

July 2008

## Westbound traffic on Northeast Juanita Drive detoured in front of Juanita Bay Pump Station work site during week of July 7, 2008

Puget Sound Energy crews will connect the new Juanita Bay Pump Station to the power grid during the week of July 7, 2008. Westbound traffic on Northeast Juanita Drive will be routed into the center turn lane in front of the pump station from 9 a.m. - 3 p.m. weekdays while this work occurs.

Puget Sound Energy does not expect the work to affect electric service outside the work site.

**Power outages should be reported to Puget Sound Energy at 1-888-225-5773 (select menu option #1)**

King County is building the new wastewater pump station to help ensure your community receives safe, reliable wastewater service for the next 50 years.

### What should you expect?

- Increased noise and activity along the Juanita Bay Pump Station work site southern border during the week of July 7, 2008.
- Westbound traffic on Northeast Juanita Drive rerouted into center turn lane weekdays from 9 a.m. - 3 p.m. while work occurs
- Crew members working near the pump station property line to install electrical equipment.
- Project work hours will generally remain 7 a.m. – 5 p.m. on weekdays, and 9 a.m. – 6 p.m. on Saturdays as necessary.

Thank you for your continued patience. Please call the hotline with questions or concerns.
