Tiếng Việt

King County is continuing construction on the Stuck River Trunk pipeline in Auburn. The new sewer pipe will provide sufficient capacity to meet Auburn's needs through 2050 and reduce the chance of sewer backups into homes and streets.

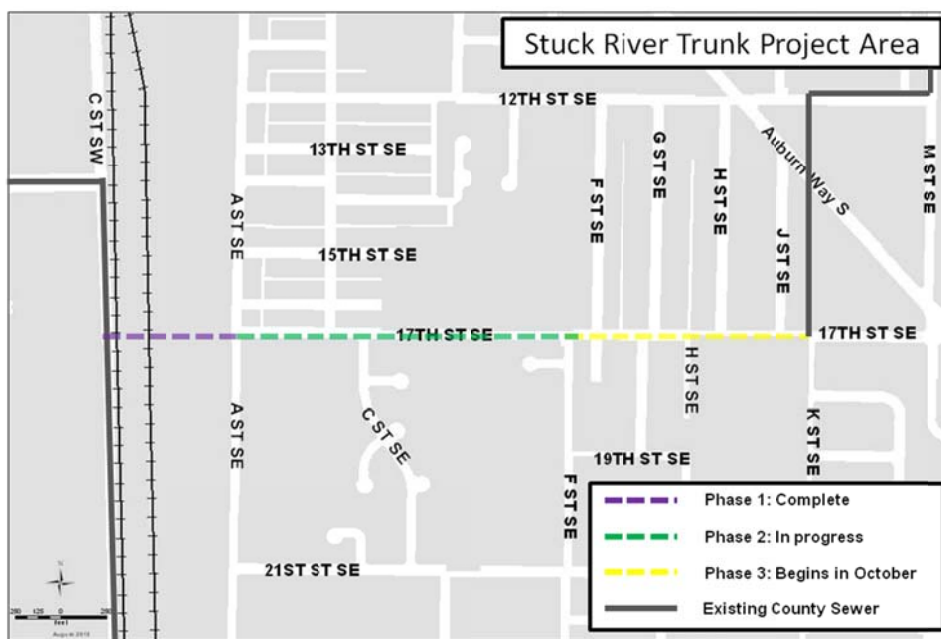

CONTINUING WORK

Sewer pipe installation on 17th Street Southeast continues. Construction began west of the railroad tracks and is progressing east to K Street Southeast (see map).

Crews are currently working on Phase 2 of the sewer pipe installation from A Street Southeast to F Street Southeast. Phase 2 is expected to be completed by mid- October.

Phase 3, from F Street Southeast to K Street Southeast, will begin in mid to late-October.

During construction hours, expect street parking limitations and lane restrictions in work areas. When work is occurring in front of driveways, crews will work with residents to maintain access.

Please use caution when traveling through work areas, follow posted traffic signs, cones and flaggers and plan for extra travel time when commuting.

WHAT TO EXPECT DURING CONSTRUCTION:

- Work hours from 7 a.m. to 6 p.m. weekdays
- Single lane closures in work areas during construction
- Parking and pedestrian restrictions
- Cones, signs and flaggers will be used to manage traffic flow and local access
- Extra travel time through work areas
- Noise and other activity typical of a construction site: work crews, dust, trucks, heavy machinery and excavating equipment
