Note: The information for the job analysis was gathered by either on-site observation, interview and/or is representative of the labor market as indicated on page 1. Additional data may have been obtained from standardized industry resources such as the DOT, GOE, COJ, OOH, WOIS, and O-NET. On occasion, practicality and feasibility prevent direct observation and/or gathering of objective quantifiable data. For this reason, a "best estimate" may have been used.
