Subject: Please watch in advance of the June 12 Beverage Ordinance Meeting

Dear King County Council Members,

I am a resident of unincorporated King County in Woodinville, a small business owner and a flower grower. I rely on local farms to buy flowers for my floral business which is what prompted me to help create this video in support of the farmers of King County.

Please watch because the farmers have a voice that has previously been muted in this process; only one farmer to four winery owners represented the stakeholders for the Beverage Study that preceded the ordinance. Many of the farmers in SV did not know about the Beverage Ordinance. In addition, the many KC initiatives including LFI, SCAP and LCI that champion adding 400 net new acres of farmland per year for 10 years in KC appear to be in direct conflict with the proposed ordinance of changing agricultural buffer zoning to allow remote tasting rooms and event establishments.

<https://youtu.be/owheKJPPFsg>

Thank you for watching. The adult beverage industry and other retail have many options for locating businesses in zoning that allows for commercial properties; the farmers have more and more limited options because of dwindling farmland, rising prices, etc all outlined in the KC 2009 Farms Report with a new report due in 2019/2020.

Thank you,

Subject: The Beverage Ordinance puts King County farmers out of business

Dear Supervising Legislative Analyst Erin Auzins,

The Sammamish Valley Agricultural Production District (APD) is one of the most fertile valleys in the country. If farmed to full potential, the Valley could annually supply local organic vegetables to 80,000 people, at a value of \$54 million. These sustainable, high yields are essential as climate change decreases yields in the Midwest and California.

It makes ZERO SENSE to support the Lambert/Balducci version of the Beverage Ordinance, which undermines the efforts of dozens of hard working farmers in the Valley, works at cross purposes to well-established land use regulations, and is totally counterproductive to multiple KC initiatives supporting local farming with taxpayer dollars.

* The Ordinance allows for commercial development on top of the Valley's steep-sloped, environmentally sensitive KC SO-120 Ag Buffer Overlay area. The RA Buffer and the APD are an integrated environmental ecosystem. Development in the RA Buffer damages the adjoining farmlands with sediment-laden, toxic, and overheated water runoff from impervious and compacted surfaces. Groundwater flow is also degraded by commercial activity which exceeds the capacity of residential septic systems.

* Land use speculation pushes out the farmers. Farmland in the Valley's APD, when sold for farming, is typically priced at \$15k-35k per acre. Recently several parcels have sold for as much as \$850k per acre and another was on the market for \$1.6m per acre – with intention for uses other than agriculture.

* KC farmers will be put out of business. Additionally, these farmers support a broad ecosystem of local restaurants, chefs, foodbanks, and landscaping companies that will be harmed by the Ordinance.

* The 60% rule for product to be grown ON SITE should be restored, to prevent productive farmland from being turned into manufacturing uses.

* Commercial development of Rural Area and APD lands goes against many taxpayer-funded KC efforts to support locally sourced food, including the Local Food Initiative, the Farmland Preservation Program, Puget Sound Fresh, Farm King County, and the Land Conservation Initiative.

* The WA State GMA mandates that King County protect the County's Rural Areas and APDs. The Ordinance allows for commercial development throughout KC Rural Areas and will negatively impact not only the Sammamish Valley APD but the other KC APDs as well.

Please adopt the Friends of Sammamish Valley Amended Ordinance that would protect the APD farmlands.

Council member Lambert and Mr. Brown,

Thanks for keeping me in the loop on this and for all the considerable effort that has gone into it. I can tell from the public hearings that its been quite a grind. As the 12th approaches and as an interested party, I'd like to add my comments to the public record.

I've included those comments herein, in writing. If there's a different way you'd like these submitted, please let me know and also

if there's anything else I can do, please don't hesitate to ask.

Thanks again for all your efforts on this.

To:

The Honorable Council Member Kathy Lambert

My name is Steven Hartley of Vessel Wines. I represent a group that has purchased the property located on 140th Place NE just outside the city limits of Woodinville and within the proposed legislation currently being considered for passage by the King County Council. We purchased the property just under a year ago with the expressed intent of bringing into the area a winery which has been in operation for almost 7 years now. After having reviewed the proposed legislation and having attended several hearings on the matter, I thought it appropriate at this point to offer my point of view as an involved party in these proceedings. And I think the best way to do that is to respond to what I have heard and seen from other interested parties.

Any new wineries/breweries/distilleries that are brought into the subject area will create additional environmental hazards such as effluent from winery operations, additional traffic congestion and degradation of the existing landscape and available farmland.

As you know, any and all discharge from any WBD in almost every municipality, especially in Western Washington comes under strict compliance issues from local water and sewer departments and ALL effluents are carefully and consistently monitored by these agencies for measure against stated health and safety standards including PH levels, maximum soluble particulate content, among others. In fact, many municipalities have adopted standards of clean water discharge particularly related to WBD's to such levels so as to force growers to move their actual vineyard operations from Western Washington to the east where effluent can be safely discharged onto vineyard land as fertilizer for subsequent crops. So, in fact, current codes have actually discouraged activities that could have additional environmental impact on the existing areas in question within this legislation except within the actual agriculturally zoned areas. At nearly every hearing, many respondents who have described themselves as farmers have commented that these contemplated uses are inconsistent with typical farming practices currently underway in the proposed areas. It seems odd that WBD owners and operators have been excluded from this group when more than a small majority of them are, in fact, farmers themselves. And those that may not fit this loose description are certainly engaged in agricultural activity, to be sure.

Operators of WBD's are, by and large, as concerned about environmental issues every bit as much as others involved in agricultural production and quite often are leaders in sustainable production practices. One of the very well known facts among those actively engaged in sustainable agriculture is that one of the number one most environmentally devastating plants is the common type of grass used for residential lawns. Given its high use of water and fertilizer relative to almost any other form of vegetation, its environmental efficiency ranks well below anything produced by any WBD. A fact that might be remembered by those Home Owner Associations in the subject area who have expressed such environmental concerns with regard to the proposed legislation. With regard to additional traffic and other burdens on existing infrastructure, we fully expect to be required to implement mitigation measures of these issues as would be typically required of any other lawfully operating business within the area under consideration. In addition, the business contemplated by our group will include considerable effort to protect and enhance existing natural resources and attributes of the property.

During the past several years, the site has been fallow and apparently not of any interest to any local farming concern and, as a result, has simply been overgrown with weeds, unused and impassable as any potentially public asset. Our facility contemplates a considerable enhancement of the natural landscape of the property that would very likely have to be removed by any farming operation on the site.

Winery Tasting rooms are nothing more than bars that will create additional burden on law enforcement, additional traffic violations and undue effect on families and children in the area

These comments have been almost universally preceded by the respondent mentioning that they, too, enjoy the products produced by WBD's, many mentioning that they are actively involved in many wine clubs, etc. It's difficult then to decipher what the respondent's comments are meant to convey. Its OK for these facilities to exist so long as they are in someone else's neighborhood? Or perhaps the respondents are able to patronize these facilities, try the offered products and then safely manage themselves afterwards so as not to create a public hazard, but no one else is? The fact is that these facilities traditionally have allowed anyone, including minors, to patronize WBD's with the obvious requirement of legal age to actually try the products offered. The point being is that these are meant to be family experiences and many tasting rooms offer non-alcoholic options for patrons not of legal age in an effort to foster a sense of community and involvement. Hours of operation rarely go past 9 or 10pm even when not mandated to do so and there is virtually no evidence that local law enforcement is required to manage patrons leaving these facilities due to excessive drinking. These allegations are simply untrue and baseless.

Property values are affected by the introduction of this legislation causing remaining available land to become inaccessible to local farming concerns due to speculation and increased density uses. The resultant effect is smaller and/or fewer farms in the area.

These comments seem to suggest that, absent this legislation, the value of the real property in the area contemplated, will never increase in value. This is, unfortunately, not a realistic perspective. An argument could easily be made that the existing single family home developments within the area, many of which boast homes that regularly sell for well over \$1 million, have had a significant effect on land values since those developments were built. The idea that land may become more valuable in any given area over time is certainly nothing new. I am aware that the county has been aggressively seeking additional land assets that can be offered to existing farming concerns so as to allow their continued operations and expansion, which is a good thing. But it's worth also keeping in mind that only a small percentage of WBD's actually operate at any significant net profit but rather are built and operated to simply sustain basic coverage of operating costs and are typically operated as "Labors of Love" and certainly not to become high net profit concerns.

Many existing businesses are currently operating illegally within the proposed areas creating undue and/or unfair burden of those businesses operating within in the law

As a newly proposed business, it's difficult for us to speak to this. But my understanding is that a primary goal of this legislation is to, in fact, bring these existing businesses into compliance. We, of course, as a new business expect to be required to be fully compliant with all requirements of the county and all other governing authorities with regard to any construction, water quality control, environmental issues, along with any other requirements as they currently exist in the area for any other lawfully operating business.

There are a lot of other comments that I've heard from respondents with regard to the particulars of this proposed legislation such as the concept of 60% of raw product being required to be grown onsite within RA zones when, in fact, that requirement has been proposed within A zones (not RA zones) which have never been considered purely agricultural areas within current zoning codes. These comments are, at least to me, indicative of respondents who after the nearly 5 years that have passed since this legislation was originally proposed, have yet to take the time to actually read or study the proposal and its associated code changes and effects. But rather simply would like to see no zoning updates of any kind regardless of the changing landscape within the greater community. Again, this same argument could have been made with every new housing development, every new business, in fact, every time any new change was introduced to the natural landscape since the area was first inhabited. Change is inevitable and the time, energy, effort (and money) put forth by the King County Council, Executive's Office and all the associated consultants and other participants, not to mention the exhaustive efforts to hear and consider all public comment, appear to have been more than equitable and considerate to all perspectives in the hopes of crafting legislation that attempts to balance the needs of all and not just a vocal few. Its unrealistic to assume that even this monumental effort will be sufficient to meet the exact desires of everyone involved or affected, but we certainly appreciate the effort to try and do just that. As a result, we whole heartedly support the proposed legislation. We look forward to becoming a new, cooperative, considerate (and hopefully welcomed) business within the county and will always strive to be a good neighbor to those with whom we co-exist.

Thanks again for your time and effort

Dear Councilmembers,

Having been working with many of our industry partners with the beverage ordinance, I am sending you our industry perspective of the conceptual striker as our first attachment. I am requesting this be added to the record for the meeting scheduled for June 12th at 10:30 AM.

I would also like to formally request a public meeting to be held in South King County regarding the Beverage Ordinance.

To date there has not been one community meeting anywhere close to South King County regarding this ordinance. If the council actually values public comment from all parts of unincorporated King County, then we would show that by having a community meeting in other areas of Rural King County as well.

This ordinance affects ALL unincorporated, not just the northern parts of K.C. We need to have public community meetings in South King County as well, allowing for easier ability for public comment for our area.

Please heed our concern. If any help is needed regarding finding a location, I know that Green River Community College has the ability to host meetings like this as they have done in the past.

I am requesting a response from each Council Member's office acknowledging receipt of this email. Thank you.

Informed Community Stance:

The County already receives an annual notice of liquor license renewals/ applicants. The County needs to organize it so they can use it. Not doing so, caused a lack of tolerance in the community pitting neighbors against neighbors and government against its people.

Informed Community Stance:

Using the WLCB definitions of each industry and the various licenses under each industry, the definition the County is attempting to craft is fundamentally flawed, as breweries/ distilleries can't have additional outlets. The County is not currently structured for that approach to be successful, unless no longer being eligible for general fund distributions is intentional.

15	<p>Modifies <u>citation</u> penalty:</p> <p>Adds specific citations for WBD I, II, II and remote tasting rooms: \$500 for first violation, and \$1,000 for subsequent violations</p> <p>(existing code is \$100 for first violation, \$500 for subsequent violations)</p>	<p>Agree with Executive.</p> <p>Add evaluation of the effectiveness of the fine system to the report required at the end of 5 years</p>	<p>Is the county going to disperse the citation money to the same programs the State does? If you are going to create citations then the money needs to go to the programs that the state requires it goes to. Regardless, this is exactly why the county does not have the power to license any business regulated under RCW Title 66.</p> <p>Attempting to create citations is a violation of state law and a complete abuse of its police ordinance powers. Refer to Chapter 66.44 RCW Enforcement Penalties</p> <p>(2) In addition to any and all other powers granted, the board shall have the power to enforce the penal provisions of this title and the penal laws of this state relating to the manufacture, importation, transportation, possession, distribution and sale of liquor.</p> <p>Creating citations is a conflict with the board's power of regulating the businesses. To come into compliance with State Law, King County must:</p> <ol style="list-style-type: none"> 1. Stop intruding on the State's jurisdiction and evaluate King County's permitting department's illegal activity. 2. Suspend King county's unauthorized and illegal involvement in regulating the WBD businesses and all other businesses regulated under Title 66 RCW. 3. Reverse the illegal King County ordinances that historically created restrictions to all businesses licensed and regulated by the WSLCB.

15.5	Study requirements – not included in Executive's proposal	Add a study requirement – at the end of the 5 years, in conjunction with the studies done for the demonstration projects. <ul style="list-style-type: none"> • Analysis of impact urban uses within UGA have on rural character of adjacent rural areas outside the UGA and provide recommendations to reduce impact of those urban uses. • Analysis of product content requirement (60% onsite, Puget Sound Counties, or ag accessory use). • Analysis of effectiveness of TUP triggers in KCC 21A.32.100. • Analysis of WBD I as interim use in A zone. 	<ul style="list-style-type: none"> • If the study is composed like the Sammamish valley attempt, then don't waste the citizens' money. The county needs to perform a study on their permitting office and code enforcement officers. The county should do a sting on the department of permitting where it hires a secret person to apply for a change of use permit. This will show the county how broken the system really is. • Permitting has too much power to interpret things the way they want. They don't process permits in a timely matter according to state law and accept no responsibility for their actions that are performed in bad faith. <p>66.08.030 Regulations—Scope. The power of the board to make regulations under chapter 34.05 RCW extends to:</p> <p class="list-item-l1">(19) Prescribing methods of manufacture, conditions of sanitation, standards of ingredients, quality and identity of alcoholic beverages manufactured, sold, bottled, or handled by licensees and the board; and conducting from time to time, in the interest of the public health and general welfare, scientific studies and research relating to alcoholic beverages and the use and effect thereof;</p> <ul style="list-style-type: none"> • Asking for ingredients infringes on a business's trade secrets and regulating the source of ingredients is infringing on the states duties. • RCW Title 66 (see Attachment 2) specifically says the board has the right to regulate "standards of ingredients," and methods of manufacture. If continued, the county will be in violation of state law when this ordinance is proposed. Requiring ingredient sources intrudes on business privacy and regulating with yearly business licenses creates a financial conflict of interest between the licensee and county government.

This breaks state law and is, again, an illegal act by King County. • Requiring yearly TUP application is the same as licensing businesses regulated under Title 66 RCW. It is Illegal, and the county has been illegally withholding permits from citizens for over 20 years. This should be fixed immediately, and it was a good start creating DLS. The permitting office has never had a boss before Jan 1st of 2019 and their overstepping will bring sanctions upon the County.

Hi Erin,

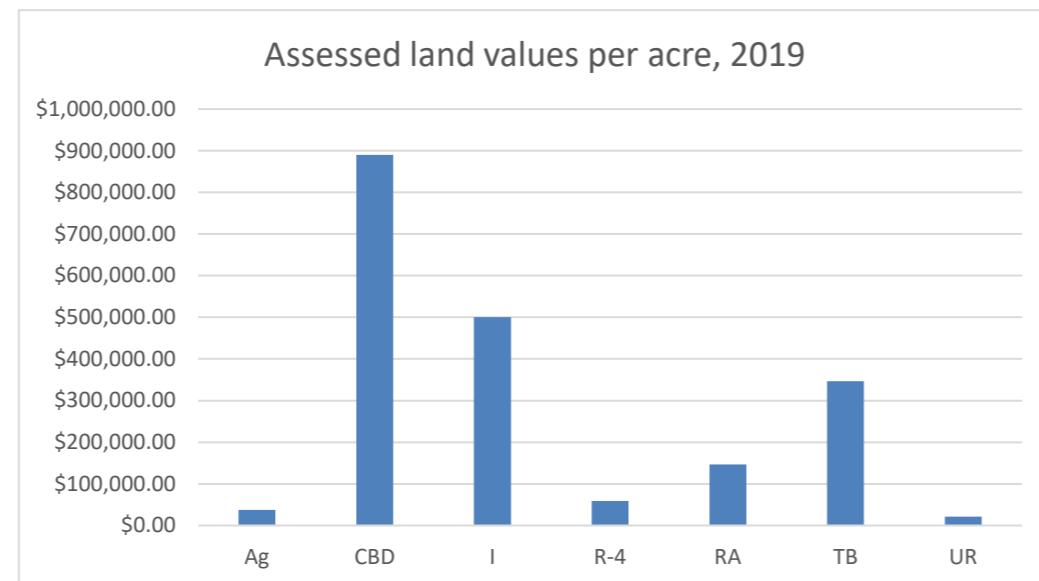

Please add the attached spreadsheet to the record for Ordinance 2018-0241.

It simply shows that RA- and A-zoned land is cheaper than commercial land inside the UGB. Therefore, commercial operations on RA- and A-zoned land have a competitive advantage over their competitors inside the UGB. The ordinance has the effect of encouraging businesses to locate outside the UGB, and encouraging land speculation outside the UGB.

Thank you,

Susan Boundy-Sanders

Subject: The Beverage Ordinance puts King County farmers out of business

Dear Supervising Legislative Analyst Erin Auzins,

The Sammamish Valley Agricultural Production District (APD) is one of the most fertile valleys in the country. If farmed to full potential, the Valley could annually supply local organic vegetables to 80,000 people, at a value of \$54 million. These sustainable, high yields are essential as climate change decreases yields in the Midwest and California.

It makes ZERO SENSE to support the Lambert/Balducci version of the Beverage Ordinance, which undermines the efforts of dozens of hard working farmers in the Valley, works at cross purposes to well-established land use regulations, and is totally counterproductive to multiple KC initiatives supporting local farming with taxpayer dollars.

* The Ordinance allows for commercial development on top of the Valley's steep-sloped, environmentally sensitive KC SO-120 Ag Buffer Overlay area. The RA Buffer and the APD are an integrated environmental ecosystem. Development in the RA Buffer damages the adjoining farmlands with sediment-laden, toxic, and overheated water runoff from impervious and compacted surfaces. Groundwater flow is also degraded by commercial activity which exceeds the capacity of residential septic systems.

* Land use speculation pushes out the farmers. Farmland in the Valley's APD, when sold for farming, is typically priced at \$15k-35k per acre. Recently several parcels have sold for as much as \$850k per acre and another was on the market for \$1.6m per acre – with intention for uses other than agriculture.

* KC farmers will be put out of business. Additionally, these farmers support a broad ecosystem of local restaurants, chefs, foodbanks, and landscaping companies that will be harmed by the Ordinance.

* The 60% rule for product to be grown ON SITE should be restored, to prevent productive farmland from being turned into manufacturing uses.

* Commercial development of Rural Area and APD lands goes against many taxpayer-funded KC efforts to support locally sourced food, including the Local Food Initiative, the Farmland Preservation Program, Puget Sound Fresh, Farm King County, and the Land Conservation Initiative.

* The WA State GMA mandates that King County protect the County's Rural Areas and APDs. The Ordinance allows for commercial development throughout KC Rural Areas and will negatively impact not only the Sammamish Valley APD but the other KC APDs as well.

Please adopt the Friends of Sammamish Valley Amended Ordinance that would protect the APD farmlands.

Sincerely,
Steve Doe

Subject: The Beverage Ordinance puts King County farmers out of business

Dear Supervising Legislative Analyst Erin Auzins,

The Sammamish Valley Agricultural Production District (APD) is one of the most fertile valleys in the country. If farmed to full potential, the Valley could annually supply local organic vegetables to 80,000 people, at a value of \$54 million. These sustainable, high yields are essential as climate change decreases yields in the Midwest and California.

It makes ZERO SENSE to support the Lambert/Balducci version of the Beverage Ordinance, which undermines the efforts of dozens of hard working farmers in the Valley, works at cross purposes to well-established land use regulations, and is totally counterproductive to multiple KC initiatives supporting local farming with taxpayer dollars.

* The Ordinance allows for commercial development on top of the Valley's steep-sloped, environmentally sensitive KC SO-120 Ag Buffer Overlay area. The RA Buffer and the APD are an integrated environmental ecosystem. Development in the RA Buffer damages the adjoining farmlands with sediment-laden, toxic, and overheated water runoff from impervious and compacted surfaces. Groundwater flow is also degraded by commercial activity which exceeds the capacity of residential septic systems.

* Land use speculation pushes out the farmers. Farmland in the Valley's APD, when sold for farming, is typically priced at \$15k-35k per acre. Recently several parcels have sold for as much as \$850k per acre and another was on the market for \$1.6m per acre – with intention for uses other than agriculture.

* KC farmers will be put out of business. Additionally, these farmers support a broad ecosystem of local restaurants, chefs, foodbanks, and landscaping companies that will be harmed by the Ordinance.

* The 60% rule for product to be grown ON SITE should be restored, to prevent productive farmland from being turned into manufacturing uses.

* Commercial development of Rural Area and APD lands goes against many taxpayer-funded KC efforts to support locally sourced food, including the Local Food Initiative, the Farmland Preservation Program, Puget Sound Fresh, Farm King County, and the Land Conservation Initiative.

* The WA State GMA mandates that King County protect the County's Rural Areas and APDs. The Ordinance allows for commercial development throughout KC Rural Areas and will negatively impact not only the Sammamish Valley APD but the other KC APDs as well.

Please adopt the Friends of Sammamish Valley Amended Ordinance that would protect the APD farmlands.

Sincerely,
Karin Doe

Dear Councilmember Balducci:

My name is Karin Gunther and I have been a resident of the west ridge of the Sammamish Valley near the Tolt Pipeline Trail since 2012. I am writing in opposition to the ordinance of proposed changes to Sammamish Valley land use.

I have come to really appreciate my home, my neighborhood, my local area. I love the wineries/tasting rooms in Woodinville and am very proud of our Washington State wines. Most importantly, I love the farmland that still exists in the Sammamish River Valley and I feel we should be doing everything we can to promote and support local farming. It is good for our health and for our environment. These different interests can coexist without harming each other if the existing zoning is followed.

Thank you for hosting the community meeting last week. One of the citizens that spoke reminded me of my initial reaction when I heard about the opposition to the proposed changes to the Sammamish Valley. I thought “oh brother, growth is inevitable, get used to it.” I no longer feel this way, and I would like to offer my perspective. Even though my home feels rather rural presently, I live in an urban growth zone. So I know that more development is inevitable where I live and I accept that. Our county government has had the foresight to enact a growth plan for the area and zoned certain areas as APD and RA along the Sammamish River Valley to protect the rural areas and farmland I love. I am very concerned that the proposed ordinance would permanently and negatively affect these areas. In fact I do not believe that there is ANYTHING positive about the proposal.

I am concerned that farmland will be irreparably harmed and that the amount of farming will decrease instead of increase. Land speculation has already happened by those anticipating the proposed change.

I know that the traffic and parking situation along Rt. 202 is already very bad, and would only get much worse.

There is no viable reason for the proposed changes. There is plenty of land/commercial space where the zone violators and any new businesses could operate successfully. Downtown Woodinville has new developments in process and there are plans for developing at the main traffic circle. And the part of Woodinville Redmond Rd NE that runs along the west side of the river-is appropriate and available for these land uses as well. There will eventually be a rail-trail along this area - how charming it would be to have a tasting room with trail access!

I do not feel that the approximately 5 businesses that have knowingly gone against zoning should be rewarded for their bad behavior. Why did King County not enforce this? There are OTHER and BETTER locations that will not require approval of a land use ordinance. Having these five businesses move to more appropriate locations would NOT make them go out of business.

What is the real reason behind this proposed ordinance? The slide on page 4 of the presentation this week does NOT answer the question.

Have you taken a look at the Friends of Sammamish Valley website? <https://friendsofsammamishvalley.org> It is very impressive! It seems very factual to me, with minimal emotion. I would really like to know if anything that is said on that website is incorrect! Please take a look!

Claudia, I have thought of you as a progressive member of the King County Council, and I have been happy to have you as my council member. But this proposed ordinance is anything but progressive! Please do not vote for this. A vote for this ordinance is a vote against the environment and our future!

Sincerely,

Karin Gunther
