids treatment, including the use of injectable dyes like Rose Bengal to attach to the Aids virus so that the kidney can process the dye and the Aids virus can be removed from the body.

Constitutional Amendment: Congressmen and Senators are to hand write all the laws they want to become law. If physically unable to another member of congress can do it for them.

and entrepreneur. Political activist for Constitutional causes. FAA Certified Flight Instructor.

**Education:** BSME Purdue University. Post graduate work at UCLA in control systems and Alexander Hamilton school of business.

**Community Service:** Treasurer and Church Council Member at Christ Lutheran Church. Past President and founder of Skyline Soaring Club. Past President of Fort Steilacoom Running Club. Member of Lakewood Chamber of Commerce and Parkland Kiwanis. Past member and trainer of Sea Scouts and Civil Air Patrol cadets.

**Statement:** I have been working for forty years to protect your Constitutional rights, to limit growth of government, and to keep taxes low. I am a lifelong Christian, support family values, Pro-Life, and support your right to keep and bear arms. America is under attack by those who want the government to have control of every aspect of our lives--by terrorists who want to have their religion run our country, by extremists in the environmental movement who would deprive us of our cars and air travel, and by ordinary criminals who are emboldened by weak laws, judiciary and penal systems. I will work to stop them and take positive steps to reverse the damage they have done to our government and institutions.

The current massive deficit spending of our government will not get us out of the recession but is making it worse. I will work to stop this deficit spending, to cut taxes to get the economy going again, and to create jobs.

The healthcare law should be repealed because it will raise costs and reduce health services. I will work to make the healthcare, Medicare and Social Security programs into true insurance/annuity programs that are fully funded. The present systems are bankrupting the nation by their ever-increasing costs.

I will work to enforce immigration laws. We can stop illegal immigration at the border, register the illegal aliens, and return them to their country and only allow entrance according to our laws.

The USA has the largest energy reserves in the world. There is no need to import energy if we develop our own resources, which will lower the cost of energy, create jobs and improve national security by taking economic power away from unstable foreign sources.

**Community Service:** Charter member, Kiwanis Club of Steilacoom; Past board member, Steilacoom Historical Museum Association; Breakfast Team Leader, St. John Bosco; Youth wrestling coach.

**Statement:** Stationed at McChord AFB, I married the love of my life Mary, settled down in my adopted hometown of Steilacoom and raised four children who are now married and having our grandchildren.

Future generations will not have the same quality of life we enjoy if the out-of-control spending by the incumbents is not stopped. This generational theft threatens the economic vitality and future of our country. Our government has taxed, borrowed, and spent an exorbitant amount of your money. Every American owes over \$40,000 on behalf of the government. Record deficits and lack of smart oversight have mangled the job market and hurt small business growth.

The incumbent speaks like a moderate, but his voting record essentially follows Nancy Pelosi and the liberal congress. With so-called "Obamacare", the failed stimulus package, special interest earmarks, corporate bailouts, cap and trade (an enormous domestic energy tax increase), and increased foreign aid, the incumbent has ballooned our debt and reliance on foreign countries.

My votes will support federal priorities of ensuring a good business climate for job creation, supporting military families and veterans, giving control of educational priorities to local school boards, promoting energy independence, preserving our beautiful environment, and protecting our borders from illegal aliens.

I am proud to be endorsed by Attorney General Rob McKenna, the Lakewood Police Independent Guild, numerous elected officials throughout Washington State, and thousands of private citizens who are concerned about the direction of our country. I encourage you to visit DickMuri.com to learn about my solutions and strategies to strengthen our country.

We need a congressman who votes the way he talks. America is a great nation; we must have responsible solutions to our problems, and a sustainable federal government that adheres to our Constitution's enumerated powers.

1988, Life Insurance Company Actuary. 1967-1977, Mathematics Teacher.

**Education:** Ph.D., University of Washington, 1972; M.S., University of Idaho, 1970; B.A., Sonoma State College, 1967

**Community Service:** The voters of the Ninth District can now vote against the Democrats, the Republicans, *and their corporate sponsors*. That's Community Service!

**Statement:** Five generations of my family have lived in Western Washington over the past 100 years. My father was a machinist at Boeing, my mother an Avon Lady. They struggled economically, and they believed in me. I watched and learned. I have held my current position for 22 years and have shown character based on integrity, hard work, personal responsibility, and independence.

I pledge to work for your interests, rather than those of corporate “persons.” For the benefit of individuals, I support changing our health care system, improving access to quality public education, treating environmental issues seriously, penalizing job exportation, eliminating excess warmaking activity.

Our nation cannot compete and win in the global marketplace through an unregulated free market. To be “competitive” means to export jobs or adopt third-world standards for our workplace and environment. To level the playing field, protectionist laws are needed to force our competitors to meet our standards.

We need to invest in alternative and renewable sources of energy to reduce our use of oil, gas, and coal. This could be accomplished through stabilizing the price of energy at its real cost, to make home-grown investments in alternatives viable. We can do better than replacing Saudi oil with wind power from China and Denmark.

The War on Terror is a loser. Neither the President nor the Congress is going to say that the enemy is dead and the war is over. “The only thing we have to fear is fear itself.” We must divert our resources away from perpetual war, and use the money for the health care and educational opportunities that all Americans deserve. Cutbacks would be to the privatized part of defense spending. I support funding for services and benefits that our military personnel, veterans, and their families need and deserve.

**Statement:** I grew up in the Ninth District. My father was a ramp serviceman at SeaTac, my mother a homemaker. They taught me the values that have guided me as a prosecutor, state senator, and congressman - integrity, hard work, personal responsibility, and independence. I live in Tacoma with my wife, Sara, and our two children – ten-year-old Kendall and seven-year-old Jack.

We are facing tough times as a nation. Our country has been hit hard by the global recession and our recovery must continue by putting Americans back to work. This begins by encouraging innovation and allowing small businesses to flourish. We must also ensure that our nation is prepared to compete and win in the global marketplace, and to give workers the support they need to get good jobs through education and job training. During these tough economic times, we cannot lose sight of fiscal discipline. I have supported a balanced budget and believe that we must make the tough choices to ensure that our federal budget is sustainable in the long-term.

Despite the economic challenges that we face, caring for the members of our armed services and their families must remain a priority. We must ensure that our soldiers are properly equipped as they protect our nation and they are cared for when they return home. I am working to ensure that the VA remains capable of delivering quality healthcare that is capable of serving the unique needs of the veteran population. This includes meeting the demands of our newest veterans, those who have served in Iraq and Afghanistan.

It is an honor to serve the people of Washington's Ninth Congressional District, I hope to earn your support this fall.

**Statement:** As I walk door to door through our neighborhoods, I see the anguish in people's eyes. I listen to countless stories about how they've been affected by the loss of their job. I hear the frustration of parents as they try to deal with the realities of cuts to our public education system. As President of the Federal Way School Board, I know how important our public schools are to our local families. For far too long, our districts needs have been ignored by the Legislature.

As a small businessman, I know what it takes to create the new jobs we need. We can no longer afford excessive and undisciplined spending, coupled with burdensome tax increases. Olympia stands in the way, but I can fix it.

As a husband and father whose family has been affected by crime, I know the importance of public safety to our citizens. As your Senator, I will work vigorously with our police to make sure they have the tools to make our community a peaceful place to live.

**Patty Butler**

(Prefers Democratic Party)

**Elected Experience:** Elected Democratic State Representative from the 32nd District from 1997 – 1999.**Other Professional Experience:** A mother of three, I have owned a small business, was a manager at Bon Marche and an

international trading company, worked for Planned Parenthood five years before my current job as a manager for Fran's Chocolates.

**Education:** Graduated from Shoreline High School, 1970. Attended Shoreline Community College. Finishing my degree in Business Management at Edmonds Community College and pursuing a BA.**Community Service:** Northwest Women's Law Center; WA Council for Prevention of Child Abuse, Board President Banchero Friends Service for the Disabled; WA Lake Health and Clean Water Committee.**Statement:** Over ten years ago I had the privilege of being elected to represent the citizens of the 32nd Legislative District. During that time I accomplished something few freshman lawmakers do, I passed a consumer related bill into law.

Since then, I have used the same tenacity you came to know surviving two recessions, raising my children, working day in and day out, and figuring out how to get by on less. I went back to school, completing several business courses while managing one of the area's best chocolates stores and small businesses.

It's this commitment that is lacking in our legislature. I can no longer sit by and watch the stalemates, indecision, and partisanship in Olympia. Lawmakers today cannot even work together in their own party. We need to regain the respect and confidence of voters by accomplishing things that matter to real people, not just play politics. I know how to work together with people, keeping my roots based in the 32nd, and to prioritize education, the environment and consumer protection. I did this ten years ago as a lawmaker; I'm certain if given the opportunity, I'll get the results my constituents deserve.

She has served on numerous boards including Washington State Peace Action and the Seattle Indian Center.**Statement:** It has been an honor to represent your views and values during the past nine years as your State Representative. I am now running for the Senate to continue moving our State forward with sustainable economic, education and environmental policies.

We must develop strategies so that locally-owned and operated businesses can thrive; so that there is adequate training for living-wage jobs to bring prosperity to our communities and we are ensured of a sustainable and healthy environment. I serve on a Presidential Task Force working for federal clean-energy legislation, economic recovery and emerging technologies.

I most emphatically call for campaign finance reform and the overturning of I-134. Political power must flow from voting citizens rather than from corporate wealth. It's the State's responsibility to protect our vulnerable disabled and senior citizens with transparent and accountable safety nets. We must provide our children the education needed for the innovation- driven world economy and prepare them for multiple pathways for success.

**Community Service:** National Handicapped Sports Christmas in July, Home repair for the economically disadvantaged in Seattle, Kaboom National organization supporting children

**Statement:** Taxes are already too high. As your Senator, I'll work to meet the needs of families and communities without raising your taxes! As Mayor of Kenmore, I have a proven record of putting families, jobs, and communities first. In seven years on the City Council, I voted against every proposed tax increase. I voted to cut utility taxes 2%. Under my leadership, construction of the new City Hall was under budget and on time. And we paid cash!

Unlike my opponent, I don't support a state income tax. She consistently votes to raise taxes. She voted to overturn voter-approved spending limits and for the largest spending increase in state history! She's been #1 on the Big Spenders list two years running. Her proposed legislation would cost taxpayers more than \$45 billion over the next 10 years! It's time for change!

I will protect your money and control runaway spending; support transportation improvements to help local businesses and reduce traffic congestion; work to fund quality schools and make our communities safer for all, especially children and seniors; and promote job creation and economic growth.

**Jack Michalek**  
(Prefers Republican Party)

**Elected Experience:** No information submitted

**Other Professional Experience:** Jack has resided in the 33rd District since 1970. After 18 years at Continental Airlines, he created Aviation West at SeaTac Airport.

He was Knighted by the country of Luxembourg for contributions to its economic development with Washington State. Jack began an international air cargo chartering company and a cargo sales consulting business.

**Education:** Jack graduated from the Academy of Advanced Traffic in Philadelphia, attended the University of New Mexico and taught Transportation at Highline CC.

**Community Service:** Jack is a two-time cancer survivor and volunteers at the Highline Cancer Clinic. He has been married 48 years and has two grown children.

**Statement:** I am a businessman, not a politician. I have had hundreds of employees. I know how to prepare a budget and live within means. My focus is on creating jobs and growing our economy. The private sector has lost more than 170,000 jobs, the unemployment rate stands at 9.3% and state workers still received raises.

Initiative I-960, requiring a 2/3 vote of the Legislature to raise taxes, was repealed and the largest tax increase in state history was passed. The new \$900 million tax package hits small businesses and families and cuts \$1.5 billion in funding for education, including \$800,000 from our K-12 public schools, and the budget deficit is still there. I want to reinstate I-960 and stop the needless spending and spending increases.

We need to make Olympia more efficient. Transparency in Olympia is imperative so we know where our tax money is being spent. The lack of jobs and life essentials is a travesty created by overspending and the lack of focus on the people's needs. We need to create more jobs by strengthening small business.

I ask for your vote so that together we can make a difference.

**Other Professional Experience:** Former Journalist and Communications Director

**Community Service:** Board Member- Judson Park Retirement Center 1981- present Board Member- Economic Opportunity Institute, 2005-present Board of Trustees- Highline Community College 1994-2001 Past Member- Federal Way Public Academy PTSA

**Statement:** Education must continue to be a top priority. My three children attended our local public schools, and we know first hand how expensive college is. I understand how critical it is to provide our kids and educators with the resources they need to be successful.

I have championed the cause of healthcare. When budget problems forced cuts from the vaccine universal purchase program, I was determined to find another way. We passed legislation creating a non-profit organization to purchase and provide these critical vaccines to children insured by health plans. I similarly led a successful effort to ban the use of the chemical BPA in products made for children such as sports and baby bottles. Experts believe that BPA damages the reproductive health of infants and young children.

I played a key role in making progress towards job creation through the passage of the JOBS Act, which paves the way for creating tens of thousands of new living wage jobs, and will help school districts to save millions by making schools more energy efficient.

I pledge to continue working hard on our goals, expanding opportunities, bringing people together and getting things done. I ask for your support and your vote.

**Other Professional Experience:** Security officer, clerk, Customer/Tech Support, writer/editor -Carter now sells electric vehicles. *Security* emphasized the

**Statement:** A bad Republican and a worse Democrat, I'm too liberal for many in the GOP, and too conservative for many Democrats.

We must balance the state budget without driving employers out of our state or out of business. We need to slowly abandon oil. Same sex marriage is simple justice. The Liquor Control Board, an archaic and costly relic, must Go. And we need to protect our environment. And civil rights count. There aren't any campaign promises here. ## Why are there ballot measures and races in this voters' pamphlet that are not on my ballot?

Don't worry, your ballot is correct.

The measures and races on your ballot are the measures and races that you are eligible to vote and reflect the districts in which you are registered to vote.

The voters' pamphlet may cover several different districts and as a result, some items may appear in this pamphlet that are not on your ballot.

Precinct committee officers do not appear in the voters' pamphlet.

You can find all the races and measures for which you are eligible to vote by using the online voter guide at [www.kingcounty.gov/elections](http://www.kingcounty.gov/elections).

**Leslie Klein**  
(Prefers (R) Problemfixer Party)

**Elected Experience:** Precinct Committee Officer

**Other Professional Experience:** I served twenty years in United States Air Force. I taught American Foreign Policy at UW as part of the AFROTC program. I spent 8

years as a contract project manager for spy satellites and learned how to work effectively inside a bureaucracy. I am a self employed small business owner. I currently teach adult education classes at Bellevue College and North Seattle Community College.

**Education:** BS Engineering Degree in Metallurgy; Master's degree in Ceramic Engineering, Case Western University, Cleveland Ohio.

**Community Service:** Member Ballard District Council Committee  
Member Ballard Seafood festival Volunteer Nordic Heritage Museum

**Statement:** *I will balance the state budget and promote small business job creation. Jobs, Jobs, Jobs!!! I will conduct a positive and spiritual campaign. If you are a state employee, earning more than \$100,000, please vote for my opponent.*

A single party, the Democrats, has controlled our state since 2006. The result is cuts to programs supporting the working poor, children and seniors and a huge budget deficit. The incumbent Democrats have stopped acting like the compassionate people they are. One party systems lead to arrogance, corruption and catering to large corporations and lobbyists. My opponent is a great candidate, but voting for her will lead to more of the same for the next two years: *paying more in taxes, while being forced to do more with less.*

The state budget solution is to *stop* the incumbents who cater to big corporations and lobbyists. We must establish a sustainable budget and restore the budget surplus that existed before the one party system began. *I will first fully fund programs for the working poor, children, and seniors. I will never balance the budget by cutting social services or affecting your safety.* Then I will cut other spending to balance the budget.

**Other Professional Experience:**

**Community Service:** boards of directors: NARAL Pro-Choice, King County Conservation Voters, Mothers Against Drunk Drivers, Danceworks NW

**Statement:** Almost alone among legislators, I get the luxury of voting my district *and* voting my conscience. For 14 sessions, I have advocated and enacted progressive positions on behalf of the state's most diverse district.

As Chair of the Senate Judiciary Committee, I have protected our civil liberties and civil rights. As a member of the Ways and Means Committee, I have pressed for more progressive taxes, such as the income tax, that take into account one's ability to pay, and have pressed for a more rational tax on business that supports small firms and start-ups; and I have won stronger funding for social services and K-12 in tough times. As a member of Labor and Commerce, I have won important workplace protections that affect our working people directly.

I attend to the interests of low-income and disenfranchised people, who seek social justice and equal opportunity. Clean air, clean water, and other environmental protections are my high priorities. I am 100% pro-choice. I support real family values: marriage equality, and family leave for working parents. I'll continue to seek more rational restrictions on assault-weapons.

**Education:** I have always sought to augment my education by reading voraciously and gaining knowledge in a participatory way (e.g. traveling, running for office).

**Community Service:** I serve by acting as your choice for personal freedom and limited government.

**Statement:** I am running because I believe that a representative democracy depends on an informed and interested public who are able to *choose between candidates* in a free and fair competition.

Since 1970 there have been 11 unopposed races in our district. All three positions in our district would be unopposed this year without my candidacy. There have only been 8 races in which a third party or independent candidate participated. I find these numbers distressing! **Dan Satterberg**  
(Prefers Republican Party)

**Occupation:** King County Prosecuting Attorney

**Education:** J.D., University of Washington School of Law, B.A., University of Washington

**Statement:** I am excited to lead the talented women and men of the King County Prosecuting Attorney's Office as they represent you in the courtrooms of this county. Our priority will continue to be targeting criminal behavior that threatens the safety of our families, our neighborhoods and our quality of life. In particular my deputy prosecutors will target:

\*Gang violence and the criminal use of guns \*Car thieves -- King County ranked 6th in the nation for car theft in 2005; last year we were 37th, an amazing reduction in this crime that makes us all safer; \* Burglars who prey on your home and property and put us all at risk;

I will also expand our work with youth, to keep them in school and out of trouble with the law.

Our ultimate success cannot simply be measured by the number of convictions we obtain, but rather by our ability to cause long-term reductions in crime.

In these uncertain times, you can count on the Prosecuting Attorney's Office to continue to bring a professional approach to our justice system. We are tough and fair, protecting the rights of victims and upholding the Constitutional protections guaranteed to defendants. We are working every day in partnership with police throughout our great county to keep you and your family safe.

It has been my privilege to be your elected Prosecuting Attorney since 2007, and a member of this office for more than 25 years. Thank you for your vote of confidence. We will work hard each day to be the prosecutor's office this county deserves.

## Regarding write-ins

A write-in line is provided on your ballot for each race regardless of the number of candidates. You have the option to fill in the name of a candidate.

However, write-in votes are not tallied by name unless the total number of write-in votes could make a difference in the results of the race.

You do not need to make a selection in every race. Your votes are counted in each of the races you choose to vote.

## Diana Toledo

**Occupation:** King County Enforcement Coordinator, Animal Cruelty Investigator and Licensing Supervisor.

**Education:** University of Washington Bachelors of Arts Degree; Business Administration - Finance Concentration.

**Statement:** My parents taught me about responsibility early in life; born in the Philippines my father earned his citizenship serving in the U.S. Navy during the Vietnam Conflict; my mother taught me about community service by starting a neighborhood food-bank to help those struggling during Seattle's economic crisis of the 1970s.

Along with my wonderful husband, I am working hard to teach our three daughters the importance of family, community, and social responsibility.

For 15 years I have served King County building a reputation of integrity and professionalism by working with Democrats, Republicans, and Independents to implement reform, stop animal abuse, and develop responsible licensing policy such as the *wheelchair accessible taxicab program*. As a whistleblower I demonstrated the courage necessary to stand for real reform.

Our County needs leaders who are responsive and effective.

**Fiscal Responsibility:** I am demanding greater accountability and efficiency in County government. Government must listen to voters and live within its budget. We must target political slush-funds, redirecting that money to working programs.

**Local Businesses/Jobs:** I will push for laws that encourage job creation, growth, and retention. I will reduce bureaucratic red-tape and eliminate barriers that limit local business's chances for success.

**Safe Streets:** I will focus on youth advocacy programs that will reduce crime and make our streets safer; such as outreach, mentoring, and education. Also, I will fight against budget cuts aimed at Police, Fire, and Emergency Services.

Proudly endorsed by Democrats, Republicans, Independents and other prominent community leaders including Advocates for Animal Welfare, Clean Energy, Youth Development, and Senior Services. For a full list of endorsements, please visit [www.VoteToledo.com](http://www.VoteToledo.com).

*King County faces the worst budget crisis since the depression. We need positive change! If you're tired of politics and want responsible reform, let your voice be heard; vote for Diana Toledo. Thank you!*

## Tim Fahey

**Occupation:** Union Carpenter Local 131 · Roving Minstrel (unpaid...for now)

**Statement:** I'm running for King County Council to be a voice for those impacted by the closing of the South Park bridge. The impact will be profound on Burien, Sea-Tac, Boulevard Park and Normandy Park and devastating to South Park. Political apathy and bureaucratic fumbling have led to the inconceivable reality that is the closure of the South Park bridge.

Promises made to 'Protect the poor and working class' ring hollow. Vote for me, a member of the working class, and I'll put construction trades back to work building a bridge. I'll fight for the businesses of the district. I'll fight for fiscal austerity from the county council and executive.

The people currently in power are so concerned with *who* lives in South Park, they've ignored *that* we live there. I believe a government should do things that we as citizens can't, like build bridges. The government that fails to build our roads should, at our hand, cease to be the government.

There is one more chance to get funding for this project. If that fails you will need a councilman who is willing to move the project into the hands of the citizens. I am that councilman.

**Statement:** King County faces challenges that require effective problem solving and innovative leadership. In the Legislature, Joe McDermott has delivered for transit and transportation priorities, environmental protection, human services and public safety – the very areas where King County provides critical local service.

**A respected Democratic State Senator and lifelong area resident, Joe McDermott is the kind of leader we need guiding King County. Joe shares our priorities and commitment to government efficiency and reform:**

**PRIORITIZE SERVICES:** Joe will make sure the County funds basic services like law enforcement and courts, preserving human services, and smart Metro and transportation planning.

**PLAN FOR THE FUTURE:** From protecting Maury Island and Puget Sound to preserving farms and open space, King County needs proven champions like Joe committed to our quality of life.

**EXPAND OPPORTUNITIES:** Joe fought for reform in governance and financing of the Washington State Convention and Trade Center, which is expected to create some 3,000 construction jobs. He will bring this leadership to the Council.

Shawn McEvoy

**Statement:** King County had a \$56 million short fall last year, this year it is \$60 million, and next year \$88 million. The South Park Bridge is now closed. Raise taxes? Slash spending? The County Council continues to argue and has no real plan to solve these issues.

Do we continue to want “business as usual”, or do we want a Council that works together in a non-partisan way, a Council that listens to its citizens?

We have a choice this year - the County Council we voted for two years ago, **a non-partisan Council**, a Council that works together while it works for us.

My experience since 2002 as a **non-partisan mayor and councilmember** in an otherwise politically divided city is proof that non-partisanship works.

I was encouraged to seek this office by citizens who feel there is a disconnect between King County leadership and the needs and values of those living in suburban cities and unincorporated King County. **People want more government for their money, not more money for their government.**

Over the last several decades as a community leader, City Councilmember and Mayor, I have had to work extensively with King County in key areas such as: Emergency Management; Growth Management; Land Use; Public Health; Metro Transit; Salmon Recovery; Human Services; District Courts; Economic Development; Storm Water Management; Roads and Bridges, to name just a few.

I have attended countless forums, town hall meetings, workshops and community gatherings throughout the Puget Sound region to better hear the voices of our citizens and understand the intricacies and challenges that lie ahead for citizens of the county and especially those in the 8<sup>th</sup> District.

I have the experience.

I have the ability.

I want voters to know that I am not locked into one party's ideals and agendas.

## Stan Rumbaugh

**Legal/Judicial Experience:** An attorney since 1979, Stan Rumbaugh has spent his career working for the rights of individuals at all levels of our judicial system, including handling landmark cases before the Supreme Court protecting health care benefits for injured workers, legitimate property rights, and accountability against

abuse by powerful corporations and government.

**Other Professional Experience:** No information submitted

**Education:** JD University of Puget Sound (Seattle University) Law School, Washington; BA Wittenberg University, Ohio

**Community Service:** Chair, Board of Trustees, Bates Technical College; Board of Commissioners, Tacoma Housing Authority; Board of Trustees, World Affairs Council – Tacoma; recent Board member, Planned Parenthood Washington; Stan is active in his kids' schools

**Statement:** Tested, independent and fair, Stan Rumbaugh will bring the values and experiences of Washington families to the Supreme Court, not a special interest agenda. Highly rated and broadly endorsed, Stan works to protect the rights of individuals at all levels of the legal system. He will bring needed balance and respect for our State Constitution to the Court.

Stan believes corporations and the government deserve the same protections as citizens—not special treatment. In contrast, his opponent collected over \$1 million in campaign contributions from powerful special interests like the insurance industry, repaying them by repeatedly siding with their positions—even when it meant opposing the majority's position or current law. We cannot afford 6 more years with a deeply ideological voice.

Active in his community, Stan serves on the Bates Technical College and Tacoma Housing Authority Boards. He is proudly endorsed by unions and small business, environmentalists, leaders in the legal community, education advocates, and citizens throughout Washington.

We elect justices to assure that people—not special interests or political insiders—determine who interpret our laws. Exercise your right to bring a thoughtful, fair-minded voice to the Supreme Court. Vote Stan Rumbaugh.

## Richard B. Sanders

**Legal/Judicial Experience:** First elected to Supreme Court in 1995; and reelected in 1998 and 2004. During my time on the Court, I have written more opinions than any other Justice. Before that, I practiced law for 26 years. I have also served as an adjunct professor teaching appellate advocacy at the UW School of Law, and guest lectured on state constitutional law at Seattle University.

**Other Professional Experience:** I am an Eagle Scout and once played the French horn in the Rose Bowl.

**Education:** B.S. and J.D., University of Washington

**Community Service:** I frequently lecture and have written many legal articles and opinion pieces explaining our constitutional rights.

**Statement:** A Supreme Court Justice must uphold the highest ethical standards, working to assure that government is open and the rights of citizens are protected. It has been my honor to serve on our state's highest court since 1995 and to follow these standards.

Article 1, Section 1 of our Constitution states: "governments... are established to protect and maintain individual rights." I believe that's the job description of a Justice also: we must look out for the individual citizen and protect our Constitutional rights. Sometimes this makes me seem conservative, as when I support property rights, and sometimes it makes me seem liberal, as when I call on the federal government to end the unconstitutional treatment of prisoners. But I am consistent: we have rights the government must not violate. Thomas Jefferson said the God who gave us life gave us liberty at the same time. It's a good thought to remember.

*Justice Sanders attracts support that cuts across the spectrum, with endorsements including: Democratic and Republican Senators; the State Republican and Libertarian Parties; judges and civil libertarians; the Association of Washington Business and union members -- more than 1,000 endorsers.*

## Proposition No. 1

Shall South King Fire & Rescue be authorized to impose benefit charges, each year for six consecutive years, not to exceed an amount equal to sixty percent of its operating budget, and be prohibited from imposing an additional property tax under RCW 52.16.160?

- YES  
 NO

### Statement in favor

As citizens of Federal Way and Des Moines, we have sincerely appreciated your support in helping to maintain the HIGH QUALITY Fire and Emergency Medical Services you so justly deserve. Over the years through your support, we **NOW** have exceptional services in South King Fire & Rescue. With your continued commitment and support we will **keep it that way**.

The downturn in the economy has impacted the fire district directly with a loss of \$3.7 million in 2010 alone. This is coupled with the potential loss of additional funds through a process known as pro-rationing, which can force further reductions in the amount of revenue our fire district can collect. The reduction in 2010 revenues forced our fire district to reduce firefighters, cut back budgets, and use cash reserves to make ends meet. This cannot continue for 2011 and beyond without negatively impacting our emergency services and response times.

Your **YES** vote on "Proposition One" on August 17<sup>th</sup> will ensure that our fire department will remain at full readiness twenty-four hours a day, which will guarantee that South King Fire remains the highest rated Fire District in the State. Thank you! Please **VOTE YES Prop 1!!**

### Rebuttal of statement in opposition

#### Hogwash!

The fear tactics about raising new taxes are ridiculous and extremely misleading.

Your fire district will maintain, **not expand**, its emergency services. Proposition One sustains emergency response times and firefighter's readiness 24/7. Would you want it any other way? **We do not**.

The Commissioners listen to citizen's input during the annual budget process; they have been responsible for, and have responded to the needs of the community for over 60 years.

**PLEASE VOTE YES!**

### Explanatory statement

South King Fire and Rescue, serving the citizens of Greater Federal Way and Des Moines, is placing a "benefit charge" proposition on the August 17<sup>th</sup>, 2010 primary ballot. This proposition meets the requirements of RCW 52.18, which allows the use of benefit charges to maintain fire district operations. A benefit charge is not a property tax. It is not based on assessed value of property. Instead, the benefit charge is based on the relative cost of service delivery. If approved, the benefit charge, in effect for six years commencing in 2011, will be based on the total square footage and projected fire flows required for residential, commercial, multi-family and mobile home properties utilizing a consistent and industry-accepted formula.

Approval of this proposition would allow the district to maintain the current level of services. Rejection of this proposition would lead to the continued loss of up to \$3.6 million annually, which may necessitate cutbacks in services, possible layoff of personnel, potential elimination of special services such as rescue teams, and similar cutbacks.

This proposition will lower the property tax levy rate to a maximum of \$1.00 per \$1,000 of assessed valuation. Benefit charges cannot exceed 60% of the operating budget.

### Statement in opposition

**66% tax increase!!** In a Bad economy?

You thought it would go down but the law says 60% of the supplemental tax can come from the new Service Benefit Charge. So they get \$1.00 from the Assessed Value **PLUS** an additional \$1.50 from the SBC for a total of **\$2.50**.

An effective way for the Fire District **quickly RAISE** your taxes, *each of the next six years*, without another vote!

Proposition 1 appears to lower taxes from \$1.50 per thousand of Assessed Value to \$1.00. But a complicated formula, which changes every year and **must include every structure** on your property, quickly replaces, and outpaces, the supposed savings, allowing up to \$2.50 in taxes.

Imagine, your house, garage, shed, carport, chicken and rabbit hutch, (even the children's playhouse?) **must be included** in the new tax.

And, once instituted, *every year*, the fire commissioners will change the numbers, raising taxes higher, unchecked, without your vote.

As an outcome based expense, the fire district determines how much they want to spend next year, and then figures out how to get it from you.

Taxes based on Assessed Value control spending, the Benefit Charge encourages spending.

Vote NO

### Rebuttal of statement in favor

The "Pro" statement is misleading. NO FIREFIGHTER has been laid off due to reduced budget!

The Assistant Fire Chief states that Emergency Response WILL **NOT BE REDUCED!!** The budget will be met with **no loss of safety services**.

"Service Benefit Charge" **does not** have 1% cap.

Now, the fee is capped at \$1.50 per \$1000 Assessed Value. Next year, it can be **\$2.50 per \$1000, a 66% tax increase!**

Vote Accountability. Vote NO !
