## Meet the North Beach CSO Control Project Design Team on August 6, 2011

11:00 a.m.- 2:00 p.m.

King County North Beach Pump Station  
9921 Triton Drive NW, Seattle

Drop in anytime to meet the team and take a pump station tour!

The North Beach CSO Control Project team will be on site at King County's North Beach Pump Station to meet our project community and talk about the CSO Control Project.

Take a trip underground to see the wastewater pump station that serves the North Beach area and learn about how we get your sewage to a treatment plant. Find out how you can be a steward of the sewer right at home, helping us protect Puget Sound! **Close-toed shoes are required on facility tours.**

Check the project Web page for more information about the North Beach CSO Control Project: [www.kingcounty.gov/environment/wtd/Construction/Seattle/NBeachCSOStorage.aspx](http://www.kingcounty.gov/environment/wtd/Construction/Seattle/NBeachCSOStorage.aspx)

For special accommodations, contact Monica Van der Vieren at 206-263-7301 or [monica.vandervieren@kingcounty.gov](mailto:monica.vandervieren@kingcounty.gov).
