1 Solicitation Invite Notification

- Registration is required to access and respond to King County solicitations. If you have not registered, refer to the Supplier Registration User Guide to get started.

- An Accept Invitation/Decline Invitation email will be sent to the solicitation contact, determined by NAICS code in the solicitation. The email is inviting the supplier to acknowledge participation to the solicitation. Acknowledging participation to solicitations is a best practice. If the supplier declines acknowledgement to the solicitation, the supplier will still be able to submit a response to a solicitation and will receive notifications for the solicitation.

Note: all supplier contacts will receive the solicitation’s notifications. Ensure any supplier contacts who will be receiving the solicitation invites and has the Supplier Bidder role has a user account (Request user account checkbox when editing a supplier contact - not only an Admin Contact). For more information on adding supplier contact roles, view the Supplier Profile Maintenance User Guide.

Note: the supplier will not be able to access all information from the email invitation i.e., attachments; all information can be viewed once accessing the solicitation in the system.

Note: the NAICS Codes on the supplier profile will determine which suppliers are invited to each solicitation. For more information on NAICS codes, view the Identifying NAICS Codes User Guide. For more information on adding or editing NAICS codes on a supplier profile, view the Supplier Profile Maintenance User Guide.
