

# King County's Clean Water Conversation

## Phase 1: Determining our future direction

### Gather information

How do you want to be involved?  
What is your relationship with the region's rivers, lakes, and Puget Sound?

Spring 2019

### Imagine different futures

Do these different futures reflect our most important water quality considerations?

Late 2019

### Draft a direction for our future

Fall 2020

### Identify priorities

What are your top priorities for clean water? What is most important to consider?

Summer 2019

### Explore tradeoffs

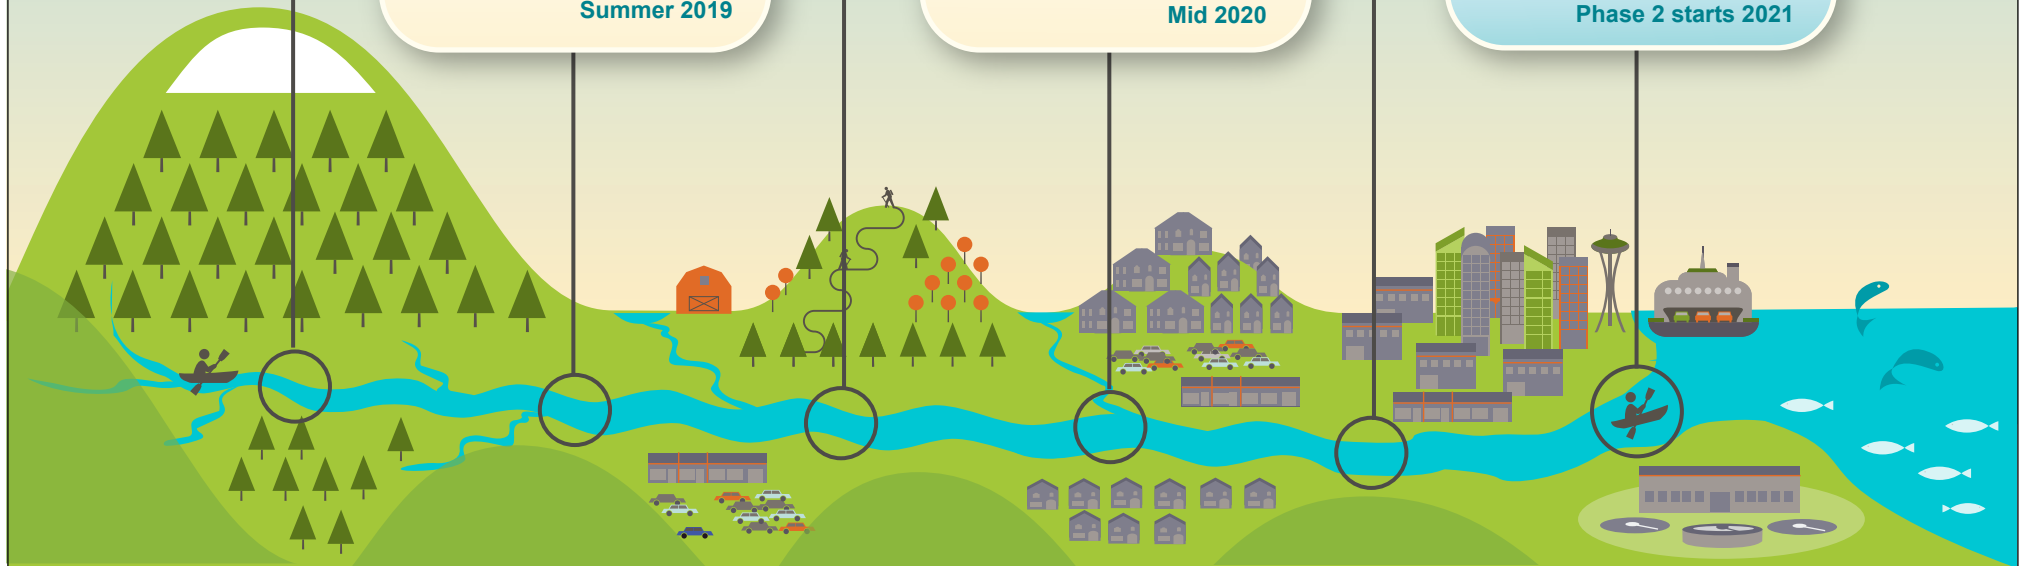

What are the tradeoffs among the different futures? What do they mean for our priorities?

Mid 2020

### Make a plan to get there

Once we decide where we are going and why, what are the best actions we can take to get there?

Phase 2 starts 2021
