Crews to begin trenchless pipe installation next week on Southeast 264th Street

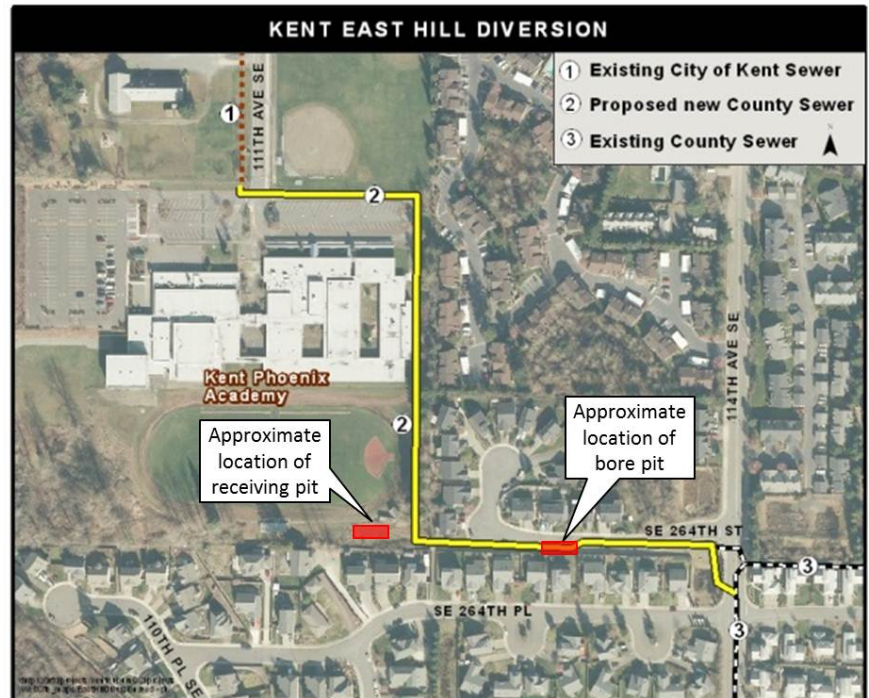

King County contractors are continuing construction on the Kent East Hill Diversion pipeline. The new sewer pipe will provide sufficient capacity to meet Kent's needs through 2050 and reduce the chance of sewer backups into homes and streets.

UPCOMING AND CONTINUING WORK

- **Trenchless pipe installation begins.** Next week, crews will begin installing the new pipe underneath Southeast 264th Street without excavating a trench on the surface of the street. This trenchless pipe installation will begin at the bore pit and head west, ending on school property at the tunnel receiving pit (*see map*).
- **Work continues on school property.** Crews completed excavating the tunnel receiving pit on Kent Phoenix Academy property and are beginning to install the new pipe along the east side of the school.

COMPLETED WORK

- **Launch bore pit complete.** Crews completed the launch bore pit on the west portion of Southeast 264th Street (*see map*).

Expect lane restrictions and limitations to parking in work areas along Southeast 264 Street.
Please use caution in work areas and follow posted traffic signs and flaggers.

WHAT TO EXPECT DURING CONSTRUCTION:

- Work will occur from 7 a.m. to 6 p.m. weekdays
- Single lane closures in work areas during construction
- Parking and pedestrian restrictions
- Cones, signs and flaggers will be used to manage traffic flow and local access
- Extra travel time when driving through the work area
- Noise and other activity typical of a construction site: work crews, dust, trucks, heavy machinery and excavating equipment
