(*) The highest crime category in a case's history is used to classify cases. For example, a case charged with homicide at any time during the case's history is reported as a homicide regardless of whether the charge is reduced at resolution.

(**) Due to small number of resolutions in this category, the age statistics for homicides are expected to vary considerably.

Reflects all documents received by 06/15/2017.

(1) "Controlled Substance - Non Drug Court" are drug related cases that have never been accepted into drug court.

(2) "Controlled Substance - Drug Court" are drug related cases that have been formally accepted into drug court (identified by "Order of Participation").

(3) DV Subset includes cases with a DV flag in at least one of the charges within the specific crime category at the time of the reporting.

(*) Information from filing to the reporting time is used to determine crime category for pending cases. The category for a case in this table is the highest crime category since filing. For example, a case initially charged with homicide is reported as a homicide regardless of whether or not the charge is reduced since filing. On the other hand, if the charge for a case is upgraded later, then the reporting category in later reports will reflect the upgraded (higher) crime category.

Reflects all documents received by 06/15/2017. Drug court cases are identified by docket code "ORPAR" (Order for Participation).

(*) The highest crime category since filing is used to classify cases. For example, a case initially charged with homicide is reported as a homicide regardless of whether or not the charge is reduced since filing. On the other hand, if the charge for a case is upgraded later, then the reporting category in later reports will reflect the upgraded (higher) crime category.
