

# NORTH MERCER ISLAND/ENATAI Sewer Upgrade Project

April 6, 2022

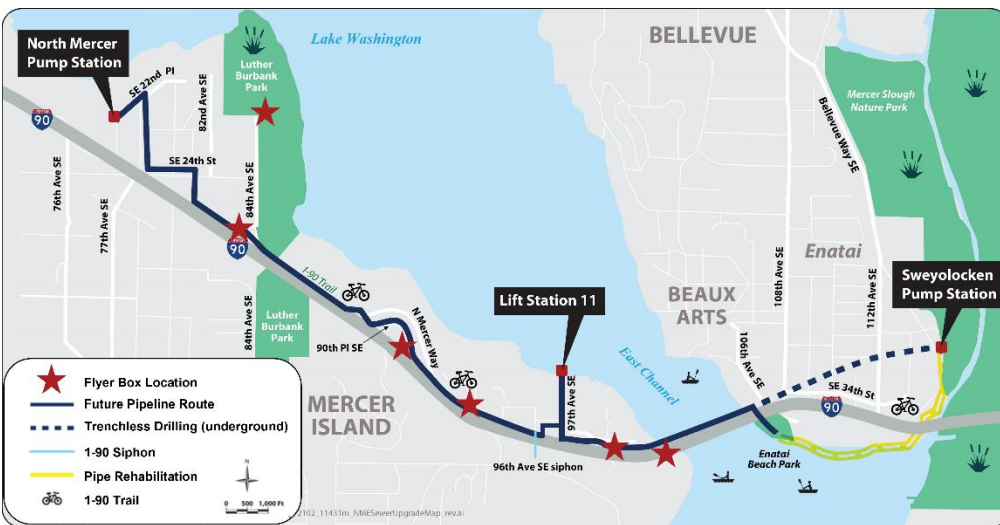

## Visit our pre-construction online StoryMap.

How you experience construction activities will depend on where you live, work, and play. [Scroll through our online StoryMap](#) for highlights of major work areas, construction impacts, and what to expect at each location if you're a resident, commuter, boater, on foot, or on wheels.

### Look for flyer boxes along the I-90 trail and in Mercer Island parks.

Last week, members of North Mercer/Enatai outreach team placed flyer boxes around Mercer Island and along the I-90 trail (see map below). As active construction begins, we will be regularly placing project updates, newsletters, and other notices in these boxes to help get the word out about construction activities.

Stop by one of the flier boxes today to pick up a copy of our [March newsletter](#).

Project area map with flyer box locations..

Project sign and flyer box at Mercer Island Boat Launch.

### Sign up for location-specific email lists.

We will continue to send regular project updates to the broad email lists we have used for years but will target construction notifications by location. Sign up for the lists you care about most by [clicking this link to our construction homepage](#) or by scanning the QR Code to the right.

Changes to email and text preferences must be done using an internet browser. Changes submitted via text to KING MERCERSEWER at 468-311 will not be applied.

### For more information:
