Shelby,

Only under rare circumstances do we allow connections outside of the city limits. The sewer line dead ends just east of this parcel, so a short extension would be necessary for this property to connect (or a very long connection to the main). We are also not charging them for sewer rates. No, the use is not currently connected to the city sewer system, however it would take only a few hundred feet of extension for them to connect.

Hope this helps,

We encourage applicants to apply for permits electronically. If you have questions about how to apply for permits electronically please email permits@ci.enumclaw.wa.us.

Hi Chris. Our members had a question regarding this NOI. The NOI mentions that the parcels are served by septic system and that sewer would need to be extended in order to provide service. However, the Assessor's Office lists these parcels as "public" for Sewer/Septic:

<https://blue.kingcounty.com/Assessor/eRealProperty/Detail.aspx?ParcelNbr=7792000015>

<https://blue.kingcounty.com/Assessor/eRealProperty/Detail.aspx?ParcelNbr=7792000020>

Could you please confirm that these parcels are indeed serviced by septic system vs. sewer? I'd like to pass on the information to our members.

Thanks so much,
