

King County Green Schools Program Podcast

Show Notes: Episode #1

The first episode includes an overview of the King County Green Schools Program, features a Sustainability Story interview with student Green Club leaders at Thomas Jefferson High School, highlights Sustainability Ambassadors' student climate action ideas, and introduces monthly Green Team Activities.

- **Connectivity Activity**
Invite your students or Green Team members to work together to build a sustainability story.
 1. Use a sentence starter such as, "I went outside to put my leftover food in the compost when..."
 2. Invite the next student to add to the story with a complete sentence.
 3. Remind students their sentences should be about sustainability.
 4. Complete your story and discuss how it included sustainability ideas!

Would your school, class, or Green Team like to share a Sustainability Story with the community?

Please email your story to greenschools@triangleassociates.com.
