

NERTS Maps

11724 NE 60th St, Kirkland 98033

Location: City of Kirkland

Size: 8.4 acres

Current use(s): transfer station

If this site is selected for the new station, King County's goal would be to build on a footprint similar in size to the current station, or slightly larger. During the design stage (mid-2023 – late-2025) King County will consider technical and service needs, community input, cost, and other factors to determine a final design for the selected site, including the total footprint.
