

# NORTH MERCER ISLAND/ENATAI Sewer Upgrade Project

August 17, 2022

## See you at the Mercer Island Farmers Market!

Hi neighbors! Our project team hosts a booth at the Mercer Island Farmers Market once a month and we'll be there again this Sunday, August 21. Please stop by to say hi, ask us questions about the project, and pick up some informational materials.

### How you experience construction activities will depend on where you live, work and play.

*Look for this booth at the Mercer Island Farmers Market*

Residents on streets along the sewer pipe alignment will experience project construction differently than commuters and park users. To stay up to date on the topics that matter to you, please sign up for targeted email or text lists. We will continue to send regular project updates to the broad listservs we've used for years, but we'll also send area-specific construction notifications. Sign up for the lists you care about most by visiting [our construction homepage](#).

### Topics for the North Mercer Island Enatai project include:

- North Mercer Pump Station
- North-central Mercer residential streets
- North Mercer Way/Mercer Park and Ride
- I-90 trail
- 90th PL SE
- Northeast Mercer residential streets
- Enatai Beach Park
- Mercer Slough

Changes to email and text preferences must be done using an internet browser. Changes submitted via text to KING MERCERSEWER at 468-311 will not be applied.

### For more information:
