Sunset and Heathfield Pump Stations and Force Main Upgrade

November 23, 2020

Construction Update: *Restoration and pump station work continue*

King County's contractor plans to install the curb, gutter, and driveway at the Heathfield Pump Station, starting as soon as November 24. This work is weather dependent. Street parking near the pump station may be more congested.

Crews also continue to work inside both pump stations, on the landscape restoration, and the ornamental fence at the Sunset Pump Station. Crews do not plan to work November 26-27.

Thank you for your patience as work continues.
