

Community Meeting

Landscape and Architecture Design
October 20, 2012, **12:00pm-2:00pm**
Discovery Park Environmental Learning Center
3801 Discovery Park Boulevard
Seattle, WA 98199

Meeting Purpose

King County's project team will provide the Magnolia community a project update and information about the design concept for the new Combined Sewer Overflow (CSO) control facility at the Port of Seattle's West Yard. This session is intended as a follow-up to the June 12, 2012 community meeting where a landscape and architecture concept was presented. At the June 13 meeting, attendees provided suggestions on design and also requested additional public involvement opportunities. The project team committed to continuing dialogue with interested community members and scheduling another design session in Fall.
