Juvenile Offender Statistics - Executive Summary

- **Filings (Table 1.A)**

Note: Prior to 2005, “detention only filings” were counted as “other” filings. Since some of these cases have no amended information at all (i.e., no real charge is filed), starting in 2005, we have separated these “detention only filings” from filings. Instead we created another category “detention only cases” (Table 1.B, page 5). Because of the changes, the number of filings is expected to be smaller, starting in 2005.

The juvenile offender filings in December 2019 were 85 cases. In 2019, the year-to-date monthly average filings were 93 cases. This compares with a monthly average of 280, 208, 187, 151, 150, 137, 108, 110 and 102 cases in 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017 and 2018, respectively.

- **Resolutions (Table 2-A)**

The number of resolutions in December 2019 was 79 cases. In 2019, the year-to-date monthly average resolutions were 86 cases. This compares with the average number of resolutions of 289, 220, 196, 145, 135, 128, 117, 98 and 102 cases in 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017 and 2018, respectively.

- **Age of Resolved Cases (Tables 2-C and 2-D)**

Because of the relatively small number of resolutions each month, the average age is likely to fluctuate significantly. Therefore, a more robust measurement of the age is the “median age” (i.e., the days at which 50% of the cases were resolved below the “median age” and 50% beyond the “median age”).

The time to resolve juvenile offender cases has not shown any significant change.

- **Pending Caseload (Tables 3-A and 3-B)**

The pending active caseload (those cases not on warrant, deferred disposition, stay or appeal status, and not yet resolved) at the end of December 2019 was 647 cases, showing an increasing trend in last 4 months.

- **Age of Pending Cases (Table 3-C)**

At the end of December 2019, the median age of the pending cases was 142 days, namely, 50% of the pending cases were less than 5 months old (142 days).

CONCLUSION: The average monthly filings in 2019 continued at a low level, with a monthly average of 93 cases. The resolutions in the same time period were lower than the filing volume, with an average of 86 cases per month in 2019. The pending caseload was 647 cases at the end of 2019. Half of the pending cases were less than 142 days old.
