DOMESTIC VIOLENCE ASSESSMENTS

As a result of the Domestic Violence petition, Family Court Services has been ordered to complete an evaluation that will assist the court in determining the arrangements for the residential provisions for your children. In order to provide the court with sufficient useful information to make a decision, your immediate and full cooperation is required.

The Evaluator in Family Court Services is responsible for assessing both parents' parenting background and capabilities, and recommending a specific plan to the court for the future care and responsibility for your children. To gather sufficient information, the evaluator will conduct interviews with you and, depending on the need, may contact family members and other significant parties. As well, contact may be made with school and day care providers, medical treatment providers, law enforcement agencies and references.

This assessment will be conducted prior to the return hearing and your immediate cooperation is required. The information is not confidential and is available to attorneys and to clients if they do not have an attorney. When the assessment report is complete, copies will be made available to the court and the attorneys of record or non-represented clients. The Family Court Services case is closed when the report it submitted and no further services will be provided unless a further court order requires it.
