

Project Schedule

Project Task	2014	2015	2016	2017
Submit Facility Plan to Ecology	█			
Complete design	██████████	██████		
Hire contractor			██████	
Construction			██████	██████████
Community involvement opportunities	██████████		██████	██████████

How is the community involved?

During facility design the community informs County decisions on facility architecture, landscaping and security. The community and County also work to identify reasonable solutions to potential community impacts from construction.

During construction, the community informs County decisions on addressing community disruptions, safety precautions and any private property impacts attributable to the project
