NORTH MERCER ISLAND/ENATAI Sewer Upgrade Project

February 17, 2023

Landscape restoration begins on the I-90 Trail

As pipeline segments are installed, King County crews prepare for landscape restoration and tree replanting. You may see crew members in orange vests in different project areas removing invasive species, making soil improvements, and establishing irrigation. Landscape restoration and tree planting will take place throughout the project during planting windows. This will help start the landscape on a healthy path to recovery.

Once planting is complete, the contractor will maintain the landscapes by watering, weeding, and replacing plants and trees that do not survive. After the contractor's maintenance period ends, landscapes will be maintained by King County per permit conditions set by the Cities of Mercer Island and Bellevue.

Future I-90 Trail with 3 years of plant and tree regrowth.

For more information on our plan to restore the native vegetation, please read our [Plan for Trees factsheet](#).

What to expect during plant restoration

- Work will occur within permitted hours: 7 a.m. to 7 p.m. Monday to Friday and, as needed, 9 a.m. to 6 p.m. on Saturday
 - Schedule is subject to change depending on weather and other factors
- Flaggers on surrounding roads.
