

Flu, RSV, and COVID-19 Vaccine Updates for Fall 2023

You may be eligible to receive 3 vaccines this fall for flu, COVID-19, and RSV.

Get an **updated COVID-19 vaccine** to protect against the newer variants of COVID-19. Protect against serious illness and long-lasting COVID symptoms.

A **flu shot** offers protection for everyone 6 months and older for the flu season, which can last through spring.

Adults aged 60 and older and anyone who is 32 to 36 weeks pregnant should talk to their doctor or a pharmacist to find out if they need an **RSV vaccine**.
