

King County/City of Bellevue

Bellevue Influent Trunk Improvement Project

March 2011

Bellevue sewer upgrade project along SE Third Street and 102nd Avenue SE

King County and the City of Bellevue are committed to being good neighbors. During construction, our community relations staff will be working with the contractor to minimize impacts to the community as much as possible. Residents can expect:

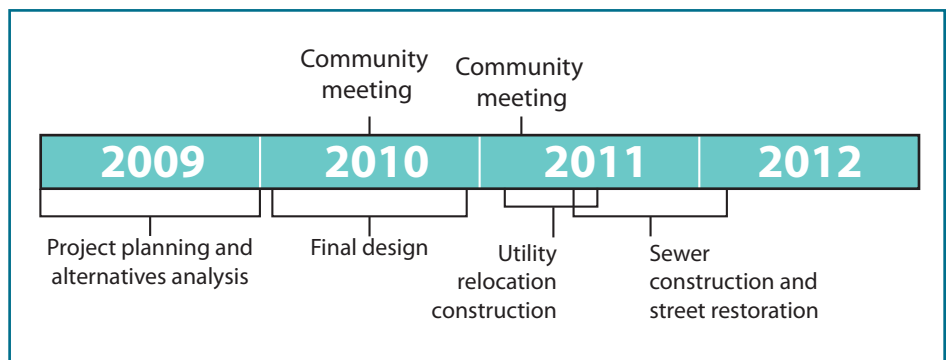

- Advance notice of construction activities – mail, e-mail, phone, door hangers
- Pre-construction community meeting
- One-on-one problem solving with residents directly impacted by construction activities
- Project website and construction updates
- 24-hour project construction hotline

In 2011, the King County Wastewater Treatment Division and the City of Bellevue will upgrade 45-year old sewer trunk lines along SE Third Street and 102nd Avenue SE in Bellevue. Sewer upgrade construction is anticipated to begin spring of 2011 and last 10-12 months.

King County protects public health and the environment by conveying and treating the region's wastewater through a complex and integrated system of sewer pipes, pump stations, and treatment plants. Much of the region's sewer system is more than 40 years old and needs to be upgraded to accommodate growth and to continue to provide safe, reliable sewer service.

The King County Bellevue Influent Trunk and the City of Bellevue West Central Business District (CBD) Trunk lines will be upgraded to provide the required capacity to accommodate recent and projected growth in Bellevue. The Bellevue Influent Trunk carries approximately ten million gallons per day of wastewater from the downtown Bellevue area to the Bellevue Pump Station on SE Sixth Street, and eventually to the South Treatment Plant in Renton. The existing sewer line is corroded and has reached maximum capacity.

Anticipated Project Schedule

For More Information

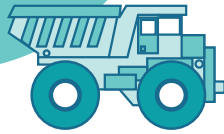

- Attend the April 14th community meeting, 6 p.m. – 8 p.m. at Bellevue City Hall, Room 1E-108
- Contact Maryann Petrocelli, King County Community Relations at 206-263-7321 or maryann.petrocelli@kingcounty.gov
- Contact Mark Dewey, City of Bellevue, (425) 452-6179 or mdewey@bellevuewa.gov
