

# WE ARE CLEAN WATER

**King County**

Department of Natural Resources and Parks  
Wastewater Treatment Division

# CAREERS THAT MATTER

Headquartered in downtown Seattle, King County's Wastewater Treatment Division has been committed to protecting and improving water quality for nearly 50 years.

To our agency, success means clean water. It means honoring our legacy of environmental success while keeping a promise to maintain it for another generation.

When you come to work at King County's Wastewater Treatment Division, you'll get more than a paycheck (though that's nice, too).

You'll be part of a dynamic team of project management, engineering and construction professionals dedicated to creating healthy, sustainable communities in the 21st century.

King County's Wastewater Treatment Division (WTD) protects public health and enhances the environment by collecting and treating wastewater while recycling valuable resources for the Puget Sound region.

Our mission includes investing about **\$200 million** every year on major capital projects, with **\$2.8 billion** of planned capital expenditures in vital clean-water infrastructure through 2030.

**\$200M per year**

**\$2.8B through 2030**

If you're looking for an exciting career doing work that makes our world a better place, **we're looking for you.**

# WHY WORK FOR US?

**Make a Difference**

Do something positive for the environment every single day. Manage projects to control pollution and protect local waterways, create and harness renewable energy resources, and support broader regional efforts around climate change.

**Dive in**

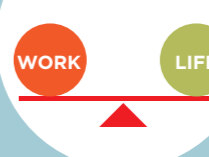

At WTD, you'll start day one with real projects that offer a tremendous level of responsibility and professional satisfaction. We provide the tools, professional development and training to help you grow and succeed.

**Climb High (& Fast)**

WTD offers remarkable opportunities for career advancement. Ascend the ranks, gain experience, and take your career in a number of exciting directions.

**Have a Life**

Work is important - but so is time for family, friends and fun. WTD provides core work hours, great benefits, and a stable schedule to make sure you get the most out of living and working in one of the nation's most livable cities.

# WHAT WE DO

The King County Wastewater Treatment Division (WTD) serves

**1.6**  
million people

across a 420-square-mile service area:

We treat about  
**68**  
billion gallons of wastewater each year

while emphasizing sustainability and resource recovery:

Electricity produced: **19** million kw hrs/year

Reclaimed water produced: **700** million gallons/year

Biosolids produced: **240** million wet pounds/year

The agency employs nearly 700 people, including 200 employees in our **Project Planning and Delivery Section**, who are responsible for planning, designing, and building our facilities.

# MEET THE UNITS

The Project Planning and Delivery Section is divided into five separate units. Employees in these sections typically manage about 200 active projects at any given time to upgrade, expand and improve our system and facilities.

**The Planning and Modeling Unit** provides systemwide planning, flow monitoring, system modeling and conveyance inspection services for the division.

**The Engineering & Technical Resources Unit** provides design and engineering services for capital projects and technical support to operations.

**The Project Management Unit** leads the design teams that upgrade and build new facilities, interfacing with our operations group that manages wastewater flow and treatment.

**The Construction Management Unit** leads the construction phase of projects, closely coordinating with contractors, operations and maintenance staff, design engineers, project control, permitting, right-of-way, and community relations staff.

**The Project Control & Contract Management Unit** provides a variety of scope, schedule, estimating, and cost monitoring and control activities supporting the capital delivery of wastewater projects.

**COME MAKE CLEAN WATER WITH US!**

# WHO WE HIRE

- Architects
  - Business Administrators
  - Business Analysts
  - Business Finance Officers
  - Construction Inspectors
  - Construction Managers
  - Contract Administrators
  - Designers
  - Engineers
  - Estimators
  - Modelers
  - Planners
  - Project Control Engineers
  - Project Managers
  - Schedulers
- We also have an incredible paid internship program.
